

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

Senator Correa presented a petition from John Waipa and twenty-four others, guards and matrons employed at the Insane Asylum, (Sen. Pet. No. 1) praying that appropriations for salaries and maintenance of the Asylum sufficiently large to permit an increase in their salaries, be made as follows:

Honolulu, T. H., February 21, 1917.

The Honorable President and Members of the Senate, and
The Honorable Speaker and Members of the House of
Representatives of the Legislature of Hawaii.

Gentlemen:—The undersigned, guards and matrons employed at the Insane Asylum, hereby most respectfully petition your honorable assembly to make appropriations for salaries and maintenance of the Asylum sufficiently large to enable an increase of our salaries.

There are 20 guards and 10 matrons in the service. Many of us have been in the service for many years, and the salary has always been the same, although the responsibilities have increased. The salary now being paid us was ample when there were not as much to do as now. There are now 350 patients. Oftentimes, we are obliged to grapple with violent insane patients to prevent injuries to others.

We are prompted in this by the need of securing sufficient means for our personal comforts of home. The cost of living has risen so high, that, with our present earnings, and the added expense of furnishing our own equipments, many of us, having dependents to support, we are obliged to often seek monetary assistance to meet our wants, to secure which, some of us have had to pledge our little kuleanas.

Praying that you will give us relief,

We submit our petition with respect and aloha.

Thereupon, the Governor having appeared, delivered his message (Gov. Mess. No. 1), as follows:

GOVERNOR'S MESSAGE.

Territory of Hawaii,
Executive Chamber,
Honolulu, February 21, 1917.

The Honorable President of the Senate,
The Honorable Speaker of the House, and
Members of the Legislature of the
Territory of Hawaii.

Gentlemen:—You are assembled in the Ninth Regular Session of the legislative branch of the organized government of the Territory.

The disturbed conditions of the world affect the civil unofficial population very favorably as to their incomes, and will so continue until the reaction to normal conditions takes place, a date no one can exactly foresee.

The government, its officers and employees, instead of profiting, are decidedly militated against. Governmental operations are restricted with no legal relief in sight save through your legislation and appropriations.

Generalities will be omitted in this message. We will follow the titles of each appropriation in the order as made for the period 1915-1917, explaining omissions and adding that which is necessary and pertinent that a clear survey of the situation, financial and otherwise, may be presented to you and the public.

Although Education is involved in County and City and County finances and the periods disagree, we will present the subject on a full period (two year) basis so you may know the aggregate cost of education and educational plant in this Territory.

Salaries.

The Executive has given no suggestion as to increase of salaries. He recognizes the justice and necessity of reasonable increases, but he also realizes employees must return an equivalent in services rendered.

Some heads of departments have noted the increases they consider their due and the due of their assistants. Others leave their own interests to the initiative of the Legislature.

Physical Requirements of the Territory.

These will be approached from the viewpoint that the present is a time of excessive prosperity and that those who pay the taxes should be willing to provide the money required to inaugurate and complete the improvements that press the community, that a beginning may be made toward reclaiming, toward embellishing, such lands and objects as will further the ambition of the communities to be noted not only for nature's handiwork, but for the conveniences, comforts and enterprises established and to be established by the government and by individual enterprise.

THE GOVERNOR.

Military Department.

This Department has become of such magnitude and so interwoven with the Federal War Department that it requires deep consideration on the part of the Legislature for our physical situation and means cannot be compared with any other place within the confines of the United States of America or its possessions.

It is not improbable that, particularly as relates to the Island of Oahu, the establishments of the Army and Navy will overshadow private expenditures, and the annual outgo surpass in amount the gross value alongside ship of the entire sugar and pineapple crops of the Territory.

In this event the question of diversity and less restricted channels of labor, business and distribution of money will be settled for Oahu. In its train will inevitably come residents, seasonal residents and visitors who will spread all over the archipelago.

We shall do well if we bear this in mind and meet the situation in a broad, wise and liberal spirit, free from bombast, self-sufficiency, and haste that deigns not to consult the authorities that have made it possible for the Territory of Hawaii to be and to continue to be what it is

and that aims at a substantial future not yet impressed upon the public mind. This subject is so broad and involves hundreds of thousands of dollars in money, equipment and supplies it will be treated in a special message to your honorable bodies under the heading "Land, Military and National Guard," and another of vital importance under the heading "Reclamation and Roads."

Expenses—Entertainment.

This Territory, its Capital notably, is situated at the crossroads of the Pacific, the crossroads of British antipodes, and through its ports pass an ever-increasing stream of distinguished men and travelers, relatively nowhere equaled, to whom, with our Army and Navy, certain courtesies are due, both for our civic reputation at home and abroad.

As Expended in Past Period.

The records are always open to public scrutiny.

The largest item was for a reception on New Year's Day in the former Throne Room and Armory, that marked an event in which Her Majesty Liliuokalani graciously joined in receiving the people, a courtesy rarely, if ever, accorded under any flag and similar historical circumstances.

The balance of the entertainment fund November 15th was \$3.70, and all public entertainment since, as well as at the beginning of the Administration, has fallen on the Governor's private means.

The above information is your due. It would be bad form to advise you as to this fund, for you can well decide this public obligation.

Contingent Fund.

But for the Contingent Fund, as appropriated, the requests of the War Department of the United States could not have been met to the extent they have been.

No matter what altruists and pacifists claim, the world is in a most uncertain state, hence, in your absence from legislative halls, the government should not be left without means to combat vital, unforeseen events and situations. A contingent fund with proper latitude for its expenditure should be provided to an amount not less than \$150,000.00.

In order to carry on the National Guard until you can enact financial provisions for the period of 1917-1919, it will be necessary to appropriate a suitable sum at once to be added to the preresent remaining Contingent Fund.

PUBLIC LANDS.

Agreeable to the opinion of the Bureau of Agriculture and Forestry, you will be requested to transfer the Division of Hydrography to the Land Department as more affiliated in the public interest.

The Commissioner has asked for no increase of salary, although entitled to such consideration.

The indexing and translating of Land Commission Awards is important and requires an extra clerk for indexing.

Those familiar and expert in lands by personal knowledge are very few, hence it is felt Mr. Kananui, the ablest of all living, should be transferred and given the position indicated as Surveyor, while able to render irreplaceable service.

BOARD OF AGRICULTURE AND FORESTRY.

The Board has recommended the transfer of the Division of Hydrography to the Department of Public Lands as more coöperative in public interest.

I recommend the Board retain control of all points of attraction and interest now within its jurisdiction and be enabled to embellish certain choice natural spots.

The estimates are relatively \$188,000.00 as compared with \$178,360.00 for 1915-1917, provided the \$9,000.00 now on hand can be contracted for the New Plant Inspection Building by June 1st. A site has been very recently set aside for this building.

Reforesting the Round Top Forest Reserve.

The Board has avoided initiative in this matter. I urge an item of \$10,000.00 for the Round Top Forest Reserve be granted that it may be speedily reforested. The views obtainable from these nearby heights are exceedingly attractive to our own citizens and visitors. While not to be

considered a park, the reforestation can be so planned as to display in a natural manner trees and foliage of great beauty and interest, particularly to visitors. We cannot expect to secure and maintain tourist patronage without natural attractions.

TERRITORIAL MARKETING DIVISION.

I recommend this Division be made an independent department and that it be entirely removed from any control whatsoever of the Bureau of Agriculture and Forestry or the United States Agricultural Experiment Station.

This is a strictly business proposition and should be run as such. It requires reasonable capital. Its main mistakes have been in trying to enter a field beyond the Pacific Coast already occupied.

If this Market can attend to local business and supply coast orders, it can succeed.

Unbusinesslike credits and consignments will break it.

Having started this business, the Government must continue it and provide facilities and plant necessary.

I recommend a deputy auditor, reporting to the Territorial Auditor, be appointed to examine not less than twice a month the accounts and business methods being employed. This will not require more than two to four days each month.

The estimates submitted by Mr. A. Longley, Superintendent, are	\$ 39,600.00

Cold Storage System.....	7,500.00
Garage and paving yard.....	600.00

TERRITORIAL FARM LOAN BANK, ETC.

There will be efforts to induce you to commit the Territory to an experimental institution of this character and other allied schemes, none based on parallel experience with our conditions.

The districts that furnish the most favorable conditions, where the fundamental experiment can be carried out, are Haiku, Makawao, and Kula, Maui, all within convenient reach.

Agronomists are now under pay who can supervise agricultural operations in the above localities, and give packing, shipping and marketing advice.

These instructors can follow the practice in force in the States, particularly Iowa, where farmers are called together for instruction. The government cannot go into business or take business chances. If it is to do so in one direction it can be demanded in all. Where unquestioned safety exists it may assist in various legitimate ways. It is helping now. If not adequately, it is not the fault of the government but those entrusted with execution.

BOARD OF IMMIGRATION, LABOR AND STATISTICS.

The demands of this Board should be decreasing. The estimates are reduced \$14,400, and are itemized as follows:

Estimate	\$ 58,200.00
Salaries	\$ 10,800.00
Expenses	2,400.00
Hospital expenses and aid to the indigent and unemployed	5,000.00
Detention and repatriation of immigrants	40,000.00

BOARD OF HEALTH.

The estimates of the Board of Health show a great increase, calling for \$1,396,600 as against \$898,900 for 1915-1917. I will review but two items: **First**, the Leper Settlement's Water Supply, which has been neglected for many years. There are superabundant waters in adjacent Waikolu Valley. A suitably planned and constructed system would enable the entire settlement to be irrigated and made sufficiently productive to meet the interest, if built by a bond issue. **Second**, the Problem of Tuberculosis, for which \$175,000 is requested in place of \$120,000, period 1915-1917.

The suppression of this disease requires most effective, disciplined and concentrated organization under governmental control, and strictest accountability, for no disease offers a greater opportunity for a waste of time and money.

EDUCATION.

Our public school system is based on an organization controlled by a Board of six Commissioners of Public Instruction and the Superintendent as ex-officio chairman of the Board.

These are assisted by a Board of Examiners, selected by the Commissioners, who pass upon the credentials and qualifications of all applicants for positions as teachers.

Their findings are reported to the Superintendent and Commissioners for approval or rejection.

The Commissioners are very highly qualified and worthy of the utmost public confidence.

The examiners consist of the ablest and most experienced officers of the Department, who have been long and thoroughly tested in their profession.

Their judgment has been accepted in all instances of professional rating.

To permit disaffected and inexperienced persons or organizations to intervene and set aside the conclusions of the most conscientious and ablest experts obtainable would not only be unwise but wreck the discipline and authority so imperatively necessary in a great organization.

The Governor has and will sustain the Commission and its examiners in their acts and findings.

Federal School Survey.

An agitation is in progress for a Federal Survey of the Schools of the Territory, fostered by an organization composed of fifty-four women having children, thirty having no children, seventy-seven single women and three not in Honolulu. Not one of the above children attend public schools. Comment is unnecessary.

I have read fully the latest report of Philander P. Claxton, United States Commissioner of Education, covering school surveys, Normal Schools and schools for the Deaf and Blind.

The Carnegie Foundation for the Advancement of Teaching summarizes these surveys in the following exact words: "The value of the recent educational surveys lies not so much in their actual contributions as in the suggestions to which they give rise."

In the thirty-two surveys reported, there is an almost entire lack of specific recommendations and scarcely one applicable to our physical and pedagogical requirements for our first eight grades that we have not in force or are trying to put into force as the means you appropriate and human capacity will permit.

Under the heading, "Manual, Domestic and Vocational Training," Professor Claxton mentions ninety-three different arts and occupations to be taught to pupils who have not yet decided their course in life.

I am convinced it is the sole duty of the common public schools, in vocational work, to teach exclusively and well that which enters into the domestic life of the people generally.

If a pupil, or his parents for him, has selected a course intended for his future support, he should have all the specific educational assistance within rational public ability to provide.

Educators fail if they waste a pupil's precious time on theories and universalities that must be or no avail when he assumes individual responsibility for himself and others.

In the Supervising Principals of this Territory, there is a constant efficient survey, which your Commissioners of Education propose to strengthen by employing a Survey Director. No stranger, nor any person not long resident, can survey our eight grades, composed almost exclusively of races of whom he can have had little or no conception or experience. Such assistance has all the elements of futility, if not disaster.

Above the eighth grade, the difficulties of speech and comprehension having been overcome, a Federal Survey might be considered practicable and desirable in the higher private institutions, the McKinley High School, Normal School and College of Hawaii, and would, if the legislature should provide the funds pro rata with the private institutions, receive my earnest support.

In the thirty-two surveys given in detail, not one refers to the fundamental difficulty affecting not our schools only but our social and possibly political fabric.

Of those entering our public schools, seventy per cent do not understand the English language, either as a medium of speech, thinking, reasoning, study or communication. It requires two to three years, usually the latter, to bring about an adequate understanding of that language.

One nationality has an elaborately organized school system, comprising 129 schools, strikingly governmental in extent, operating parallel to the Territorial public schools and drawing its 13,423 pupils from the 13,382 public school pupils of that nationality and also from private institutions. These schools are privately supported, and operate forty-eight weeks in the year, as against thirty-eight weeks in our public schools.

Normal School and Graduates.

This school needs no discussion, but a mere statement of fact, excluding theories or sentiments.

The Normal School is destined, whether it is now able to completely fulfil its mission or not, to supply teachers for the approximately thirty-one thousand public school children in the first eight grades. Whatever its deficiencies, it is of numbers, not quality or capacity.

We are encouraging our young women and men to here seek an education that will enable them to apply their knowledge of the children of the many races in our schools for the benefit of these Islands. No strangers can equal these young men and women. On their own behalf, we desire they may secure the positions due them in this their own country and emoluments and salaries that will maintain them in refinement and respectability.

Today teachers having Hawaiian blood are not excelled for these first eight grades, and other daughters of this country are fortunate in the training they have and may here secure.

Refined avocations are far too few here for our own home young men and women to permit undue obstacles and opposition from anyone, much less by those who have no occasion for their services. Their social safety depends on proper employment.

The Policy of the Administration.

Has been to firmly ground pupils of the first eight grades in sound common school education and useful vocational practice, so that if it is necessary at the expiration of the eighth period for them to earn a livelihood, they will be qualified to take advantage thereafter of the common knowledge so freely accessible to all; and to open the way for further advanced studies if their circumstances and disposition permit, and to provide necessary and reasonable facilities.

Educational Disagreements.

There has been recently the world over among leading professionals considerable discussion, investigation and disagreement as to where our idealists are leading this country and others.

It would be presumptuous for me to discuss this phase of the subject, but I venture to quote from the New Testament (old version) 26th Chapter of Acts, 24th verse: "**Festus said with a loud voice, Paul, thou art beside thyself; much learning doth make thee mad.**"

Shelter Home vs. Detention Homes.

Detention Home for Boys.

Act 90, Section 1, Item 11, Session Laws 1913, reads: "**Shelter Home \$1,500.**" There was no definition by law as to the intent of this item. To define it as providing separate organized homes for boys and girls was useless, as the amount was insufficient and there was no appropriation for maintenance, the only item applicable by inference being Chapter 124, Section 2197, Revised Laws of Hawaii, 1915, providing a Matron (\$75.00) \$1,800. This sum has been devoted to a Matron for the Detention Home for Boys opened October 21st, 1916.

Detention Home for Girls.

As the detention of girls ranges from four hours to a maximum of one week, with an average of less than three days, and frequently none are in the home for longer or shorter periods, the committee of ladies considered that if these girls could be placed under charge of the Salvation Army Home in Manoa Valley it would save expensive overhead charges. The maximum provision required is for six girls. A suitable cottage has been designed to cost \$1,700.00 maximum and the equipment \$300.00.

I recommend you appropriate the above amounts **authorizing the building to be located on leased land**, the Salvation Army Home being lessee, and the term about nineteen years.

Industrial Schools.

These schools are important in two respects, reformatory and educational, particularly of a vocational character. It is impossible to discuss them adequately in a short message. Their financial deficits should not be a subject of criticism, as their needs and increased numbers were

not sufficiently provided for. The Board of Industrial Schools is much interested in the work. Their estimates are not to be analyzed save by the appropriating power, the legislature.

The College of Hawaii.

This College aims to be the highest institution of learning in the Territory. It is handicapped by the inclination of its students, where their means admit, to as soon as possible sever their connection therewith and pursue and finish their education, whether general or specific, in the great Colleges or Universities of the mainland. You have quite a problem to define the obligations of the Territory under such conditions.

This College aimed primarily to become a worthy Agricultural College. In this respect it has no easy task owing to the striking variations in short distances that affects agricultural conditions. I feel the spirit of this institution should be more intensely agricultural and less academic.

Acquiring Adjacent Lands for School Extension.

The Normal, Royal and Central Grammar Schools have buildings and plants that are expensive and extensive, yet are overcrowded and in the future will require expansion. I am convinced even should it be necessary to borrow money the adjacent lands should be acquired at once.

A School for Deaf, Dumb, Blind.

The statistics have been slow in coming, so it is impossible to estimate the needs in detail. In fact, I have reason to believe the figures given to be inaccurate, but there is no time at this writing for correction.

There is no question but the provision in the Territory should correspond to that of States on the mainland by providing a single institution to care for these unfortunates.

It is the height of folly to consider caring for these in the public schools of the different islands, for the special teachers and equipment cannot be scattered. The objects should be to so educate and train that these children can become skilful in any vocation they undertake so as to be not only self-supporting, but able to take a cheerful and happy interest in life. The three afflictions can be cared for in one institution. The numbers are: 22 of Hawaiian blood, 4 Caucasians, 27 Latins, 40 Orientals and others 6, or 62 males and 37 females, a total of 99.

This would make quite an institution, which should provide also for some adults who need to learn a trade to enable them to make a living.

I have noted tentatively \$30,000 for inaugurating the beginning of a plant for such an institution. Maintenance and instruction must be provided in addition.

Provision for Care of Idiots and Epileptics.

The list furnished includes: 13 Hawaiian blood, 3 Portuguese, 11 Japanese, 1 Porto Rican, or 19 males and 9 females idiots, and 1 Hawaiian and 3 Portuguese, all females, epileptics.

There are now under restraint at the Insane Asylum 5 idiots and 12 epileptics. Outside of these, approximately one-half of the inmates of the asylum, or 150, are imbeciles.

It would seem there should be a review of the above restrained and unrestrained defectives and a proper classification be made and temporary provision be provided.

The Other Defectives.

Great Mental Backwardness comprises 8 males and 9 females of six nationalities.

The Feeble-Minded comprises 17 males and 11 females of seven nationalities.

The Lame and Crippled, etc., comprise 12 males and 14 females of six nationalities.

Other Defectives: 19 males and 9 females.

The time for analyzing the situation is too short to make recommendations other than that means be provided for assisting those at present caring for these 99 defectives where such assistance is absolutely imperative.

The Mental Backward and Feeble Minded.

These total 25 males and 20 females, including seven nationalities located on all the islands.

There are many points to be taken into consideration before undertaking to establish an institution for these children. The whole subject should be carefully looked into before committing the Territory to great expenditures for a plant.

Our public school officials and teachers have not been oblivious to the conditions and needs of these defectives. Special rooms and attention are now given to the extent possible.

Public Libraries.

The duty of the public toward public libraries cannot be discussed by reference to mainland statistics, for our population is so diverse in numbers, races, locality and conditions a true basis is difficult to ascertain, hence I present without recommendation the estimates of the Library of Hawaii and Hilo Public Library, as submitted to me.

As public libraries are accessories to Education, I list them as a semi-educational expense under the heading "Education."

The increase of pupils in the fiscal year was 1,378, and in the past six months to December 31st, 2,073, or a total in eighteen months of 3,441, making on that date 32,278 public school pupils. As incidental to public education we must add Industrial Schools, the College of Hawaii, provision for the Deaf, Blind and Physically Deficient, Lands for extension, and assistance to Private Institutions.

MORAL PROBLEMS.

The Liquor Problem.

No laws are primarily more offensive than sumptuary laws or interference with rational social conventionalities established by long and inoffensive usage. This phase of the problem may be said to have begun at the changing of water into wine at the wedding feast at Cana of Galilee some nineteen hundred years ago.

The liberality, as to liquor traffic, of legislation by political entities has been abused by the inordinate conscienceless greed of the large majority of the retailers of hard liquors, wines and malt liquors. Legislative bodies and commissions have tried to hold the traffic to that moderation incidental to the sober sociability and fellowship it is presumed human beings seek, but there is a marked and painful degree of failure.

It was hoped the large number of unattached single men here (and thousands yet to come) might be provided an opportunity for rational social entertainment, with, if desired, light malt beverages, and thus satisfy, in a degree, their good fellowship longings.

Alone, night after night, I visited and mingled with the soldiers at the Volcano Saloon, adjacent to Schofield Barracks, I found there the inordinate greed of its proprietors had reduced the place to one of encouragement of excessive indulgence, debasement, and the extraction of the earnings of young soldiers. I requested an investigation by the military authorities which resulted in the closing of that saloon.

Our situation as to the "over the bar" liquor traffic and its effect on its patrons is not improving. The whole atmosphere and influence is demoralizing. I need not go into details. The whole world is realizing the effects of over-indulgence and corrective measures have been and are being taken. Special privileges and exceptions should not be granted.

If I have anything to recommend, it is absolute restriction as to the public sale of liquors and methods of serving, as well as the prohibition of treating.

Should, in the wisdom of the legislature, laws be passed enforcing prohibition, the Governor will interpose no objections, but with greatest satisfaction approve such laws.

Vice Campaign.

I have been requested to remark on this subject.

The basis of the difficulty seems to be an adjustment of the sexual relations established from the beginning by the Creator of the Universe.

**Owing to the unexpected increase in numbers and cost of supplies, a deficit of \$27,110.00 occurs in Industrial Schools, for which appropriation is requested. These items included in previously noted amounts under heading "Education."

The Creator, by control of the instincts of all life, except human beings, settled that phase of sex relations. Mankind was evidently left to his own volition. Mankind has divided itself into three classes: **First**, those whom circumstances and means permit to have homes, wives and children, making it possible to comply with the religious and social standards set within the past two or three thousand years; **Second**, those whom circumstances and lack of means prohibit from the happier conditions enjoyed by the first class; **Third**, those whom nature has endowed with a frigid disposition.

The **First Class** seems to think the **Second Class** should become similar to the **Third Class**.

For untold centuries the attempt to reconcile physical impulses and legal and ethical mandates has continued with no immediate prospect of an effective solution. It would be folly for me to attempt to advise you as to legislation on such a distraught problem.

Law may in a degree control, but the main reliance must be moral and physical training. Many scientific and research authorities believe the only solution is by a system of law-enforced eugenics.

The desirable reforms are not always accomplished by virulent language and measures. I have felt it might have been well if those arbiters of public opinion could have previously read the New Testament, eighth chapter of St. John: "And the Scribes and Pharisees brought unto him a woman taken in adultery.—Now Moses in the law commanded us that such should be stoned; but what sayest thou? He said unto them, he that is without sin, let him first cast a stone at her.—When he saw none but the woman, he said, "Woman, where are thine accusers; hath no man condemned thee? No man Lord. And Jesus said, Neither do I condemn thee; go and sin no more."

Society has a right and duty to protect its purity, but unless it can command human nature and clean itself, it cannot revolutionize the world.

Only the spirit of firm kindness, free from hypocrisy, can win.

Venereal Diseases.

One of the soundest thinkers among women in America is the deaf, dumb and blind Helen Keller. She recognizes and states that upward of forty per cent of blindness is caused by venereal diseases.

The Oath of the President of the Territorial Board of Health requires him to combat not only the list specified in Chapter 67, Sections 938 and 940, Revised Laws of Hawaii, 1915, but all infectious and contagious diseases, which necessarily includes venereal diseases.

Neither the law, medical or personal ethics regard the morality of disease de facto, but simply its existence and danger to the subject, and those innocently or otherwise exposed.

At various times the Presidents of the Territorial Board of Health have tried to obtain and have unobtrusively had an appreciable control of these diseases.

In view of coming conditions, I believe you should, without prejudice, bias or hypocrisy, deeply consider the subject.

Those claiming to have made the most thorough research assert the public have no conception of the distribution of syphilitic disease, taint and reversion in subsequent generations; that legal medical control should extend not only to those whose profession makes them liable, but the privately tainted.

MEDICAL PRACTICE.

I am convinced there is much incompetent practice on those in ill-health and that the incompetency extends to an inability to recognize the diseases specified by law in Sections 938 and 940, R. L. H. 1915.

These diseases are liable to spread solely on account of ignorance. The government does not care to intervene between the practitioner and his patient, but between the dangers of ignorance and the public. Some legislation is necessary.

FRANCHISE RESTRICTIONS.

During the fall elections, the question arose as to the powers of the Board of Health to prohibit candidates seeking the support of the segregated citizens of the Leper Settlement by personal address.

The Attorney General of the Territory was of the opinion the Board of Health had the power of segregation, but was not empowered to limit the privileges pertinent to the franchise without legislation covering the point. All parties exercised identical facilities and privileges.

I am of the opinion the Legislature should indicate its will in the premises by appropriate legislation.

REPORT OF THE COMMISSION ON TAXATION.

I submit this report, which will be found valuable in its suggestions. The Somers system is peculiarly suited to city and town property. Unquestionably the Hawaiian system of assessment as "enterprises for profit" as embodied in Section 1241, R. L. H., is the fairest and most rational in existence and is so recognized and should not in its principle be tampered with, although in a few respects it can be improved. In its essentials I commend the report.

We have one strikingly unbusinesslike method that elsewhere does not obtain, to wit: We fix our tax rate before we know the amount of revenue our legitimate requirements demand.

Collection of Taxes.

A Board as recommended by the Commission should clear the Tax Assessor's books of non-collectable and dead taxes.

The present tax lien law is not based on sound business principles and is not workable. The new Act that is to be presented should receive your report.

SANITARY CODE COMMISSION.

I hand you their report which is mainly that you pass "An Act to enact the Sanitary Code of Hawaii of 1917." This Act is concise and comprehensive, and includes the most modern provisions applicable to this Territory.

TERRITORIAL WATER COMMISSION.

I submit their report, which will be found of practical value.

They made no recommendation as to legislation concerning surface waters.

They do claim there is an extreme misapprehension as to the run-off percentage of the gauged rainfall, and state the mean average to be

about twenty per cent (20%), instead of the fifty per cent (50%) claimed.

They sound the alarm as to artesian waters, and the alarm extends exclusively to the Island of Oahu. The \$6,000.00 requested for an investigation of underground waters, etc., on Oahu should be granted.

The investigation of the Hillebrand Glen run-off shows that only twenty-two (22%) per cent of the gauged rainfall can be conserved for storage or use. This proves it is unwise to accept even assertions of accredited engineers where they interpolate guesses.

Recent investigation at a low state of water in Reservoir No. 4, shows a leakage in the pipe-line of about 700,000 gallons per twenty-four hours.

MILK COMMISSION.

Their report and suggested Acts are in the fore of such legislation elsewhere. I have carefully considered both. I trust the Acts may meet your approval and that the supplementary Acts may also receive your sanction.

APPLICATIONS FOR LOAN FUNDS.

To this writing they may be listed as follows:

County of Hawaii:

Resolution No. 868 for.....\$186,000.00

To be expended on the belt road from end of asphalt macadam, Kau, to the Keamoku gate of the South Kohala boundary.

After reading the Engineers' report, I am convinced the road other than grades and eliminations would not last the term of the bonds.

EMERGENCY APPROPRIATIONS.

These items are largely caused by the increased cost of supplies, and increased number of dependents in the Industrial Schools, not anticipated at the Session of 1915. Also from the demands of the War Department

that the National Guard be brought up to a certain standard of numbers and efficiency.

The provision made by Congress for the support of the National Guard of Hawaii and the great total of pay, equipment and supplies I fear is not fully understood both by your honorable bodies and the public.

You will later and more at leisure for consideration be given the details.

RECAPITULATION OF ESTIMATES.

Although the law contemplates I should hand you estimates that come within the Treasurer's estimate of income, it has been impossible, for the Department heads and irresponsible advisers believe they have complied in an effort to meet the crying necessities of public welfare. Concessions are difficult to obtain and without concessions the Budget looks rather hopeless. The proposition can be carried through, however, if maximum efficiency and economy can be obtained and fewer theories demand support.

THE PEOPLE OF THE HAWAIIAN ISLANDS.

The majority of the population of this Territory has no racial connection with Americans or Hawaiians and their status is practically elective.

Men have their alliance, reliable loyalty and declared legal status in political entities and communities where they actually enjoy and are protected in the gift of inalienable rights of "Life, Liberty and the Pursuit of Happiness."

This has been particularly guaranteed by the sentiments heretofore prevailing in the Hawaiian Islands.

These sentiments will continue to prevail so long as they imbue all nationalities residing within this political division of the United States of America, and while equity and justice are shared equally.

You must legislate for the most diverse community within the borders of the United States. You need to study and legislate as statesmen, not as politicians.

In such ways as I may be of service to you and the citizens and people of the Territory of Hawaii, I pledge my best efforts.

LUCIUS E. PINKHAM,
Governor of Hawaii.

The resolution was read throughout. Senator Makekau moved that the same be referred to the Committee on Judiciary, which motion was seconded by Senator Kamauoha, and upon being put to a vote carried, there being nine votes in the affirmative and four in the negative.

Consideration of Department Communication No. 2, being a request from the Secretary of the Territory that he be furnished daily with a copy of the minutes of the Senate and three copies of all Bills, Joint and Concurrent Resolutions ordered printed by the Senate.

The President announced that he had ascertained from the Secretary of the Territory that the request was in accordance with the usual practice of the past. Upon motion made by Senator Cooke and seconded by Senator Correa, it was voted to grant the request of the Secretary of the Territory.

Consideration of Miscellaneous Communication No. 1, being a report of the Mayor of the City and County of Honolulu, as follows:

OFFICE OF THE MAYOR

Honolulu, T. H., February 21, 1917.

To the Legislature of the Territory of Hawaii:

I have the honor to submit the following report for the biennial period ended December 31, 1916, setting forth certain facts relating to the condition of the City and County of Honolulu during said period and suggesting such legislation as will meet the immediate needs of said city and county.

LOCAL CONDITIONS.

It is eight years since the establishment of city and county government and twelve years since the creation of local governments in Hawaii.

During the first few years of city and county government the main tendency seemed to have been to extend its powers and increase its revenues, but now that the novelty has worn off and experience has

taught, attention is being turned more towards perfecting it. The large amount of legislation in the past was enacted with this end in view, and there are evidences that greater interest than usual will be taken in the election of competent men to city and county offices and in the enactment of salutary legislation in regard thereto at this session of the legislature.

FINANCES.

The financial status of the City and County of Honolulu, especially during the last two years, has been a subject of vital importance in consequence of growing needs. At first it has seemed as if little that was urgent had remained undone, and yet, with a small surplus left over by its predecessors, the present Board of Supervisors has been confronted with so many important problems which it has undertaken to solve under less auspicious conditions of proving equal to the situation.

The government cannot, any more than a private enterprise, be successfully financed on a small surplus with which to meet the absolutely necessary increase in expenditures. Such was the condition of affairs, however, which confronted the present administration of city and county government.

Current Revenues and Expenditures. The gap between needs and means ever tends to widen and is seldom bridged satisfactorily for any considerable period, while the task of making ends meet is perennial.

The total income of the city and county for the calendar year 1915 was inadequate to meet the expenditures for that year, and the same condition prevailed last year. Although the revenues from all sources show a steady increase, the necessary expenditures in consequence of growing needs show a greater increase.

The surplus at the end of the year since 1909, with the exception of 1915 and last year, showed a large margin, varying in amount from \$44,000.00 to \$114,500.00. In other words, every Board of Supervisors, with the exception of the last, left to its successors a large surplus. The present Board of Supervisors were left by its predecessors a balance of \$1,448.92 in the General Fund and \$1,417.00 in the Road Tax Fund, or a total of but \$2,865.92 with which to carry on the necessary functions of government and to meet the urgent needs of a growing city.

Necessary expenditures which did not exist prior to 1915 were imposed by the last legislature upon the city and county. For the six months ended December 31, 1915, immediately following the session of the last legislature, these items have amounted to \$12,925.00, and last year they have amounted to \$9,720.00.

Other necessary expenditures which were incurred for police and sanitation in order to meet the growth of the city and county amounted to \$32,773.02 in 1915, and last year they amounted to \$43,635.00.

It will be seen that for these additional expenditures which did not formerly exist the city and county was obliged to expend the sum of \$45,698.02 in 1915, and last year the sum of \$53,355.00 was expended for the same items.

Bonded Indebtedness. The bonded indebtedness incurred by the territory and assumed by the city and county through the transfer of the Honolulu Water and Sewer Works amounted to \$1,142,031.00 for the water works and \$352,580.33 for the sewer works, making a total of \$1,494,611.33 on December 31, 1916.

The objects for which this indebtedness has been incurred are revenue-producing, thus increasing the revenues with which to retire the bonds. Conservation, however, should prevail in the matter of increasing the bonded indebtedness. Furthermore, the bonds which the Water and

Sewer Works represent are territorial and should not be charged against the credit or the borrowing capacity of the city and county.

Improvement Bonds. Through the operation of the frontage tax law, rendered imperative to meet the rapid growth of the city and county, district improvement bonds have been issued. These bonds are payable in a period of years sufficient to cover the number of instalment payments and redeemable only out of the moneys collected on account of assessments made for the improvements for which they are issued.

The authorized issues of last year under the improvement law are as follows: July 1, 1916, Manoa Improvement District Number One, \$146,000.00; September 15, 1916, Beach Walk Improvement District Number Two, \$28,000.00. The amount to be paid by the city and county on these improvement bonds is \$31,077.41.

Recent issues of improvement bonds are as follows: January 15, 1917, Lusitana Street Frontage Improvement Number One, \$8,795.00; January 15, 1917, King Street Extension Frontage Improvement Number Two, \$8,620.00; February 1, 1917, Sea-View Frontage Improvement Number Three, \$6,000.00. The share to be borne by the city and county on these recent issues amounts to \$25,782.00.

Cash Basis Fund. Under the provisions of Act 142, Session Laws of 1913, the city and county treasurer is authorized to create and maintain a permanent revolving fund known as the cash basis fund. This law is highly desirable since, in some cases at least, the temptation of an outgoing Board of Supervisors to spend all the funds available has proven too great, and the incoming Board has been left in the lurch.

The amount to be set aside in this fund is 1/20 of 1% of the total assessed value of property in the city and county. On an assessed valuation of \$90,001,990.00 this has amounted to \$45,001.00 in 1915, and the amount set aside last year on an assessed valuation of \$96,568,330.00 was \$48,284.16. The cash basis fund amounted to \$157,072.36 on December 31, 1916.

The operation of the law creating this fund, while it has been found to be most desirable, has tended to further reduce the already inadequate income of the city and county by setting aside therefrom large sums of money. In order to relieve the situation it is deemed advisable to pass an act, not inconsistent with the provisions of said law, providing for the transfer to the general fund of the total amount in the cash basis fund on December 31, 1916, thereby releasing this large amount for the urgent needs of the city and county.

Financial Statement. A comparative statement of receipts and expenditures of the city and county for the biennial period ended December 31, 1916, is herewith appended.

TAXATION.

For the proper development of sturdy local government the present tax system was deemed highly desirable. It was a necessity in order to protect the territorial treasury and to make effective the present school law. Already it has enlivened interest in the betterment of the city and county government by fixing the responsibility and showing to the taxpayers the close relation between their pockets and the persons whom they elect to office.

Tax Law. Under the present tax law, however, there is no possibility of materially increasing the income of the city and county. Whatever the estimates of the Board of Supervisors may be with regard to the amount of money required, the law provides that the assessor shall reduce the amount required for general revenues to $\frac{1}{2}$ of 1% and for

general revenues and permanent improvements to $\frac{2}{3}$ of 1% of the assessed valuation of property within the city and county. In other words, no matter how much the Board of Supervisors asks for, it can only receive $\frac{2}{3}$ of 1%, and if it does not submit any estimates at all, the assessor fixes the rate at $\frac{2}{3}$ of 1%. As a matter of practice, the rate has consistently remained at $\frac{2}{3}$ of 1%.

The result of this provision in the law is that, in spite of the fact that the city and county is growing rapidly, thereby increasing the necessary functions of government, the total income with which to meet the increased expenditures of the city and county government does not increase in proportion, since the tax rate still remains the same.

It will be seen that the income of the city and county increases only as the assessed valuation of property within the same is increased. Under the circumstances it is deemed advisable that the law, limiting the maximum rate to be assessed, be amended by raising the prescribed limit to a maximum that will meet the urgent needs of the city and county.

ELECTIONS.

Under the provisions of Act 160, Session Laws of 1915, all general elections of officers of the City and County of Honolulu, after 1915, shall be held in May, 1917, and biennially thereafter.

Charter Convention. In accordance with the provisions of Act 91, Session Laws of 1915, a convention was held in this city in September, 1915, to provide a charter for the government of the City and County of Honolulu, same to be presented at this session of the legislature.

In the proposed charter several important provisions were embodied, such as the election at large of a mayor and six supervisors, the transfer of the assessment and collection of city and county taxes from the territory to the city, the enlargement of the powers of the Board of Supervisors, and a provision for the recall and referendum. It will be necessary to pass an act providing for the payment by the city and county of the expenses of this convention.

No doubt the new charter will receive the early attention of this legislature and will require considerable time for careful consideration. Under the circumstances it is deemed advisable that the general election of city and county officers to be held in May, 1917, be postponed to a later date not inconsistent with the provisions of such charter.

Issuance of Bonds. In accordance with the provisions of Chapter 123, Revised Laws of Hawaii, 1915, as amended by Act 46, Session Laws of 1915, an election was held last November upon the question of the issuance of municipal bonds to the aggregate amount of \$480,000.00 for certain specific purposes, but it failed to receive the approval of the required sixty per centum of the registered voters of the city and county that voted at such election.

Another election was called thereafter to be held February 21, 1917, for a municipal bond issue of the same amount for certain public improvements of a revenue-producing character that are required immediately in the interests both of the present and the future. It is to be hoped that the result of this election will be favorable in order to meet these urgent needs of the city and county.

PUBLIC IMPROVEMENTS.

During the last two years several public improvements of a permanent nature have been undertaken by the city and county. Some of these have been completed, and some are still in course of construction. These im-

provements, rendered imperative to meet the rapid growth of the city and county, have required vast expenditures and have tended to further reduce the already inadequate income of the city and county.

Street Improvements. Under the operation of the improvement law, commonly known as the frontage tax law, the permanent improvement of streets in the District of Honolulu has commenced. Preliminary reports have been prepared and hearings held on fourteen improvement districts.

The improvement projects which are in course of construction or for which contracts have been awarded are as follows: Manoa Improvement District Number One, \$194,530.95; Frontage Improvement Number One—King Street Extension, \$32,942.88; Beach Walk Improvement District Number Two, \$33,264.17; Frontage Improvement Number Three—Sea-View, \$8,586.33, Frontage Improvement Number Four—Kalakaua Avenue, \$96,290.00, and Frontage Improvement Number Five—Beretania Street, \$33,000.00, amounting in the aggregate to \$438,531.13. The amount to be borne by the city and county on these improvements is \$119,215.09 or 27.1% of the total cost.

Frontage Tax Law. The frontage tax law contains several provisions, which, in the light of experience in its operation, should be amended or revised. For instance, whenever the improvement of streets, other than maintenance or repairs, is required, it cannot legally be done by the city and county without going through the expensive requirements of the frontage tax law. Some provision should be made to allow immediate reconstruction of streets, or portions thereof, that are gutted by unusual storms. Furthermore, each step of the proceedings had under the law must be advertised for ten successive days. The time consumed in advertising alone delays the actual progress of the work for, at least, seven weeks, allowing, in addition, three or four weeks for each necessary rehearing. The expense involved is quite considerable, resulting in great waste of time and money.

Under the law the city and county is obliged to pay all expenses on all public lands, street intersections and lands exempt from taxation. In other words, the city and county pays all expenses on all lands owned by the territory and those exempted from taxation by territorial laws, which should be borne by the territory. Again, the contractor is required under the law to furnish bond in a sum equal to the amount of the bid, while on the territorial work the bidder furnishes bond in a sum equal to just one-half of the amount bid. It is needless to say that this extra amount of the bond is charged in the amount of the contract.

Honolulu Water and Sewer Works. The Honolulu Water and Sewer Works were transferred to the City and County of Honolulu on June 30, 1914, with the obligation to meet the interest and sinking fund on the bonds which they represent. These works have been considerably extended. There is, however, pressing need of further extensions and improvements in the water works in order to reduce the cost of operation, afford greater protection from fire, reduce insurance rates, and keep pace with the needs of a rapidly growing city. There is even greater need of the extension of the sewer system for sanitary reasons. The pending improvement of large areas in the District of Honolulu under the frontage tax law renders it imperative that additional extensions and alterations of the sewer lines be carried on at the same time with, if not prior to, such improvements. Under the present financial status of the city and county, however, this cannot be done.

In order to meet the pressing need of further extensions and improvements of the water and sewer works it is estimated that a bond issue

of \$480,000.00 will be required. This question has been submitted to the vote of the people at the election to be held February 21, 1917.

City Hall. The desirability of acquiring a suitable site and building for a City Hall for the City and County of Honolulu is becoming more urgent on account of the rapid growth of the city and the increased functions of the city and county government.

Honolulu is enlarging its accommodations for tourists and providing means of entertainment. In order to add to the charm and attraction of a growing city, provision must be made for a suitable site and building for a city hall.

MUNICIPAL GOVERNMENT.

The work accomplished by the various departments of the city and county has been highly satisfactory in view of the entirely inadequate means with which to carry on the necessary functions of government.

The Mayor. Under the present charter of the city and county the dual system of executive and legislative bodies usual in local government is displaced by that of a single business body. The Mayor is president of the Board of Supervisors with a veto power and no vote. In order that business might not be clogged by red tape it was deemed best that the city and county government should not be made top-heavy with the machinery of state and that the majority should shoulder full responsibility and control policies in order to be able to proceed in a businesslike way.

Now that the novelty of city and county government has worn off and experience has taught, it is found that, while this provision of the charter would not detract from the power or dignity of the office of the Mayor, who could still be elected as such, be the presiding officer of the Board of Supervisors and have a general supervision over the work of the city and county, the dual system of executive and legislative powers is necessary in the successful administration of the affairs of the city and county.

The charter provides that the Mayor shall be the Chief Executive and prescribes his powers and duties which are not so broad in scope and limited in authority. If the Mayor of the City and County of Honolulu is its Chief Executive Officer, then he should be vested with full executive power in order to fix on him the responsibility for all the operations of the city and county over which he has the general supervision. As it is the Mayor bears the brunt of the responsibility which should fall on the Board of Supervisors. The city and county must either have a Mayor with real executive power or none at all.

Civil Service. Under Act 51, Session Laws of 1913, civil service was inaugurated in the police and fire departments of the City and County of Honolulu.

The advantage of the merit system is so obvious that it ought not to be a matter of argument. It means the selection of officers in public service upon the grounds of fitness rather than extraneous considerations. It promotes efficiency by affording that sense of security and hope of promotion which enables officers to devote their undivided attention to their public duties and inspires them to do their best. It helps to eliminate from politics the baneful influences of job-chasing and efforts at political control for ulterior purposes.

The Honolulu Civil Service Commission, created under this law, has fairly illustrated the advantages of the merit system. It has been claimed, however, that the operation of this law should not apply to the police department. The City and County Sheriff, who is elected by the people, is the head of this department and, as such should have the sole power to employ or discharge the men under him.

City Planning Commission. More than a year ago a city planning commission was established by ordinance, whose duties involve the beautification of the City of Honolulu and its suburbs.

The question of the improvement and beautification of the city and its surrounding country is one that has attended so much interest of late, and it might be appropriate to include in its consideration a discussion of its future as the play-ground of the well-to-do and the popular resort for the tourist travel that is to flow in growing volume across the Pacific. Whatever development is under contemplation should be first of all for the comfort and enjoyment of its people. If the city is made more beautiful to them, adding to their contentment and happiness, then it becomes attractive to strangers.

With this end in view this commission has prepared a new map of the city and has under consideration several improvement plans which, if fully carried out, would make the City of Honolulu more attractive. In order that the work of this Commission may not be clogged by red tape, it is deemed advisable that such commission be created by law providing for its appointment by the Mayor and prescribing its powers and duties.

Water Commission. By virtue of a resolution of the Board of Supervisors a commission of five members was appointed to investigate into the water resources and water supply of the City and County of Honolulu.

The question of water supply is of prime importance to the community. Investigations have been carried on in the past for the utilization of all water, both surface and underground, in the Honolulu basin, to show not only the amount of water available, now being utilized and now being wasted, but also an approximation of the value of the water. The commission is now at work preparing complete data, facts and features which will be of the utmost value to the community.

PUBLIC SCHOOLS.

I commend to your careful consideration the report of the superintendent of public instruction on the schools within and under the care and maintenance of the city and county.

School Budget. Under the provisions of Act 8, Session Laws of 1915, the situation with regard to the school budget was altered so that any unexpended balance remaining in the fund for any specific purpose at the end of the biennial period should remain in the treasury of the city and county, subject to re-appropriation by the Board of Supervisors, not only for the purpose set forth in the budget in which the item was contained, but also for any other purpose either in that budget or the succeeding one. This was an excellent provision and eminently satisfactory to the Department of Public Instruction and the Board of Supervisors.

But Act 90, Session Laws of 1915, provided that any such balance should be reported to the auditor and deducted from the amount to be collected for the purpose of the next budget. This provision has destroyed the entire effect of Act 8 and should be repealed.

PUBLIC HEALTH.

Nine years ago there were transferred from the territory of the city and county the inspection of fish, meat and cattle in coöperation with the territorial bureau of agriculture and forestry; dairies in coöperation with the federal and territorial food commissioner and analyst; building, plumbing, house sewers, the licensing of restaurants and laundries, subject to the approval of the territorial board of health as to suitability of locality; and the maintenance of hospitals.

These transfers, considering the extremely cosmopolitan population, the sub-tropical climatic conditions, and the location of Hawaii at the cross-ways of the Pacific, made the subject of public health one of imperative moment, especially as a duty of self-preservation locally.

Emergency Hospital. More than a year ago the city and county established by ordinance an emergency hospital, with accessories for the proper treatment of emergency cases, which is maintained and operated in connection with the Police Department.

LABOR COMMISSION.

Seldom have strikes occurred in Hawaii and labor conditions are improving. The strike of the stevedores last year, which threatened to tie up all shipping in the port of Honolulu, was averted through the efforts of the Mayor and the business interests to bring about an adjustment of the differences between the shippers and the stevedores.

There is reason to believe, however, that much good might be accomplished in the interests of laborers by the creation of a commission with broad powers to include the settlement of disputes and other matters. It is a question how far and in what direction such legislation might be enacted here. The subject is one that calls for careful investigation.

CONCLUSION.

It is impossible to review in a report of this character the work accomplished during the last two years, or to refer to all subjects upon which there should be legislation. Some of these will be brought to your attention through other channels.

The last legislature has set a high mark of accomplishment for the present one to surpass. This legislature could not want for a better opportunity—let it but be guided solely by a patriotic resolve to serve only the public weal.

Respectfully submitted,

JOHN C. LANE,
Mayor, City and County of Honolulu.

Consideration of Miscellaneous Communication No. 1, being a report from the Mayor of the City and County of Honolulu.

Printed copies of the foregoing having been distributed, the original was ordered placed on the Clerk's desk for consultation.

The President announced that he was in receipt of the report of the Special Commission on Taxation, as follows:

REPORT OF THE SPECIAL COMMISSION ON TAXATION.

The passage of Joint Resolution No. 3 at the Legislative Session of 1915 provided for the appointment of a special commission for the purpose of investigating the necessity and advisability of making changes in the existing tax laws of the Territory; and of recommending such changes in said laws as should appear wise and expedient, and to make report not later than July 1, 1916. No specific phases of the tax problem were requested to be covered by the resolution,—the wording of same being entirely general in character and of as broad a scope as the commission might construe.

Pursuant to the foregoing resolution, the following named gentlemen were named as members of the commission by His Excellency Lucius E. Pinkham, Governor of Hawaii, on January 20, 1916:—Honorable C. J. McCarthy, A. Lewis, Jr., W. H. McClellan, L. P. Scott and Charles H. Merriam.

The commission organized February 10, 1916 with Honorable C. J. McCarthy, Chairman, and elected Charles H. Merriam, Secretary.

Early in the consideration of its duties the commission decided that owing to limitation of time it was desirable to confine its efforts to the following subjects:

1. An improved system for the equalization of land valuations.
2. The prevention of losses through failure of existing law to bring under assessment certain classes of property not now assessed.
3. To secure greater economy in the operation of the tax system.
4. To devise ways and means for providing a greater revenue for the use of the various counties.
5. To correct any abuses and to harmonize existing laws.
6. The establishment of progressive rates under the Inheritance Tax Law.

The Commission has held weekly meetings since its organization, except for a short period of time while the Chairman of the Commission was absent on the mainland. Suggestions have been received in writing and verbally from the various tax assessors and others, relative to desirable changes in the existing law.

In the month of June, it became evident that an extension of time would be required upon July 1, 1916, to more thoroughly consider the various phases of the tax problem, and at the request of the Commission the Governor extended the time for filing a report to December 31, 1916.

The Commission has had under consideration every section of the Tax Law, and such changes as were considered vital have received newspaper explanation and comment.

The Commission, in dealing with the first of the six subjects before of valuation did not tend to uniformity and equality of valuation. This mentioned, found that the practical application of the present system result, while no fault of the assessors, largely arises through the use of the particular system in vogue. It might almost be called, lack of system, as there appears to be practically the application of the square foot value to the majority of lots and the varying depths of the lots are in many instances not considered, and in other instances not uniformly treated, and the results obtained cannot be expected to improve to any

The Commission has investigated the suggested application of the great degree in the future over those of the past.

so-called Fomer's system of land valuation for this Territory, and is satisfied that said system, if adopted, would greatly improve conditions as to equitable valuation of property, and give to the tax payer an absolute feeling of assurance that he was receiving fair and equal treatment with all owners of land in his neighborhood. This system has been in

vogue in many cities and towns in the United States, applying in some instances to whole counties, and from correspondence with assessors in cities where this system has been adopted, it is evident that not only does the benefits of the system please the tax payer but the officials find the operation of the system, after its first application, to be much more economical and sure in its results than any other known system.

The installation of this so-called Somer's system would not entail a prohibitive expense, and this Commission recommends the adoption of this system,—recommends that a sufficient appropriation be made by the Legislature for its installation, and also suggests a proposed amendment to existing law to give legality to the proposed change.

The second subject that has had the consideration of this Commission, namely, the prevention of losses through failure of existing law to bring under assessment certain classes of property not now assessed, and has found that certain areas of land held under certain eleemosynary institutions are, under existing law, wholly exempt from taxation, although, said areas were only partially used by such institutions.

The Commission recommends that a limitation be placed upon the aggregate exempted area, that shall be used by such institutions, as much valuable property is lying idle to the detriment of the financial condition of the Territory, as well as a practical withdrawal of certain areas from agricultural use and occupation.

The existing law is not considered to give authority to tax shares of stock in national banks, and as this class of property is therefore escaping taxation, the Commission recommends the passage of a separate act to be drawn to cover this particular proposition.

Upon investigation of the provisions of the law relating to delinquent taxes, the Commission finds that quite a serious loss in revenue is being suffered through imperfections in the law which should be easy to remedy. In this connection the Commission deems it wise to recommend a new method of sales of land for delinquent taxes with a reasonable provision of eighteen months in which the owner thereof may redeem the land sold under tax sale. By such method of annual sales for delinquent taxes, there should be no occasion in the future for passing over on the books of the tax assessor any delinquent tax against land as is now the case. Much revenue has been lost in the past through the operation of the law whereby property upon which taxes have not been paid for a term of years greater than three, cannot be held for the payment of said tax, and each year many delinquencies extend beyond the three-year period, and that tax is virtually lost as there is no means of obtaining the same except that the person against whom the tax is levied possesses other property, be it real or personal, upon which levy can be made. There is, therefore, strong grounds for remodeling the law relating to the collection of delinquent taxes and the annual sales of land therefor.

The attention of the Commission has also been called by the various assessors to delinquencies upon personal property account. We have been told that many of these delinquent accounts are uncollectable, but have to be carried, under the law, from year to year, thereby causing a volume of work for which they claim there is no hope of recompense.

Some States even go so far as to empower the tax assessor to imprison a tax payer for the non-payment of a personal tax or any specific taxes.

We are prepared to recommend any such drastic law, but do recommend that greater power be given to the assessor to make his personal tax collections.

In connection with the above mentioned delinquency list that contains the ancient accounts which are carried forward from year to year, this Commission recommends that the Governor be authorized by resolution to appoint a committee of five persons for each County, to consist of

the Territorial Treasurer and Auditor and Divisional Tax Assessor and two persons not Government officers or employees, in each instance, to go over this list of delinquent accounts and to be given power to cause the cancellation of such accounts as to them seem advisable. The object of this recommendation being merely to simplify the bookkeeping record in the Tax Office, and to write off uncollectable accounts.

The matter of assessing the leasehold interest separate from the fee interest in land has also had the consideration of the Commission, and it finds that much complaint is voiced by the various assessors relative to the unsatisfactory results that are obtained by splitting such leasehold interest from the fee of the land. While, theoretically, the present law should give the same results in financial returns when there is a compound assessment as would be the case of a simple method does not work in a practical manner, and is the cause of numerous losses of revenue to the Territory.

While the Commission does not advocate the complete wiping out of the leasehold assessment, as such action would doubtless work a hardship in certain cases of leases executed many years ago and still in force, it does advocate that from and after the adoption of its recommendation in this respect, that there shall be no further assessment of the leasehold interest in land, but that leaseholds executed prior to the adoption of this recommendation shall be assessed as heretofore.

Some losses in the collection of automobile taxes have been called to our attention, and the Commission recommends an amendment to existing law which has for its purpose the stoppage of this loss. We suggest that the registration of automobiles be taken out of the hands of the sheriff and placed in the hands of the various assessors and that the license to operate a machine shall not be issued until the tax upon the vehicle has been paid.

The third subject that has had the consideration of this Commission, relating to greater economy in the operation of the tax system has resulted in the conclusion that the present methods of operation can be simplified to a large extent, and it is the opinion of this Commission that the rewriting of descriptions and names in the assessment record each adoption of a loose-leaf system, which will permit the carrying of all year is a waste of valuable time and can largely be remedied by the transactions for a period of five years. This system would only necessitate the writing of new descriptions in those instances where additional property is acquired, or where a new tax payer was added to the list. Proposed forms of this new system have been worked out which appear to meet the requirements referred to, and we have been informed by the officials of the Tax Office that the same would doubtless work in a practical manner.

The Treasurer of the Territory has investigated the proposed system and approves said suggested change, and states it to be his intention to order the installation of the system beginning January 1, 1918, the earliest date possible.

While the Commission strongly recommends its adoption, it does not consider that any change in existing law is necessary to bring about the desired object. Greater economy of operation will be gained by the adoption of the Somer's system of valuation heretofore referred to, the adoption of which this Commission strongly recommends.

A further loss of valuable time can be effectually prevented by the passage of an up-to-date delinquent tax sale law. The passage of such a law would also be the means of saving for the Territory large amounts of revenue.

By the abolition of the assessment of leasehold interests the work of the assessors would be greatly simplified, resulting in a lesser cost of

operation, and in the belief of the assessors, a greater revenue would accrue to the Territory by the passage of this proposed amendment.

In considering the fourth subject noted above, the Commission has considered various suggestions for the provision of a greater revenue for the use of the various counties. It is manifest to this Commission that the need of additional revenue for county use is great, and that some means must be taken at an early date to provide the revenue which is needed.

The cost of maintaining county and city and county governments has increased greatly since the organization of such in this Territory.

While these expenses have increased the income has not kept pace, with the result that conditions in Honolulu and the several counties absolutely demand that more revenue be given.

After careful consideration, this Commission has come to the conclusion that the best method of affording relief is by increasing the allowance of the counties from two-thirds of one per cent to a full one per cent and further, that that portion of Section 1236 known as sub-division 2, relating to Permanent Improvements be stricken out. This Commission is of the opinion that each of the Board of Supervisors can be depended upon to spend on such permanent improvements all the money possible considering their income.

If the above named amendment to the tax law is adopted the City and County of Honolulu will be enabled to furnish sewers and free garbage and extend the sewer and water system as needed.

The Commission feels strongly that the City of Honolulu, the principal port of the Territory, to which come vessels from many ports where infectious diseases are prevalent, should be kept in the best sanitary condition and to this end the city should provide for the free use of sewers and at the same time compel the owner or owners of every building to connect with such sewers.

This arrangement would place the City and County in a position to finance the construction from year to year of sections of a permanent roadway in the country outside of the city proper, until said road be paved around the island; and would also be placed in funds to properly maintain and repair the city streets and assist in the permanent improvement of the same.

The office of the Auditor of the aytiC dnotnuCyr1wofmHdtofc-y12 The office of the Auditor of the City and County of Honolulu has furnished the Commission with a schedule of additional work that can be accomplished with the increase of funds, and has shown the Commission that after certain works which have been neglected in the past from lack of funds are completed, that there will be a gradual reduction in the tax rate.

The consideration by this Commission of the fifth subject, relating to abuses and to harmonize any conflict in existing laws, has resulted in the recommendation that certain penalties be applied where the authority of the tax assessor is not now sufficiently strong, to cause the necessary information, that existing law contemplates should be given to the assessor, to be forthcoming.

The Commission recommends that every tax payer who fails to render a statement, list or return required by law shall be subject to a penalty of 10 per cent. of his gross tax, which penalty shall be and become a part of such tax and be collected as a part thereof. We recommend also that the income tax law be amended so that all tax payers subject to said law shall be required to keep regular and accurate books of accounts, and failing so to do, to be guilty of a misdemeanor, and subject to a nominal fine for the first offense, and increasing fines for the second and third offense.

In order that a better qualified official of the Territory shall serve upon the committee of estimates provided for the consideration of the School Budget, the Commission wishes to suggest that Section 299, Revised Laws of 1915, be amended in line 4 thereof by striking out the word "Secretary" and inserting in lieu thereof the word "Treasurer."

This change would bring to said committee the services of an official conservant with the financial affairs of the Territory, and one better able to judge the effect upon the condition of Territorial finances of the proposed budget.

Amendments to existing law will also be presented in an effort to harmonize and clarify doubtful sections of existing laws.

This Commission has also considered what it deems to be an abuse of the tax power, namely, the continued collection of a stamp duty tax upon all documents. This law has been in force since 1868, continuing without substantial change until an exemption of only \$1000 was passed by the Legislature of 1911. The principle of this law is that the levying of a stamp duty is to meet sudden and heavy unnatural expenses of the act. The revenue derived from this form of taxation is on an average government and is always considered elsewhere as a strictly emergency of \$35,000 per year.

Upon investigation we find that the abolition of this tax could readily be borne by the Territory at this time, and that the burden of this tax is so generally put upon the individual about to acquire a home, that it is extremely obnoxious in character and should be done away with. The Commission will therefore recommend and forward an entire repeal of this act, saving only a provision for the poststamping of a document executed, but not stamped, during the life of the act.

In taking up the consideration of the inheritance tax law, the Commission finds only one portion of the law which it seems wis to change.

The present law calls for a flat tax of 2 per cent. upon all inherited property in excess of the exemption of \$5000 when the kindred be of direct line. And imposes upon collateral kindred and strangers a flat tax of 5 per cent. and allowing an exemption of \$500.

The Commission, upon investigation, finds that the general policy in the United States has been to apply progressive rates to inheritance instead of the flat rate.

Only fifteen states still cling to the flat rate while twenty-seven apply progressive rates to inheritances.

The manifest ease with which this tax is paid, and the more even justice of the application of progressive rates, causes this Commission to recommend the adoption of the following schedule of rates instead of the existing flat rate. We also recommend an additional clause relating to a tax upon inheritance going to an alien.

- 1½ per cent. on amounts between \$ 5,000 and \$ 20,000.
- 2 per cent. on amounts between 20,000 and 50,000.
- 2½ per cent. on amounts between 50,000 and 100,000.
- 3 per cent. on amounts between 100,000 and 250,000.
- 4½ per cent. on amounts over 250,000.

In all other cases, except aliens, the rate of tax of the market value of such property in excess of five thousand dollars, shall be as follows, viz:

- 3 per cent. on amounts between \$ 500 and \$ 5,000.
- 5 per cent. on amounts between 5,000 and 20,000.
- 5½ per cent. on amounts between 20,000 and 50,000.
- 6 per cent. on amounts between 50,000 and 100,000.
- 6½ per cent. on amounts over 100,000.

When the beneficial interest to any property or income therefrom shall so pass to an alien, the rate of tax shall be 12½ per cent. of the market value of such property received by each person, in excess of \$500.

All property so passing for which exemption of five thousand dollars can be maintained shall not be taxable as income under the provisions of any other law.

The Commission feels that insufficient time has been allotted for as complete a study of the broad subject of our taxation problems as to the most important questions that have been brought to our attention. should have been given, but has endeavored to give earnest consideration

The Commission wishes to express its appreciation of the assistance rendered it by various officials of the Government and others.

In a short time the Commission expects to transmit drafts of proposed amendments and new laws embodying the subjects hereinabove set forth and expresses the hope that favorable action will be taken thereon.

Respectfully submitted,

C. J. McCARTHY, Chairman;
Wm. H. McCLELLAN,
L. P. SCOTT,
CHAS. H. MERRIAM, Secretary
Commissioners.

MINORITY REPORT.

The lateness of the appointment of the Commission and the time within which to report has not given that opportunity which is desirable for a thorough consideration of the tax system.

Fundamentally, the tax system of the Territory has proved satisfactory. Inequalities in isolated instances arise under any system of taxation.

The minority concurs in a general way with the recommendations of the majority, with the exceptions as hereinafter appearing. The minority objects to the adoption of the Somer's System of valuation, causing an amendment of Section 1241 of the Revised Laws of Hawaii 1915. The minority also objects to the further following change in the basis of valuation of land for taxation called for by the majority report, to-wit: "Used and unused, cultivated and uncultivated land of same quality and similarly situated shall be assessed at the same value." On its face this language may seem to be fair, yet in its interpretation a drastic change could be made in the present system of taxation of certain areas and certain holdings which might prove to be quite undesirable. Further thought and study should be given to the matter of taxation of unoccupied lands or the use of lands for particular purposes, when the same are capable of a more profitable employment, before a method for taxation of the same be proposed. To effectuate the last mentioned amendment an addition to said Section 1241 is sought by the majority.

The Commission considers that as a whole the taxation system of the Territory is satisfactory. Certain changes in details in order to permit of the smoother working of the system, as found in practice by the various assessors, should be made, and, as outlined in the majority report, are recommended.

Experience of recent years has demonstrated that the City and County of Honolulu should be in receipt of more funds to properly carry on the functions of City and County Government. By the application of business principles, overhead charges could be much reduced and the funds so sent would be available for other purposes. However, the growth of the City and County nevertheless has created legitimate requirements for additional funds for City and County purposes. Should the Legisla-

ture enact legislation providing the City and County and the several counties with additional funds, the electorate should require that public officials best show their appreciation of the confidence bestowed in such governmental subdivisions by displaying a keen interest in reducing the proportion of public funds spent for overhead as against the amount found in the finished work.

President of the Senate.

Sir:—Your Committee on Education to whom was referred Senate Bill No. 21, entitled: "An Act to amend section 255 of the Revised Laws of Hawaii, 1915, relating to meetings of the Commissioners of Public Instruction," begs leave to report as follows:

This bill is the same as the existing law excepting the month "December" is inserted in place of February, and "August" in place of June.

The Department of Public Instruction desires these changes because they have found that these months are more suitable for the proper transaction of the business of the department.

At present "January or February", and "June or July" are set by law for the meetings of the Commissioners of Public Instruction in Honolulu. A meeting of Commissioners is needed during December while the examination of teachers come in August, hence the necessity for the changes to "December or January," and "July or August" in each calendar year.

Territory of Hawaii
Executive Building

Honolulu, March 1, 1917.

The Honorable President of the Senate,
The Honorable Speaker of the House, and
Members of the Legislature of the
Territory of Hawaii.

Gentlemen:—On February twenty-first I notified your honorable bodies that at an early date I would address you on "**Land, Military and National Guard.**"

Whether we locally so desire or realize, the United States of America is now calling on us to fulfil our part of the compact for which her people paid Hawaii hundreds of millions of dollars to secure and retain this strategic position in the Pacific Ocean.

You need only to look about you to be convinced the Federal Government has begun to inaugurate enormous preparations for the defense of her long Pacific coastline and her interests within the Pacific Ocean upon this exact spot, the Island of Oahu, Territory of Hawaii.

The United States has neither named nor intimated any other policy for Hawaii than that of self-defense. Not one official or personal word or intimation has come as to any particular enemy to be guarded against or whose ill-will, enmity or ambition could lead to hostilities.

Every phase of peace or war requires the utmost preparation and skill to maintain the integrity of the nation, both in peace and in war.

Beyond our loyal and complete share in such preparedness, we have no right to question our national rulers.

Hawaii has given no offense to any nationality within its borders.

Nowhere on earth has corresponding cordiality and helpfulness been shown all races and nationalities choosing to reside within these Islands.

That Hawaii will be free from the frictions of opportunity, standards of living, and over-populations seeking relief here is not probable; and, if crowded, the natives and other non-competitive nationalities will be as sensitive as to their means of existence as other nationalities may be as to their political and social standing.

This Administration has been informed that the War Department desires the National Guard of Hawaii to be increased by July 1st, 1917, to 257 officers and 5183 men, total 5440, and by July 1st, 1918, and thereafter, to 257 officers and 6095 men, total 6352.

The Navy Department gives the information that it desires the Naval Militia recruited by July 1st, 1921, from its present numbers of 9 officers and 103 men to approximately a total of 300.

The following tables disclose what the War Department and Navy Department are authorized to expend in support of the National Guard and Naval Militia of Hawaii and what monies the Territory of Hawaii must provide to secure the pay, materials and equipments to be distributed among our military and Naval organizations provided the members do strictly their part according to law.

It is proper to state here, so the public mind may fully realize the fact, that primarily and tentatively the Island of Oahu has become an island of national objects and national defense, supported by enormous national expenditures overshadowing all other interests which inevitably become secondary.

SOURCES OF TERRITORIAL INCOME FOR DEFENSE PURPOSES.**First, from Taxation.****Second, from Conservation of Income.**

Unquestionably, the taxpayers of the Territory would prefer not to be taxed directly for national defense, irrespective of the fact all monies so expended return, together with other great sums, directly into the hands of the people and into general circulation.

The Territory has never tried, in a businesslike and effective way, to conserve and increase its income from its lands and waters; in fact, it has never had the opportunity, as its lands, primeval and undeveloped, were leased for very long terms at what proved to be very nominal rentals.

In the following statements, the government has not negotiated or attempted to fix rentals, but has simply noted the amounts offered, hence it does not claim the figures disclose the maximum rentals possible to obtain.

PUBLIC LANDS.

At present public lands are controlled by twenty-five, or more, petitioners under the Organic Act, Section 73, page 50, (R. L. H.), paragraph beginning: "Whenever twenty-five or more persons ———,"

The effect has not been for accomplishing the intent of the Act in the degree intended, but to give the opportunity for waste of public income in speculative operations.

It is for you to advise the Administration if you desire the few remaining lands and their income to be forever dissipated, and for the Territory to depend solely on direct taxation, or for you to petition the Congress of the United States to so amend the Organic Act that the income from public lands and waters be conserved for the benefit of all the owners, to-wit, the general public of the Territory, or be given to those who, by lot, become the owners.

I submit herewith, condensed as possible, a review of the Public Lands of the Territory of Hawaii, a statement of homesteading from 1890-1895 to April 1st, 1916, and comments on the land policies as promulgated by the Organic Act.

Public Lands of Hawaii.

The popular impression that the Territory of Hawaii is a new country with large unoccupied areas of arable public lands, and the local idea that all arable public lands, although nearly all have been cultivated for many years and are very highly developed and productive, should be homesteaded at a fraction of their true value, renders discussion difficult and the true facts hard to impress.

Large Units of Leased Lands.

These large separate areas, very few in number, soon to be returned to the government upon expiration of the thirty-year leases granted under the monarchy at nominal rentals, must in an economic sense be each treated as a single business unit. It has required relatively great sums of money to utilize them, secure water and provide irrigation and transportation systems, mills, etc., and provide capital to carry the crops which average eighteen months to maturity, with two or three crops in process.

Whether the lands be owned or leased in single units or owned in small units, they must be operated as a single unit for strictly economic reasons.

The only way an individual homesteader can become a part of such a unit is by the government selling him subdivided portions of the land on long credit and easy payments at a fraction of their value, thus giving him a basis of credit which neighboring capitalists may recognize, and advance him the necessary money, supplies and assistance for carrying on a plantation business in combination with other units (homesteaders) to make a going business; in fact, to force, through the ownership of land, the taking over of the plantation plants and business as it has existed.

The lands under this heading, and noted below as Class A, are:

	Cane Land Acres	Arable Land Acres	Present rental re- ceived by govern- ment per annum
On the Island of Hawaii.....	6,300	2,149	\$ 2,000.00
" " " " Kauai (1).....	5,429	770	11,834.00
" " " " Kauai (2).....	2,626	630	2,000.00
	<hr/> 14,355	<hr/> 3,549	<hr/> \$ 15,834.00
Amount now bid for extension of lease.....			<hr/> <hr/> \$266,575.00

Leased Lands to revert to Government, not to be leased again Except in part..

These lands are on the east by south side of the Island of Oahu. A large area will be required by the United States Army. The lands have five miles of fine beach, and culminate in the rear in mountains some 2,000 feet high, presenting an impassable verdure-clad precipice combining with sea and mountain a very beautiful and impressive scene. Were it made accessible (as was proposed by a military road) it would add an imperatively needed attraction for tourists and seasonal residents, as the beaches are now too restricted. The location is but twelve miles from the center of Honolulu.

The 2,200 acres of cane land are wholly dependent on privately owned waters which only by the strictest economic distribution can keep the cane flourishing. This area should be withdrawn from homesteading; the lease expires in 1920.

The land under this heading, and noted below as Class B, is:

	Cane Land Acres	Arable Land Acres	Annual rental received by the government
Waimanalo, Oahu	2,200	200	\$ 1,500.00
Amount now bid for extension of lease.....			\$ 10,400.00

Smaller, Difficult and Separate Units of Leased Lands:

Some of these lands have no water tributary nor would it be possible to obtain or finance it, hence of necessity they have been leased to large neighboring plantations that have formerly secured extension private water supplies and systems and have ditched it at long distances as serves their interests.

Some of these lands are rich, but covered with great boulders and can only be cultivated by Mattocks between the rocks.

Other of these lands are practically inaccessible, lying at high elevations and cut up or intercepted by gulches, so the government would be wholly unjustified in attempting to build roads through or to them such as homesteaders demand, yet by flumes, rough roads and trails adjacent plantations can and do work them under conditional leases.

Our experience has been the government has heretofore sold such lands at one-quarter or even less of their value; in fact, where there was a stand of cane rattoons, have practically given away the lands, as the rattoons paid for the land and a profit. The neighboring plantation practically thereafter cultivated the land and bought the cane until the homesteader acquired his patent, when either directly or indirectly, the adjacent plantation would secure this and nearby homesteads in fee, the homesteaders having come simply within the technicality of the law.

Lands under this heading, and noted below as Class C, include:

Lands Naturally Favorable for Independent Farming and Homesteading:

These lands are now cultivated on terminable leases to plantations, and have been so cultivated for many years. The lands have the essentials of rainfalls or irrigation solely pertaining to each area of land, with transportation and market for the sugar cane near at hand. While even with these most favorable conditions, the homesteader must be assisted financially and otherwise, he is in a far more normal situation to fulfil the position of an independent farmer than on any other public lands.

Lands under this heading include:

As will be shown, there remain on the Island of Oahu practically no public lands for agriculture homesteading.

For a list of public lands of the Territory, I refer you to the report of the Land Commissioner and the annual reports of the Governor to the Honorable Secretary of the Interior.

Report on Homesteading:

This report on Homesteading covers Territorial experience for the period of years from the year 1895 for the entire Territory and North and South Hilo, Hawaii, from the year 1890 to April 1st, 1916. Accepting the early American ideals of providing a land-owning citizenship living on and cultivating with their own and their families' toil, the Congress of the United States provided through the Organic Act that twenty-five petitioners can compel the government to open for their own homesteading any agricultural lands in its possession.

Matters have now reached the point where the government can see all its public lands distributed among a few who are liable to treat their holdings as former homesteaders have, and the general public finds itself deprived of all interest and all income from public-owned property.

Government Waters:

Irrigation waters originating on government lands and forest reserves have notable value for watering private lands where no government lands are adjacent. The value ranges according to the productiveness of the land irrigated. Government waters have been out on long leases now beginning to expire.

Private waters of large volume are contracted at from \$5.00 to \$7.50 per million gallons. I believe the government waters not joined with land may be safely estimated at a minimum annual rental of \$150,000.00.

Nothing pertaining to this Territory has been more grossly and persistently misrepresented than its public lands. For this there has been no excuse, for at the beginning and repeatedly since this Administration came into office, through the Land Commissioner, Messages of the Governor and three reports to the Honorable Secretary of the Interior, has every fact been accessible to anyone who desired to correctly inform himself.

You are now asked to advise the Administration as to your desires in the matters of:

Conserving income.

Conserving standing crops.

And, if conserved, the disposition to be made of the income.

Whether you desire the great business enterprise to be so continued.

Whether you desire the natural, normal rainfall individual farming lands to be rationally and economically homesteaded.

Whether you desire the National Guard of Hawaii should be supported from land income.

Whether you desire imperative public improvements of deferred revenue to be established in full or in part from land and water income.

Very respectfully submitted,

LUCIUS E. PINKHAM,
Governor of Hawaii.

The Senate having reconvened at 11:35 o'clock a. m., an adjournment was taken to 1:00 o'clock p. m.

Honolulu, T. H., March 1st, 1917.

Hon. Chas. F. Chillingworth,
President of the Senate

Sir:—Your Committee on Education to whom was referred Senate Bill No. 25, entitled: "An Act to amend Section 275 of the Revised Laws of Hawaii, 1915, Relating to Private Schools," begs leave to report as follows:

The proposed law is the same as the existing law, excepting at the latter part of it, the only change is the inserting of "1917" in place of "1907", for the school census takes place every ten years.

The only other change is the addition at the end requiring a penalty for failure to comply with the provisions of this act, and this is very necessary to enable the department of public instruction to obtain the necessary data from those conducting private schools, and would prevent unnecessary delay in obtaining the required statistics from private schools.

Without the penalty, the department sees no way of securing the required information from those private schools which do not care to give out to the public such information, or which delay in giving out such statements to suit their own conveniences.

While no private schools has actually refused to make the required statement, still there have been delays in filing same, and this bill seeks to remedy that evil.

Your Committee on Education recommends that the bill pass.

Respectfully submitted,

S. L. DESHA, Chairman,

ALFRED L. CASTLE.

To the Honorable Charles F. Chillingworth,
President of the Senate,
Honolulu, T. H.

Sir:—Your petitioners, the undersigned, all of whom are residents of the District of North Kona, County of Hawaii, Territory of Hawaii, and grape growers in said District, respectfully present as follows:

That they have been informed that there will bepresented at the present session (ninth) of the Legislature of Hawaii a bill providing for the payment of an annual fee of a thousand dollars for a license to sell wine manufactured by the licensee from grapes grown in the Territory of Hawaii, or some such bill fixinf a higher annual license fee than that now required;

That they respectfully object to the enactment of any such law or any law requiring the payment of an unreasonable anual license fee to sell such wine for the fololwing reasons:

Your petitioners are all small farmers growing and raising grapes in said District of North Kona (the number subscribing hereto comprising a majority of the grape growers of said District) and they are depending upon their vineyards for a livelihood. There is no market for their grapes other than that for the purpose of manufacturing them into wine. The growing of grapes and manufacturing them into wine is a small-farmer industry in said District. There are no large wine manufacturing concerns in the vicinity of said District to whom your petitioners could sell their grapes, and, even if there were any such large manufacturing plants they could so control the prices of grapes so as to make the small grape farmers submit to whatever terms they may offer and which

may prove so unreasonable as to make the growing of grapes by said small farmers a failure.

Respectfully submitted,

MANUEL P. GARCIA

PORPETUA FREITAS
J. V. TEIXEIRA
FRANK GOMES
JOE R. COSTA.

Upon motion by Senator Cooke, seconded by Senator Shingle, the petition was referred to the Committee on Ways and Means.

Senator Castle, for the Committee on Judiciary, presented a report (Stand. Com. Rep. No. 19) recommending certain amendments to Senate Bill No. 27, entitled: "An Act to amend Section 1227 of the Revised Laws of Hawaii, 1915 relating to personal taxes." The report was read by the Clerk as follows:

Honolulu, T. H., March 5, 1917.

Honorable Charles F. Chillingworth,
President of the Senate.

Sir:—Your Judiciary Committee, to which was referred Senate Bill No. 27, entitled: "An Act to amend Section 1227 of the Revised Laws of Hawaii, 1915, relating to personal taxes," begs leave to report as follows:

The Legislature in 1906 passed an Act providing that taxes due from poll, school or road taxes might be worked out by the person taxed, in the discretion of the Tax Assessor, on the public roads of the district where he resides at the rate of fifty cents a day for at least ten hours work.

This has been amended to provide that such work shall be under the direction of the board of supervisors. The fee of fifty cents a day allowed in 1896 hardly suits the present day standard of wages, and the committee feels that a higher rate should be allowed.

The committee recommends the following amendments:

1. In section 1 of said bill in line 2 after the word "Amended" insert the words "to read."
2. Strike out the words and figures "Two Dollars (\$2.00) a day" in line 8 of Section 1 and insert in lieu thereof of the words and figures "One Dollar and Fifty Cents (\$1.50) per day."
3. Strike out Section 2 entirely.
4. Renumber Section 3 to read Section 2, and change it to read as follows:

"Section 2. This Act shall take effect upon its approval."

Although the wording of the present Section 3 is legally correct, this Committee feels that the Senate should adopt a regular form which it can follow in all its bills for the last clause of each bill. It makes cleaner cut legislation, and we recommend that this form be adopted by the Senate, unless, of course, the act is to take effect at or after a specified time, in which instance the specified time would be inserted.

With the amendments suggested herein, the Committee recommends the passage of the Bill.

Respectfully submitted,

JUDICIARY COMMITTEE,
ALFRED L. CASTLE,
Chairman.
J. H. CONEY
B. H. MAKEKAU
G. P. KAMUOHA
Wm. T. ROBINSON.

Upon motion by Senator Kamaoha, seconded by Senator Makekau, the report was adopted. The Bill thereupon passed Second Reading.

Senator Castle, for the Committee on Judiciary, presented a report (Stand. Com. Rep. No. 20) recommending that Senate Bill No. 13, entitled: "An Act to amend Section 2324 and Section 2335, Chapter 135, Revised Laws of Hawaii of 1915, relating to the licensing of persons to practise in the district courts of the Territory of Hawaii," be tabled. The report was read by the Clerk as follows:

Honolulu, T. H., March 5, 1917.

Honorable Charles F. Chilingworth,
President of the Senate.

Sir:—Your Judiciary Committee to which was referred Senate Bill No. 13, entitled: "An Act to amend Section 2324 and Section 2335, Chapter 135, Revised Laws of Hawaii of 1915, relating to the licensing of persons to practise in the district court of the Territory of Hawaii," begs leave to report as follows:

This Bill would change the present law relating to practise in the district courts throughout the Territory by allowing a person who has a district court license but not a circuit court license to practise in the

circuit court in cases on appeal to the circuit court when the cases are jury-waived.

It would permit a person who has only a district court license to practise in the circuit court, in this instance, without necessarily having the qualifications for such practise.

The Committee does not feel that the qualifications for the circuit court should be swept aside in this instance. If the committee should favor the bill, it would establish a precedent for future committees to let down the bars further and would distinctly lower the standard of practise in our circuit courts.

The Committee therefore recommends that the Bill be tabled.

Respectfully submitted,

JUDICIARY COMMITTEE,
ALFRED L. CASTLE,
Chairman.

J. H. CONEY
R. H. MAKEKAU
G. P. KAMUOHA
Wm. T. ROBINSON.

Upon motion by Senator Castle, seconded by Senator Makekau, the report was adopted. The Bill was thereupon ordered tabled.

Senator Castle, for the Committee on Judiciary, presented a report (Stand. Com. Rep. No. 21) recommending that Senate Bill No. 14, entitled: "An Act to amend Section 2908 of the Revised Laws of Hawaii, 1915, relating to the granting of marriage licenses," be tabled. The report was read by the Clerk as follows:

Honolulu, T. H., March 5, 1917.

Honorable Charles F. Chillingworth,
President of the Senate.

Sir:—Your Judiciary Committee, to which was referred Senate Bill No. 14, entitled: "An Act to amend Section 2908 of the Revised Laws of Hawaii, 1915, relating to the granting of marriage licenses," begs leave to report as follows:

The present law makes it the duty of the Treasurer to appoint a suitable number of marriage license agents in the several districts of the Territory.

The proposed Bill would make it the duty of the deputy sheriffs of the various counties and of the City and County to grant marriage licenses in a proper instance. Section 2 of the Bill provides that license fees collected under the provisions of Section 1 should be county of city and county realizations, as the case may be.

The committee, after careful consideration, does not feel that there will be any advantage in changing the present law.

The only real argument advanced is that the fees shall be county or city and county realizations; but the amount collected from such

fees is so small that it does not, in the opinion of the committee, warrant the change of the law.

The committee therefore recommends that the Bill be tabled.

Respectfully submitted,

JUDICIARY COMMITTEE,
ALFRED L. CASTLE,
Chairman.
J. H. CONEY
R. H. MAKEKAU
G. P. KAMUOHA
Wm. T. ROBINSON.

Upon motion by Senator Castle, seconded by Senator Kamaooha, the report was adopted. The Bill was thereupon ordered tabled.

Senator Castle, for the Committee on Judiciary, presented a report (Stand. Com. Rep. No. 22) recommending that Senate Bill No. 12, entitled: "An Act to repeal Chapter 113 of the Revised Laws of Hawaii, 1915, relating to the widening of certain streets," be referred to a Select Committee of the Senators from Oahu. The report was read by the Clerk as follows:

Honolulu, T. H., March 5, 1917.

Honorable Charles F. Chillingworth,
President of the Senate.

Sir—Your Judiciary Committee, to which was referred Senate Bill No. 12, entitled: "An Act to repeal Chapter 113 of the Revised Laws of Hawaii, 1915, relating to the widening of certain streets," begs leave to report as follows:

The present law provides that certain streets in Honolulu shall be widened in accordance with the law as set forth in the Revised Laws. This law was enacted in 1896. The vital section of the chapter provides that if any persons or corporation makes or constructs any improvements within the lines set forth, such person or corporation shall be without remedy for any loss or damage that may be caused by the removal or destruction is required by the widening of the streets named.

The city and county engineer informs us that only a few of the streets have been widened in accordance with the law.

The question presented by this bill is not a legal one but is merely a question of policy which should be decided, to a large extent, by the Oahu delegation.

The committee therefore recommends that this bill be referred to the Oahu delegation.

Respectfully submitted,

JUDICIARY COMMITTEE,
ALFRED L. CASTLE,
Chairman.
J. H. CONEY
R. H. MAKEKAU

Honorable Charles F. Chillingworth,
President of the Senate.

Sir:—Your Judiciary Committee, to which was referred Senate Bill No. 33, entitled: "An Act to prohibit the importation of intoxicating liquors into the Territory of Hawaii, and to prohibit the manufacture and sale of such liquors therein, and providing for a referendum of this Act to a vote of the registered voters of the Territory of Hawaii", begs leave to report as follows:

This Bill was referred to the Committee for the purpose of considering the legal questions involved and suggested at the various discussions of the bill.

The Committee, after careful consideration, feels that with the following amendments the bill will be in legal form:

1st. Amend the title of the Act to read as follows:

"An Act

to provide for the prohibition of the importation of intoxicating liquors into the Territory of Hawaii and to prohibit the manufacture and sale of such liquors therein, except under certain conditions, calling for a referendum to the question of prohibition to the registered voters of the Territory of Hawaii at a special election and making appropriations to give effect to this Act."

2nd. Strike out the present Section 18.

3rd. Amend the present Section 10 to read:

"SECTION 10. All laws or parts of laws inconsistent with this Act are hereby repealed."

4th. Re-number the present Sections as follows:

The present Section 10 shall be re-numbered Section 11.
" " " 11 " " " 12.
" " " 12 " " " 13.
" " " 13 " " " 14.
" " " 14 " " " 15.
" " " 15 " " " 16.
" " " 16 " " " 17.
" " " 17 " " " 18.

5th. Amend the re-numbered Section 11 to read:

"SECTION 11. A special election is hereby called to be held on July 14, 1917, at which the duly qualified voters of the Territory of Hawaii shall have an opportunity to vote upon the following question:

"Shall prohibition against the importation, manufacture and sale of intoxicating liquors be enforced throughout the Territory of Hawaii?"

If the majority of the valid votes cast by the duly qualified voters of the Territory of Hawaii, voting at such election, be in the affirmative on this question, then the foregoing provisions of sections 1 to 10 hereof shall become operative on and after July 14, A. D. 1918; if the majority of such votes be in the negative on this question, then liquor licenses shall continue to be granted under the provisions of Chapter 122 of the Revised Laws of Hawaii, 1915."

6th. Amend the re-numbered Section 15 to read as follows:

"SECTION 15. The ballots to be used for such special election shall be printed in both the English and Hawaiian languages and shall be substantially in the following form:

"Territory of Hawaii.

Instructions to Voters: To vote upon the question below, make a **Cross (X) Mark** opposite the answer which you desire to make. Any other way of marking this ballot will be void. If you tear or deface or wrongly mark this ballot, return it to the inspectors of election and obtain another.

If the majority of valid votes cast by duly qualified electors of the Territory of Hawaii, voting at this election, be marked with a cross (X) mark opposite the word 'Yes (ae)', the provisions of Sections 1 to 10 of Act —, Session Laws of 1917 of the Territory of Hawaii will become operative on July 14, 1918.

If the majority of such votes be marked with a cross (X) mark opposite the word 'No (aole)', liquor licenses will continue to be granted under the provisions of Chapter 122 of the Revised Laws of Hawaii, 1915.

QUESTION.

Shall prohibition against the importation, manufacture and sale of intoxicating liquors be enforced throughout the Territory of Hawaii?

<p>"To vote in favor of prohibition place a cross (X) mark after the word 'Yes (ae)';</p>	<p>Yes (ae)</p>
<p>"To vote against prohibition place a cross (X) mark after the word 'No (aole)'.</p>	<p>No (aole)</p>

7th. Amend the re-numbered Section 18 to read as follows:

"SECTION 18. The sum of Six Thousand Dollars (\$6,000.00) is hereby appropriated out of all moneys in the Treasury of the Territory of Hawaii derived from general revenues to defray the expenses of the special election authorized herein. All expenditures charged against this appropriation must be approved by the Secretary of the Territory."

8th. Add a new section to the Bill to be numbered Section 19 and to read as follows:

SECTION 19. Except as otherwise specifically hereinbefore provided, this act shall take effect upon its approval."

In order to put the Bill in legal form, your Committee recommends the adoption of the foregoing amendments.

Whole, at a public hearing. The report was read by the Clerk, as follows:

Honolulu, T. H., March 6th, 1917.

Hon. Charles F. Chillingworth,
President of the Senate.

Sir:—Your Health Committee to which was referred Senate Bill No. 10, entitled: "An Act relating to Houses and Places of Lewdness, Assignment and Prostitution; to provide for the Abatement thereof; the issue of Injunctions against Persons connected therewith, and other Matters Incidental thereto," begs leave to report as follows:

The President thereupon announced that Senator Cooke would be appointed Chairman of the Committee of the Whole.

Senator Cooke, for the Committee on Public Health, presented a report (Stand. Com. Rep. No. 26), recommending that House Bill No. 20, entitled: "An Act to prohibit the scattering, throwing, dropping or depositing of deadly poison, poisoned meat or poisoned food of any kind on any highway, street, road, alley, lane or yard, inclosure, pasture or field in the Territory of Hawaii," be passed with certain amendments, as follows:

Honolulu, T. H., March 6th, 1917.

Hon. Charles F. Chillingworth,
President of the Senate.

Sir:—Your Health Committee to which was referred House Bill No. 20, entitled: "An Act to Prohibit the Scattering, Throwing, Dropping or Depositing of Deadly Poison, Poisoned Meat or Poisoned Food of any kind on any Highway, Street, Road, Alley, Lane or Yard, Inclosure, Pasture or Field in the Territory of Hawaii," begs leave to report as follows:

That after due and careful consideration the committee recommends that said bill be amended by striking out the words "without posting any notice or notices to warn the public thereof" in line four on page two and also by striking out from Section 2, "This Act shall take effect and be in force from and after the date of its approval" and substituting in lieu thereof "This Act shall take effect upon its approval."

Respectfully submitted,

GEO. P. COOKE, Chairman,

S. L. DESHA.

Upon motion by Senator Cooke, seconded by Senator Desha, the report of the Committee was adopted. The Bill, as amended, passed Second Reading.

Senator Coney, for the Committee on Military, presented a report (Stand. Com. Rep. No. 27), recommending the passage of House Bill No. 7, entitled: "An Act relating to weights and measures, amending Sections 2206 and 2211 of the Revised Laws of Hawaii, 1915, and amending Chapter 126 of said Revised Laws by adding a new section to be designated as Section 2212A," as follows:

Honolulu, T. H., March 6, 1917.

Honorable Charles F. Chillingworth,
President of the Senate.

Sir:—Your Committee on Military to which was referred House Bill number 7, introduced in the House of Representatives E. da Silva, entitled: "An Act relating to weights and measures, amending Sections 2206 and 2211 of the Revised Laws of Hawaii, 1915, and amending Chapter 126 of said Revised Laws by adding a new section to be designated as Section 2212A," finds that the only amendment offered is by adding the words "or buying" and the purpose of the amendment is to place buyers of sugar cane on the same basis as those dealing in other wares. The increase of the number of small cane growers being dependent on the plantation scales to weigh their cane;

And the new Section added authorizing the sheriff of each city and county, or county to seize, confiscate, and destroy all beams, weights and measures not up to standard, your committee feels that the amendment will serve to protect those it is sought to reach;

Therefore your committee recommends that the Bill pass.

Respectfully yours,

J. H. CONEY, Chairman.
M. C. PACHECO.
S. L. DESHA.

Upon motion by Senator Coney, seconded by Senator Desha, the report of the committee was adopted. The Bill passed Second Reading.

Honolulu, T. H., March 6, 1917.

Honorable Charles F. Chillingworth,
President of the Senate.

Sir:—Your Judiciary Committee, to which was referred Senate Concurrent Resolution No. 3, relating to Woman's Suffrage, begs leave to report as follows:

The Committee feels that the cause of Woman's Suffrage is one that should be supported.

The more progressive of the Western States have passed laws permitting women to vote and we believe that the lead of those states should be followed by the Territory of Hawaii.

The Committee recommends the following amendments: After the word "amend" in line 4 of the Resolution add the word and figures

"Section 60 of"; after the word "Hawaii" in line 7 of said Resolution add the following, "who possess the qualifications set forth in said Section 60,".

Honolulu, T. H., March 6, 1917.

Honorable Charles F. Chillingworth,
President of the Senate.

Sir:—Your Judiciary Committee, to which was referred Senate Bill No. 4, entitled: "An Act to amend Sections 157, 160 and 162. Chapter 18, of the Revised Laws of Hawaii, 1915, Relating to Citizen Labor", begs leave to report as follows:

The introducer of this Bill states that on some work which was called to his notice in his District, non-citizen labor was being employed where citizen labor was available. He also cited one or two other instances where the same applied.

The Committee, however, finds that it is not the fault of the law but that the present law is sufficient to cover just such a case as that mentioned by the introducer of the Bill.

The Committee, therefore recommends that the Bill be tabled.

Respectfully submitted,

R. H. MAKEKAU,
Wm. T. ROBINSON,
J. H. CONEY,
G. P. KAMAHOHA.

Upon motion by Senator Pacheco, seconded by Senator Desha, the report was adopted. Senate Concurrent Resolution No. 6 was thereupon adopted.

Senator Castle, for the Committee on Judiciary, presented a report (Stand. Com. Rep. No. 32), recommending that Senate Bill No. 8, entitled: "An Act to authorize and provide for the manufacture, maintenance, distribution and supply of electric current for light and power, within the Kapaa District of Kawaihau, on the Island and County of Kauai, Territory of Hawaii," be passed with certain amendments. The report was read by the Clerk, as follows:

Honolulu, T. H., March 7, 1917.

Honorable Charles F. Chillingworth,
President of the Senate

Sir:—Your Judiciary Committee, to which was referred Senate Bill No. 8, entitled: "An Act to authorize and provide for the manufacture, maintenance, distribution and supply of electric current for light and power within the Kapaa District of Kawaihau on the Island and County of Kauai, Territory of Hawaii," begs leave to report as follows:

The Committee after careful consideration of this Bill, recommends the following amendments:

1. Section 5, line 12, of the original bill (page 3, line numbered 8 of the printed bill) after the word "lighting" insert the words, "not to exceed; and in the same section in the following line of the original bill (line numbered 10 of the printed bill) after the word "power" insert the words "not to exceed."

2. In Section 19, line 6, of the original bill (first line, page 6 of the printed bill) strike out the words "Superintendent of Public Works"

and insert in lieu thereof the words "Public Utilities Commission"; and in the same section, lines 7 and 8 of the original bill, (second line on page 6 of the printed bill) strike out the words "officer or Board" and insert in lieu thereof the word "Commission".

3. After Section 14 add a new section to be known as Section 15 and to read as follows:

"SECTION 15. The Public Utilities Commission of the Territory of Hawaii is hereby granted the power to order said Association, its successors or assigns, to make extensions of its service lines whenever it shall be made to appear that said extension is a public necessity and that the total plant of said Association, including such extension or extensions, can be made to earn a reasonable profit on the cost and maintenance of the same; provided that all orders of the Public Utilities Commission herein provided for shall be subject to review by the Courts of the Territory as provided by law."

4. The present Section 15 to follow Section 16, and re-number it Section 17.

With these amendments, the Committee recommends the passage of the bill.

Respectfully submitted,

JUDICIARY COMMITTEE,
ALFRED L. CASTLE,
Chairman,
R. H. MAKEKAU,
Wm. T. ROBINSON,
J. H. CONEY,
G. P. KAMAUOHA,

Upon motion by Senator Coney, seconded by Senator Correa, the report was adopted. The Bill passed Second Reading as amended.

Senator Castle, for the Committee on Judiciary, presented a report (Stand. Com. Rep. No. 33), recommending that Senate Bill No. 15, entitled: "An Act to amend Section 2938, R. L. H. 1915, relating to marriage after divorce," be tabled. The report was read by the Clerk, as follows:

Honolulu, T. H., March 7, 1917.

Honorable Charles F. Chillingworth,
President of the Senate.

Sir:—Your Judiciary Committee, to which was referred Senate Bill No. 15, entitled: "An Act to Amend Section 2939, R. L. H. 1915, Relating to Marriage After Divorce," begs leave to report as follows:

The present law provides that whenever a marriage shall be dissolved for adultery or other offense amounting thereto, either party to the divorce may marry again at any time.

The proposed bill would change the law to read as follows: "Whenever a marriage shall be dissolved for any cause neither party to the divorce shall marry again until the expiration of six months from the date of the decree on file in the Court in which such divorce was granted."

The Committee finds that in this jurisdiction the percentage of people who re-marry after divorce is practically the same as the percentage of widows or widowers who re-marry. That is to say, there has not been an abuse of the divorce court for the purpose of obtaining divorce

in order to re-marry. In the case of the so-called Japanese picture-brides, although a great number of divorces have occurred, in only a few instances has re-marriage occurred within a short time after the divorce. In the case of the Japanese picture-brides the percentage of re-marriage is much less than the average.

In the absence of any great abuse of the divorce proceedings, this committee does not feel warranted in advocating a change in the law.

The Committee, therefore, recommends that the Bill be tabled.

Respectfully submitted,

JUDICIARY COMMITTEE,
ALFRED L. CASTLE,
Chairman.
R. H. MAKEKAU,
Wm. T. ROBINSON,
J. H. CONEY,
G. P. KAMAUOHA.

Upon motion by Senator Castle, seconded by Senator Cooke, the report was adopted. Senate Bill No. 15 was ordered tabled.

Senator Castle, for the Committee on Judiciary, presented a report (Stand. Com. Rep. No. 34), recommending that Senate Bill No. 19, entitled: "An Act to disqualify members of the Legislature from holding office and being employed by the several county governments," be tabled. The report was read by the Clerk, as follows:

Honolulu, T. H., March 7, 1917.

Honorable Charles F. Chillingworth,
President of the Senate.

Sir:—Your Judiciary Committee, to which was referred Senate Bill No. 19, entitled: "An Act to disqualify members of the Legislature from holding office and being employed by the several county governments", begs leave to make the following report:

The Bill provides that no member of the Legislature shall, during the term for which he is elected, be appointed or elected to any office or be employed by any of the several county governments of the Territory of Hawaii.

The clause relating to employment clearly goes too far. Up to the present time, there has been no abuse to the part relating to the appointment or election to county offices of members of the Legislature.

The Committee does not feel that this law is necessary at the present time and therefore recommends that the Bill be tabled.

Respectfully submitted,

JUDICIARY COMMITTEE,
ALFRED L. CASTLE,
Chairman.
R. H. MAKEKAU,
Wm. T. ROBINSON,
J. H. CONEY,
G. P. KAMAUOHA.

Upon motion by Senator Castle, seconded by Senator Makekahu, the report was adopted. Senate Bill No. 19 was ordered tabled.

Senator Castle, for the Committee on Judiciary, presented a report (Stand. Com. Rep. No. 35), recommending that Senate Bill No. 20, entitled: "An Act to disqualify county officers or employees from being elected to the legislature," be tabled. The report was read by the Clerk, as follows:

Honolulu, T. H., March 7, 1917.

Honorable Charles F. Chillingworth,
President of the Senate.

Sir:—Your Judiciary Committee, to which was referred Senate Bill No. 20, entitled: "An Act to disqualify county officers or employees from being elected to the Legislature," begs leave to report as follows:

This Bill is the converse of Senate Bill No. 19, providing that no person holding office under any of the counties or in the employ of the counties shall be eligible to election to the Legislature.

The Attorney General has given opinion that a man holding an office under the county may not, in accordance with the spirit of the Organic Act, be elected to the Legislature. (See Opinions of the Attorney General Nos. 483, 553.)

As in the case of Senate Bill No. 19, the Committee does not find an abuse of the present law, and therefore recommends that the Bill be tabled.

Respectfully submitted,

JUDICIARY COMMITTEE,
ALFRED L. CASTLE,
Chairman.
R. H. MAKEKAU,
Wm. T. ROBINSON,
J. H. CONEY,
G. P. KAMAUOHA.

Upon motion by Senator Castle, seconded by Senator Kamaooha, the report was adopted. Senate Bill No. 20 was ordered tabled.

Senator Castle, for the Committee on Judiciary, presented a report (Stand. Com. Rep. No. 36), recommending that Senate Bill No. 26, entitled: "An Act to amend Sections 64, 66, 68 and 76, Paragraphs 1, 3, 5, 7 and 8 of Section 80 and Section 117, as amended by Act 119 of the Session Laws of 1915, and to repeal Sections 60, 70, 71, 72, 73 and 77, Revised Laws of Hawaii, 1915, relating to elections," be tabled. The report was read by the Clerk, as follows:

Honolulu, T. H., March 7, 1917.

Honorable Charles F. Chillingworth,
President of the Senate.

Sir:—Your Judiciary Committee, to which was referred Senate Bill No. 26, entitled: "An Act to amend Sections 64, 66, 68 and 76, Paragraphs 1, 3, 5, 7 and 8 of Section 80 and Section 117, as amended by Act 119 of the Session Laws of 1915, and to repeal Sections 60, 70, 71,

72, 73 and 77, Revised Laws of Hawaii, 1915; relating to elections," begs leave to make the following report:

The Committee has carefully gone over this Bill with the City and County Clerk and with one of the legal advisors of the City and County of Honolulu and finds that the evil sought to be remedied is the fact that, for instance, out of ten thousand nine hundred and seventy-one names appearing on the Great Register for this City and County certainly two thousand of these have removed to other places. There does not seem to be any adequate way under the present law of curing this defect unless a re-registration every certain number of years is provided for.

The present Bill does not remedy that defect. A Bill will be prepared later in this Session curing the defect sought to be remedied.

The Committee therefore recommends that this Bill be tabled.

Respectfully submitted,

JUDICIARY COMMITTEE,
ALFRED L. CASTLE,
Chairman.
R. H. MAKEKAU,
Wm. T. ROBINSON,
J. H. CONEY,
G. P. KAMAUOHA.

The report was read by the Clerk, as follows:

Honolulu, T. H., March 7, 1917.

President of the Senate.

Sir:—Your Judiciary Committee, to which was referred Senate Bill No. 27, entitled: "An Act to amend Section 1227 of the Revised Laws of Hawaii, 1915, relating to personal taxes", begs leave to report as follows:

The Committee finds that this bill was referred back through misapprehension as the evil sought to be remedied had been cured in the previous report.

The Committee therefore recommends the passage of the bill in accordance with its report and the amendments therein contained, which report was presented and adopted on the 5th day of March, 1917.

Respectfully submitted,

JUDICIARY COMMITTEE,

Your Committee believes that, in view of existing conditions, as set forth in the Report of the Milk Commission, the law should be amended, and therefore recommends that this Bill be tabled, and the substitute Bill be passed in its stead.

Respectfully submitted,

ROBT. HIND, Chairman.

A communication from the Delegate to Congress (Misc. Com. No. 6), referring to the appropriation for a visit to this Territory by the Congressmen, was read by the Clerk, as follows:

HOUSE OF REPRESENTATIVES, U. S.

Washington, D. C., February 22, 1917.

Hon. Charles F. Chillingworth,
President of the Senate,
Honolulu, T. H.

My dear Senator:—Yesterday I sent you a cablegram as follows: "Would urge Legislature appropriate forty thousand for Congressional party".

In explanation of the above, would say, that I sent the cablegram because I thought that it would be of great advantage to Hawaii to have Senators and Members of the House visit the Islands at this time and study at first hand conditions there, so that in the future we might receive, if not favorable, at least, intelligent legislation on matters brought to the attention of Congress.

I believe, and you will no doubt agree with me, that much good legislation has resulted to us from former Congressional trips, and it is my opinion that at this time when there is a possibility of international complications, that Hawaii will play an important part, and hence it is important that our conditions be known more especially from a naval and military standpoint. Therefore, it seems to me that we can do no better for our territory than to have men who guide the affairs of the nation visit us and ascertain our needs.

With best wishes, I am,

Sincerely,

J. K. KALANIANA'OLE.

The communication was ordered filed.

Senator Robinson, for the Committee on Enrollment, Revision and Printing, presented a report (Stand. Com. Rep. No. 41), to the effect that Senate Bill No. 54 had been printed and was ready for distribution. The report was read by the Clerk, as follows:

Honolulu, T. H., Mar. 8th, 1917.

Honorable Charles F. Chillingworth,
President of the Senate.

Sir:—Your Committee on Enrollment, Revision and Printing, begs leave to report that Senate Bill No. 54 has been printed and that the same is ready for distribution.

Wm. T. ROBINSON,
Chairman.

The Committee on Enrollment, Revision and Printing having returned Senate Bill No. 54, entitled: "An Act to transfer the Division of Hydrography from the Board of Commissioners of Agriculture and Forestry to the Commissioner of Public Lands", the same was referred to the Committee on Agriculture, Forestry and Promotion.

Senator Castle, for the Committee on Judiciary, presented a report (Stand. Com. Rep. No. 42), recommending that the following Bills be tabled, to-wit:

Senate Bill No. 35, entitled: "An Act to amend Paragraph 1 of Section 1654 of the Revised Laws of Hawaii, 1915, relating to the powers of the Board of Supervisors of the City and County of Honolulu."

Senate Bill No. 36, entitled: "An Act to amend Section 918 of the Revised Laws of Hawaii, 1915, relating to regulations made by the Board of Health."

Senate Bill No. 37, entitled: "An Act to amend Section 2053 of the Revised Laws of Hawaii, 1915, as amended by Act 45 of the Session Laws of 1915, relating to license to sell milk."

The report was read by the Clerk, as follows:

Honolulu, T. H., March 8, 1917.

Honorable Charles F. Chillingworth,
President of the Senate.

Sir:—Your Judiciary Committee, to which was referred Senate Bills Nos 35, 36 and 37, relating to the powers of the Board of Supervisors of the City and County of Honolulu with regard to the licensing, production and sale of milk, begs leave to report as follows:

These bills all relate to the same subject and propose to take away from the Supervisors of the City and County their power of regulation over milk and dairies within the City and County of Honolulu.

A full hearing was had with the President of the Board of Health and a delegation from the Board of Supervisors of the City and County of Honolulu.

Only one instance was pointed out where there has been a conflict of authority, and in that instance the recommendations of the Board of Health was finally carried out by the Board of Supervisors.

The Board of Supervisors state their willingness to co-operate with the Board of Health in the matter of the tuberculosis campaign, and, in general, with the proper care and control of milk in the City and County. As a matter of fact, the Board of Supervisors turn to the Federal Food Inspector for advice and have been co-operating with him.

The Committee does not feel that in view of the lack of showing made they would be justified in cutting down the powers of the Board of Supervisors in this City and County as proposed in the bills.

The Committee therefore recommends that these bills be tabled.

Respectfully submitted,

JUDICIARY COMMITTEE,
ALFRED L. CASTLE,
Chairman,
R. H. MAKEKAU,
Wm. T. ROBINSON,
J. H. CONEY,
G. P. KAMAUOHA,

Upon motion by Senator Castle, seconded by Senator Cooke, the report was adopted. Senate Bills Nos. 35, 36 and 37, were thereupon ordered tabled.

Senator Castle, for the Committee on Judiciary, presented a report (Stand. Com. Rep. No. 43), recommending that Senate Bill No. 38, entitled: "An Act relating to the production and sale of milk," be tabled. The report was read by the Clerk, as follows:

Honolulu, T. H., March 8, 1917.

Honorable Charles F. Chillingworth,
President of the Senate.

Sir:—The Judiciary Committee, to which was referred Senate Bill No. 38, entitled: "An Act relating to the production and sale of milk", begs leave to report as follows:

The City and County of Honolulu has at the present time an ordinance which fully covers this subject. As a matter of fact, no license is granted for the production and sale of milk without first obtaining the approval of the Board of Health. The municipal authorities and the Board of Health have worked together in this respect.

Regarding the Counties of Hawaii, Maui and Kauai, there are no ordinances in those counties relating to this subject. The Board of Health is at present taking charge of this matter without objection from the Boards of Supervisors of those counties.

The Committee does not feel the passage of the bill necessary and therefore recommends that it be tabled.

Respectfully submitted,

JUDICIARY COMMITTEE,
ALFRED L. CASTLE,
Chairman,
J. H. CONEY,
G. P. KAMAUOHA,
R. H. MAKEKAU,
Wm. T. ROBINSON,

Upon motion by Senator Castle, seconded by Senator Cooke, the report was adopted. Senate Bill No. 38 was thereupon ordered tabled.

A communication was received from the House of Representatives (House Com. No. 39), stating that the House of Representatives would not agree to the amendments made by the Senate to House Bill No. 20, entitled: "An Act to prohibit the scattering, throwing, dropping or depositing of deadly poison, poisoned meat or poisoned food of any kind on any highway, street, road, alley, lane or yard, inclosure, pasture or field in the Territory of Hawaii," and requesting a conference on the same with the House Joint Conference Committee consisting of Representatives Andrews, Leal and Waiaholo. The communication was read by the Clerk, as follows:

Honolulu, T. H., March 8, 1917.

The Honorable President and
Members of the Senate of the
Territory of Hawaii.

Gentlemen:—I have the honor to inform your Honorable Body that the House has disagreed to the Senate amendments to House Bill No. 20, and that it desires a conference on the subject-matter of said amend-

ments, to which conference the Speaker has this day appointed Representatives Andrews, Leal and Waiaholo as Managers on the part of the House.

Very respectfully,

EDWARD WOODWARD,
Clerk, House of Representatives.

Senator Castle moved that the President appoint three Senators on behalf of the Senate as members of the House Joint Conference Committee to confer on the above bill. This motion was duly seconded, and upon being put to a vote, carried. The President thereupon appointed the Senators comprising the Senate Committee on Public Health, viz: Senators Cooke, Desha and Correa.

A communication was received from the House of Representatives (House Com. No. 40), returning, with the statement that the same had been adopted by it, Senate Concurrent Resolution No. 7, requesting the Superintendent of Public Works of the Territory and the Superintendent of the Leper Settlement at Molokai to investigate and report to the next session of the Legislature, the feasibility and estimated cost of installing a hydraulic electric plant for the development of light and power for the Leper Settlement. The communication was read by the Clerk, as follows:

Honolulu, T. H., March 8, 1917.

The Honorable President and
Members of the Senate of the
Territory of Hawaii.

Gentlemen:—I have the honor to return herewith Senate Concurrent Resolution No. 7, which was this day adopted in the House of Representatives of the Territory of Hawaii.

Very respectfully,

EDWARD WOODWARD,
Clerk, House of Representatives.

..

Senator Coney, for the Committee on Military, presented a report (Stand. Com. Rep. No. 44), recommending the passage of Senate Bill No. 44, entitled: "An Act to regulate Legislative appearances." The report was read by the Clerk, as follows:

Honolulu, H. T., March 7, 1917.

Hon. Charles F. Chillingworth,
President of the Senate.

Sir:—Your committee on Military to which was referred Senate Bill number 44, introduced by Senator S. L. Desha, being: "An Act to regulate legislative appearances", beg leave to report that it finds the Bill is intended to and for the purpose of discouraging private persons and associations from directly or indirectly, privately influencing members of the Legislature in promoting or opposing such legislation effect-

ing private or public interests, and to promote or defeat executive action on the same.

Your Committee after due and careful consideration finds that, the passage of the act will be a step in the right direction and tends to cover the end sought, and in view of the fact that several States of the Union have adopted similar laws, your Committee recommends that the Bill do pass.

Respectfully submitted,

J. H. CONEY,
Chairman.
S. L. DESHA,
M. C. PACHECO,

Upon motion by Senator Desha, duly seconded and carried, the report of the Committee was adopted. The Bill passed Second Reading.

Senator Shingle, for the Select Committee appointed to arrange a division with the House of Representatives of the Federal appropriation for the expenses of the Legislature, reported verbally that inasmuch as the House had not appointed a committee to take up the matter, the committee on behalf of the Senate, consisting of himself and Senators Mikaele and Kamauoha, had not been able to make any progress.

Senator Robinson, for the Committee on Enrollment, Revision and Printing, presented a report (Stand. Com. Rep. No. 45) to the effect that Senate Bill No. 55 had been printed and was ready for distribution. The report was read by the Clerk as follows:

Honolulu, T. H., March 9, 1917.

Hon. Chas. F. Chillingworth,
President of the Senate.

Sir:—Your Committee on Enrollment, Revision and Printing, begs leave to report that Senate Bill No. 55 has been printed and that the same is ready for distribution.

Wm. T. ROBINSON,
Chairman.

The Committee on Enrollment, Revision and Printing having returned Senate Bill No. 55, entitled: "An Act to appropriate five thousand dollars for constructing a road from Hanakaape Landing to Poipu, Koloa, Kauai County," the same was referred to the Committee on Ways and Means.

Senator Castle, for the Committee on Judiciary, presented a report (Stand. Com. Rep. No. 46) recommending that House Bill No. 61, entitled: "An Act to amend Section 3888 of the Revised Laws of Hawaii, 1915, relating to the crime of kidnapping, by increasing the penalty for said crime," be passed with certain amendments. The report was read by the Clerk as follows:

Honolulu, T. H., March 9, 1917.

Honorable Charles F. Chillingworth,
President of the Senate.

Sir:—Your Judiciary Committee to which was referred House Bill No. 61, entitled: "An Act to amend Section 3888 of the Revised Laws of Hawaii, 1915, relating to the crime of kidnapping, by increasing the penalty for said crime," begs leave to report as follows:

The penalty for the crime of kidnapping does not seem to be adequate, as the maximum imprisonment is only two years. This bill raises the maximum to five years.

The Committee, however, feels that a further discretion should be given the Court and, in certain instance, both the fine of not exceeding One Thousand Dollars and imprisonment at hard work for not more than five years might well be imposed.

The Committee therefore recommends adding to Section 1 the words "or both, in the discretion of the Court." The Committee also recommends amending Section 2 to read: "SECTION 2. This Act shall take effect upon its approval."

With these amendments the Committee recommends the passage of the Bill.

Respectfully submitted,

JUDICIARY COMMITTEE,
ALFRED L. CASTLE,
Chairman.

J. H. CONEY
R. H. MAKEKAU
G. P. KAMAUOHA
Wm. T. ROBINSON.

Upon motion by Senator Castle, seconded by Senator Correa, the report was adopted. The Bill thereupon passed Second Reading as amended.

Senator Castle, for the Committee on Judiciary, presented a report (Stand. Com. Rep. No. 47) recommending that House Bill No. 41, entitled: "An Act to regulate the business of plumbing; to provide for the examination, registration and licensing of plumbers," be tabled. The report was read by the Clerk as follows:

Honolulu, T. H., March 9, 1917.

Honorable Charles F. Chillingworth,
President of the Senate.

Sir:—Your Judiciary Committee to which was referred Senate Bill No. 41, entitled: "An Act to regulate the business of plumbing; to provide for the examination, registration and licensing of plumbers," begs leave to report as follows:

The City and County of Honolulu already has an ordinance covering this subject and this act specifically excepts any county or city and county having an ordinance covering the provisions of this Act. The Act is aimed at those counties, namely: Hawaii, Maui and Kauai, which have not as yet passed ordinances on this subject.

Although the provisions of the proposed bill might be fair for a city like Honolulu, they are in many respects not applicable to country districts.

The Bill seems to contemplate that the outside counties should have passed ordinances on this subject prior to this time. The passage of this bill would prevent these counties from passing an ordinance or ordinances suitable to their own conditions and would make a uniform law for Hawaii, Maui and Kauai.

The Committee does not feel that this power should be taken away from the counties of Hawaii, Maui and Kauai and retained by the City and County of Honolulu.

The Committee, therefore, recommends the bill be tabled.

Respectfully submitted,

JUDICIARY COMMITTEE,
ALFRED L. CASTLE,
Chairman.

J. H. CONEY
R. H. MAKEKAU
G. P. KAMAUOHA
Wm. T. ROBINSON.

Upon motion by Senator Castle, seconded by Senator Cooke, the report was adopted. The Bill was thereupon tabled.

Senator Castle, for the Committee on Judiciary, presented a report (Stand. Com. Rep. No. 48) recommending that House Bill No. 73, entitled: "An Act to prohibit the stopping of public works on Saturdays," be tabled. The report was read by the Clerk as follows:

Honolulu, T. H., March 9, 1917.

Honorable Charles F. Chillingworth,
President of the Senate.

Sir:—Your Judiciary Committee to which was referred House Bill No. 73, entitled: "An Act to prohibit the stopping of public works on Saturdays," begs leave to report as follows:

The Board of Supervisors of the various counties and City and County of Honolulu are perfectly competent to deal with the question of labor in their respective districts.

The Committee does not feel that there is any need of the Legislature interfering on this point and recommends that this Bill be tabled.

Respectfully submitted,

JUDICIARY COMMITTEE,
ALFRED L. CASTLE,
Chairman.

J. H. CONEY
R. H. MAKEKAU
G. P. KAMAUOHA
Wm. T. ROBINSON.

3rd. In Section 14 lines 2 and 3 of the original bill (lines 2 and 3 of the printed bill) strike out the words "After the expiration of twenty years from the date of the passage of this Act by the Congress of the United States."

CONCURRENT RESOLUTION.

WHEREAS the several political parties of the Territory of Hawaii, have pledged themselves to support a change in the Organic Act to the end that the female citizens of the Territory shall be empowered to vote at elections held under the laws of the Territory of Hawaii; and

The Senate having returned to the consideration of Standing Committee Reports, Senator Castle, for the Committee on Judiciary presented a report (Stand. Com. Rep. No. 53) recommending the passage of House Bill No. 105, entitled: "An Act to repeal Sections 2505 and 2506 of the Revised Laws of Hawaii, 1915". The report was read by the Clerk as follows:

Honolulu, T. H., March 12, 1917.

Honorable Charles F. Chillingworth,
President of the Senate.

Your Judiciary Committee, to which was referred House Bill No. 105, entitled: "An Act to repeal Sections 2505 and 2506 of the Revised Laws of Hawaii, 1915," begs leave to report as follows:

Under a law passed in 1880 if a will or other testamentary paper is admitted to probate by any Circuit Judge, it is the duty of the Judge to forward the same to the Clerk of the Supreme Court to be filed and preserved in the office of the Supreme Court. The Circuit Judge must retain a copy of all such papers. This law was passed at a time when the Circuit Courts were not provided with proper buildings or proper vaults for keeping important documents.

At the present time, the Circuit Courts are properly provided for, so that the sections mentioned, namely, sections 2505 and 2506 of the Revised Laws of Hawaii 1915 are no longer necessary.

The bill proposes to repeal these sections and the Committee recommends the passage of the bill.

Respectfully submitted,

JUDICIARY COMMITTEE:
ALFRED L. CASTLE,
Chairman;
J. H. CONEY,
G. P. KAMAHOA,
R. H. MAKEKAU,
WM. T. ROBINSON.

Upon motion by Senator Makekau, seconded by Senator Kamaooha, the report was adopted. The Bill passed Second Reading.

Senator Castle, for the Committee on Judiciary, presented a report (Stand. Com. Rep. No. 54) recommending that House Bill No. 49, entitled: "An Act to amend Section 1370 of the Revised Laws of Hawaii, 1915, relating to a tax on Social Clubs," be passed with certain amendments. The report was read by the Clerk as follows:

Honolulu, T. H., March 12, 1917.

Honorable Charles F. Chillingworth,
President of the Senate.

Sir:—Your Judiciary Committee, to which was referred House Bill No. 49, entitled "An Act to amend Section 1370 of the Revised Laws of Hawaii, 1915, relating to a tax on Social Clubs," begs leave to report as follows:

The purpose of this bill is to transfer to the Counties the annual tax of Two Hundred Dollars paid by Clubs selling intoxicating liquors. These Clubs are not under the liquor law but are under the Treasurer of the Territory and the money now paid in is a Territorial realization. The Territorial Treasurer himself feels that this should properly be a county realization.

Section 2, however, should be amended to read as follows: "Section 2. This Act shall take effect upon the first day of July, A. D. 1917."

This amendment was suggested by the Territorial Treasurer in order to be in accordance with the time of payment of the taxes.

As thus amended, the Committee recommends the passage of the Bill.

Respectfully submitted,

JUDICIARY COMMITTEE:

ALFRED L. CASTLE,
Chairman;

J. H. CONEY,
G. P. KAMAHOA,
R. H. MAKEKAU,
WM. T. ROBINSON.

Upon motion by Senator Makekau, seconded by Senator Kamaoha, the report was adopted. The Bill, as amended, passed Second Reading.

Senator Castle, for the Committee on Judiciary, presented a report (Stand. Com. Rep. No. 55) recommending that House Bill No. 9, entitled: "An Act to amend Section 1561 of the Revised Laws of Hawaii, 1915, as amended by Act 49 of the Session Laws of 1915, relating to coroners," be passed with certain amendments. The report was read by the Clerk as follows:

Honolulu, T. H., March 12, 1917.

Honorable Charles F. Chillingworth,
President of the Senate.

Sir:—Your Judiciary Committee, to which was referred House Bill No. 9, entitled: "An Act to Amend Section 1561 of the Revised Laws of Hawaii, 1915, as amended by Act 49 of the Session Laws of 1915, relating to coroners," begs leave to report as follows:

This Bill changes the present law by providing that the Captain of Police, in addition to the Sheriff and his Deputy, may be an ex-officio county coroner.

As a matter of fact, very frequently the Sheriff and his Deputy are not available in the country districts and there would seem to be good reason to allow a Captain of Police to act as coroner.

The Bill is faulty in repealing Act 49 of the Session Laws of 1915.

The Committee therefore recommends that Section 2 be stricken out of the bill and Section 3 be re-numbered "Section 2."

As thus amended, the Committee recommends the passage of the Bill.

Respectfully submitted,

JUDICIARY COMMITTEE:

ALFRED L. CASTLE,
Chairman;

J. H. CONEY,
G. P. KAMAHOA,
R. H. MAKEKAU,
WM. T. ROBINSON.

Upon motion by Senator Makekau, seconded by Senator Desha, the report was adopted. The Bill, as amended, passed Second Reading.

Senator Castle, for the Committee on Judiciary, presented a report (Stand. Com. Rep. No. 56) recommending the passage of House Bill No.

52, entitled: "An Act to amend Section 2287 of the Revised Laws of Hawaii, 1915, relating to the procedure in Juvenile Courts and commitment of juveniles to the industrial schools." The report was read by the Clerk as follows:

Honolulu, T. H., March 12, 1917.

Honorable Charles F. Chillingworth,
President of the Senate.

Sir:—Your Judiciary Committee, to which was referred House Bill No. 52, entitled: "An Act to amend Section 2287 of the Revised Laws of Hawaii, 1915, relating to the procedure in Juvenile Courts and commitment of juveniles to the Industrial Schools," begs leave to report as follows:

Under the present law, if a girl is to be conveyed to any institution, the Judge shall, when he deems it advisable, appoint a suitable woman to accompany such girl. In a great many instances the judge has not appointed a suitable woman or any woman to accompany the girl with the result that several scandals have occurred, and the accusations have been made which have been unjust to the parties accused.

The proposed amendment is that the judge **must** appoint a suitable woman to accompany the girl to the institution.

The Committee recommends the passage of the Bill.

Respectfully submitted,

R. H. MAKEKAU,

WM. T. ROBINSON.

Honolulu, T. H., March 12, 1917.

Upon motion by Senator Castle, seconded by Senator Correa, the report was adopted. The Bill, as amended, passed Second Reading.

Senator Castle, for the Committee on Judiciary, presented a report (Stand. Com. Rep. No. 57) recommending the passage of House Bill No. 60, entitled: "An Act to define the crime of malicious and fraudulent conversion of chattels and to provide for the conviction and punishment of persons guilty thereof," with certain amendments. The report was read by the Clerk as follows:

Honorable Charles F. Chillingworth,
President of the Senate.

Sir:—Your Judiciary Committee, to which was referred House Bill No. 60, entitled: "An Act to define the crime of malicious and fraudulent conversion of chattels and to provide for the conviction and punishment of persons guilty thereof," begs leave to report as follows:

Under the present law, persons who without right take an automobile and go off for a ride often cannot be convicted under the statutes relating to larceny and it is not clear whether there is any good and sufficient law to cover the point. The proposed bill provides that a person maliciously and fraudulently taking certain chattels should be

punished in the same manner as is provided by the laws relating to larceny.

The Committee feels that it would be better to make a specific penalty for this crime and to eliminate the requirement that the taking and conversion must be a fraudulent one, leaving it a malicious conversion only.

The Committee therefore recommends the following amendments:

1. In the title strike out the words "and fraudulent" in line one.
2. Amend Section 1 to read: "Section 1. Whoever maliciously and without the consent of the person entitled to the possession thereof, shall move, take, take away, carry away or convert to his own use, any bicycle, tricycle, motorcycle, automobile or any other motor driven vehicle, or any horse, wagon, cart, buggy, surry or other wheeled vehicle, or any vehicle of any kind whatsoever, or any boat, skiff, canoe, sampan, sailboat, motorboat, launch or vessel of any kind whatsoever, shall be guilty of the crime of malicious conversion and upon conviction thereof shall be punished by a fine of not more than One Thousand Dollars (\$1,000.00) or by imprisonment at hard labor for not more than five years or both, in the discretion of the Court."
3. Strike our Section 2.
4. Amend Section 3 to read: "Section 2. This Act shall take effect upon its approval."

As thus amended, the Committee recommends the passage of the bill.

Respectfully submitted,

JUDICIARY COMMITTEE:

ALFRED L. CASTLE,
Chairman;
J. H. CONEY,
G. P. KAMAUOHA,
R. H. MAKEKAU,
WM. T. ROBINSON.

Upon motion by Senator Castle, seconded by Senator Kamauoha, the report was adopted. The Bill, as amended, thereupon passed Second Reading.

Upon motion by Senator Castle, seconded by Senator Makekau, the Bill, as amended, was referred to the Committee on Enrollment, Revision and Printing.

Senator Castle, for the Committee on Judiciary, presented a report (Stand. Com. Rep. No. 58) recommending the passage of House Bill No. 99, entitled: "An Act to amend Section 1553 of the Revised Laws of Hawaii, 1915, pertaining to vacancies in county offices," with certain amendments. The report was read by the Clerk as follows:

Honolulu, T. H., March 12, 1917.

Honorable Charles F. Chillingworth,
President of the Senate.

Sir:—Your Judiciary Committee, to which was referred House Bill No. 99, entitled: "An Act to amend Section 1553 of the Revised Laws of Hawaii, 1915, pertaining to vacancies in county offices," begs leave to report as follows:

The present law provides that a vacancy in a Board of Supervisors shall be filled by appointment by the Governor. The proposed bill would

change the law and allow the Board of Supervisors to fill a vacancy in its own Board rather than the Governor.

The theory of the proposed bill is unquestionably correct and carries out the principle of home-rule in each county.

The committee, however, feels that if the vacancy should occur twelve months, and prior thereto, before the end of the term for which the Board was elected, a special election should be called by the Board to fill such vacancy.

The Committee therefore recommends the following amendments:

At end of Section 1 strike out the “,” and quotation marks (“”) and add, “for the remainder of the unexpired term of such office. Provided, however, that in the event that such vacancy shall occur in the Board of Supervisors prior to twelve months before the end of the term for which such Board was elected then a special election shall be called by the Board of Supervisors to fill such vacancy, which election shall be held in the manner required for a general election.”

As thus amended, the Committee recommends the passage of the Bill.

Respectfully submitted,

Upon motion by Senator Coney, seconded by Senator Makekau, the report was adopted. The Bill, as amended, thereupon passed Second Reading.

Senator Castle, for the Committee on Judiciary, presented a report (Stand. Com. Rep. No. 61) recommending that Senate Bill No. 43, entitled: "An Act to amend Section 227, Chapter 133 of the Revised Laws of Hawaii, 1915, relating to concurrent jurisdiction of district courts in all civil actions," be tabled. The report was read by the Clerk as follows:

Honolulu, T. H., March 13, 1917.

Honorable Charles F. Chillingworth,
President of the Senate.

Sir:—Your Judiciary Committee, to which was referred Senate Bill No. 43, entitled: "An Act to amend Section 227, Chapter 133 of the Revised Laws of Hawaii, 1915, relating to concurrent jurisdiction of district courts in all civil actions," begs leave to report as follows:

This bill proposes to raise the jurisdiction of district courts where the debt or damage or value of property claimed does not exceed Five Hundred Dollars. The present limit is Three Hundred Dollars.

This matter was before the Legislature of 1915, was fully considered then and the bill was defeated.

The Committee does not feel that it is advisable to raise the jurisdiction to include amounts up to Five Hundred Dollars, and therefore recommends that the bill be tabled.

Respectfully submitted,

ALFRED L. CASTLE,
Chairman;
J. H. CONEY,
R. H. MAKEKAU,
G. P. KAMAHOHA,
WM. T. ROBINSON,

Upon motion by Senator Castle, duly seconded and carried, the report was adopted. The Bill was thereupon ordered tabled.

Senator Castle, for the Committee on Judiciary, presented a report (Stand. Com. Rep. No. 62) recommending that Senate Bill No. 16, entitled: "An Act to amend Act 203 of the Session Laws of 1915, relating to the appointment of district magistrates," be tabled. The report was read by the Clerk as follows:

Honolulu, T. H., March 13, 1917.

Honorable Charles F. Chillingworth,
President of the Senate.

Sir:—Your Judiciary Committee, to which was referred Senate Bill No. 16, entitled: "An Act to amend Act 203 of the Session Laws of 1915, relating to the appointment of district magistrates," begs leave to report as follows:

The Committee feels that it would be a mistake to put in the hands of the Chief Justice of the Supreme Court the appointment of district magistrates throughout the Territory. There is considerable pulling back and forth by the various factions in regard to the appointment of district magistrates. The passage of the bill would tend to put politics into the Supreme Court rather than keep them out. The Legislature of 1915 went on record putting the power of appointment of district magistrates in the Governor.

The Committee feels that this is where the power properly belongs and recommends that the Bill be tabled.

Respectfully submitted,

JUDICIARY COMMITTEE.

ALFRED L. CASTLE,
Chairman;

J. H. CONEY,

R. H. MAKEKAU,

G. P. KAMAUAHA,

WM. T. ROBINSON,

Senator Castle moved that the report be adopted. This motion was seconded by Senator Makekau.

Upon motion by Senator Pacheco, seconded by Senator Desha, the ye and no vote was taken as follows:

Ayes: Senators Castle, Coney, Correa, Hind, Kamauoha, Makekau, Mikaelé, Quinn and Robinson. Total, 9.

Noes: Senators Baldwin, Cooke, Desha, Pacheco, Shingle and Mr. President. Total, 6.

The Bill was thereupon ordered tabled.

Senator Castle, for the Committee on Judiciary, presented a report (Stand. Com. Rep. No. 63) recommending that Senate Bill No. 18, entitled: "An Act to amend Section 1553, Revised Laws of Hawaii, 1915, relating to vacancies," be tabled. The report was read by the Clerk as follows:

Honolulu, T. H., March 13, 1917.

Honorable Charles F. Chillingworth,
President of the Senate.

Sir:—Your Judiciary Committee to which was referred Senate Bill No. 18, entitled: "An Act to amend Section 1553, Revised Laws of Hawaii, 1915, relating to vacancies," begs leave to report as follows:

This bill is fully covered by the report on House Bill No. 99 on the same subject in which the Committee recommended the adoption of the House Bill with certain amendments and the report was adopted.

The Committee therefore recommends that this bill be tabled.

Respectfully submitted,

JUDICIARY COMMITTEE,
ALFRED L. CASTLE,

Upon motion by Senator Castle, seconded by Senator Kamauoha, the report was adopted. The Bill was thereupon ordered tabled.

Senator Castle, for the Committee on Judiciary, presented a report (Stand. Com. Rep. No. 64) recommending that House Bill No. 36, entitled: "An Act relating to the appointment of district magistrates and amending Section 2295 of the Revised Laws of Hawaii, 1915, as amended by Act 203 of the Session Laws of 1915," be tabled. The report was read by the Clerk as follows:

Honolulu, T. H., March 13, 1917.

Honorable Charles F. Chillingworth,
President of the Senate.

Sir:—Your Judiciary Committee, to which was referred House Bill No. 36, entitled: "An Act relating to the appointment of district magistrates and amending Section 2295 of the Revised Laws of Hawaii, 1915, as amended by Act 203 of the Session Laws of 1915," begs leave to report as follows:

The only difference between House Bill No. 36 and Senate Bill No. 16 is that it puts the power of appointment of district magistrates into the Supreme Court instead of the Chief Justice. The bill does not state that the appointment is left to the judges of the court or a majority thereof, but puts it directly into the Supreme Court, probably sitting as a court. This, perhaps, was not the intent of the bill.

The reason given by the committee for tabling Senate Bill No. 16 also apply to House Bill No. 36.

The Committee therefore recommends that the bill be tabled.

Respectfully submitted,

JUDICIARY COMMITTEE,
ALFRED L. CASTLE,
Chairman;
J. H. CONEY,
R. H. MAKEKAU,
G. P. KAMAUOHA,
WM. T. ROBINSON.

Upon motion by Senator Castle, seconded by Senator Makekau, the report was adopted. The Bill was thereupon ordered tabled.

Senator Castle, for the Committee on Judiciary, presented a report (Stand. Com. Rep. No. 65) to the effect that the matter referred to in Senate Resolution No. 9 had been covered by a previous report of the Committee on Judiciary. The report was read by the Clerk as follows:

Honolulu, T. H., March 13, 1917.

Honorable Charles F. Chillingworth,
President of the Senate.

Sir:—Your Judiciary Committee, to which was referred Senate Resolution No. 9, relating to requesting the Attorney General for opinion as to whether or not a member of the Legislature is eligible and qualified to become a candidate for election to any office of any county or city and county, begs leave to report as follows:

The committee has received the opinion of the Attorney General in compliance with the resolution.

This resolution was covered by a report of the Committee on Senate Bill No. 19, which report was adopted.

The committee therefore returns the resolution to be filed.

Respectfully submitted,

JUDICIARY COMMITTEE,

J. H. CONEY,

Upon motion by Senator Castle, duly seconded and carried, the report was adopted.

Senator Desha, for the Committee on Education, presented a report (Stand. Com. Rep. No. 66) recommending that House Bill No. 161, entitled: "An Act to amend Section 288 of the Revised Laws of Hawaii, 1915, as amended by Section 2 of Act 92 of the Session Laws of 1915, relative to duties of deputy sheriffs," be passed. The report was read by the Clerk as follows:

Honolulu, T. H., March 13th, 1917.

Hon. Chas. F. Chillingworth,
President of the Senate.
Senate Chamber.

Sir:—Your Education Committee, to whom was referred House Bill No. 161, entitled: "An Act to amend Section 288 of the Revised Laws of Hawaii, 1915, as amended by Section 2 of Act 92 of the Session Laws of 1915, relative to duties of deputy sheriffs," has had the same under careful consideration, and begs leave to report as follows:

The object of the bill is to give authority to deputy sheriffs or such police officers in his district as he may designate, to visit not less than once a week each private school in which English is taught within his jurisdiction to ascertain from the teacher in charge what children, if any, persist in absenting themselves from such school. The present

law gives deputy sheriffs and his police officers such supervision over children attending public schools only. The request for this change has come from private schools and has found favor of the Superintendent of Public Instruction.

The proposed amendments are as follows:

Add to Section 2 of Act 92 of Session Laws of 1915 after word "public" in line 4 the words: "and private schools in which English is the basis of education," while the words: "said department of public instruction" at the end of said section have been deleted.

Your Committee on Education therefore would recommend that House Bill No. 161 pass.

..

Respectfully submitted,

That the Senate agree to all the amendments numbered 1, 2 and 3;

That amendments, as follows: "December 31st" be inserted in the title, and in the last line of Section 1, respectively, instead of "September 30th," and "And they with the Governor, the President of the Senate and the Speaker of the House of Representatives shall "be in-

serted after the word "Representatives" in the fifth line of Section 2 of the bill, be agreed to;

Honolulu, T. H., March 14, 1917.

Hon. Chas. F. Chillingworth,
President of the Senate.

Sir:—Your Committee on Education, to whom was referred Department Communication No. 6, relating to the School Budget as prepared by the Board of Commissioners of Public Instruction, which Budget, provided for in Section 298 of the Revised Laws of Hawaii, 1915, was presented to said Commissioners by the Board of Estimates provided for in Section 299 of the Revised Laws of Hawaii, 1915, and consisting of the Secretary of the Territory, the Superintendent of Public Instruction, the Mayor of the City and County of Honolulu, and the Chairmen of the Boards of Supervisors of the several Counties, begs leave to report as follows:

The Committee has had the same under careful consideration. They have met with the Superintendent of Public Instruction and the Inspector General of Schools, and others interested in education.

The Governor, in the department communication referred to our Committee, transmitted with his approval the School Budget, while the Board of Estimates submitted the same as revised.

The School Budget thus recommended and submitted is as follows:

General Fund	\$226,540.00
Special Fund	762,500.00
Total	\$989,040.00

The Governor in the same communication also recommended an increase in teachers' salaries to compensate for the increased cost of living, viz:

For the concluding four months of 1917.....	\$ 23,669.68
For twelve months, 1918.....	71,009.04
Total	\$ 94,678.72

The Superintendent of Public Instruction presented to us the following additional recommendations which were brought to his attention since the completion of the Budget:

ADDITIONAL RECOMMENDATIONS.

Puukapu (new homestead, Waimea, Hawaii):

1 school room	\$1,000.00	
1 school cottage	1,200.00	\$ 2,200.00

to be inserted on page 8 of Communication, line 33A.

Holualoa:

For purchase of lands and buildings from Mrs. Scott, of Kona, Hawaii.....	2,600.00
---	----------

to be inserted on page 9, line 46A.

Kealahou, Waikoa, Kula, Maui:

2-room addition and cottage.....	4,000.00
----------------------------------	----------

to be added on page 10. line 12A.

making total increase.....	\$ 8,800.00
which added to Special Fund in School Budget of.....	762,500.00

thus making total of Specific Fund in Budget.....\$771,300.00

The raise in teachers' salaries recommended by the Governor is provided for in Senate Bill No. 52, relating to appropriations out of the general revenues of the Territory for the biennial period ending June 30, 1919, \$24,000.00.

The only changes proposed by your committee on the recommendation of the Superintendent of Public Instruction, are therefore as follows:

	Original Amount.	Increased to.
Hawaii, New Buildings.....	\$171,600.00	\$173,800.00
Hawaii, New Grounds.....	9,250.00	11,850.00
Maui, New Buildings.....	65,500.00	69,500.00
Totals	\$246,350.00	\$255,150.00

which shows the total increase mentioned above of \$8800.00.

The item of \$5000.00 under sub-head Maui for "furniture and fixtures for the proposed new high school" on Maui, we recommend to amend same by deleting the words "proposed new" after word "for" on page 11, line 27, as the projectors of the proposed new high school have changed their minds, but the appropriation will be needed by the present Maui High School at Hamakuapoko.

With these amendments the Special Fund on page 6 of the printed copy of communication as amended by including the recommendations of the Superintendent of Public Instruction to your committee, will then be as follows:

SPECIAL FUND.

	Hawaii.	Maui.	Oahu.	Kauai	Total.
New Buildings	\$173,800	\$ 69,500	\$217,350	\$44,100	\$504,750
Repairs and Maintenance	50,000	30,000	30,000	16,000	126,000
Janitors	15,000	12,000	40,000	3,000	70,000
Furniture and Fixtures..	15,000	6,000	20,000	10,000	51,000
Furniture and Fixtures for High School.....	5,000	5,000
New Grounds	11,850	2,700	14,550
Totals	\$265,650	\$122,500	\$307,350	\$75,800	\$771,300

The Superintendent of Public Instruction favors the increase of the salary of the Inspector General of Schools from \$4800.00 to \$5400.00, as the salaries of the Supervising Principals are \$6000.00 each for the biennial period, including their traveling expenses.

The item for Survey Department \$4800.00 is a new one, and from the nature of his duties as explained by the Superintendent of Public Instruction to your committee, it appears that the creation of such an office is absolutely necessary to insure the efficiency of the ever-increasing office duties of the department.

Industrial and manual training. \$50,000.00. This includes equipment, supplies, and materials for schools which are constantly advancing in price under present conditions. All the big schools will be supplied with their own carpenter shop equipments, etc., to fit its pupils in their industrial and vocational training.

Lahainaluna. \$60,000.00. It is possible that this old school of historic interest and value will be transferred to a Board of Commissioners of Three.

As the total appropriations asked for in this Departmental Communication No. 6, together with proposed amendments, are \$457,930.00 more than the budget for the corresponding period ending December 31, 1917—

Act 132 of Session Laws of 1915, now totalling \$997,840.00, not, however, including the \$94,678.72 recommended by the Governor for increase of teachers' salaries—your committee is of the opinion that the said Departmental Communication requires the careful consideration also of the Senate Committee of Ways and Means to study and weigh it from the financial standpoint as regards the available revenues of the Territory, which must also be considered.

Your Committee on Education therefore respectfully recommends that Department Communication No. 6, together with the proposed amendments enumerated above, be referred to Senate Committee on Ways and Means for further consideration.

Respectfully submitted,

EDUCATION COMMITTEE.
S. L. DESHA, Chairman;
GEO. P. COOKE,
ALFRED L. CASTLE.

Dear Sir:—Permit me to reply to your letter of March 12th, enclosing certified copy of Senate Resolution No. 14, introduced by Senator G. P. Kamauoha.

The Resolution asks certain questions relative to Act 129 of the Session Laws of 1915, said Act appropriating \$1500.00 for the purpose of relocating and constructing homestead roads, or roads through the lots of Kukuiope and Olelomoana-Opihihali, District of South Kona, County of Hawaii.

I am informed by the Department of Public Works that on August 31st, 1915, a contract was entered into between the Territory and A. L.

Maele for the sum of \$1313.13 for the construction of the roads above noted. The expenses of surveying, etc., were \$187.87, making a total of \$1500.00, the amount of the appropriation.

The object of this Act is to amend the present Law, relating to Bond issue, from \$9,000,000.00 to \$12,000,000.00 in order to make provision for the amounts necessary to be embodied in the Loan Fund Act of the present session of the legislature.

Senator Shingle, for the Committee on Ways and Means, presented a report (Stand. Com. Rep. No. 70) recommending that Senate Bill 58, entitled: "An Act making special appropriations to pay certain claims against the Territory of Hawaii," be passed. The report was read by the Clerk as follows:

Honolulu, T. H., March 15, 1917.

Hon. Charles F. Chillingworth,
President of the Senate.

Sir:—Your Committee on Ways and Means to which was referred Senate Bill No. 58, entitled "An Act making special appropriations to pay certain claims against the Territory of Hawaii," begs leave to report as follows:

Your Committee has had this bill under careful consideration and find that the amounts claimed by the different parties mentioned therein are just and legal.

In the case of Lonohiwa—he has forfeited his homestead, the improvements were sold, and after the payment of all expenses incidental thereto, a balance of \$240.00 was deposited in the Treasury.

Claim of August Botelho—his land was originally appraised at a fixed sum which he paid in installments, completing his payments in time. During the time he was paying for his land, the area, by mutual agreement was reduced, because the government wanted a certain portion of the lot in question, and at the same time, the price was agreed to be

reduced on the land now claimed. This agreed amount was never reimbursed.

In the case of Mytrice S. Leggett—lots 39, 76 and 77—Manowaiopae homesteads, had by regular drawing held, been drawn by another person and allotted to said person. A question as to the right of said other person to hold said lots was raised, pending a ruling of the Attorney General. In the meantime Mytrice S. Leggett made application, and also made payments amounting to \$146.50 which payments were deposited in the treasury. Since then the Attorney General has ruled in favor of the first party. These findings are in accordance with the records of the Public Land and the Territorial Treasurer's offices.

Your committee under the circumstances recommends that the bill be passed.

Respectfully submitted,

R. W. SHINGLE,
Chairman;
H. A. BALDWIN,
J. H. CONEY,
E. W. QUINN,
ROBT. HIND.

Upon motion by Senator Shingle, duly seconded and carried, the report was adopted. The Bill thereupon passed Second Reading.

Senator Shingle, for the Committee on Ways and Means, presented a report (Stand. Com. Rep. No. 71) recommending that House Bill No. 169, entitled: "An Act making an additional appropriation of \$10,000.00 for completing the construction and extension of Honuapo wharf," be passed. The report was read by the Clerk as follows:

Honolulu, T. H., March 15, 1917.

Hon. Charles F. Chillingworth,
President of the Senate.

Sir:—Your Committee on Ways and Means to which was referred House Bill No. 169, entitled "An Act making an additional appropriation of \$10,000.00 for completing the construction and extension of Honuapo wharf," begs leave to report as follows:

Your committee has had this bill under careful consideration and after a consultation with the Territorial Treasurer and the Superintendent of Public Works find that the appropriation asked for is for the completion of work under way at the present time under the direction of the Superintendent of Public Works. In order to facilitate the completion of this work without a loss to the Territory the appropriation sought is necessary at the present time as the construction being done now would suffer damage if a delay occurred at this time.

Your committee would therefore recommend that the bill pass.

Respectfully submitted,

R. W. SHINGLE,
Chairman;
H. A. BALDWIN,
ROBT. HIND,
E. W. QUINN,

Upon motion by Senator Shingle, duly seconded and carried, the report was adopted. The Bill thereupon passed Second Reading.

Senator Castle, for the Committee on Judiciary, presented a report (Stand. Com. Rep. No. 72) recommending that Senate Bill No. 49, entitled: "An Act relating to the opening and improvement of highways, amending Section 1798 of Chapter 112 of the Revised Laws of Hawaii, relating to surety bonds," be tabled. The report was read by the Clerk as follows:

Honolulu, T. H., March 15, 1917.

Honorable Charles F. Chillingworth,
President of the Senate.

Sir:—Your Judiciary Committee, to which was referred Senate Bill No. 49, entitled: "An Act relating to the opening and improvement of highways, amending Section 1798 of Chapter 112 of the Revised Laws of Hawaii, relating to surety bond," begs leave to report as follows:

This Bill proposes to change the present law relating to bidding on contracts under the Improvement Act by providing that a bid must be accompanied by a certified check of five per cent of the amount bid instead of ten per cent and cutting down the bond required of the successful bidder from the amount of the contract to twenty-five per cent of the amount.

The Committee feels that if the changes were recommended, the City and County would not have sufficient protection against irresponsible contractors, and therefore recommends that the bill be tabled.

Respectfully submitted,

JUDICIARY COMMITTEE.
ALFRED L. CASTLE,
Chairman;
R. H. MAKEKAU,
WM. T. ROBINSON,
J. H. JONEY,
G. P. KAMAUOHA.

Upon motion by Senator Castle, seconded by Senator Shingle, the report was adopted. The Bill was thereupon ordered tabled.

Senator Castle, for the Committee on Judiciary, presented a report (Stand. Com. Rep. No. 73) recommending that Senate Bill No. 64, entitled: "An Act to amend Section 2122 of the Revised Laws of Hawaii of 1915, relating to publication of notices of hearing for liquor licenses," be passed with certain amendments. The report was read by the Clerk as follows:

Honolulu, T. H., March 15, 1917.

Honorable Charles F. Chillingworth,
President of the Senate.

Sir:—Your Judiciary Committee, to which was referred Senate Bill No. 64, entitled: "An Act to amend Section 2122 of the Revised Laws of Hawaii of 1915, as amended by Act 211 of the Session Laws of 1915, relating to publication of notices of hearing for liquor licenses," begs leave to make the following report:

The Legislature last Session amended the section of the liquor law relating to publication of notices of application for licenses by providing that the publication might be in the discretion of the Board in both the English and the Hawaiian languages. The present law reads "in some newspapers published in the English language and, in the discretion of the Board, the Hawaiian Language."

There must have been a typographical error, for it should read "in some newspaper," instead of the plural. At any rate, certain of the liquor commissions have construed this to mean that the publication must be in more than one English newspaper and therefore have not felt it fair to require a further publication in the Hawaiian Language; although there are some precincts unquestionably in which the publication in the Hawaiian language would be a benefit.

In order to clear up the doubt and to make the requirement be one newspaper in the English Language and in the discretion of the Board one newspaper in the Hawaiian Language, the Committee recommends the following amendment to the bill:

Strike out the word "some" wherever it occurs and insert in lieu thereof the word "a".

As thus amended, the Committee recommends the passage of the bill.

Respectfully submitted,

JUDICIARY COMMITTEE.

ALFRED L. CASTLE,

Chairman;

The report was read by the Clerk as follows:

Honolulu, T. H., March 15, 1917.

Honorable Charles F. Chillingworth,
President of the Senate.

Sir:—Your Judiciary Committee, to which was referred House Bill No. 116, entitled: "An Act to amend Section 1537 of the Revised Laws of Hawaii, 1915, as amended by Act 157 of the Session Laws of 1915, relating to County Election proclamation," begs leave to make the following report:

This bill proposes to change the present law by cutting down the time for issuing an election proclamation from thirty days to twenty days. The former time was sixty days.

The Committee does not feel that it is advisable to further cut down the time, and therefore recommends the bill be tabled.

Respectfully submitted,

JUDICIARY COMMITTEE.
ALFRED L. CASTLE,
Chairman;
R. H. MAKEKAU,
WM. T. ROBINSON,
J. H. JONEY,

Upon motion by Senator Castle, seconded by Senator Kamaūoha, the report was adopted. The Bill was thereupon ordered tabled.

Senator Desha, for the Committee on Education, presented a report (Stand. Com. Rep. No. 75) recommending that House Bill No. 131, entitled: "An Act to amend Section 297, Chapter 25, Revised Laws of Hawaii, 1915, regarding maintenance of schools," be passed. The report was read by the Clerk as follows:

Honolulu, T. H., March 15th, 1917.

Hon. Chas. F. Chillingworth,
President of the Senate,
Senate Chamber, Ter. Hawaii.

Sir:—Your Committee on Education, to whom was referred House Bill No. 131, entitled: "An Act to amend Section 297, Chapter 25, Revised Laws of Hawaii, 1915, Regarding Maintenance of Schools," having had the same under careful consideration, begs leave to report as follows:

The bill is the same as the existing law, Section 297 of Revised Laws of Hawaii, 1915, excepting the words in the proviso: "forty-five thousand dollars per month plus fifty dollars additional" in lines 19 and 20 of said section have been substituted by words: "seventy-three thousand five hundred dollars per month plus sixty dollars additional" for every thirty-five children of school age added to the enrollment of the public schools after June 30, 1917, which is an increase of \$28,500.00 since the law was enacted in 1911.

The present Pay Roll of teachers is about \$61,000.00 per month and with the expected raise of teachers' salaries according to schedule, viz.:

69 Teachers earning \$100.00 or more.....	5% increase.
605 " " under \$100.00	10% "
165 " " \$50.00	15% "

the \$73,500.00 per month plus \$60.00 asked would be needed.

The above figures are shown on page 19 of the Report of Superintendent of Public Instruction to Dec. 31, 1916, and on page 16 of same report stated that there were 20,000 school children enrolled in 1911 while in the fall of 1916 the enrollment was approximately 31,500. The department expects one thousand more children after the new school year.

Your Committee therefore recommends that the bill pass.

Respectfully submitted,

No. 76) recommending that House Bill No. 78, entitled: "An Act to amend Section 1195, Revised Laws of Hawaii, 1915, referring to fees for examination of fiduciary companies," be tabled. The report was read by the Clerk as follows:

Honolulu, T. H., March 15, 1917.

Hon. Charles F. Chillingworth,
President of the Senate.

Sir:—Your Committee on Ways and Means to which was referred House Bill No. 78, entitled "An Act to amend Section 1195 Revised Laws of Hawaii, 1915, referring to fees for examination of Fiduciary Companies," begs leave to report as follows:

Your Committee has had this bill under careful consideration and find that the object of this bill is to reduce the charge for the examination of the books and accounts of small companies of \$25,000.00 or less capitalization from \$25.00 to \$10.00. The expense of sending a bank examiner to the other island for such examinations would be greater than the fees sought to be collected from such companies for the work performed.

Your committee would therefore recommend that the bill be tabled.

Honolulu, T. H., March 16th, 1917.

Hon. Chas. F. Chillingworth,
President of the Senate.

Sir:—Your Committee on Enrollment, Revision and Printing begs leave to report that Senate Bill No. 69 has been printed and that the same is ready for distribution.

WM. T. ROBINSON,
Chairman.

The Committee on Enrollment, Revision and Printing having returned Senate Bill No. 69, entitled: "An Act to amend Sections 1 and 2 of Act 166 of the Session Laws of 1911, providing for public improvements, as amended by Act 170 of the Session Laws of 1913, and Acts 39 and 193 of the Session Laws of 1915," the same was referred to the Committee on Ways and Means.

Senator Cooke, for the Committee on Public Health, to which was referred Senate Bill No. 23, entitled: "An Act to repeal Act 67 of the Session Laws of 1915, entitled: "An Act to amend Section 628 of the Revised Laws of Hawaii, 1915, relating to the destruction of food fishes,"" presented a report (Stand. Com. Rep. No. 79), recommending that the Bill be tabled. The report was read by the Clerk, as follows:

Honolulu, T. H., March 16th, 1917.

Hon. Charles F. Chillingworth,

Sir:—Your Health Committee to which was referred Senate Bill No. 23, entitled "An Act to repeal Act 87 of the Session Laws of 1915, entitled 'An Act to amend Section 628 of the Revised Laws of Hawaii, 1915, relating to the destruction of food fishes,'" begs leave to report as follows:

That after due and careful consideration the committee recommends that the said Senate Bill No. 23 be tabled on the ground that it would not accomplish the purpose intended.

Respectfully submitted,

GEO. P. COOKE,
Chairman;
S. L. DESHA,
S. P. CORREA.

Upon motion by Senator Cooke, seconded by Senator Desha, the report was adopted. The Bill was thereupon ordered tabled.

Senator Cooke, for the Committee on Public Health, to which was referred House Bill No. 15, entitled: "An Act to provide for the protection of certain crustaceans known as lobsters, crawfish or ula and kuahonu or crabs," presented a report (Stand. Com. Rep. No. 80), recommending that the Bill be passed. The report was read by the Clerk, as follows:

Honolulu, T. H., March 16th, 1917.

Hon. Charles F. Chillingworth,
President of the Senate.

Sir:—Your Health Committee to which was referred House Bill No. 15, entitled "An Act to provide for the protection of certain crustaceans known as lobsters, crawfish or ula and kuahonu or crabs," begs leave to report as follows:

That after due and careful consideration the committee found that the protection asked for in this bill would tend to increase the numbers of certain crustaceans to later become available for food; therefore recommend that House Bill No. 15 be passed.

Respectfully submitted,

GEO. P. COOKE,
Chairman;
S. L. DESHA,
S. P. CORREA.

Upon motion by Senator Cooke, seconded by Senator Desha, the report was adopted. The Bill thereupon passed Second Reading.

Senator Cooke, for the Committee on Public Health, to which was referred House Bill No. 27, entitled: "An Act to amend Section 628 of the Revised Laws of Hawaii, 1915, as amended by Act 87 of the Session Laws of 1915, relating to the destruction of food fishes," pre-

sented a report (Stand. Com. Rep. No. 81), recommending that the Bill be passed. The report was read by the Clerk, as follows:

Honolulu, T. H., March 16th, 1917.

Hon. Charles F. Chillingworth,
President of the Senate.

Sir:—Your Health Committee, to which was referred House Bill No. 27, entitled “An Act to amend Section 628 of the Revised Laws of Hawaii, 1915, as amended by Act 78 of the Session Laws of 1915, relating to the destruction of food fishes,” begs leave to report as follows:

That after due and careful consideration the committee recommends that the said House Bill No. 27 be passed on the ground that this amendment to the present law would tend to protect the young of various fish, thus increasing the amount of food from this source.

Respectfully submitted,

GEO. P. COOKE,
Chairman;
S. L. DESHA,
S. P. CORREA.

Upon motion by Senator Cooke, seconded by Senator Kamauoha, the report was adopted. The Bill thereupon passed Second Reading.

Senator Cooke, for the Committee on Public Health, to which was referred House Bill No. 122, entitled: “An Act to amend Section 1055 of the Revised Laws of Hawaii, 1915, relating to the appointment of a Board of Pharmacy,” presented a report (Stand. Com. Rep. No. 82), recommending that the Bill be passed. The report was read by the Clerk, as follows:

Honolulu, T. H., March 16th, 1917.

Hon. Charles F. Chillingworth,
President of the Senate.

Sir:—Your Health Committee, to which was referred House Bill No. 122, entitled “An Act to amend Section 1055 of the Revised Laws of Hawaii, 1915, relating to the appointment of a Board of Pharmacy,” begs leave to report as follows:

That after due and careful consideration the committee found that as the examination of an applicant as pharmacist is a written examination; that the expense of having a member of the examining board in another county than the City and County of Honolulu will not be increased, and that a member not located in the City and County of Honolulu will be more apt to see that pharmacists in his county are duly licensed and examined; therefore your Committee on Health recommends that this said House Bill No. 122, be passed.

Respectfully submitted,

GEO. P. COOKE,
Chairman;
S. L. DESHA,
S. P. CORREA.

Upon motion by Senator Cooke, seconded by Senator Desha, the report was adopted. The Bill thereupon passed Second Reading.

Senator Cooke, for the Committee on Public Health, to which was referred House Bill No. 148, entitled: "An Act to prohibit the polluting of springs, streams, rivers, fishponds, reservoirs or wells within any incorporated city or any city whose geographical limits are fixed by act of the Legislature of the Territory of Hawaii," presented a report (Stand. Com. Rep. No. 83), recommending that the Bill be tabled. The report was read by the Clerk, as follows:

Honolulu, T. H., March 16th, 1917.

Hon. Charles F. Chillingworth,
President of the Senate.

Sir:—Your Health Committee to which was referred House Bill No. 148, entitled "An Act to prohibit the polluting of springs, streams, rivers, fishponds, reservoirs or wells within any incorporated city or any city whose geographical limits are fixed by act of the Legislature of the Territory of Hawaii," begs leave to report as follows:

That after due and careful consideration the committee recommends that the said House Bill No. 148 be tabled on the ground that the taking effect of this Bill would be indefinite and that the present law as to "potable water" would cover the protection of the various sources of water to be used for drinking and domestic uses.

Respectfully submitted,

GEO. P. COOKE,
Chairman;
S. L. DESHA,
S. P. CORREA.

Upon motion by Senator Cooke, seconded by Senator Desha, the report was adopted. The Bill was thereupon ordered tabled.

Senator Baldwin, for the Committee on Public Lands and Internal Improvements, to which was referred House Concurrent Resolution No. 3 authorizing the Commissioner of Public Lands to issue patents to all applicants for preference rights, as provided under Section 73 of the Organic Act, presented a report (Stand. Com. Rep. No. 84), recommending that the resolution be tabled. The report was read by the Clerk, as follows:

Honolulu, T. H., March 16, 1917.

Hon. Charles F. Chillingworth,
President of the Senate.

Sir:—Your Committee on Public Lands and Internal Improvements, to which was referred House of Representatives Concurrent Resolution No. 3, authorizing the Commissioner of Public Lands to issue patents to all applicants for preference rights, as provided under Section 73 of the Organic Act, begs leave to report as follows:

That after due and careful consideration, we believe that the passage of this Concurrent Resolution is unnecessary, as we find that the Commissioner of Public Lands is carrying out the work authorized in the same

with all possible expedience. Considering conditions these preference rights in many cases preclude hasty action, and we find no unnecessary delay exists; we therefore recommend that the Concurrent Resolution be tabled.

Respectfully submitted,

H. A. BALDWIN,
Chairman;
ROBT. HIND,
ROBERT W. SHINGLE,
M. C. PACHECO,
S. L. DESHA.

Upon motion by Senator Baldwin, seconded by Senator Desha, the report was adopted. House Concurrent Resolution No. 3 was thereupon ordered tabled.

Senator Baldwin for the Committee on Public Lands and Internal Improvements, to which was referred House Bill No. 8, entitled: "An Act providing for the disposition of certain public lands known as Waiau, Ili of Piihonua, District of South Hilo, County of Hawaii," presented a report (Stand. Com. Rep. No. 85), recommending that the Bill be passed. The report was read by the Clerk, as follows:

Honolulu, T. H., March 16, 1917.

Hon. Charles F. Chillingworth,
President of the Senate.

Sir:—Your Committee on Public Lands and Internal Improvements, to which was referred House Bill No. 8, entitled "An Act providing for the disposition of certain public lands known as Waiau, Ili of Piihonua, District of South Hilo, County of Hawaii," begs leave to report as follows:

That after due and careful consideration we find that this bill provides for the sale of house lots in Waiau, Ili of Piihonua, by drawings rather than by having the lots put up at public auction. It appears to the committee that this method of allotment is desirable and would therefore recommend the passage of the bill.

Respectfully submitted,

H. A. BALDWIN,
Chairman;
ROBT. HIND,
ROBERT W. SHINGLE,
M. C. PACHECO,
S. L. DESHA.

Upon motion by Senator Baldwin, seconded by Senator Desha, the report was adopted. The Bill thereupon passed Second Reading.

Senator Baldwin, for the Committee on Public Lands and Internal Improvements, to which was referred House Bill No. 58, entitled: "An Act declaring and designating a certain tract of Government land at Piihonua, South Hilo, County of Hawaii, Territory of Hawaii, as public grounds for a high school, agricultural and botanical gardens," pre-

sented a report (Stand. Com. Rep. No. 86), recommending that the Bill be tabled. The report was read by the Clerk, as follows:

Honolulu, T. H., March 16, 1917.

Hon. Charles F. Chillingworth,
President of the Senate.

Sir:—Your Committee on Public Lands and Internal Improvements, to which was referred House Bill No. 58, entitled "An Act declaring and designating a certain tract of government at Piipihonua, South Hilo, County of Hawaii, Territory of Hawaii, as public grounds for a high school, agricultural and botanical gardens," begs leave to report as follows:

That after due and careful consideration we find that the Hilo High School is already provided with sufficient ground for its purposes and there are other lands available for agricultural and botanical garden ample for such needs, and further the land asked to be set apart by this bill is under a lease running to and until March 1, 1921, subject to a preference right of a number of citizens living on the same and that the lessee himself has established his own home at a very considerable expense, all of which rights would have to be reacquired by the government through condemnation proceedings resulting in large expense to the government and possibly injury to the claimants. And furthermore that on the site in question is established a valuable rock crusher outfit and stone quarry which the public would lose if the bill passes; we therefore would recommend that the bill be tabled.

Respectfully submitted,

H. A. BALDWIN,
Chairman;
ROBT. HIND,
ROBERT W. SHINGLE,
M. C. PACHECO,
S. L. DESHA.

Upon motion by Senator Makekau, seconded by Senator Kamauoha, the report was laid on the table to be taken up with the regular order of the day, Saturday, March 17, 1917.

Senator Castle, for the Committee on Judiciary, to which was referred House Bill No. 64, entitled: "An Act to amend Section 2448 of the Revised Laws of Hawaii, 1915, relating to time within which executions shall be returnable," presented a report (Stand. Com. Rep. No. 87), recommending that the Bill be passed. The report was read by the Clerk, as follows:

Honolulu, T. H., March 16, 1917.

Honorable Charles F. Chillingworth,
President of the Senate.

Sir:—Your Judiciary Committee, to which was referred House Bill No. 64, entitled: "An Act to amend Section 2448 of the Revised Laws of Hawaii, 1915, relating to time within which executions shall be returnable," begs leave to report as follows:

Under the present law, although there is a time limit in which executions from the District Court shall be made returnable, there is no such time limit for executions issued from the Circuit Court.

The proposed bill makes it sixty days in both instances, and the Committee therefore recommends the passage of the bill.

Respectfully submitted,

JUDICIARY COMMITTEE.

ALFRED L. CASTLE,

Chairman;

R. H. MAKEKAU,

WM. T. ROBINSON,

J. H. CONEY,

G. P. KAMAUOHA.

Upon motion by Senator Robinson, seconded by Senator Correa, the report was adopted. The Bill thereupon passed Second Reading.

Senator Castle, for the Committee on Judiciary, to which was referred House Bill No. 138, entitled: "An Act to amend Section 2783 of the Revised Laws of Hawaii, 1915, relating to attachment," presented a report (Stand. Com. Rep. No. 88), recommending that the Bill be passed. The report was read by the Clerk, as follows:

Honolulu, T. H., March 16, 1917.

Honorable Charles F. Chillingworth,
President of the Senate.

Sir:—Your Judiciary Committee, to which was referred House Bill No. 138, entitled: "An Act to amend Section 2783 of the Revised Laws of Hawaii, 1915, relating to attachment," begs leave to report as follows:

Under the present law of attachment a bond is required but this bond makes no provision for a case where a defendant is declared a bankrupt. It frequently happens that attachment is taken out and the defendant goes promptly into bankruptcy with the result that the Sheriff is out his proper costs and charges. A claim in the bankruptcy court has sometimes been allowed and sometimes not. At the present time, however, the law relating to attachment is considerably in favor of the plaintiff and it does not seem unreasonable to have his bond given the Sheriff proper protection against cases of bankruptcy.

The Committee therefore recommends the passage of the Bill.

Respectfully submitted,

JUDICIARY COMMITTEE.

A communication from Charles B. Forbes, Chairman of the Board of Harbor Commissioners (Dept. Com. No. 23), requesting an investigation by the Senate of the work done on Piers Nos. 8, 9 and 10, was read by the Clerk, as follows:

March 16, 1917.

Honorable Charles F. Chillingworth,
President of the Senate,
Honolulu, T. H.

Sir:—Inasmuch as I have been severely criticized in connection with the construction of Piers 8, 9 and 10, Honolulu Harbor, I believe that a full and complete investigation should be made of this work and my connection with it, and to that end would respectfully request that the Senate of the Territory of Hawaii appoint a committee to cooperate so far as possible, with the Committee of the House of Representatives in making a complete investigation of this project.

Respectfully,

CHARLES R. FORBES,
Chairman, Board of Harbor Commissioners

The communication was referred to the Committee on Judiciary.

The Civic Convention of the Territory of Hawaii, a volunteer organization consisting of delegates from the Commercial organizations of the Territory and representatives of the several Boards of County Supervisors, has for several successive years past, considered the subject of good roads and how to secure and maintain them in this Territory.

The following is a summary of the proceedings at the successive sessions of the Convention and the actions of committees, viz.:

1. The Convention which met in Honolulu in Sept., 1913, directed the appointment of a committee to report upon how best to secure construction and maintenance of good roads in this Territory.

A copy of the resolution adopted is attached hereto as Exhibit 1.

Under this resolution a committee was appointed consisting of Lorin A. Thurston, Hugh Howell, J. H. Moragne, R. W. Shingle and Clarence H. Cooke.

The Wailuku Convention thereupon adopted resolutions approving the recommendations of the committee and directing that a law carrying the same into effect be drafted and submitted to the next legislature.

A copy of the resolution adopted by the Wailuku Convention is hereto attached as Exhibit 3.

In accordance with the Wailuku resolutions the said committee drafted a law and submitted it, with an accompanying report, to the Hawaiian Legislature of 1915.

A copy of the committee report to the legislature is hereto attached as Exhibit 4.

A copy of the draft of law submitted by the committee to the legislature is hereto attached as Exhibit 5.

Action of the Legislature. The above report and draft of law was presented by the committee of both houses of the Legislature of 1915 and formally presented as a bill in each house.

The bill was favorably reported by the committee of the House of Representatives and passed first and second reading, but failed of final action, owing to the volume of legislation before the house and the shortness of the period in which to consider the subject.

The bill passed first reading in the Senate and was referred to a committee which expressed its approval of the principles involved in the bill; but the same reasons which prevented action in the house caused the bill to fail in the Senate.

Action of 1915 Civic Convention. The Civic Convention for 1915 met at Lihue, Kauai, on September 27th.

The committee reported its action and the results before the legislature.

There being no legislative session before the next regular Civic Convention, the Kauai Convention referred consideration of the subject to the next meeting of the Convention at Hilo, Hawaii.

Action of the 1916 Civic Convention. The committee again reported to the Civic Convention of 1916 held at Hilo, Hawaii, presenting the draft of a law.

The Hilo Convention thereupon adopted resolutions approving the draft of law and directing the committee to present the same to the legislature of 1917.

A copy of the resolutions adopted by the Hilo Convention is attached hereto as Exhibit 6.

Statement by the Committee to the Legislature of 1917.

The committee respectfully reports to the Legislature that the same general conditions incident to Hawaiian Road Law, Road Appropriations and Administration thereof, exist today that existed in 1913.

Such conditions may be summarized as follows:

1. The roads and their maintenance in the several counties are under the exclusive control of the respective Boards of County Supervisors, with the exception hereunder noted.

2. On several of the islands the conditions are such that the road requirements, both from a local and a Territorial standpoint, can not be met by the current local funds.

3. To meet this situation, appeals are made to the legislature to appropriate money, from both current and loan funds, for specific roads.

The manifest necessity for the roads, and the fact that they will not be built unless the legislature comes to the rescue, has caused the legislature to grant a number of these requests, and expenditures aggregating several million dollars have been made.

4. The expenditure of these Territorial appropriations has been under Territorial supervision. As soon, however, as the work is completed, the care and upkeep of the roads has passed to the County Boards, the Territory having no further responsibility or control.

5. The section up-keep or cantonier system is in full force on Kauai; to a limited extent on Maui; to a still more limited extent on Hawaii and practically not at all on Oahu.

The general practice, subject to the above modification, is to build a road and then let it go for a year or two or three, until it is well worn, when a repair gang is put on, which restores the road to fairly passable condition. By the time this is repeated, the road is in such bad condition that it is beyond repair, and stays in such condition for a longer or shorter time until it is rebuilt, once more to go through the same cycle.

Principles which must be Recognized in order to Secure Good Roads in Hawaii.

The committee are of opinion that four principles lie at the foundation of securing and maintaining good roads in Hawaii, as follows:

First Principle. The section up-keep, or cantonier system, must be adopted to secure and maintain good roads.

This system has been adopted by every civilized country that has good roads.

It is a waste of money to build good roads and then let them go to ruin.

The only way to keep a road in repair, is to never let it go out of repair.

The system, in a nutshell, is to divide every new road into sections and put a man in continuous charge of each section to keep drainage ditches open and remedy defects when they first begin.

By this means the building or rebuilding of each section of road is a substantial gain to our road scheme, leading eventually to a complete system.

The present system is like a cat chasing its tail—it never gets anywhere.

Expensive roads are worn out and gone before the bonds which paid for them fall due.

If every road on every island were today put in perfect condition, in ten years they would be as imperfect as they are now, if the section up-keep system is not adopted.

Second Principle. The Territory as a whole, through the Territorial Government, should bear the whole cost of roads which are substantially of equal interest and benefit to the community as a whole.

An example of such roads would be one to the top of Haleakala, or to the top of Mauna Loa, both of which would be purely for tourist, scenic or scientific purposes.

On a like principle the National Government assumes the entire cost of maintaining national parks: even though they are located in individual states.

Third Principle. The Territory should join with the County Governments in the cost of roads which are of joint interest and benefit to the people as a whole, and to the local community, and which by reason of high cost can not be built, or will not be built for the present, with local funds.

Examples of such roads are the road from Hilo to the Volcano; from Kona to Waimea—forming a link around the Island, on Hawaii; the road from Haiku to Hana on Maui, and the road from Wainiha to Waimea, through the Napali district on Kauai, although the latter might be classed under the above second class.

In each of these cases the people of the Territory as a whole, have a direct interest in opening up the islands as a whole, as a tourist attraction. At the same time these roads have a large local economic value not shared in by the people of the other islands.

Under like general conditions, the national government, at its last session, adopted a policy of coöperation with the respective states who so desire, to build roads in the several States which are of more than local interest, and appropriated many millions of dollars for the purpose.

Likewise nearly every State government in the Union has adopted a policy of State-aid to roads of general use and interest, as distinguished from purely local roads.

In every instance State-aid is extended to a particular locality on the initiation of the local government; and the arrangements are made by mutual agreement between the city or county and the State government.

Fourth Principle. Territorial control of expenditures and maintenance should accompany Territorial participation in cost.

This principle is elementary. Territorial money expended on a par-

ticular island is in the nature of a trust fund, so far as the people of the other islands are concerned, with the Territorial government, or some representative thereof, as trustee to see that the trust fund and property are properly administered and cared for.

This principle is recognized as basic throughout the mainland, the expenditures, both for construction and maintenance, on all State-aided roads being made through a state road commission.

The draft of a law submitted herewith is the same as that submitted to the Legislature of 1915. It is believed by the committee that it will to a great extent remedy the present unsatisfactory conditions.

It embodies no new or untried principles; but is based on a form or "model law", drafted by the National Good Roads Association and the Massachusetts State-aid-to-Roads Law, with modifications to fit local conditions.

It is analyzed in the report of the committee to the Legislature of 1915, which is attached hereto as Exhibit 4, and to which reference is hereby made.

The committee submits the said draft for your consideration in the firm belief that if enacted into law it will be of material assistance in securing and maintaining good roads in Hawaii.

Respectfully submitted,

L. A. THURSTON,
HUGH HOWELL,
ROBERT W. SHINGLE,

EXHIBIT 1.

RESOLUTION RELATING TO GOOD ROADS ADOPTED BY THE CIVIC CONVENTION HELD AT HONOLULU, SEPTEMBER, 1913.

"Resolved, That the chairman of this convention be, and he hereby is, requested to appoint a committee of five to study the subject of the co-operation of the Territorial and County governments, in connection with the construction of new roads and the administration of the upkeep of new roads when built, and to formulate and present to the next annual meeting of the Civic and Commercial Convention any amendments to the present road laws which they may deem will better secure the construction and maintenance of good roads."

(Upon the adoption of the resolution, the chairman of the convention, J. W. Waldron, appointed as the committee called for, Lorrin A. Thurston, Hugh Howell, J. H. Moragne, Clarence H. Cooke and R. W. Shingle.)

EXHIBIT 2.

REPORT TO THE CIVIC CONVENTION HELD AT WAILUKU, OCTOBER, 1914, OF COMMITTEE APPOINTED BY THE CIVIC CONVENTION OF 1913, TO INVESTIGATE AND REPORT UPON WAYS AND MEANS FOR SECURING THE BETTER CONSTRUCTION AND UPKEEP OF ROADS IN HAWAII.

The last Civic Convention appointed a committee of five, to study the subject of the construction and upkeep of roads in Hawaii; to devise some plan for securing and maintaining better roads, and to submit a report thereon to the Third Annual Civic Convention, with a view of having recommendations on the subject made to the next Legislature.

The members appointed on said committee were Lorrin A. Thurston, C. H. Cooke, R. W. Shingle, Hugh Howell and J. H. Moragne.

The committee has considered the subject assigned to it, and submits the following report:

The committee at first thought of including a draft of proposed bill for submission to the Legislature; but concluded to submit, instead, a report setting forth the principles proposed. A bill can then be drawn in conformity with the principles finally adopted by the convention. This can be published so as to secure full public consideration.

Statement of Facts Concerning Financial, Political and Physical Status of Roads in Hawaii.

The following is a brief summary of the facts concerning roads in the Territory:

1. Physical Development and Status of Hawaiian Roads.

Up to 1888, there were a few macadamized roads in Honolulu; but there were none to be found elsewhere in the Territory; while there were practically no roads laid out on an engineering grade.

On the Island of Maui the road to Lahaina was merely a steep horse trail over the mountain.

On the Island of Hawaii there were no wagon roads in the districts of Puna, North and South Kona, and North and South Hilo (outside of the town of Hilo); and the districts of Kohala, Hamakua, and Kau had only a few miles of ungraded dirt roads. There were only horse trails to the volcano and connecting the several districts with each other.

As compared with this state, Hawaii of 1914, with its hundreds of miles of graded and macadamized roads, is an immense advance; but the conditions are still far from ideal. There are still many important links in the main roads around the several islands, poorly graded, unmacadamized, and in bad condition or impassable in rainy weather. As to local roads, while much has been done in the way of grading and macadamizing, much remains to be done.

2. Method of Financing Hawaiian Roads.

Prior to the establishment of County Government in 1905, all road work in the Territory was under control of, and financed by, the central government.

Road funds were derived from the poll tax of \$2.00 per annum on each male adult; legislative appropriations from the general fund and loans contracted by the Territorial Government.

Control of roads and expenditures of funds was exercised by a local road board in each district, appointed by the central government under the general control of the Superintendent of Public Works.

Transfer of Roads to Counties..

Under County Government, the entire control of all public roads in each county and the financing thereof, was transferred to the respective Boards of County Supervisors.

It soon became manifest that under the prevailing system of road administration, the available county funds were insufficient to keep existing roads in repair, and entirely inadequate to locate and construct new roads.

Territorial Assistance to Roads.

Under these circumstances the Legislature, in an unsystematic and haphazard fashion, has from time to time, made special appropriations for specific roads, partly from the general fund, and partly by means of Territorial loans.

The expenditure of this Territorial money has been partly under the

direction of the Superintendent of Public Works, and partly through a "Loan Fund Commission" in each county, appointed by the Government with the consent of the Senate, the Superintendent being ex-officio a member of each commission.

The commissions have had control of the construction of specific "belt roads", by means of loan funds, bonds being issued in the name of the Territory, to be ultimately paid by the several counties where spent. The commissions were given the sole and exclusive power of deciding what were to be deemed "belt roads" and which should first be attended to. They control no other road funds and no other roads; and, as soon as the construction of a road is completed its care automatically passes to the local Board of County Supervisors.

No Funds Provided for Upkeep.

No funds have been provided by the Territory for the upkeep of the roads built with Territorial funds. The result is that newly macadamized roads, costing between one and two million dollars are already in process of disintegration; and, if a change of policy is not speedily adopted, a large portion of these roads will practically be out of commission before the debt incurred for their construction is paid.

Method of County Road Administration.

With the exception of the County of Kauai, the several county governments have neither adopted nor pursued any consistent road policy. The idea has prevailed generally, that each supervisor should have the dispensing of the road money in his home district, and that he should be practically the road supervisor for his district.

The County of Kauai alone has adopted the proper system of appointing a competent road engineer, and placing the entire responsibility and execution of road construction and upkeep in his hands.

The Kauai Road System.

Under the Kauai system, politics have cut no figure in road administration. The road employees are appointed and retained in office because of their efficiency and not because of their party politics.

The policy of systematically and continuously keeping up the roads, by section hands, has been adopted and steadily pursued.

The result is that on Kauai existing roads have been kept in repair and all surplus has gone into regrading and extending, year by year, the macadamized roads. As a result, Kauai has the best and most economically administered roads of any county in the Territory.

Road System in Other Counties.

In the other counties, while road engineers have been employed from time to time, they have not, as a rule, been given the control of the road work, except to a limited extent; the county supervisors maintaining direct control of, not only the work, but the appointment of employees, the politics of members of the road force frequently having more effect on their appointment than their efficiency.

In the counties other than Kauai, there has been no systematic upkeep of the roads, by the sectional system, except for certain periods and in certain localities on Maui, and to a very limited extent on the Volcano Road, in Puna, Hawaii.

Repairs have been made in a haphazard manner at irregular times.

Very few new roads have been built, or existing roads converted into macadamized ones, by the counties, except on Kauai and Maui.

On Kauai the work has been principally macadamizing existing roads; and on Maui, chiefly cutting down step grades and locating new roads.

Difficulties and Obstacles to be Met and Overcome.

There are three main obstacles to the construction and maintenance of good roads in Hawaii, viz.:

1. Lack of money;
2. Lack of system;
3. Lack of efficient control.

How to Overcome Lack of Money.

The excessively rough, precipitous and rain character of much of the country traversed by roads in Hawaii, make it impossible for the several counties to properly construct and maintain all of their roads with the current available funds, and under the present administrative system. If the main roads could once be put in good condition, and bridges built of concrete and steel, the current funds would be sufficient to keep them in order, if road work were taken out of politics; placed in the hands of experts; cared for by employees whose continuance in office depended on efficiency; and by the adoption of the section system of upkeep.

Coöperation of Territorial and County Governments.

The available source of necessary funds with which to put the main roads into good condition is, to secure the coöperation of the Territorial Government with the several County Governments, in constructing and maintaining the main roads connecting the several districts and the principal parts; these to be designated, say, as "Territorial Roads."

These can be obtained:

- (1) By means of direct appropriations from the general Territorial revenue;
- (2) By means of direct appropriations from the general County revenues;
- (3) By means of special taxes, fees, etc., specifically devoted to such road purposes;
- (4) By means of loan funds, borrowed through the Territorial Government; or by the several Counties direct.

Additional Territorial Loan Funds.

It is a grave question as to whether, for the present, any more Territorial bonds should be issued for roads, for the reason that the legal limit to which Territorial bonds can be issued is approximately \$11,000,000. There have already been issued or authorized bonds to the amount of \$8,274,000. Some margin should be left for other necessities and emergencies.

Counties Ultimately Responsible.

A considerable portion of the outstanding Territorial bonds are ultimately to be paid by the counties, the form of borrowing through the name of the Territory, having been adopted owing to the credit of the Territory being better than that of the counties, and the interest rate therefore lower.

If money is to be secured for road purposes by means of county bonds,

it would doubtless make a stronger bond, and secure a better interest and other terms, if the expenditure were to be under Territorial check, as herein suggested.

How to Overcome Lack of System.

The way to overcome the lack of system in road construction and upkeep, is to provide by law, that all moneys devoted to construction and upkeep of "Territorial Roads" shall be expended only in manner therein set forth.

Section Upkeep an Absolute Necessity.

The statute should provide that the officials having control of the Territorial roads should divide them into sections of convenient length; set apart from available money, enough to employ a section man, to attend, as continuously as practicable, to the upkeep of each section so set apart, and furnish such section men with the necessary tools and material for keeping their respective sections in good order. After moneys sufficient for such purpose are set apart the remainder to be devoted to rebuilding existing roads which are out of repair, and the construction of new roads.

How to Remedy Lack of Efficient Control.

(1) Provide by statute that all expenditure on Territorial roads shall be under the control of a Territorial Road Commission, appointed by the Governor, with the approval of the Senate.

(2) Provide by statute, that appointment to the Territorial road service, other than the members of the Road Board and the engineer in chief, and work on such roads, shall be based upon efficiency, administered under civil service principles; irrespective of the politics of the appointees.

Wherever practicable tenders should be called for new construction work and award made to the lowest responsible bidder, under adequate bond; with discretion to reject all bids if they are too high. Section upkeep should, however, be retained in the hands of regular employees.

(3) Provide by statute that all expenditures on Territorial roads shall be under the supervision and direction of a competent civil engineer.

Specific Recommendations by the Committee.

Your committee is of opinion that the following things must be done in order to secure good roads in Hawaii, and recommendation is hereby made that legislation and procedure be along the following lines, viz.:

1. Complete Trunk System of Roads.

It is necessary to complete the permanent construction of the main trunk roads on the various islands, and to rebuild and put in good order, those portions of such roads heretofore constructed and now out of order.

2. Adopt Section System of Upkeep.

It is necessary to adopt and put into execution, a system of continuous upkeep of roads now in good repair, and those hereafter put in such condition, by dividing the roads into sections and placing the same under the continuous care of section hands, each section hand, so far as practicable, to continue in charge of the same section.

3. Adopt "Territorial Road System."

It is impossible for all the counties, with their present, or any probable financial resources, to construct and maintain all of the roads with-

in their several boundaries. It is, therefore, necessary that the Territorial Government should assist, out of Territorial funds, in the construction and maintaining of the several main roads through the respective counties, the roads so constructed and maintained to be known as "Territorial Roads."

4. Territorial Road Boards.

It goes without saying that the expenditure of Territorial funds must be under Territorial control; but in order that the several county governments may be represented on the Territorial Boards, we recommend that each Board of Supervisors be empowered to appoint one member of the Territorial Road Board for the County in which he is located; such appointee to be a member of the Board of Supervisors or not, in the discretion of the appointing Board.

Also that the Territorial Superintendent of Public Works be ex-officio a member of the Board.

5. Adopt Civil Service and Efficiency System.

Provide that appointment to and work in the Territorial Road service shall be on an efficiency basis, regardless of politics, administered under civil service rules.

6. Designation of "Territorial Roads."

The roads shall be designated as "Territorial Roads," only on written petition of the Board of Supervisors of the County in which such roads are located, and the approval of the Territorial Road Board for such county.

7. Method of Securing Fund for "Territorial Roads."

(1) A specific tax, not to exceed, say one-tenth of one per cent on the property in each county, for road purposes in such county.

(2) Direct appropriations by the Legislature, of moneys from the general Territorial treasury; or loan funds, or both.

(3) Appropriations by the County Supervisors, of moneys from the general County treasury.

(4) A portion, say one-half, of fees, fines and taxes received from automobiles and other vehicles.

Proposed System Is Not New.

This general method of building and maintaining the principal roads has been in almost universal use in Europe, for many years, and is rapidly coming into use on the mainland of the United States, with exceedingly beneficial results.

Your committee is of opinion that the same methods, with perhaps some modifications to meet local conditions, will likewise accomplish good results in Hawaii.

Recommendations to County Supervisors.

As to roads other than proposed "Territorial Roads," viz.: Those which will continue under the exclusive control of the several Boards of Supervisors, your committee does not recommend any present legislation, but it suggests that this Convention earnestly recommend to the several Boards of County Supervisors, that they adopt the policies of:

(1) Upkeep of roads by sections, each section being continuously in charge of one man.

It cannot be too strongly emphasized that the only way to keep a road in repair is to never let it begin to get out of repair.

(2) That the road service be taken out of politics, efficiency under civil service rules, being made the basis of appointment and continuance in office.

(3) That all road work be under the direct and full control of an

expert road engineer with salary sufficient to secure and retain a first class man. We believe that this policy will be found most economical in the long run.

(4) That the practice of individual Supervisors taking active superintendence of road work, except in cases of emergency, and by direction of the Board for good reasons, be discouraged.

(5) That a more adequate system of accounting be kept, insisting upon a detailed record of the cost of all work, but unit costs, not only for new work, but repair and maintenance as well.

Your committee recommends that the Convention adopt this report with such amendments as it may deem best, and that the chairman be authorized to appoint a committee of five to draw a bill, embodying in substance the recommendations of the report as adopted, and present the same for the consideration of the next Legislature.

Respectfully submitted,

(Signed) HUGH HOWELL,

(Signed) J. H. MORAGNE.

I agree with the foregoing report, subject to the following:

I am not convinced of the advisability of dual control of roads by Territory and County.

I do not believe that the Territory has sufficient current revenue to appropriate therefrom funds for roads.

I do not believe the Territory should issue more bonds for road purposes for the reason, that the amount of Territorial bonds now outstanding is too close to the total bond issue permitted by the Organic Act.

(Signed) C. H. COOK, Jr.,

Committee on Devising Some Plan for Securing and Maintaining Better Roads in Hawaii.

(Mr. R. W. Shingle approved of the report, but was absent from the Territory at the time of presentation and therefore unable to sign the report.)

EXHIBIT 3.

RESOLUTIONS RELATING TO GOOD ROADS ADOPTED BY CIVIC CONVENTION HELD AT WAILUKU, OCTOBER, 1914, BASED UPON THE FOREGOING REPORT OF THE "GOOD ROADS COMMITTEE."

Resolved, That in the opinion of this convention, the evils of the present road system are chiefly attributed to the following causes:

1. That the administration of the system and the appointment of road officers is based more on political consideration than on efficiency;

2. That there is no systematic upkeep of the roads after they are put in good order;

3. That the building and maintenance of roads is essentially engineering work, and should be under the direct control and direction of trained engineers; whereas, with some exceptions, road work is not now under engineering supervision in Hawaii;

4. The main road system of the Territory has not yet been completed, and the current available funds are insufficient to both care for existing roads and build new ones.

Recommendations. In the opinion of this convention, the following

measures are necessary to remedy the above enumerated evils and obstacles, and the convention hereby recommends that the following action be taken:

1. That certain main roads connecting the several districts with each other and with the principal ports should be set apart as "territorial roads," the construction and maintenance of which should receive the support of special funds or taxes and of the territorial government.

2. That the application in any county of the terms of the proposed territorial road law shall be optional with each county as evidenced by the vote of the supervisors of each county; that when the territorial road law is adopted by any county, the location of "territorial roads" should be upon the written recommendation of the several boards of supervisors and the approval of a majority of the representatives of the territorial government last above mentioned.

3. That there should be a Territorial Road Board, which Board shall have the exclusive control of the laying out, construction, maintenance and control of all Territorial roads.

Such Territorial Road Board should consist of two persons appointed by the Governor with the approval of the Senate, the Superintendent of Public Works, and in and for each County, a person appointed by the Supervisors of such county.

4. That the appointment of employees working upon or in connection with territorial roads should be based upon efficiency.

5. That all territorial roads which are, or hereafter may be, put in good order, be laid out by the several territorial road boards, into sections; that each section be placed in the charge of a section man who shall continuously devote his time to the upkeep of his section.

6. That all work upon or in connection with territorial roads be carried out under the advice, supervision and direction of a competent civil engineer.

7. That detailed accounts be kept of all expenditure on territorial roads, showing separately the cost of each operation upon each road, and that the same be published from time to time.

8. That the chairman of this convention be requested to appoint a committee of five to draft a law embodying the foregoing suggestions, for submission to the next Legislature.

9. That this convention most earnestly recommends to the several boards of supervisors that they respectively put into operation in their several counties, in connection with local roads, the principles herein recommended for legal enactment in connection with territorial roads.

EXHIBIT 4.

REPORT OF THE COMMITTEE ON "GOOD ROADS" OF THE CIVIC CONVENTIONS OF 1913 AND 1914 TO THE LEGISLA- TURE OF HAWAII.

Honolulu, Hawaii, April 3, 1915.

To the Legislature of the Territory of Hawaii:

The Civic Convention, consisting of delegates from the Commercial Organizations of the Territory and representatives of the several Boards of County Supervisors, which met in Honolulu in September, 1913, adopted a resolution directing the appointment of a committee of five to investigate and report upon how best to secure construction and maintenance of good roads in this Territory.

Under this resolution there were appointed on such committee L. A. Thurston, Hugh Howell, J. H. Moragne, R. W. Shingle and Clarence H. Cooke.

In conformity with such resolution, the said committee investigated said subject, studied the road laws of Europe and the United States and submitted a report to the Civic Convention which met at Wailuku in October, 1914.

The Civic Convention of 1914 thereupon adopted resolutions, directing said committee to draft a law for submission to the Legislature of 1915.

In accordance with such resolutions, the said committee has drafted a law, and submits the same herewith, together with a copy of the said resolution adopted in 1913; the report of the committee made to the Convention and the resolutions adopted by said Convention in 1914.

To facilitate an understanding of the draft of law submitted, the committee submits the following summary of the leading features contained therein, as follows:

1. Basis of the Act. The basis of the draft of law submitted is a "model bill" formulated by the "American Association for Highway Improvement," of Washington, D. C., such model law being contained in the annual report of said association for 1912, which is entitled "The Official Good Roads Year Book of the United States."

The association in question is a semi-official organization, consisting of leading officials and citizens all over the United States, and represents the most advanced theory and practice upon the subject of Good Roads in the United States. The standing of the organization is vouched for by the list of its officers, for 1912, which was as follows:

President, Logan Waller Page, Director United States office of public roads;

Vice-President, W. C. Brown, President New York Central Railroad Company;

Treasurer, Lee McClung, Treasurer of the United States;

Secretary and Editor, J. E. Pennybacker;

Chairman of Board of Directors, James S. Harlan, member Inter-state Commerce Commission.

The same persons held office in 1913, with the substitution of W. W. Finley, President of the Southern Railroad, as Vice-President.

2. Creation of "Territorial Highways." The leading feature of the bill is the setting apart of certain roads as "Territorial Highways" (designated in Europe and the United States as "State Highways"), the construction and maintenance of which shall be in whole or in part paid by the Territory.

This policy is based upon the fact, first, that there are certain roads in which the general public are interested, as well as the people of the localities in which they are situated;

And second, that the local county governments may not be willing, or may be financially unable, to bear the entire cost of constructing or maintaining such roads in the condition which the needs of the general public require.

The plan of setting apart certain roads as "State Highways" does not originate with this committee. It is the plan followed by nearly every European country and a large number of the States of the Union.

3. Legislature May Create Territorial Highways. Under these circumstances the bill provides that the Legislature may, without the approval of the local county government in which the road is situated, designate a road as a "Territorial Highway"; but in such case the Territorial Government alone bears the cost of construction and maintenance of such highway.

4. Initiation by County Supervisors. In all other cases the creation of a Territorial Highway is made only on the initiation of the County Supervisors, and the approval of a "Territorial Highway Commission."

Territorial highways set apart on request of the County authorities

are constructed and maintained at the joint expense of the Territory and the County in which the road is located.

5. Constitution of Territorial Highway Commission. The Highway Commission is to consist of the Superintendent of Public Works, the Professor of Engineering at the College of Hawaii, one other person appointed by the Governor with the approval of the Senate; and in and for each County, one member appointed by the Supervisors of that County. This nomination by the County Supervisors of a member of the Commission is not contained in the model law referred to. It is a devise for the purpose of removing possible friction between the County and the Commission, by giving the County a direct voice in the councils of the Commission.

6. Territorial Engineer. All road construction and maintenance of Territorial Highways are to be carried out under the general control of the Commission, and the direct control of a Territorial engineer, appointed by the Commission.

A part of the duties of the Territorial engineer is to render free advice and assistance to the several boards of County Supervisors in all matters relating to roads.

7. Source of Territorial Highway Funds. The funds with which to carry out this act are proposed to be derived from:

(1) Direct appropriation by the Legislature, either of current or loan funds;

(2) Direct appropriation by the counties, either of current or loan funds;

(3) By special road tax;

(4) By a proportion of the receipts from automobile fees and licenses.

8. Maintenance by Section Laborers. Provision is made in the bill that all Territorial highways shall be divided into sections of such length that the same can, under normal conditions, each be maintained by one section road laborer.

The Committee believes that this is the most important detail of the bill.

The report of the "American Association for Highway Improvement" is that a properly macadamized road will, without maintenance, last under normal conditions, and average not to exceed six years; whereas the same road, probably maintained under the section system, will last not less than twenty years.

9. Application of Civil Service Rules. The bill provides that the skilled employees of the Highway Commission shall be appointed and hold office under Civil Service rules.

The appointment of road laborers is not placed under Civil Service rules, as for many reasons this seems impracticable; but it is provided that they shall not be removed for political reasons.

10. Character of the Bill. The subject of the bill is a complicated one, and the committee does not claim that the draft submitted is in the best possible form. They submit it, however, as being a carefully drawn and fair basis for a working law, which will systematize our present disjointed and inadequate road law, more particularly securing the maintenance of roads when put in order.

The extreme importance of securing early legislation upon this subject was brought out in discussions at the sessions of the Civic Convention referred to, wherein it appeared that on a large portion of the macadamized roads recently constructed with loan funds, there was no systematic upkeep being maintained, and that the same are so rapidly deteriorating that, unless prompt action is taken, they will be utterly worn out before the bonds issued for their construction become due.

The committee has prepared a digest of the facts and laws relating

to "State Highways" of the European countries and states of the United States which they also submit herewith.

The committee also begs to state that it holds itself subject to the wishes of the Legislature and the committees thereof, to furnish any other information of assistance in connection with the subject matter under discussion.

Respectfully submitted,

LORRIN A. THURSTON,
HUGH HOWELL,
J. H. MORAGNE,
R. W. SHINGLE,
C. H. COOKE.

If the County shall not pay the same within thirty days, then the amount due by said County, as aforesaid, shall be and become a charge against the funds of said County, which may then or thereafter be in the hands of the Territorial Treasurer.

PETITION.

To the Honorable Members of the Senate
the Ninth Legislature, Territory of Hawaii.

We the undersigned, tenants and land owners of the government tract known as Piihonua, District of South Hilo, County and Territory of Hawaii, residing within that area designated in House Bill No. 58, being an Act "to set aside a certain tract in Piihonua, for Hilo High School site, Agricultural and Botanical Gardens, most respectfully request Your Honorable Body to oppose the passage of said bill, for the following reasons:

(1) That your petitioners have improved and resided on said land since April 30th, 1900, and therefore are entitled to purchase under preferential rights.

(2) The area to be set aside as proposed in said bill is nearly forty (40) acres. We maintain that this area is much too large for the purpose set forth in said bill, and therefore your petitioners should not be put to the inconveniences of being removed from our present holdings upon which we have resided and which we have improved at no small expense.

(3) Your petitioners have practically made Piihonua what it is today. But, if said Bill passes, we who are entitled to purchase our homes under Preference Right will be deprived of this privileges, since the Organic Act provides that an applicant is entitled only to the improved parcel of public land upon which said applicant has continuously resided, and (to no other location).

We pray, that justice and favorable consideration be given your petitioners.

President of the Senate,

Dear Sir:—I beg to inform your Honorable Body that the Governor this day signed Senate Bill No. 21, as Act 11, entitled: "An Act to amend Section 255 of the Revised Laws of Hawaii, 1915, relating to meetings of the commissioners of public instruction."

Yours very truly

WADE WARREN THAYER,
Secretary of Hawaii.

Senator Cooke, for the Committee on Public Health, presented a report (Stand. Com. Rep. No. 89) recommending that Senate Petition No. 1 from John Waipa and twenty-four others for an increase of salary, be filed and a copy of the report referred to the Committee on Ways and Means. The report was read by the Clerk as follows:

Honolulu, T. H., March 17, 1917.

Hon. Charles F. Chillingworth,
President of the Senate.

Sir:—Your Health Committee, to which was referred Petition No. 1 of John Waipa and 24 others, praying for an increase of salary, have diligently investigated the facts connected with this petition.

Your committee finds that the duties of the petitioners are performed under risks of bodily injury from the inmates of this asylum under their charge.

Your committee further finds that the Board of Health plans to increase the pay of guards and nurses of the insane asylum to the amount of \$10.00 per month for the balance of this period.

Therefore your Health Committee recommends that the petition be filed, and further recommends that a copy of this report be furnished the Committee on Ways and Means in order that a sufficient sum be included in the appropriation bill to provide for this increase.

Respectfully submitted,

GEO. P. COOKE,
Chairman;
S. L. DESHA,
S. P. CORREA.

Senator Castle, for the Committee on Judiciary, presented a report (Stand. Com. Rep. No. 90), recommending that Senate Bill No. 39, entitled: "An Act to amend Paragraph 5 of Section 1554 of the Revised Laws of Hawaii, 1915, relating to the powers of the Board of Supervisors of the various counties," be tabled. The report was read by the Clerk as follows:

Honorable Charles F. Chillingworth,
President of the Senate.

Sir:—Your Judiciary Committee, to which was referred Senate Bill No. 39, entitled: "An Act to amend Paragraph 5 of Section 1554 of the Revised Laws of Hawaii, 1915, relating to the powers of the Board of Supervisors of the various counties," begs leave to report as follows:

This Bill proposes to take away from the Counties of Hawaii, Maui and Kauai the power to pass ordinances relating to dairies and milk; following out Senate Bill No. 35 which relates to the City and County of Honolulu.

It is true that the outside counties have not passed ordinances covering this subject whereas the City and County of Honolulu has.

The Board of Health, in the Counties of Hawaii, Maui and Kauai, are doing the work themselves without objection from the Boards of Supervisors of those counties and in coöperation with the Supervisors.

The proposed bill would prevent these counties from passing ordinances at any future time covering this subject.

As in the case of the City and County, the Committee does not feel that this power should be taken away from the several counties and therefore recommends that this bill be tabled.

Respectfully submitted,

JUDICIARY COMMITTEE.
ALFRED L. CASTLE,
Chairman;
G. P. KAMAUOHA,
R. H. MAKEKAU,
WM. T. ROBINSON.

Upon motion by Senator Castle, seconded by Senator Correa, the report was adopted. Senate Bill No. 39 was thereupon ordered tabled.

The report was read by the Clerk as follows:

Hon. Charles F. Chillingworth,
President of the Senate.

Sir:—Your Committee on Ways and Means to which was referred House Bill No. 129, entitled: "An Act to pay Thomas Benjamin Lyons for the use and occupation of his land by the Royal School, Honolulu, City and County of Honolulu, Territory of Hawaii," begs leave to report as follows:

After careful consideration your committee finds through the Land Commissioner's office, that all claims for rental of the land in question was taken into consideration and compensated for by the Public Lands Department in an exchange of land on Maui for the Royal School land in question. Your committee would therefore recommend that this bill be tabled.

Sir:—Your Education Committee to whom was referred Senate Bill No. 63, entitled: "An Act providing Fifty-five Thousand Dollars for the Acquisition of Additional Property for the Central Grammar, Normal, and Royal Schools in Honolulu, Oahu," begs leave to report as follows:

The object of the Bill is, as its title indicates, the acquisition of additional lands for the three public schools above named.

On Friday, the 16th inst., your committee in company with other members of this senate, Mayor J. C. Lane, the Superintendent of Public Instruction, and Inspector General of Schools, and a few others, visited the various public schools in this city, and the Girls' Industrial School.

The Committee was shown by the Superintendent of Public Instruction and Principal Wood the lots lying between the property of the Normal School and Alapai street containing 21,977 square feet, more or less, which are greatly needed by the school.

The committee afterwards inspected the premises lying between the Central Grammar School property and Fort and Vineyard street junction containing about 15,226 square feet, more or less.

From there the committee visited and inspected the property lying between the Royal School premises and Emma and Punchbowl streets, containing about 13,110 square feet, more or less, and likewise the other property wanted by the same school and lying between the school premises and Punchbowl street, comprising about 30,000 square feet, more or less.

By the terms of the bill, the Land Commissioner is authorized to proceed forthwith to take steps to acquire these properties and to turn them over to the department of public instruction for the use and benefit of the said schools.

No. 95) recommending that Senate Bill No. 69, entitled: "An Act to amend Sections 1 and 2 of Act 166 of the Session Laws of 1911, providing for public improvements, as amended by Act 170 of the Session Laws of 1913 and Acts 30 and 193 of the Session Laws of 1915," be passed with certain amendments. The report was read by the Clerk as follows:

Honolulu, T. H., March 20, 1917.

Hon. Charles F. Chillingworth,
President of the Senate.

Sir:—Your Committee on Ways and Means to which was referred Senate Bill No. 69, entitled "An Act to amend Sections 1 and 2 of Act 166 of the Session Laws of 1911, providing for public improvements, as amended by Act 170 of the Session Laws of 1913 and Acts 39 and 193 of the Session Laws of 1915," begs leave to report as follows:

After careful consideration of this bill your Committee would recommend that the same pass with the following amendments:

Amend title to read as follows:

"An Act to amend Sections 1 and 2 of Act 166 of the Session Laws of 1911, providing for public improvements, as amended by Act 170 of the Session Laws of 1913, and Acts 39 and 193 of the Session Laws of 1915, and to repeal Section 4 thereof."

Amend Section 3 to be Section 4.

Insert Section 3 to read as follows:

"Section 3. Section 4 of Act 166 of the Session Laws of 1911 as amended by Act 170 of the Session Laws of 1913 and by Acts 39 and 193 of the Session Laws of 1915 is hereby repealed."

The object of this bill is to enable the Auditor of the Territory to close up the Loan Bill of 1911 with its several amendments so that if a new loan bill is passed this session of the Legislature, new accounts may be opened.

As this bill gives to the Territorial Prison sufficient money for its completion (\$50,000.00), there is no further necessity for the sale of the old prison site.

This bill further provides a balance of \$16,000.00 to be applied towards

wharves, Honolulu. This sum will enable the Harbor Commission to complete favorable contracts which are very urgent at this time and will be the means of quite a saving to the Territory.

Respectfully submitted,

ROBERT W. SHINGLE,
Chairman;
H. A. BALDWIN,
J. H. CONEY,
E. W. QUINN,
ROBT. HIND.

Under the heading "Secretary of the Territory" after the item "Arthur G. Smith, \$125.00" add "Wade Warren Thayer, \$3.33." The various items included in this bill are to cover legitimate claims against the Territory.

Senator Castle, for the Committee on Judiciary, presented a report (Stand. Com. Rep. No. 99) recommending that House Bill No. 62, entitled: "An Act to amend Section 2444 of the Revised Laws of Hawaii, 1915, relating to time of issuance of executions," be tabled. The report was read by the Clerk as follows:

Honolulu, T. H., March 20, 1917.

Honorable Charles F. Chillingworth,
President of the Senate.

Sir:—Your Judiciary Committee, to which was referred House Bill No. 62, entitled: "An Act to amend Section 2444 of the Revised Laws of Hawaii, 1915, relating to time of issuance of executions," begs leave to report as follows:

This bill proposes that executions may be issued upon any judgment in any court at any time during the life of such judgment, namely: six years in the District Court and twenty years in the Circuit Court.

The present law is that the execution is good for only one year unless another execution is taken out during each of the succeeding years.

If the proposed bill became law, an execution from the Circuit Court could be issued at the end of the nineteenth year, during which time, particularly in matters relating to real estate, other rights may have accrued. The proposed law also would allow attorneys to be negligent about enforcing their judgments, whereas the present law contemplates that attorneys should be more careful in following up their judgments.

The committee therefore recommends that the bill be tabled.

Respectfully submitted,

JUDICIARY COMMITTEE.

No. 101) recommending that House Bill No. 80, entitled: "An Act to amend Section 2314 of the Revised Laws of Hawaii, 1915, relating to Clerks of Courts of Records," be tabled. The report was read by the Clerk as follows:

Honolulu, T. H., March 20, 1917.

Honorable Charles F. Chillingworth,
President of the Senate.

Sir:—Your Judiciary Committee, to which was referred House Bill No. 80, entitled: "An Act to amend Section 2314 of the Revised Laws of Hawaii, 1915, relating to Clerks of Courts of Record," begs leave to report as follows:

This bill proposes that no Clerk of any Circuit Court shall act as trustee, guardian, administrator, executor or master.

In the City and County of Honolulu it is probable that men could be appointed who could fill the positions mentioned just as well as, if not better than, the Clerk of the Court; but there are serious objections to prohibiting the judge from appointing his Clerk. For instance, a great many of the estates are poor estates where no fee can be expected and it would be difficult to get an outside party to act without fee. So also in several of the outside circuit courts, often the only available man is the Clerk of the Court. The amount which the clerk of the court in outside circuits receives from these fees is not too high. In Honolulu the amount is substantial and is looked upon as part of the salary of the

office. If the bill passed, in addition to the objections above indicated, this Legislature would out of justice raise the salaries of the various clerks of the Courts.

The Committee therefore recommends the bill be tabled.

Respectfully submitted,

JUDICIARY COMMITTEE.

The report was read by the Clerk as follows:

Honolulu, T. H., March 20, 1917.

Honorable Charles F. Chillingworth.
President of the Senate.

Sir:—Your Select Committee, consisting of all the members of the First Senatorial District, to whom was referred Senate Bill No. 6, entitled: "An Act to amend Section 28 of Act 39 of the Session Laws of 1905, as amended by Act 54 of the Session Laws of 1905, Acts 120 and 144 of the Session Laws of 1909, Acts 31, 74 and 87 of the Session Laws of 1911, and Acts 25 and 28 of the Session Laws of 1913," begs leave to report as follows:

The purpose of this Bill is to provide for an increase of salary of the Auditor of the County of Hawaii.

Your Committee after careful consideration, finds that there is at present before the House of Representatives, a Bill of like nature relating to salaries of various Elective and Appointive Officers of the County of Hawaii.

The Committee therefore recommends to lay the Bill on the table.

Respectfully submitted,

G. P. KAMAUOHA,
Chairman;
S. L. DESHA,
ROBT. HIND,
R. H. MAKEKAU.

Upon motion by Senator Kamaooha, seconded by Senator Makekau, the report was adopted. The Bill was thereupon ordered tabled.

Senator Castle, for the Committee on Judiciary, presented a report (Stand. Com. Rep. No. 102) recommending that House Bill No. 165, entitled: "An Act to add a new section to Chapter 173 of the Revised Laws of Hawaii, 1915, to be numbered Section 3059A, relating to sales by guardian of real estate of value not exceeding One Thousand Dollars," be passed with certain amendments. The report was read by the Clerk as follows:

Honolulu, T. H., March 20, 1917.

Honorable Charles F. Chillingworth.
President of the Senate.

Sir:—Your Judiciary Committee, to which was referred House Bill No. 165, entitled: "An Act to add a new section to Chapter 173 of the Revised Laws of Hawaii, 1915, to be numbered Section 3059A, relating to sales by Guardians of real estate of value not exceeding One Thousand Dollars," begs leave to report as follows:

The proposed bill is intended to cut down the costs where a sale of real estate is made by a Guardian for his ward where the value does not exceed One Thousand Dollars.

The intent of the bill is good; but under the proposed bill, the guardian can make the sale without giving bond or taking the prescribed oath. This does not seem to be a sufficient protection to the ward and the committee has amended the body of the bill to read as follows:

"Section 3059A. Where value does not exceed One Thousand Dollars. Where the petition of any guardian for a license to sell real estate shall allege, and the Court shall find that the real estate so sought to be sold does not exceed in value the sum of One Thousand Dollars, the Court or Judge having jurisdiction of the matter may grant such license and authorize such sale to be made, either at public or private sale upon the guardian giving the bond and taking the oath provided in Sections 3056 and 3057, and upon giving such notice of the hearing of the petition or of the sale as the Court or Judge shall prescribe, which notice may be by advertisement in a newspaper, by posting, by mailing or otherwise, as the Court or Judge shall direct."

As thus amended, the Committee feels there are sufficient safeguards to protect the ward and at the same time, the sale would not result in such great expense to the ward as heretofore.

With the above amendment, the Committee recommends the passage of the bill.

Respectfully submitted,

JUDICIARY COMMITTEE.

Chairman;

Upon motion by Senator Castle, seconded by Senator Correa, the report was adopted. The Bill thereupon passed Second Reading as amended.

Senator Castle, for the Committee on Judiciary, presented a report

(Stand. Com. Rep. No. 103) recommending that House Bill No. 185, entitled: "An Act to amend Section 4173 of the Revised Laws of Hawaii, 1915, relating to gambling," be passed with certain amendment. The report was read by the Clerk as follows:

Honolulu, T. H., March 20, 1917.

Honorable Charles F. Chillingworth.
President of the Senate.

Sir:—Your Judiciary Committee, to which was referred House Bill No. 185, entitled: "An Act to amend Section 4175 of the Revised Laws of Hawaii, 1915, relating to gambling," begs leave to report as follows:

The Bill proposes to amend the present laws relating to gambling and more particularly to barricaded places by adding the following "or in any room, house or place where the doors are locked and windows closed and screened so as to make it difficult for police officers or any person to see into such room, house or place." The amendment is intended to facilitate prosecutions under this section; but it seems to the Committee that the amendment goes too far.

The Committee recommends amending the bill by striking out in line 9 of Section 1 of the original bill the words "or any person to see" and inserting in lieu thereof the words "to enter".

Under this proposed bill without this amendment, the mere putting up of a screen in any room where cards are being played might make it a criminal offense.

With the amendments suggested, however, the Committee recommends the bill be passed.

Respectfully submitted,

JUDICIARY COMMITTEE.

Papaikou, Hawaii, March 19, 1917.

Hon. Chas. F. Chillingworth,
President of the Senate,
Honolulu, T. H.

Dear Sir:—I have just been handed a copy of Resolution No. 766 adopted by the Board of Supervisors of the County of Hawaii, in re H. B. Nos. 56 and 58. I denounce this as a piece of "gumshoe" politics and unworthy of consideration.

I appeal to you to see that the rights of these poor people living on these lands are protected. If these Bills pass in their present form, it means that these people will be barred from acquiring title to their holdings, and I am confident you will not stand for this injustice. I do this on behalf of these people who are constantly coming to me to intercede for them.

Yours very respectfully,

V. A. CARVALHO.

Hon. Chas. F. Chillingworth,

Your committee has had this bill under careful consideration and finds that the amount appropriated thereby is for the completion of compiling, printing and binding of a dictionary of the Hawaiian language authorized by Act 18, Session Laws of 1913. After an investigation of the work performed and money expended by the Board of Commissioners of Public Archives, taking into consideration the difficulty of the work necessary, your committee is of the opinion that the work is being efficiently performed, and would therefore recommend that this bill pass.

Respectfully submitted,

Senator Makekau presented Senate Resolution No. 17, authorizing the Commissioner of Public Lands to reduce the appraisement of certain lands offered for homesteads. The resolution was read by the Clerk as follows:

RESOLUTION.

Whereas, the Commissioner of Public Lands is now advertising the lands of Kaaauhuhu in North Kohala, County of Hawaii, for homestead drawings to take place May 12, 1917, and as the land has been appraised by two commissioners, namely P. W. P. Bluett of North Kohala and Joseph Andrews, Land Agent, Hawaii, which appraisement is unjust exorbitant and excessive, being \$100.00 per acre for land which is now in grass and weeds and with no available water for irrigation purposes, and

Whereas, land in similar locations and more suitably situated which was first class agriculture land with cane on it, ready for cultivation, has been appraised and sold by the Commissioner of Public Lands in the past for appraised values as follows: Manowaiopae, approximately \$24.25 per acre; Kihalani, 32.00 per acre; Kaieie, \$35.00 per acre; Kulaimano, 175.00 per acre; Hakalau-iki, \$53.00 per acre; all in the County of Hawaii, and

Whereas, the appraisement of \$100.00 per acre is excessive and outrageous, and is not an encouragement for any one to take up a homestead and improve it, as such homesteader will be unable to erect thereon a house that will be suitable for a home; now

Therefore, Be It Revolved, that the Commissioner of Public Lands is hereby requested and authorized to disregard the appraisement made by the two commissioners above mentioned and to reduce the value of the lands at Kaaauhuhu, North Kohala, from \$100.00 to \$35.00 per acre so as to allow and encourage the citizens who are living at Kohala to take up homesteads and build their homes thereon.

R. H. MAKEKAU,
Senator, First District.

Upon motion by Senator Cooke, duly seconded and carried, the resolution was referred to the Committee on Public Lands and Internal Improvements.

Senator Coney presented Senate Concurrent Resolution No. 10, urging the Navy Department to lend to the Territory a vessel for the use of the Naval Militia. The resolution was read by the Clerk as follows:

CONCURRENT RESOLUTION.

Requesting the President of the United States and the Secretary of the Navy for loan for a seagoing training ship for the use of the Naval Militia of the Territory of Hawaii.

Whereas, the Naval Militia of the Territory of Hawaii which was first established in the month of January, 1916, shows a present strength of eight officers and one hundred and twelve men, with prospects of increasing this number to three hundred within the near future; and

Whereas, the development of the said Naval Militia has been seriously handicapped by lack of proper training facilities; and the necessary funds, the latter having been due to an oversight on the part of the legislature of the Territory of Hawaii of 1915 which enacted the law creating the said Naval Militia; and

Whereas, all the officers of the said Naval Militia who have had the opportunity to take the examination prescribed by the Navy Department have passed such examination successfully, thereby showing a high degree of proficiency and interest on their part in this organization; and

Whereas, it is obvious that, in order to bring this organization up to its highest possible point of efficiency and to the strength desired by the Navy Department, it is of vital importance that a seagoing training ship should be loaned to the Territory of Hawaii for the use of the said Naval Militia,

Therefore, Be It Resolved by the Senate of the Territory of Hawaii, the House of Representatives concurring, that the request which was forwarded to the Secretary of the Navy in the month of January, 1917, for the loan of a seagoing training ship to the Territory of Hawaii for the use of the said Naval Militia be and the same is hereby approved, and

Be It Further Resolved, that the President of the United States and the Secretary of the Navy be and they are hereby respectfully urged to grant the request made by the Governor as aforesaid, and

Be It Further Resolved, that the Governor be and he is hereby requested to transmit to the President of the United States, the Secretary of the Navy, and the Delegate to Congress from Hawaii, copies of this resolution.

Members of the Senate of the
Territory of Hawaii.

Gentlemen:—I have the honor to transmit herewith House Bill No. 199, which this day passed Third Reading in the House of Representatives of the Territory of Hawaii.

Very respectfully,

EDWARD WOODWARD,
Clerk, House of Representatives.

Upon motion by Senator Correa, seconded by Senator Makekau, the Bill passed First Reading by title.

A communication from the House of Representatives (House Com. 124) transmitting House Bill No. 201, entitled: "An Act granting to the Board of Health power to subpoena and examine witnesses under oath," was read by the Clerk as follows:

Honolulu, T. H., March 24, 1917.

The Honorable President and
Members of the Senate of the
Territory of Hawaii.

Gentlemen:—I have the honor to transmit therewith House Bill No. 201, which this day passed Third Reading in the House of Representatives of the Territory of Hawaii.

Very respectfully,

EDWARD WOODWARD,
Clerk, House of Representatives.

Upon motion by Senator Makekau, seconded by Senator Kamauoha, the Bill passed First Reading by title.

The Senate having returned to the consideration of the order of resolutions, Senator Shingle introduced Senate Bill No. 84, entitled: "An Act to amend Section 28 of Act 221 of the Session Laws of 1915, relating to the salaries and expenses of members of the Industrial Accident Boards."

Upon motion by Senator Shingle, seconded by Senator Correa, the Bill passed First Reading by title.

Senator Coney, for the Committee on Military, presented a report (Stand. Com. Rep. No. 111) recommending that Senate Concurrent Resolution No. 10 relating to requesting the Naval Department to lend to the Territory a training ship for the use of the Naval Militia, be adopted with certain amendments. The report was read by the Clerk as follows:

Honolulu, T. H., March 24, 1917.

Honorable Charles F. Chillingworth,
President of the Senate.

Sir:—Your Committee on Military, to which was referred Senate Concurrent Resolution No. 10, relating to the request made by the Governor for the loan of a sea-going training ship, begs leave to report as follows:

After careful consideration of the same, your Committee recommends the adoption of the Resolution with the following amendment:

Strike out in paragraph two thereof after the word "facilities" in line three the words "and the necessary funds, the latter being due to an oversight on the part of the Legislature of the Territory of Hawaii of 1915 which enacted the law creating the said Naval Militia," and insert in lieu thereof a semi-colon (:);

In paragraph seven, line two, strike out the word "respectfully".

Respectfully submitted,

MILITARY COMMITTEE.

J. H. CONEY, Chairman;

M. C. PACHECO,

S. L. DESHA.

Upon motion by Senator Coney, seconded by Senator Desha, the report and resolution were adopted.

Senator Shingle, for the Committee on Ways and Means, reported verbally as follows:

"The Ways and Means Committee have selected a special committee consisting of Senator Coney who will make a report to the Committee, and in turn the Committee will report to the Senate on the matter of the expenditure of money to complete the prison. In other words, we will confine our report to the estimates that are asked and required to complete the administration building and other departments of that prison looking toward the expenditure of \$50,000.00 which will make a total of \$200,000.00. Now, the Ways and Means Committee have discussed this matter from all angles and it is our strong opinion that it's outside the province of the Ways and Means Committee to go back and delve into the expenditures of the prison, and I would suggest at this time to the President, that we take up the question as to whether this Senate wishes to make a more thorough and detailed examination into what has happened out there, and if so, I would most respectfully suggest to the President that the matter of the expenditures made on the institution be referred to the Public Expenditures Committee which, I submit, is the proper committee which should go into that work."

The President thereupon directed the Committee on Public Expenditures to investigate the matter of the expenditures in connection with the construction of the new prison.

The House of Representatives having disagreed to the amendments proposed by the Senate to House Bill No. 156, entitled: "An Act making additional appropriations out of the general revenues for the biennial period ending June 30, 1917," and having requested that the Senate appoint members of a Joint Conference Committee to confer with the

managers appointed on behalf of the House, the President appointed Senators Shingle, Baldwin and Coney members of such committee.

At 11:00 o'clock a. m., upon motion by Senator Coney, seconded by Senator Makekau, the Senate adjourned to 1:00 o'clock p. m. of Monday, March 26, 1917.

Clerk of the Senate.

The report was read by the Clerk as follows:

Honolulu, T. H., March 26, 1917.

Honorable Charles F. Chillingworth,
President of the Senate.

Sir:—Your Judiciary Committee, to which was referred House Bill No. 86, entitled: "An Act to amend Act 186 of the Session Laws of 1915, relating to Coöperative Association, by adding thereto a new Section to be known as Section 3A," begs leave to report as follows:

This bill relates to the coöperative associations which are being tried out in the County of Maui, and proposes to add a new section to the law to provide that any such association may purchase its own stock from shareholders desiring to withdraw from the association and that such stock so purchased shall be subsequently re-issued before any other unsold shares of the capital stock shall be issued by the association.

The present law provides that not more than ten per cent of the stock shall be held by any one party.

The purpose of the bill is to allow each association to control in a better way its own membership.

The Committee recommends the passage of the bill.

Respectfully submitted,

JUDICIARY COMMITTEE.

ALFRED L. CASTLE, Chairman;
J. H. CONEY,
G. P. KAMAÜOHA,

Upon motion by Senator Castle, seconded by Senator Makekau, the report was adopted. The Bill thereupon passed Second Reading.

Senator Castle, for the Committee on Judiciary, presented a report (Stand. Com. Rep. No. 114) recommending that Senate Bill No. 93, entitled: "An Act relating to the burning of property with intent to injure the insurer, amending Chapter 239 of the Revised Laws of Hawaii, 1915, by adding thereto a new section to be known as Section 4022A," be passed with certain amendments. The report was read by the Clerk as follows:

Honolulu, T. H., March 26, 1917.

Honorable Charles F. Chillingworth,
President of the Senate.

Sir:—Your Judiciary Committee, to which was referred House Bill No. 93, entitled: "An Act relating to the burning of property with intent to injure the insurer, amending Chapter 239 of the Revised Laws of Hawaii, 1915, by adding thereto a new section to be known as Section 4022A," begs leave to report as follows:

It is not clear under the present law whether a person who wilfully burns his own building which is at the time insured is guilty of any crime. The proposed bill covers that.

The Committee recommends amending the bill by adding after the word "shall" in line 7 of Section 1, "upon conviction." Also amend Section 2 to read: "SECTION 2. This Act shall take effect upon its approval."

As thus amended, the Committee recommends the passage of the bill.

Respectfully submitted,

JUDICIARY COMMITTEE.

Senator Castle, for the Committee on Judiciary, presented a report (Stand. Com. Rep. No. 115) recommending that House Bill No. 94, entitled: "An Act relating to frauds upon life insurance companies, providing a penalty therefor, and adding a new section to Chapter 233 of the Revised Laws of Hawaii, 1915, to be known as Section 3996A," be passed with certain amendments. The report was read by the Clerk as follows:

Honolulu, T. H., March 26, 1917.

Honorable Charles F. Chillingworth,
President of the Senate.

Sir:—Your Judiciary Committee, to which was referred House Bill No. 94, entitled: "An Act relating to frauds upon life insurance companies, providing a penalty therefor, and adding a new section to Chapter 233 of the Revised Laws of Hawaii, 1915, to be known as Section 3996A," begs leave to report as follows:

This bill prescribes a penalty for frauds upon life insurance companies. There seems to be no provision of the present law which covers it adequately.

The Committee therefore recommends the passage of the bill with the following amendments: After the word "shall" in the third line from

the end of Section 1 add "upon conviction." Amend Section 2 to read: "SECTION 2. This Act shall take effect upon its approval."

Respectfully submitted,

JUDICIARY COMMITTEE.

ALFRED L. CASTLE, Chairman;
J. H. CONEY,
G. P. KAMAÜOHA,
R. H. MAKEKAU,
WM. T. ROBINSON.

Upon motion by Senator Castle, seconded by Senator Kamauoha, the report was adopted. The Bill thereupon passed Second Reading, as amended.

Senator Castle, for the Committee on Judiciary, presented a report (Stand. Com. Rep. No. 116) recommending that House Bill No. 101, entitled: "An Act to amend Section 6 of Act 117 of the Session Laws of 1915, entitled: 'An Act to provide an additional income tax of one per cent upon all corporation incomes and upon individual incomes in excess of four thousand dollars,' " be referred to the Committee on Ways and Means. This bill simply extends for another two years the additional income tax of one per cent upon incomes in excess of Four Thousand Dollars.

Unless the Ways and Means Committee of this Senate feels that this bill is contrary in any way to its financial program, the Committee recommends the passage of the bill.

Respectfully submitted,

JUDICIARY COMMITTEE.

ALFRED L. CASTLE, Chairman;
J. H. CONEY,
G. P. KAMAÜOHA,

Upon motion by Senator Castle, duly seconded and carried, the Bill together with the report were thereupon referred to the Committee on Ways and Means.

(Stand. Com. Rep. No. 117) recommending that House Bill No. 160, entitled: "An Act to amend Section 2491 of the Revised Laws of Hawaii, 1915, relating to family allowance pending administration of the estate of a deceased person," be passed. The report was read by the Clerk as follows:

Honolulu, T. H., March 26, 1917.

Honorable Charles F. Chillingworth,
President of the Senate.

Sir:—Your Judiciary Committee, to which was referred House Bill No. 160, entitled: "An Act to amend Section 2491 of the Revised Laws of Hawaii, 1915, relating to family allowance pending administration of the estate of a deceased person," begs leave to report as follows:

Under the present law, pending administration, provision may be made for the maintenance and support of the family of the deceased person. The law makes provision for a minor child or children, but does not make any provision for one who has attained his or her majority.

There may be times when a person who has attained his or her majority is just as much in need of maintenance and support as a minor child.

This bill proposes that a child, whether a minor or not, may, upon approval of the Court, secure its necessary maintenance.

The Committee recommends the passage of the bill.

Respectfully submitted,

JUDICIARY COMMITTEE.

The report was read by the Clerk as follows:

Honolulu, T. H., March 26, 1917.

Honorable Charles F. Chillingworth,
President of the Senate.

Sir:—Your Judiciary Committee, to which was referred House Bill No. 162, entitled: "An Act to amend Act 114 of the Session Laws of 1915, relating to pension for teachers, by adding thereto a new section to be known as Section 8A," begs leave to report as follows:

This bill provides that under the present pension act any teacher

who has been in the service of Hawaii for twenty-five years or more and whose salary for five years before retirement has not averaged more than six hundred dollars may, instead of making cash payment to equal the amount short of the 20% required by the pension law, receive half of the pension until such time as the remaining half equals the amount of the shortage, after which time the teacher shall receive the full pension.

The bill seems fair and will be of assistance to teachers who earnestly need assistance under the pension law.

The Committee recommends the passage of the bill.

No. 119) recommending that House Bill No. 184, entitled: "An Act to amend Section 3696 of the Revised Laws of Hawaii, 1915, relating to coroner's inquest," be tabled. The report was read by the Clerk as follows:

Honolulu, T. H., March 26, 1917.

Honorable Charles F. Chillingworth,
President of the Senate.

Sir:—Your Judiciary Committee, to which was referred House Bill No. 184, entitled: "An Act to amend Section 3696 of the Revised Laws of Hawaii, 1915, relating to coroner's inquest," begs leave to report as follows:

This bill proposes that if a person clearly has committed suicide, or met with an accident wherein no one but himself was concerned, or died suddenly from natural causes, no coroner's jury need be summoned, but the coroner shall reduce the facts to writing and keep same on file.

Under the present law, the coroner really has the discretion proposed to be given him in this bill. The only addition is that in case of natural deaths the coroner shall reduce the facts to writing. Ordinarily a doctor's certificate of death in a natural case is sufficient and is really better than the coroner's views on the matter.

There seems to be no real reason why the bill should pass the Committee therefore recommends that the bill be tabled.

Respectfully submitted,

JUDICIARY COMMITTEE.

ALFRED L. CASTLE, Chairman;
J. H. CONEY,

After prayer by the Chaplain, the roll was called showing all Senators present, with the exception of Senator Mikaele, excused by the President.

The Journal of the Twenty-eighth Day was read by the Clerk, and upon motion by Senator Pacheco, seconded by Senator Kamauoha, was approved.

Senator Robinson, for the Committee on Enrollment, Revision and Printing, presented a report (Stand. Com. Rep. No. 120) to the effect that Senate Bills Nos. 78, 81 and 84, had been printed and were ready for distribution. The report was read by the Clerk as follows:

Honolulu, T. H., March 27th, 1917.

Hon. Chas. F. Chillingworth,
President of the Senate.

Sir:—Your Committee on Enrollment, Revision and Printing, begs leave to report that Senate Bills Nos. 78, 81 and 84 have been printed and that the same are ready for distribution.

WM. T. ROBINSON, Chairman.

The Committee on Enrollment, Revision and Printing, having returned Senate Bill No. 78, entitled: "An Act to regulate the practice of optometry and for the appointment of a Board of Examiners and providing penalties for the violation thereof," the same was referred to the Committee on Public Health.

The Committee on Enrollment, Revision and Printing, having returned Senate Bill No. 81, entitled: "An Act to amend Section 2970 of the Revised Laws of Hawaii, 1915, relating to desertion and non-support of wife or children and penalty therefor," the same was referred to the Committee on Judiciary.

The Committee on Enrollment, Revision and Printing, having returned Senate Bill No. 84, entitled: "An Act to amend Section 28 of Act 221 of the Session Laws of 1915, relating to the salaries and expenses of members of the Industrial Accident Boards," the same was referred to the Committee on Ways and Means.

Senator Castle, for the Committee on Judiciary, presented a report (Stand. Com. Rep. No. 121) recommending that Senate Bill No. 7, entitled: "An Act providing for the redemption of real property sold on execution, mortgage foreclosure, sale under the tax laws, sales under Section 1807 of the Revised Laws of Hawaii, 1915, and other forced sales," be tabled. The report was read by the Clerk as follows:

Honolulu, T. H., March 27, 1917.

Honorable Charles F. Chillingworth,
President of the Senate.

Sir:—Your Judiciary Committee, to which was referred Senate Bill No. 7, entitled: "An Act providing for the redemption of real property sold on execution, mortgage foreclosures, sales under the tax laws, sales under Section 1807 of the Revised Laws of Hawaii, 1915, and other forced sales," begs leave to report as follows:

The intention of the bill is good; namely, to prevent the so-called land shark from getting a mortgage on advantageous terms and foreclosing the same for his benefit.

After careful consideration, however, the committee finds that the majority of mortgages are taken by banks, trust companies or reputable individuals for purposes of a bona fide loan. In these cases, the right of foreclosure is not ordinarily used for illegitimate purposes. If the mortgage is foreclosed ordinarily the bidding is somewhat spirited and the property brings its real value. In certainly the majority of instances there is a surplus coming to the mortgagor. If the six months period of redemption were allowed, the result would be to prevent such spirited bidding at foreclosure sales and would thus really defeat the purpose of this bill.

For the reasons above stated, the Committee recommends that the bill be tabled.

Respectfully submitted,

JUDICIARY COMMITTEE.

ALFRED L. CASTLE, Chairman;
J. H. CONEY,
G. P. KAMAUOHA,
R. H. MAKEKAU,
WM. T. ROBINSON.

Upon motion by Senator Castle, duly seconded and carried, the report was adopted. The Bill was thereupon ordered tabled.

Senator Castle, for the Committee on Judiciary, presented a report (Stand. Com. Rep. No. 122) recommending that Senate Bill No. 70, entitled: "An Act to amend Section 1881 of the Revised Laws of Hawaii, 1915, relating to highways," be passed with certain amendments. The report was read by the Clerk as follows:

Honolulu, T. H., March 27, 1917.

Honorable Charles F. Chillingworth,
President of the Senate.

Sir:—Your Judiciary Committee, to which was referred Senate Bill No. 70, entitled: "An Act to amend Section 1881 of the Revised Laws of Hawaii, 1915, relating to highways," begs leave to report as follows:

Under the present law, it is uncertain who has charge and general supervision over ditches, railroads, power-lines and similar structures

crossing public highways except where these matters are specifically cared for in the charter of the various public utility companies.

The proposed bill gives to the Supervisors of the respective counties charge of all such matters where a crossing of a public highway is involved.

The Committee recommends amending the bill: by inserting after the word "ditches" in line 10 of Section 1 the word "flumes"; strike out all that follows after the words "public convenience" in line 15 of said Section 1 and insert in lieu thereof the following: "and safety in all cases where permission has been or may hereafter be granted to maintain any such ditches, railroads, pipes or other structure across, under, over and upon all public highways, roads, alleys, streets, ways, lanes, squares, courts, trials and bridges in the Territory". Add a new section to the bill to be numbered Section 2 to read as follows: "SECTION 2. This Act shall take effect upon its approval."

As thus amended, the Committee recommends the passage of the bill.

Respectfully submitted,

JUDICIARY COMMITTEE.

Upon motion by Senator Castle, seconded by Senator Robinson, the report was adopted. The Bill thereupon passed Second Reading as amended.

Senator Castle, for the Committee on Judiciary, presented a report (Stand. Com. Rep. No. 123) recommending that House Bill No. 161, entitled: "An Act to amend Section 288 of the Revised Laws of Hawaii, 1915, as amended by Section 2 of Act 92 of the Session Laws of 1915, relating to duties of deputy sheriffs," be passed. The report was read by the Clerk as follows:

Honolulu, T. H., March 27, 1917.

Honorable Charles F. Chillingworth,
President of the Senate.

Sir:—Your Judiciary Committee, to which was referred House Bill No. 161, entitled: "An Act to amend Section 288 of the Revised Laws of Hawaii, 1915, as amended by Section 2 of Act 92 of the Session Laws of 1915, relating to duties of deputy sheriffs," begs leave to report as follows:

This bill proposes to make it the duty of a deputy sheriff, or such police officer as he shall designate, to act as truant officer.

Under the present law, it is the duty of the officer to visit public schools.

The proposed bill merely extends this to include private schools where English is the basis of education.

It is understood that the private schools themselves are in favor of the measure.

The Committee recommends the passage of the bill.

Respectfully submitted,

JUDICIARY COMMITTEE.

ALFRED L. CASTLE, Chairman;

Upon motion by Senator Castle, seconded by Senator Makekau, the Bill was placed on the order of the day for Third Reading, Wednesday, March 28, 1917.

Senator Castle, for the Committee on Judiciary, presented a report (Stand. Com. Rep. No. 124) recommending that House Bill No. 120, entitled: "An Act to amend Section 1 of Act 142 of the Session Laws of 1915 for the protection of women," be tabled. The report was read by the Clerk as follows:

Honolulu, T. H., March 27, 1917.

Honorable Charles F. Chillingworth,
President of the Senate.

Sir:—Your Judiciary Committee, to which was referred House Bill No. 120, entitled: "An Act to amend Section 1 of Act 142 of the Session Laws of 1915 for the protection of women," begs leave to report as follows:

The present law makes it unlawful for any unmarried female person under the age of sixteen years to loiter upon the public streets of Honolulu between the hours of eight o'clock p. m. and four o'clock a. m.

The proposed bill extends the law to any and all thoroughfares in the other counties.

There does not seem to be sufficient reason for the extension of the law to the other counties and the committee recommends that the bill be tabled.

Respectfully submitted,

JUDICIARY COMMITTEE.

ALFRED L. CASTLE, Chairman;

G. P. KAMAUOHA,
R. H. MAKEKAU,
WM. T. ROBINSON.

Upon motion by Senator Castle, seconded by Senator Makekau, the report was adopted. The Bill was thereupon ordered tabled.

Senator Castle, for the Committee on Judiciary, presented a report (Stand. Com. Rep. No. 125) recommending that House Bill No. 205, enti-

tled: "An Act to repeal Section 4174 of the Revised Laws of Hawaii, 1915," be tabled. The report was read by the Clerk as follows:

Honolulu, T. H., March 27, 1917.

Honorable Charles F. Chillingworth,
President of the Senate.

Sir:—Your Judiciary Committee, to which was referred House Bill No. 205, entitled: "An Act to repeal Section 4174 of the Revised Laws of Hawaii, 1915," begs leave to report as follows:

This bill proposes to repeal the law relating to the presence of persons in rooms, houses or places barred and barricaded where gambling games are going on.

The argument presented before the committee was that practically all of the convictions on gambling are under this section and that the section goes too far, resulting at times in the punishment of innocent parties. This assertion is denied by the prosecuting officers.

It may be true that the section does go a little far, but it clearly would be a serious mistake to repeal the whole section; and the Committee, therefore, recommends that the bill be tabled.

Respectfully submitted,

JUDICIARY COMMITTEE.

Senator Castle, for the Committee on Judiciary, presented a report (Stand. Com. Rep. No. 126) recommending that House Bill No. 235, entitled: "An Act to amend subdivision 1 of Section 3090 of the Revised Laws of Hawaii, 1915, relating to the fees of the Registrar of Conveyances," be passed with certain amendments. The report was read by the Clerk as follows:

Honolulu, T. H., March 27, 1917.

Honorable Charles F. Chillingworth,
President of the Senate.

Sir:—Your Judiciary Committee, to which was referred House Bill No. 235, entitled: "An Act to amend subdivision 1 of Section 3090 of the Revised Laws of Hawaii, 1915, relating to the fees of the Registrar of Conveyances," begs leave to report as follows:

This bill provides that no fees shall be required of any County or City and County presenting any document for record.

The purpose of the bill is good, but it is too broad.

The Committee recommends amending the bill by adding to Section 1

the following: "wherein the said county or city and county is the grantee."

As thus amended, the Committee recommends the passage of the bill.

Respectfully submitted,

JUDICIARY COMMITTEE.

Upon motion by Senator Castle, seconded by Senator Quinn, the report was adopted. The Bill thereupon passed Second Reading as amended.

Senator Castle, for the Committee on Judiciary, presented a report (Stand. Com. Rep. No. 127) recommending that House Bill No. 249, entitled: "An Act to amend Section 3302 of the Revised Laws of Hawaii, 1915, relating to corporations," be tabled. The report was read by the Clerk as follows:

Honolulu, T. H., March 27, 1917.

Honorable Charles F. Chillingworth,
President of the Senate.

Sir:—Your Judiciary Committee, to which was referred House Bill No. 249, entitled: "An Act to amend Section 3302 of the Revised Laws of Hawaii, 1915, relating to corporations," begs leave to report as follows:

The present law regarding corporations prohibits any corporation from owing more money than the amount of its capital stock. The proposed bill would limit it to the assets of the corporation as sworn to and subscribed by the officers of such corporation as of December 31st of the preceding year according to its exhibit filed with the treasurer of the Territory.

This gives an opportunity for false swearing as to the assets, and a shareholder suing to enjoin the creation of a large debt could not go behind the assets as set forth in the exhibit. It would mean that a corporation could be created, put in Five Thousand Dollars in capital stock, swear that its assets were worth a hundred thousand dollars and create debts to that amount. It would result in an abuse by unscrupulous corporations and would be no protection to the public.

On the other hand, there are corporations having small capital and large assets: these corporations frequently owe debts in a larger amount than the capital stock. The present law does not necessarily prevent this because no one can come into court unless he is injured.

The Committee, therefore, feels that the passage of the bill would be a great mistake and recommends that it be tabled.

Respectfully submitted,

JUDICIARY COMMITTEE.

The report was read by the Clerk as follows:

Honolulu, T. H., March 27th, 1917.

Hon. Chas. F. Chillingworth,
President of the Senate,
Senate Chamber, Ter. Hawaii.

Sir:—Your Committee on Education to whom was referred House Bill No. 237, entitled: "An Act to amend Act 132 of the Session Laws of 1915, to Fix the School Budget for the Biennial Period beginning January 1, 1916, and ending December 31, 1917," begs leave to report as follows:

The proposed amendment to Section 1 of said Act 132 of Session Laws of 1915 is to delete item: "Pupukea 2250.00" so as to insert two new items to read:

Pearl City	\$ 610.00 and
Waiialua	\$1,640.00, the

two new items amounting to \$2,250.00.

We recommend that this bill pass.

Very respectfully submitted,

Upon motion by Senator Desha, seconded by Senator Kamaooha, the report was adopted. The Bill thereupon passed Second Reading.

Senator Desha, for the Committee on Education, presented a report (Stand. Com. Rep. No. 129) recommending that House Bill No. 268, entitled: "An Act directing the Department of Public Instruction to establish a high school in the District of Hana, County of Maui," be tabled. The report was read by the Clerk as follows:

Honolulu, T. H., March 27th, 1917.

Hon. Chas. F. Chillingworth,
President of the Senate,
Senate Chamber, Ter. Hawaii

Sir:—Your Committee on Education, to whom was referred House Bill No. 268, entitled: "An Act Directing the Department of Public Instruction to Establish a High School in the District of Hana, County of Maui," begs leave to report as follows:

If this bill is allowed to become law it would open the door wide for various other districts in this Territory not already favored with a

high school, but where no real necessity for such schools exist, to ask for the establishment of such high grade institutions in every hamlet.

In all the Hana District from Kaupo to Keanae there are at present only seven school children in the 8th grade, and six in the 7th grade, and as a general rule about one half of the 8th grade children would drop off at the beginning of the new school term. Besides each new high school established would mean the securing of at least three new high salaried teachers who would cost the government about \$3,500.00 extra per annum for teaching 3 or 4 pupils, besides the cost of equipments, buildings, laboratories, etc.

We therefore recommend that the bill be tabled.

Respectfully submitted,

EDUCATION COMMITTEE.

Chairman.

The Committee on Enrollment, Revision and Printing having returned Senate Bill No. 85, entitled: "An Act to amend Chapter 79 of the Revised Laws of Hawaii, 1915, relating to the practice of dentistry," the same was referred to the Committee on Public Health.

The Committee on Enrollment, Revision and Printing, having returned Senate Bill No. 86, entitled: "An Act making an appropriation out of the general revenue for payment of certain expenses in connection with the disposition of the remains of the late James H. Boyd," the same was referred to the Committee on Ways and Means.

The Committee on Enrollment, Revision and Printing, having returned Senate Joint Resolution No. 2, requesting the Congress of the United States to amend the land laws of the Territory of Hawaii, the same was referred to the Committee on Public Lands.

Senator Castle, for the Committee on Judiciary, presented a report (Stand. Com. Rep. No. 133), recommending that House Bill No. 207, entitled: "An Act to regulate the appearance of defendants on charges of misdemeanor before either the district or circuit courts," be tabled. The report was read by the Clerk, as follows:

Honolulu, T. H., March 28, 1917.

Honorable Charles F. Chillingworth,
President of the Senate.

Sir:—Your Judiciary Committee, to which was referred House Bill No. 207, entitled: "An Act to regulate the appearance of defendants on charges of misdemeanor before either the District or Circuit Courts," begs leave to report as follows:

This bill proposes that a person who is charged with the commission of a misdemeanor and is given bail and is represented by an attorney

need not appear at the trial of his case, but he may appear by his attorney.

At the present time, the Judge uses his discretion in the matter. There may be cases where it is best to have the person charged present in court.

The Committee, therefore, recommends the bill be tabled.

Respectfully submitted,

JUDICIARY COMMITTEE.

ALFRED L. CASTLE, Chairman;
J. H. CONEY,
G. P. KAMAUOHA,
R. H. MAKEKAU,
WM. T. ROBINSON.

Upon motion by Senator Castle, seconded by Senator Robinson, the report was adopted. The Bill was thereupon ordered tabled.

Senator Castle, for the Committee on Judiciary, presented a report (Stand. Com. Rep. No. 134), recommending that House Bill No. 208, entitled: "An Act relating to the signing and certifying of judgments of district magistrates and other process in district courts, adding a new section to Chapter 23 of the Revised Laws of Hawaii, 1915, to be known as Section 2337A," be passed with certain amendments. The report was read by the Clerk, as follows:

Honolulu, T. H., March 28, 1917.

Honorable Charles F. Chillingworth,
President of the Senate.

Sir:—Your Judiciary Committee, to which was referred House Bill No. 208, entitled: "An Act relating to the signing and certifying of judgments of District Magistrates and other process in District Courts, adding a new section to Chapter 23 of the Revised Laws of Hawaii, 1915, to be known as Section 2337A," begs leave to report as follows:

Under an act passed in the Session of 1915, the clerk of the district court is allowed to sign summons, writs of replevin and attachments.

The proposed bill would allow him also to sign judgments, writs of possession, ouster, subpoenas and executions.

A writ of possession and ouster, however, are matters which raise considerable legal questions and it, perhaps, would not be safe in allowing the clerk to sign such writs, but on the other hand they should be left to the magistrate as at present.

The Committee recommends striking out all after the first three lines of Section 1, and insert in lieu thereof the following: "Section 2337A. The duly appointed Clerk of any District Court as well as the Magistrate thereof may sign and certify any judgment rendered in said

Court and may sign any subpoena and execution. Section 2. This Act shall take effect upon its approval."

As thus amended, the Committee recommends the passage of the bill.

Respectfully submitted,

JUDICIARY COMMITTEE.

ALFRED L. CASTLE, Chairman;
J. H. CONEY,
G. P. KAMAUOHA,
R. H. MAKEKAU,
WM. T. ROBINSON.

Upon motion by Senator Castle, seconded by Senator Makekau, the report was adopted. The Bill thereupon passed Second Reading, as amended.

Senator Castle, for the Committee on Judiciary, presented a report (Stand. Com. Rep. No. 135), recommending that House Bill No. 248, entitled: "An Act to provide for the recovery of all costs and an attorney's fee by an employee who recovers judgment against his employer for wages," be tabled. The report was read by the Clerk, as follows:

Honolulu, T. H., March 28, 1917.

Honorable Charles F. Chillingworth,
President of the Senate.

Sir:—Your Judiciary Committee, to which was referred House Bill No. 248, entitled: "An Act to provide for the recovery of all costs and an attorneys' fee by an employee who recovers judgment against his employer for wages," begs leave to report as follows:

This bill proposes that if an employee recovers judgment against his employer for wages due, he shall be entitled to have taxed against the defendant as costs certain attorney's fees. On the other hand, if the employer should be successful and shows that nothing is due, the employer is not entitled to an attorney's fee.

Under the present law it is a criminal offense for any person, firm, partnership or corporation to deduct and retain any portion of wages due, or to collect any store account, etc., without the written consent of such laborer or employee.

The Committee feels that the present law offers sufficient protection, and therefore recommends that the bill be tabled.

Respectfully submitted,

JUDICIARY COMMITTEE.

ALFRED L. CASTLE, Chairman;

G. P. KAMAUOHA,
R. H. MAKEKAU,
WM. T. ROBINSON.

Upon motion by Senator Castle, seconded by Senator Makekau, the report was adopted. The Bill was thereupon ordered tabled.

Senator Castle, for the Committee on Judiciary, presented a report (Stand. Com. Rep. No. 136), recommending that House Bill No. 294, entitled: "An Act to provide for the service of certain judicial writs and processes," be tabled. The report was read by the Clerk, as follows:

Honolulu, T. H., March 28, 1917.

Honorable Charles F. Chillingworth,
President of the Senate.

Sir:—Your Judiciary Committee, to which was referred House Bill No. 294, entitled: "An Act to provide for the service of certain judicial writs and processes," begs leave to report as follows:

The bill proposes that service of writs, processes, summons, or subpoenas may be made by any citizen. There is no provision that the citizen shall be under bond and there is no protection given to the party on whom the paper is to be served.

The Committee feels that it is a dangerous precedent to take it out of the hands of the police, and recommends that the bill be tabled.

Respectfully submitted,

JUDICIARY COMMITTEE.

Upon motion by Senator Castle, seconded by Senator Makekau, the report was adopted. The Bill was thereupon ordered tabled.

Senator Desha, for the Committee on Education, presented a report (Stand. Com. Rep. No. 137), recommending that Senate Bill No. 61, entitled: "An Act to amend Chapter 24 of the Revised Laws of Hawaii, 1915, by adding thereto a new section to be known as Section 265A, relating to the Department of Public Instruction," be tabled. The report was read by the Clerk, as follows:

Honolulu, T. H., March 27th, 1917.

Hon. Chas. F. Chillingworth,
President of the Senate.
Senate Chamber, Ter. Hawaii.

Sir:—Your Committee on Education to whom was referred Senate Bill No. 61, entitled: "An Act to amend Chapter 24 of the Revised Laws of Hawaii, 1915, by adding thereto a new section to be known as Section 265A, relating to the Department of Public Instruction," begs leave to report as follows:

This bill proposes to allow a teacher an appeal to the Supreme Court in cases where a teacher is dismissed from the service of the department of public instruction for a just cause shown, and that if charges against said teacher are sustained, he or she shall have the right to appeal from such decision to the Supreme Court.

Under the present system a teacher is employed by the Department of Public Instruction for one year. At the end of that year it is optional with the department whether or not the teacher is to be employed again, and if he or she is so employed a new contract is issued.

The contract in each instance provides, "A teacher may be dismissed from the service for a cause, after a hearing of the case before the department or authorized agent of the department." The contract itself therefore recognizes the principal that a person should not be discharged without the chance for a hearing.

As the contract is only from year to year, if an appeal were allowed to the Supreme Court, or a hearing before the Supreme Court directly, it might result in no decision being reached until the contract had expired.

For the above reasons the Committee recommends the bill be tabled.

Respectfully submitted,

EDUCATION COMMITTEE.

S. L. DESHA, Chairman;
ALFRED L. CASTLE,
GEO. P. COOKE.

Upon motion by Senator Desha, duly seconded and carried, the report was adopted. The Bill was thereupon ordered tabled.

No. 138), recommending that House Bill No. 48, entitled: "An Act to repeal Section 632 of the Revised Laws of Hawaii, 1915, as amended by Act 69 of the Session Laws of 1915, relating to nehu and iao," be passed. Senator Cooke, for the Committee on Public Health, presented a report (Stand. Com. Rep. No. 139), recommending that House Bill No. 56, entitled: "An Act declaring and designating a certain tract of government land at Piihonua, South Hilo, County of Hawaii, Territory of Hawaii, as grounds for the Hilo Hospital," be tabled. The report was read by the Clerk, as follows:

Honolulu, T. H., March 28th, 1917.

Hon. Charles F. Chillingworth,
President of the Senate.

Sir:—Your Committee on Public Health, to which was referred House Bill No. 56, entitled: "An Act declaring and designating a certain tract of government land at Piihonua, South Hilo, County of Hawaii,

Territory of Hawaii, as grounds for the Hilo Hospital," begs leave to report as follows:

After due and careful consideration the committee finds that as the hospital is situated near a public school, the noise of the children at recess disturbs the patients, and therefore the site is hardly suitable for a hospital; also that the present hospital is an old structure and in need of enlargement. There was also presented to your committee the fact that there are certain preference rights on the land sought to be set aside in this bill for the hospital. The committee further finds that the Governor has the authority to designate a site for a new hospital in a quiet and more suitable locality.

Your committee, therefore, on the above grounds, recommends that the bill be tabled.

Respectfully submitted,

HEALTH COMMITTEE.

A communication from the House of Representatives (House Com. No. 141), returning Senate Concurrent Resolution No. 10, requesting the Navy Department to lend to the Territory a vessel for the use of the

Honolulu, T. H., March 28, 1917.

The Honorable President and
Members of the Senate of the
Territory of Hawaii.

Gentlemen:—I have the honor to return, herewith Senate Concurrent Resolution No. 10, which was this day adopted in the House of Representatives of the Territory of Hawaii with the following amendment:

Delete the title which reads as follows: "Requesting the President of the United States and the Secretary of the Navy for loan of a sea-going training ship for the use of the Naval Militia of the Territory of Hawaii."

A communication from the Hawaii Promotion Committee (Misc. Com. No. 17) was read by the Clerk as follows:

Honolulu, Hawaiian Islands, U. S. A., March 27, 1917.

Hon. Charles F. Chillingworth,
President Senate,
Legislature of Hawaii,
Honolulu.

Dear Mr. Chillingworth:—In leaving Honolulu for the mainland to offset war scare rumors as they affect travel to the Islands and to launch summer travel campaigns and otherwise interest mainland travelers in Hawaii as a tourist resort, war or no war, I thought it best to leave this memo with you, which is in the interest of the Hawaii Promotion Committee. Both the Republic and Democratic parties are on record in their party platforms as being in favor not only of continuing the appropriation which the Legislatures of past sessions have made for the work of the Committee, but to increase the amount.

I know that you know this already, but thought best to call your attention to the matter anyhow. If I were not absent myself from the Territory, I would probably have had an opportunity to appear before the Committee which has the promotion matters in hand to call attention to this personally. Therefore, I am taking this means of doing so.

Wishing you all success in your presidency and also wishing the Legislature a successful session, I remain,

Very truly yours,

A. P. TAYLOR,
Secretary.

The communication was referred to the Committee on Agriculture, Forestry and Promotion.

A communication from the Governor (Dept. Com. No. 34) transmitting reports of the Industrial Accident Boards of the several counties and of the city and county, was read by the Clerk as follows:

March 29, 1917.

To the Legislature:

In conformity with Act 221, Session Laws 1915, I transmit herewith reports of the Industrial Accident Boards of the several Counties and City and County for the period July 1, 1915, to December 31st, 1916.

LUCIUS E. PINKHAM,
Governor of Hawaii.

REPORT OF THE INDUSTRIAL ACCIDENT BOARD.

CITY AND COUNTY OF HONOLULU.

July 1st to December 31st, 1915.

Lucius E. Pinkham,

Governor of the Territory of Hawaii.

Honorable Sir:—In accordance with the provisions of the Workmen's Compensation Act, Section 58, we beg to offer you the report of the results of the operation of the law for the six months from July first, up to and including the thirty-first day of December, nineteen hundred fifteen, briefly incorporating therein such information as we hope may prove of interest to you as Governor of the Territory and to the Legislature of the Territory.

Organization.

The Board held its first meeting at the offices of the Henry Waterhouse Trust Company, Ltd., on Wednesday, June ninth, nineteen hundred fifteen. There were present at this meeting Messrs. A. J. Campbell, F. E. Steere, R. B. Booth and F. O. Boyer. Mr. S. S. Paxson's absence from the city prevented his attendance at this meeting.

Mr. A. J. Campbell was elected Chairman of the Board.

On July first quarters were secured in the McCandless Building, arrangements having been made with the Hawaiian Engineering Association for the use of their room, No. 202, in that building.

The services of a secretary were secured, to whom was relegated the task of putting the office of the new Commission under the Workmen's Compensation Act into condition, and preparing for the proper conduct of the general details of the work to be accomplished.

Without loss of time, the necessary furnishings and the methods of operation were arranged and the routine work established.

Securities Filed.

During these six months, there were filed with this Commission, by one thousand and seventy-nine employers, security for the payment of compensation to their employees, in some one of the four ways provided under Section 46 of the Act.

Where application to carry their own insurance was made to the Board, careful and exhaustive consideration was given to the various possible conditions that might arise creating responsibility in the employer for a continuous period and making him liable for amounts bearing seriously upon his financial resources.

These applications to carry their own insurance were comparatively few, the number of such requests not exceeding seventy-five. Where the financial exhibits, in the judgment of the Board, did not warrant the assuming on the part of the applicant the liability for the payment of the compensation possibly involved these applications were denied and the employers instructed to provide security in some one of the other methods indicated under Section 46.

In several instances, subsequent to the approval and Order of Acceptance by the Board of this Exhibit under Schedule "A," the parties granted the privilege of carrying their own insurance have protected their liability under the Act by filing a policy of insurance with the Board.

The actual number of employers at present, in fact, taking advantage of the privilege permitted under item four, Section forty-six of the Act, totals fifty-three, this total representing six individuals and forty-seven corporations. Bonds have been filed by three corporations.

Delinquencies.

Probably the number of returns quoted does not represent more than fifty per cent of the employers of the City and County of Honolulu subject to the Act. Only recently, on account of the organization and the detail that the Board has had to inaugurate, has it been able to seriously consider the matter of delinquents.

It is a fact that, so far, the only method adopted by the Board in the matter of delinquents has been to give a list of delinquents to the County Attorney's Office, it being understood by the Board that this was all that was necessary to institute legal proceedings against such delinquents.

However, the County Attorney's Office has taken the attitude that while it recognizes the Act intended it should prosecute cases referred to it by the Industrial Accident Board, it maintains that the Board should furnish the necessary data to institute the suits.

This Board understands from the County Attorney's Office that the procuring of this data would practically take one man's time, and that it has neither the extra man nor the funds with which to hire one.

The apportionment for our Board is limited, and it does not feel that it can add another employee with the funds at its disposal. The County Attorney's Office has suggested that the powers given to the Board will enable it to call before the Board, at its meetings, the delinquents and obtain data in that way. In the opinion of this Board, the Act did not contemplate that its time should be taken up in this manner, as the vital questions continually coming before the Board for adjustment take all the time that its members, who have their own business to attend to, can reasonably be expected to give.

Unless the Executive Department can furnish more funds, or the Attorney General's office help in the prosecution, the Board will have to make the matter of delinquency a secondary consideration, trusting that the next legislature will place at its disposal money enough for it to employ an inspector for this work.

Accidents.

Accidents, to the number of six hundred and eighty-nine were reported for this same period, the majority of the accidents resulting in minor injuries where the medical and hospital costs paid by the employer, or the insurance carrier, were considerably less than the maximum amount stipulated by the law, the injured employee recovering from the disability and returning to work prior to the expiration of the fourteen-day period.

One hundred and fifty-one of these accidents created disabilities extending over a compensation period longer than one week. Five hundred and eighty-two of the total number of cases were closed during the six

months through the voluntary adjustment of the compensation due the injured employee, by the employer or his insurance carrier, subject to the approval, and sometimes the preliminary advice or instruction of the Board.

One hundred and two cases are still under compensation.

Claims Presented to the Board.

Twenty-three claims were presented to the Board, on the part of employees, where, from the employee's point of view, a voluntary and satisfactory compensation had not been offered by the employer.

Three of these cases were dismissed; the facts disclosing in one case that the employer had fully complied with the law in affording the claimant proper medical care and all due compensation; in the other two cases dismissed, the Board had no jurisdiction in the premises, one accident ante-dating the first of July, nineteen hundred fifteen, the other on account of the non-residency of the employer.

Two awards were made by the Board for continued payments of compensation for the maximum periods provided under the Act—the beneficiary under one of these awards remaining for the present under the supervision of the Board.

Five of the accidents reported to the Board and coming under their jurisdiction, resulted in death. In one instance there were no dependents, the wife and children living in China and having never been residents of the Territory or of the United States, were aliens and not entitled to compensation under the law.

Of the three other death cases, all coming under the provisions of the Act, two are still pending, the third is about to be closed by a settlement award for the continued payment of compensation for the full period of three hundred and twelve weeks, in compliance with the provisions of the Act pertaining to the case.

Board Meetings.

Forty-two meetings of the Board have been held.

Full and explicit minutes of each meeting are on record. Persistent effort has been made to secure accurate and detailed data in connection with all matters brought before the Board and in reference to every accident reported, all data being preserved on file.

The clerical work required has been necessarily great, and the secretary, combining the duties of secretary, stenographer and clerk, has found that efficient service demands responsibility, initiative, vigilant, alertness and infinite patience.

The Honorable Royal Meeker, U. S. Commissioner of Labor Statistics, Department of Labor, Washington, D. C., was present at the evening meeting of September second, nineteen hundred fifteen. He discussed with the members of the Board matters of general interest in compensation law and its operation in the States, and offered suggestions in regard to the method of preparing statistical reports, and the arranging of data along lines tending to secure accuracy and intelligent classification of matter submitted to such reports.

The work of these initial six months has been necessarily formative and educational. As a rule, cordial coöperation on the part of the general public has marked the response to the unavoidable demands of the Board in connection with inducing compliance with the law throughout the City and County of Honolulu. A great amount of the administrative work has been accomplished through personal interviews, an increasing number of the inquiring public visiting the Board room daily, seeking a clearer interpretation of the law; information concerning special

liability under individual conditions; instruction in regard to the payment of compensation, and, not infrequently, to offer eloquent and prolonged objections to the actual enforcement of the law under personal conditions represented as being "exceptions."

These daily interviews at the Board room, by both employers and employees, absorb time and attention. Cordial courtesy and attentive interest on the part of the members of the Board and the secretary, coöperating with this "desire to know" on the part of the public, will eventually result in a more comprehensive understanding of the law and an intelligent acceptance of its provisions.

The volume of correspondence steadily increases, at home and abroad. Looking toward uniform action, Industrial Commissions and Boards in the several states are endeavoring to effect an interchange of facts and figures and general information of mutual interest and helpfulness.

This brief experience of the Board is insufficient to determine the full value and correctness of all the provisions of the Act, but the results of the half-year's work indicate that in principle and effectiveness, the law is thoroughly practical. Employers and employees are not yet adequately informed concerning their rights and obligations, and frequent misconceptions engender misunderstandings that a few moments' explanation and discerning interpretation of the provisions of the Act promptly and amicably reconciles.

Insurance Companies.

The insurance companies and agencies, seven in number, writing compensation insurance, from the first evinced a reasonable, and eventually, a cordial coöperation with the Industrial Accident Board in their endeavors to comply with the requirements of the Act and to promote the strict execution of the law.

In some instances an apparent reluctance toward reaching adjustment with the injured employee doubtless arose from the lack of mutual understanding and uniform methods of procedure between the employers and the insurance carriers.

The adjustment of the large number of minor claims involves an enormous amount of labor on the part of these agencies, and the Board appreciates the goodwill and the courteous attention that has characterized the attitude of the insurance carriers generally.

Before approval or acceptance, the Board subjected every policy of insurance to a rigid examination, recommending in detail the elimination or amendment of those features that, in the opinion of the Board, were not strictly in accordance with the law. Compliance with the rulings of the Board in this regard on the part of all the companies offering such policies for approval made it possible to accept these policies until such time as a standard policy is agreed upon by the different insurance companies.

Interpretation of the Act.

There are certain sections of the Act that admit of more than one interpretation. On certain cases the Board has deferred action, referring said cases to the City and County Attorney for a decision. Up to the present time, December thirty-first, no decisions have been handed down to the Board from the office of the City and County Attorney.

It may be advisable to test the interpretation of one or two sections by submitting the matter under contention in such cases to the Supreme Court, where the contention raises an important question of law, and there is no dispute in regard to the statement of facts, but only in regard to the legal construction of the law.

The Board has endeavored to correctly value the evidence placed before it, bearing in mind that, while the interest of the injured employee must claim its primary consideration in its semi-judicial capacity, comprehensive understanding from the employer's point of view, and practical justice toward him, must contribute to the determining of the merits of the case presented.

The law, in general, is so explicit and direct that grounds for controversy are reduced to a minimum.

Medical Decisions.

In determining disability, the Board, from time to time, has deemed it expedient to refer cases to the examination of a medical adviser, for a decision involving medical points not clear to an unprofessional experience, choosing the medical referee with a view to special fitness in the case in question.

A medical department, or a medical director, to advise the Industrial Accident Board upon medical and surgical details would greatly facilitate the adjustment of claims and the interpretation of testimony. It is frequently advisable, and on occasion absolutely essential, to have special consultation in regard to the character of the disability and the nature of the injury. This renders unavoidable much discussion and considerable correspondence.

Expenditures.

Care and economy have been exercised in the expenditures of the Board, avoiding any outlay beyond that necessary to correctly establish and execute the proper and effective service required.

Certain procedures indicated by the conditions arising under the circumstances, the Board on occasion has been compelled to omit, owing to the limited funds available.

The following statement of expenditures is respectfully submitted, for the six months ending December thirty-first, nineteen hundred fifteen:

Furniture and office supplies.....	\$ 524.20
Blank forms (for Oahu Board).....	185.60
do. (for Hilo Board).....	75.60
Record books	38.80
Stationery	26.70
Postage	10.00
Advertising	53.75
Telephone	29.30
Salaries	700.00
Rent	90.00
Interpreter	1.00
Total	\$1,734.95

The cost of the initial furnishings, record books and blank forms comprise about one-half of the amount expended and represent, in fact, an investment for the use of the Workmen's Compensation organization during the year, or years, to come.

Recommendations.

The annual report from this Board contemplates recommendations to the next legislature, both, from the standpoint of the Board, as to administration and the legal standpoint.

Necessarily, in the short space of time this law has been in operation, and this Board has been organized, its attention has been confined to getting the Act in operation. In the next report, which will be offered before the convening of the Legislature, this Board expects to offer a comprehensive list of recommendations suggested by the longer administration of the Act and the wider experience of the Board.

Reviewing the experience of the past six months, the Board is led to believe that the Workmen's Compensation Law, a precautionary as well as a compensating measure, like all good law, will prove progressive, and will adapt itself by modification and amendment to the new demands of the future as social necessity and the changing relations between employers and employees suggest, ultimately serving a manifold mission among men, the employer no less than the employee sharing the beneficial result.

Respectfully submitted,

(Signed) F. E. STEERE,

Acting Chairman of the Industrial Accident
Board, City and County of Honolulu.

December thirty-first, nineteen hundred fifteen.

REPORT OF THE INDUSTRIAL ACCIDENT BOARD.

CITY AND COUNTY OF HONOLULU.

January 1st to December 31st, 1916.

Lucius E. Pinkham,
Governor of the Territory of Hawaii.

Honorable Sir:—The Industrial Accident Board of the City and County of Honolulu submits its annual report covering the administration of the Workmen's Compensation Act of the Territory of Hawaii, for the twelve months ending December 31st, 1916.

On February 1st, 1916, a report was submitted by this Board, outlining in brief the organization and the operations of the Board covering the period of the first six months, ending December 31st, 1915. The text of that report was limited to general information in reference to the action of the Board in getting the Act into practical effect.

We have endeavored in this report to segregate the financial expenditures, showing how and why the moneys have been paid out; to give as accurately as the returns made to this Board permit a total of the payments of claims requiring compensation, and, in a condensed form, some statistical facts and figures covered by this branch of the Territorial government, together with supplemental general data which the Board hopes will prove of value and interest.

Compensation Law has been in successful operation in several of the States of the Union, and may be considered to have progressed beyond the experimental state.

While the Board has come into contact with some opposition to this law in the Territory, the opponents of the measure did not assume an attitude of antagonism to all forms of Workmen's Compensation, but while opposing in some degree this Act 221, apparently favored the Act in general as a reasonable and just compensation law. If, therefore, certain features of the present Act 221 are inadequate or open to misinterpretation, and by the omission of necessary provisions the Act is thereby

limited in effectiveness, it would seem that it is incumbent upon this Legislature to enact such amendments and additions as will tend to increase the economic value of a law, the wisdom and justice of which has now become universally recognized. We embody in this report and respectfully submit certain recommendations, suggested by the experience of the past year, for the attention and consideration of the Legislature.

While Workmen's Compensation Law is an innovation and an experiment in this Territory, it may be remembered that in all the countries of Europe, with the exception of Turkey, for nearly a quarter of a century, compensation legislation has been enacted; that in our own country, thirty-one States and Alaska are operating under markedly successful compensation laws, a number of additional States are preparing Acts for submission to their respective State legislatures and our sixty-fourth Congress created an Act to provide compensation for employees of the United States suffering injuries while in the performance of their duties.

The hazards of the industrial world are largely unavoidable, and industry should bear a just responsibility toward the injured workman in providing all possible safety devices and in compensating in due degree the injuries caused by the accidents incidental to industrial enterprises.

This compensation liability is entirely apart from any humane consideration, it being economically conceded that the lost time of the injured employee is as legitimate a part of the cost of the product as is that of the raw material, wherefore, the question of who is to blame for an accident is immaterial, for the fact that an injury has occurred to a workman in any line of employment immediately establishes his right to receive compensation. There are those who look upon the workmen's compensation in the nature of poor relief and the pecuniary provision as a charity fund—absolutely a false view of the facts. Compensation is not charity, it is a legal right, substituted by the wisdom of the people for the legal right to collect accident "damages," a right frequently abused by both employers and employees, either because of a prejudiced viewpoint or by deliberate intention to take advantage of the circumstance of accident as far as the sanction of the law will permit.

Under the old method of Employer's Liability, and as then held by the insurance world, the question of negligence or fault was generally **the basis of recovery**, and successful recovery by the injured person usually involved expensive and tedious court procedure, the court rulings viewed from the progressive and humanitarian standpoint of the present day in regard to social relations and equality of justice frequently resulting in unsatisfactory and unfair adjustment.

Compensation law, without recourse to litigation, affords a prompt and specific adjustment of claims for the disability resulting from industrial injury.

There is a vital inter-relationship existing between the employer and the employee. On the one hand, enterprise and capital are invested, on the other, the employee, whose labor is an absolute essential if the investment is to be made profitable, must put his whole strength of mind and body into the operation, incurring the risk of loss or harm for the benefit the product of his labor bestows upon the employer and the world of consumers. Neither can justly be compelled to bear the entire loss attending industrial accidents occurring in a jointly operated industry; equal justice demands that the industry shall bear the burden of expense of accidents that are the outcome of its operation.

Far more important than the payment of compensation will be the universal economic and scientific effort to avoid the occurrence of accidents by proper safety devices and careful supervision of employees and machinery.

To the understanding and conscientious employee, the benefits of the Act are beyond question; he knows what to expect and in case of injury avoids strife-breeding litigation, while the protection afforded creates confidence in and a good-will attitude toward the work demanded of him, a decided advantage in the conduct of the business and a source of great satisfaction to the employer. Though the amount of compensation may appear insufficient to the employee, the certainty of payment of the fixed amount and the fact that he is entitled thereto by right of law without the struggle and expense of a legal procedure gratify his sense of justice and establish an identity of interests.

Administration.

The organization being completed the Board found itself confronted with an administration embracing numerous problems and the task of devising ways and means of making effective a new and untried law. The system in operation has proved expeditious, economic and accurate and apparently satisfactory to the public. The secretary, with the assistance of the Chairman and the members of the Board, has had charge of organizing and installing the system in operation and of designing the books used in the office of this Board. That the system is practical is evidenced by the fact that an enormous amount of detail was handled by the secretary alone during the first year, and by the secretary and one clerk up to the present time.

Delinquencies.

Legal procedure in regard to the penalty for failure to secure compensation, as provided under Section 48, has not been put into effect by this Board in cases of delinquency on the part of the employers, for the reason, as set forth in our previous report, that due inspection and the procuring of reliable data have been matters difficult to arrange under present conditions. We are not ignoring the axiom that law unenforced does not survive, and only the penalty following its violation makes a law triumphant, but the wide controversy concerning certain points of Compensation Law, in the States as well as within our own Territory, suggests caution in procedure until some decision has determined certain questions.

There is a diversity of opinion in regard to the liability of employers under the Act, especially within the legal profession, certain attorneys holding that the business of the professional man is not to be classed as an "Industry" under the Compensation Law.

In order to solve this question of liability of attorneys as employers under the law, the question has been reserved to the Supreme Court in regard to a firm of attorneys at law, said firm taking the position that a law firm did not come within the provisions of the Act, the City and County Attorney's Office acting as attorney for the Board.

The Board contemplates an active and forceful consideration of this feature of the law early in this coming year, as promptly as an effective course of procedure can be inaugurated, it having been demonstrated that without some compulsory course of action, certain employers will neglect or refuse to provide security for the payment of compensation to their employees.

Securities Filed.

One thousand seventy-nine employers, during 1915, filed security for their compensation payments to their employees. One hundred fifty-four additional returns have been made to the Board during 1916, mak-

ing a present total of one thousand two hundred thirty-three, this figure not yet, in the opinion of the Board, approaching the full quota of the employers of the City and County of Honolulu subject to the Act.

Of those granted the privilege of carrying their own insurance in 1915, a number have since filed insurance policies to protect their compensation liability.

To forty-three employers, upon renewed application, accompanied by their financial exhibit as required by the law, an Order of the Board extending the privilege of carrying their own insurance has been reissued.

Meetings of the Board.

The members of your Board have conscientiously endeavored to conduct the business of this Industrial Accident Commission and the affairs laid before them for a decision with a serious regard for the best interest of the wage earner; and, with justice to the employer and with an unflinching desire and intention to promote the welfare of the general public, are confident that the past eighteen months have demonstrated beyond dispute that the new order brought about by the enactment of compensation legislation has proved acceptable and of general benefit, both to the employer and to the employee.

Thirty-nine meetings of this Board have been held during the year 1916, varying in length from an hour and a half to two hours and a half. The matter brought before the Board, in every case, has been given the utmost attention, with careful preliminary consideration and pertinent investigation during the intervals between meetings, with due thought and regard for the personal interviews and interests frequently claiming consideration over and beyond that afforded by the regular meetings.

The discussions during the meetings of the Board have been invariably friendly and free from discord; diversity of opinion and opposing viewpoints have been harmoniously reconciled or conceded to the majority, it being the absolute and honest purpose of the members of the Board, individually and collectively, to sustain an impersonal and unprejudiced attitude of coöperative justice and, by united counsel and careful deliberation, to agree upon fair and reasonable rulings that may result in the best interests and welfare of those concerned and the ultimate beneficial influence of the Act.

Claims Presented.

Of the seventy-nine claims formally before the Board during 1916, three were continued from 1915, and one other was reopened upon petition for a lump-sum settlement, the petition being denied; a number of hearings were held in each case.

Appeals to the Circuit Court from the decision of the Board were filed in two of these cases but have not yet been brought up in court. One case involving a question of the employer's liability, under Section 60 of the Act, was finally decided by reserving the question of law under this Action to the Supreme Court, the decision handed down (No. 94, in the matter of the Claim for Compensation of Ichijiro Ikoma against Oahu Sugar Company, Limited, and Kenechi Harumi) sustained the ruling of the Board.

Death Claims.

Twenty-eight death claims were given hearings; three of these were continued from 1915; five were dismissed as not coming under Compensa-

tion Law; and one was denied, the death having been caused by heart trouble. The rulings of the Board pertaining to these cases covered twelve awards of weekly compensation payments not to exceed three hundred twelve weeks, and nine lump-sum settlements. In one instance the question of jurisdiction has been reserved to the Supreme Court as between Compensation Law and the Federal Act in regard to Territorial railroad employees; the decision in this case has not been transmitted at this date.

The cash amounts in the seven lump-sum settlements aggregate \$14,271.78, this sum affording protection to twenty-six dependents—ten adults and sixteen children. Three of these awards were made on behalf of Japanese mothers with children; one on behalf of two Japanese children born in the Territory and now residing in Japan; one for a Portuguese mother with six children—a trustee being appointed; one Hawaiian, a dependent sister; and one Filipino, a mother with one child.

The eleven awards of weekly compensation, not to exceed three hundred twelve weeks, aggregate \$96.84 per week, and represent an ultimate total, if paid during the entire period of three hundred twelve weeks, of \$30,210.96. These weekly amounts provide for thirty-one dependents, seventeen of them being children; in addition to the amounts quoted, a further weekly compensation subsequent to the termination of the six-year period applies until the youngest child arrives at the age of sixteen years.

The aforesaid amounts are exclusive of hospital and medical bills and the sums paid for funeral expenses representing only the pecuniary compensation, pertaining to the eighteen claims enumerated, awarded by the ruling of the Board.

Hearings.

Fifty-one claims other than the death claims were formally presented before the Board for hearing, decisions being rendered in all of these, with the exception of two which are continued over into the year 1917. One appeal from the decision of the Board has been made in these fifty-one claims, no decision has been transmitted to date.

One injured employee of the City and County elected to sue for damages in the Circuit Court, his injury having been sustained under circumstances creating a legal liability other than the employer's. Having recovered, under civil law, from some person other than the employer, his later claim for compensation under the Workmen's Compensation Law was denied by the Board.

Compensation in six of these claims, where a permanent partial disability had resulted from the injury, aggregated \$4,041.98 in lump-sum settlements, and weekly payments of \$8.83 to continue two hundred forty-eight weeks.

Lump-Sum Settlements.

In the opinion of this Board, lump-sum payments in settlement of compensation claims in general are not advisable; in these claims where a lump-sum payment has been approved by the Board, careful and exhaustive consideration of the conditions and circumstances of each claim has invariably preceded the decision of the Board. Employers and the insurance-carriers frequently prefer the lump-sum settlement as the easier if not the less expensive method of disposing of the matter, and as a rule seem inclined to favor the prompt final settlement when petitioned by the claimant. It is not the policy, however, of the Board to approve

such settlements and is ruled only in exceptional cases where the best welfare of both parties will be promoted thereby.

The foregoing includes only those claims, formally presented in writing upon the prescribed form and granted a hearing before the Board.

Minor Accidents.

A total of two thousand two hundred seventy-two accidents including the aforesaid enumeration have been reported to the Board during the year of 1916; two thousand one hundred eighty of these have been comparatively minor accidents, compensation, in addition to the medical and hospital bills, as a rule being adjusted between the injured employee and his employer, or the insurance carrier, and voluntary payments thereof made in accordance with the provisions of the Act without the intervention of the Board other than the approval of the final report filed with the Board at the termination of the disability. One hundred fourteen of the injured parties are still under compensation.

In an increasing number of cases, the employer requests preliminary instruction from the Board, and the employees appear at the Board room seeking an interpretation of the provisions of the Act and the assurance of the Board that full compensation payments as provided by Compensation Law have been paid to them.

The record of the past year shows a ready and careful attention on the part of the average employer in regard to his compensation responsibility, the instances being exceptional where negligence or indifference has caused the employee to appear before the Board on his own behalf.

Occasionally, however, an employee has appeared at the Board room, representing that he is not receiving the compensation due him; the attention of the negligent employer to the omission has usually sufficed to induce his prompt compliance with the law, it often being demonstrated that the apparent negligence is due in part to the employee's own dilatoriness in reporting to his employer the accident causing his disability and the subsequent conditions resulting from the injury, or to an oversight on the part of a foreman or sub-foreman.

Loss of Minor Parts.

Certain dissatisfaction with the compensation provided—or not provided—where there is a loss of one or more fingers, toes, or the sight of one eye, or some other minor part of the body, seems sometimes justifiable.

The wound caused by an amputated finger or toe heals rapidly, the disability being practically terminated in less than fourteen days—the waiting period during which no compensation is paid—wherefore, the injured employee, aside from the cost of medical or surgical service, is compensated not at all for an injury partially disabling him, at least through the consequent inconvenience for some time to come, and in some occupations causing a permanent handicap. It would seem that justice to the injured employee indicates that some period for compensation should apply in all cases where the loss of or permanent injury of some minor part of the body is sustained by an employee.

Safety First.

The fearful economic waste—the useless sacrifice of life and limb—caused by the hazards of the industrial field is recognized as an evil that must be abolished, so far as possible, rather than compensated. The prevention of accidents is a better protection for the workman than any

compensation for injury, however, satisfactory. Accidents may be reduced to what is termed the "Unavoidable Class."

Careful statistics testify that thirty-five thousand accidents result fatally (about ninety-five a day) and over two million are injured each year—a "Carnage of Peace" more appalling than the savage brutalities of merciless warfare.

It is understood that the intention of Compensation Law is to place upon the employer an obligation to take every precaution to make as safe as may be the place for his workmen while engaged in their labors.

Safety devices and safeguards should be provided, and a severe penalty by the employer for interfering with the use thereof by an employee, or carelessness in observing all reasonable rules necessary for the protection of himself or other employees.

Inspection.

Jurisdiction and all necessary supervision over every place of employment in the Territory essential to enforce its provisions are vested in the law, but without proper and continued inspection at repeated intervals, this intention of the Act becomes void.

A regularly appointed and salaried inspector, duly qualified for the duties and responsibilities of the position, to periodically visit and inspect the industrial plants of the County, possibly of the Territory, if such an arrangement should be advisable and practicable, would add materially to the effectiveness of the Act and aid largely in the promulgation of the provisions and intentions of the law.

Interpretation of the Act.

Although Compensation Law has been enacted within many of the States of the Union, these laws are new and have not been in operation long enough to establish a precedent or to define beyond question the intention and force of certain provisions; this Board has encountered difficulty in a number of cases in our own law, sometimes hesitating to make a ruling because of a reasonable doubt of an individual interpretation put upon some provision of the Act, particularly where the viewpoints of the members of the Board seem to diverge.

Opinions from City and County Attorney's Office.

In response to questions referred to the City and County Attorney's Office for a decision, thirteen opinions have been handed down to the Board embodying decisions in reference to points at issue, the Board basing their rulings in the claims in question upon these decisions of the City and County Attorney.

Medical Examinations.

The need for a medical department or a medical director in determining the degree and nature of disability, grows with the broadening of the activities of the Board. Repeatedly, the members of the Board are confronted with complicated questions pertaining to the nature of a physical injury and the connection thereof with an alleged accident, and where the medical reports submitted are unsatisfactory to either the employer or the injured employee, special medical examination on behalf of the Board is essential.

These are what may be termed "extraordinary" cases—the nature of

the injury being obscure or the alleged disability uncertain. A superficial medical examination would avail little or nothing in such cases, and the provision of a three-dollar fee for "ordinary" medical service has proved too small to command the proper medical attention. For this reason, the Board has resorted to special medical service only where an intelligent understanding of the case submitted was impossible without it.

The sixty dollars expended for such medical service during this past year represents about eleven such special examinations.

National and International Conferences.

From time to time, National and International Congresses on Compensation Law and Social Insurance have been and will be held in the States. At these conferences, industrial problems and methods of administering Compensation Law receive expert consideration; the open discussions afford intelligent and constructive information; those who participate in the open discussions present points of difficulty and their own solutions of uncertain propositions; experiences and opinions, both interesting and educational, are interchanged, while the world-wide field is brought within the focussed viewpoints of representatives from all corners of the earth—thoughtful and able men who for the time being concentrate their united intelligence upon the various topics brought under consideration.

In the opinion of your Board, a Territorial delegate, appointed by the Governor from some one of the Territorial Industrial Accident Boards—attending a conference of Social Insurance or a convention of the International Association of Industrial Accident Boards and Commissions—the two organizations quite distinct but with common problems—would bring back to his fellow commissioners here in the Islands a fund of valuable and illuminating matter that, under his personal presentation and interpretation for local application, would afford the Territorial Boards a clearer and more intimate insight into the trend and progress of Compensation Law and Social Insurance.

Expenditure.

All expenditure, beyond what has appeared absolutely necessary, has been avoided during the year. Not knowing the exact proportion of the appropriation allotted to this Board, the members of the Board have judged it expedient to restrict any outlay to the actual essentials indicated by the foundation work of the Industrial Accident Commission, deeming it prudent to approach the untried roads of the compensation field with caution and a due regard to the limitations, financial, as intended by our legislature, and of judgment created by the inexperience of your Board.

We respectfully beg to submit the following statement for the twelve months ending December 31st, 1916:

Salaries (secretary and clerk).....	\$1,853.20
Rent	180.00
Telephone	60.30
Advertising	4.50
Postage	22.50
Printing and stationery.....	7.75
Blank forms	105.35
Record books	67.65
Office Supplies and Appurtenances.....	34.20
Furniture and fixtures.....	52.80
Medical fees	60.00
Directory	6.00
Total.....	\$2,454.25

During the six months of operation ending December 31st, 1915, the total expenditure amounted to \$1,734.95, making a complete total for the entire eighteen months' period, beginning with July 1st, 1915, of \$4,189.20.

A Few Statistics.

An accurate statistical review of these initial eighteen months is somewhat difficult because of the only partial returns in some instances. Continued and persistent endeavor is made to secure a full and correct report of the duration and nature of the disability following an accident, the expense items in regard to the medical and hospital bills, and the payments of compensation. A final report is invariably requisitioned; if this final report is not filed within the specified time, a special call is made therefor—either by telephone, by postcard, or both—or, if the disability continues beyond sixty days, a supplemental report is filed. A close check is kept upon all reported accidents until the final reports have been filed.

The majority of the plantations do not itemize the hospital and medical expense feature, for the reason that plantation hospitals and physicians are regular yearly expenditure, the proportion of cost pertaining to each case being difficult to estimate.

In a number of cases the final reports are not due, the disabilities not having terminated and the injured employee still being under compensation, or the claims not yet adjusted, or the hearings of certain claims having been deferred awaiting further information and satisfactory evidence.

In brief, however, the following closely approximates a correct statement of a few of the general memoranda included in the record of the past eighteen months.

Twenty-five nationalities are represented among the injured employees. Numerically enumerated, the races show as follows: Japanese 971, Portuguese 470, Hawaiian 447, Americans 276, Filipino 193, Chinese 152, Korean 110, Porto Rican 98, Spanish 81, Russian 65, German 36, English 17, Norwegian 11, Negro 8, Italian, Swedish and Indian, each 4, Polish, Finnish and Scotch, each 3, and one each for the French, Danish, Irish, Greek and Polynesian.

1594 married men, 1279 single men, 46 married women and 42 single women were accidentally injured.

371 were under twenty years of age; 2473 were between the ages of twenty and fifty; and 117 were over fifty years old.

33 accidents were fatal; 243 occasioned no disability; 1866 caused disabilities terminating in less than fourteen days; 698 cases of disability extended over periods varying from three to ten weeks—these including 16 instances of hernia, 37 cases where infection aggravated the wound, and 7 cases where a permanent partial disability was created, involving the loss of five right hands, one right arm and one right foot.

164 of the minor injuries were caused by nail wounds in the feet. It may be interesting to note that there were 255 head or face wounds; 330 bodily contusions and bruises, and that 188 eyes, 5 ears, 15 noses, 104 backs, 34 ribs, 39 hips, 174 arms, 319 legs, 691 fingers and 89 toes were temporarily put out of commission, while 80 abdominal wounds, 16 hernias and 8 undefined internal injuries were included in the list of casualties.

In 2109 cases no compensation was paid beyond the medical bills, the disability, if any, terminating within the fourteen days. In 698 cases weekly compensation applied during the period of disability. There are a number of cases (about 114) still under compensation—or presumably so, the final reports not having been filed. Exclusive of these cases not

closed, the aggregate weekly compensation amounts to \$10,135.63; in addition hospital, medical fees and funeral expenses have aggregated, respectively, \$5,634.30, \$12,713.41, and \$1,049.60.

These figures do not include the cost of plantation hospital and medical service; the final reports from the majority of the plantations do not itemize this expense feature for the reason that the proportion of cost pertaining to each case is difficult to estimate.

Nor do the above figures include the compensation awarded where the weekly payments continue, this item having been outlined previously.

In a brief report it is not practical to present exhaustive statistical information in regard to the causes, nature and frequency of the accidents as proportioned among the several industries. This Board has endeavored to make the records on file as complete and as accurate as possible, with the intention of preserving such permanent data as will serve to offer on demand a more detailed history of all facts pertaining to the operation of Compensation Law in the Territory. If these fundamental classifications are sound and adequate, other matter can be added as opportunity and occasions arise.

Recommendations.

Your Commission begs to submit herewith, subject to your approval, for transmission to the Legislature, the views of the Board, as evolved from the experience of the members of the Board during their incumbency, embodied in the form of recommendations, certain amendments—alterations, omissions or additions—that in the opinion of the Board will promote the more effective operation of Compensation Law in the Territory.

These recommendations we append hereto, and respectfully solicit your consideration thereof.

Respectfully submitted,

REPORT OF THE INDUSTRIAL ACCIDENT BOARD, COUNTY OF HAWAII.

July 1st to December 31st, 1915.

Lucius E. Pinkham,
Governor of the Territory of Hawaii.

Honorable Sir:—The Industrial Accident Board of the County of Hawaii appointed under the provisions of the Workmen's Compensation Act, begs to submit the following report for the period beginning July 1st, 1915, and ending December 31st, 1915.

Organization.

At its first meeting held on July 10th, 1915, this Board organized by the election of the following officers: Chairman, H. B. Elliot; Disbursing Agent, J. W. Webster, and the appointment of Leon H. Cook as Secretary.

Rules and regulations for the procedure and transaction of business were adopted at this time.

At a later date it was found that the proper conduct of its affairs, consideration of the convenience of the general public, and the filing and preservation of the rapidly accumulating mass of records made necessary the establishment of a permanent office. Premises in the Peacock Block were accordingly secured and furnished for this purpose.

Meetings.

During this period the Board has held eight meetings for the transaction of business, at all of which a quorum was present.

Expenditures.

The expenditures of the Board during this period are appended to the report under the heading "Appendix A."

Statistical Tables.

(a) Accidents: 322 reports of accidents were filed with the Board, and of this number 5 terminated fatally.

Statistical tabulation of these appear under the heading of "Appendix B."

Incompleteness in these forms is explained by the fact many reports are insufficiently descriptive, and also, to delays upon the part of employers in filing supplementary and final reports.

(b) Registration of Employers: So far 289 employers have been registered under Section 46, division 2, and 35 employers under Section 46, division 4 of this Act. (Appendix C).

Undoubtedly there are a number of cases among the smaller employers of labor where no attempt has been made as yet to comply with the law. Where it is possible to discover that such evasions of the law exist, this Board intends to enforce rigorously its provisions.

(c) General Remarks: We are very strongly of the opinion that it is desirable that at an early date the various Accident Boards of this Territory shall decide upon a uniform system of statistical tabulation of accidents, employer's registration, and insurance premiums and payments to be used by each of them in making annual reports.

It is very evident that only by the installation of such a system can the burden of expense entailed by the Act, the benefit to the employees, the exact cost and return from insurance and the nature and preventability of the various forms of accidents be adequately ascertained.

General Observations:

We do not intend at this time to offer any recommendations, or make any criticisms regarding the text of the Workmen's Compensation Act, preferring to reserve such observations until we have acquired a larger experience of its actual results.

It is of much importance that employers shall comply strictly with the provisions regulating the filing of reports with the Board. We note with pleasure that the majority of employers are careful and exact in such compliance, but our records suggest that a few are less scrupulous in reporting all accidents that come within the Act.

We are of the opinion that it would be an improvement upon the present practice if the various insurance companies would adopt a uniform contract of insurance of a form that complies in its text with all of the provisions of the Workmen's Compensation Act.

The Board desires to express obligations to the Secretary of the Ter-

ritory, Hon. W. W. Thayer, for advice and assistance received, and to the officials of the local County Attorney's office for prompt and valuable advice upon all matters submitted by us to them for their opinion.

Respectfully submitted,

(Signed) HAROLD B. ELLIOT,

Chairman Industrial Accident Board,
County of Hawaii.

This report was formally approved at a meeting of this Board held January 27, 1916.

(Signed) LEON H. COOK,
Secretary.

REPORT OF THE INDUSTRIAL ACCIDENT BOARD,
COUNTY OF HAWAII.

For the Year Ending December 31, 1916.

Lucius E. Pinkham,
Governor of the Territory of Hawaii.

Honorable Sir:—The Industrial Accident Board of the County of Ha-
waii respectfully submits the following report for the year 1916:

Meetings:

The Board has held 11 regular and no special meetings during the period under review.

Expenditures:

\$1,048.15

(See Exhibit B.)

Employer's Registration.

Under sub-section 1, Sec. 46, 227; Estimated number employees, 1,981.

"	2,	"	none	"	none
"	3,	"	none	"	none
"	4,	"	32	"	14,992.

All of the corporations and large employers of labor have complied with the terms of the Acts by meeting the requirements specified in the above section (46). It is believed that a certain percentage of the smaller employers are still delinquent in this respect.

Statistics of Accidents.

These are included in a separate statement appended to this report. It will be noted that the total sum of compensation paid is small compared to the number of accidents reported. This is undoubtedly due to the fact that the bulk of the labor employed is engaged in agricultural pursuits in which, apart from the mill and stable, the risk of accident is comparatively slight. The great majority of the accidents reported are of a minor and trivial nature, and out of 662 accidents only 107 required payment for lost time. It seems probable also, from our experience so far, that the total payment for death claims will be comparatively small in this Territory by reason of the exceptionally high percentage of labor which is unmarried and without dependents in this country.

We are of the opinion that the majority of the employers are complying very fully with the provisions of the Act specifying the making of reports to this Board. It is true that between employers of labor engaged in the same occupation, and under similar conditions, there are striking discrepancies in the total number of reports made. The reason for this appears to lie in the reporting of very minor injuries which involves a brief absence from work. In this respect some employers are very careful and scrupulous in making reports, but we are inclined to believe from a study of the figures upon our books that this is not universally so.

Operation of the Act.

The principal and greatest benefit of the Act is that the automatic scale of compensation eliminates the necessity for expensive legal proceedings in the courts and secures reasonable and just payment to all persons out of and in the course of their employment. Attention should be directed to the fact that out of the 622 accidents reported to us during the whole period of the operation of the Act, only 4 have been the subject of dispute compelling the appointment of committees of arbitration. In these particular cases the decisions of the committees appointed have been assented to by both parties in the case, excepting one case, which is still sub judice, and has been appealed to us for review.

In so far as we can learn, most of the opposition to this law among employers of labor at the time of its enactment has gradually disap-

peared. The plantation corporations have always been accustomed to take care of injured employes by supplying medical and hospital assistance and payment for lost time, and those plantations which are now complying merely with the strict letter of the law are probably paying out less on this account than formerly. It is proper to remark at this point, however, that many of the plantations are maintaining their former more liberal scale, and are compensating in excess of legal requirements. Other employers have become reconciled to the law by reason of the facts of a greater security against heavy damages and lessened legal expense in defending themselves against suits.

Speaking generally we find that the provisions of this Act are workable and satisfactory in their application to local conditions. Our experience suggests that discontinuance of the present system which provides a separate administration of the Act in each county would be attended both by advantages and disadvantages. Undoubtedly much the greater part of the work of administration is purely automatic in operation, and simply a matter of bookkeeping. This could be handled just as easily, and perhaps more efficiently, by a central authority than by different local boards. It is stated that uniformity in the important subject of decisions upon doubtful points of the law would benefit insurance carriers and corporations doing business in several counties. It must be admitted that the attainment of such uniformity can only be a matter of gradual evolution through the acquirement of greater experience by local authorities and the lessening of this margin of doubtfulness by court decisions. It is probable, also, that to obtain a proper and uniform system of compilation of statistics, a central agency is indispensable, and that it will always be more or less impossible to get at these facts by methods now in force. There is no reason to believe that centralization will prove more economical so far as administration expense is concerned. On the contrary, it is more probable that actual cost will be increased because elimination of expenses of members of the various boards will be counterbalanced by higher salaries of necessary officials. In this county the whole work of administration is entirely insufficient to justify the appointment of even one whole-time official to take charge of it. The chief advantages of the present system are that local boards are in a position to supervise operation more carefully, and are more closely in touch with employers. They are able to secure summary and amicable settlement of disputes in many cases which would be difficult for a central authority to handle quickly and efficiently. This personal contact with its greater ability to ascertain the truth of disputed facts, and to ameliorate friction, is even more important to the working of acts of this nature than mere uniformity in decisions and compilations of statistics. A central authority is compelled to rely in this relation upon the intelligence and ability of paid agents, unless some system of permanent arbitration committees in each district can be devised which will meet these desirable requirements. If this can be done many of the objections to centralization will be removed, and it is possible that better results may be obtained than under the present system.

We are of the opinion that the act could be amended beneficially in certain details, and therefore make the following observations and suggestions.

Section 12 provides that the employer shall furnish reasonable hospital, surgical, and medical services not to exceed the amount of fifty dollars. We think that this limit should be increased to one hundred dollars. The employee's contribution to the expense caused by injury consists of loss of wages for fourteen days, the difference between his wage and amount of compensation for ensuing period, and possible greater expense of medical attention than the sum limited by the Act. Consid-

erations of good public policy demand that this contribution shall be so fixed that danger of serious deprivation or destitution upon his part or that of his dependents shall be eliminated so far as possible. It is for this reason that we believe that an ampler margin for medical attention should be provided. On the same grounds the provisions in sections 13 and 14 which make compensation payments payable only after the fifteenth day are open to question as to their desirability. The principal object of this exempted period appears to be to prevent malingering. In cases of a trivial nature there is no doubt that this is an effective safeguard, but we fail to see any reason for such exemption in the more serious cases of total or partial disability which lasts for periods over twenty-eight days. In these cases the contribution of the employee towards the total expense is sufficiently large to warrant payments from the day of injury, and the danger of serious deprivation to dependents or the incurrence of debt during this period should be eliminated.

We suggest an addition to Section 14 to read as follows:

(6) The permanent and complete loss of sight in one eye, one hundred and four weeks.

We are of the opinion that Section 31 should be amended in regard to the composition of committees of arbitration. In the first place we do not agree with the necessity for the appointment of such committees in cases of disputes over small sums of money, and believe that where the amount disputed is less than fifty dollars that settlement should be left to the Industrial Accident Board. This would be a quicker and much less expensive method of dealing with trivial disputes. Secondly, we find that the provisions of Section 32 do not of themselves provide impartial committees. We believe that it should be stipulated that "no person financially or otherwise interested in the outcome of any arbitration or any question connected therewith, or any member or employee of the Industrial Accident Board, will be permitted to act as an arbitrator on such case for either of the parties." We suggest, also, that the following oath should be required of all arbitrators:

"I,, do solemnly swear that I will honestly and fairly perform the duties imposed upon me as arbitrator in the case wherein is petitioner and is respondent, to the best of my ability and in accordance with the terms of the Workmen's Compensation Act."

Respectfully submitted,

COUNTY OF HAWAII.

Recommendations.

Based on its experience of the past year and a half, this Board believes that a number of changes might well be made in Act 221, S. L. 1915, in the interests of equity. It therefore submits the following recommendations, with the suggestion that the same be brought to the attention of the Legislature.

1. Section 9. **Period of Compensation.** Should be amended so as to cover period of dependency.

2. Section 12. **Medical Attendance.** No limit of time for supplying necessary surgical, medical or hospital treatment should be imposed, and the amount of such service should be increased from a maximum of \$50.00 to a maximum of \$150.00.

3. Section 13-14. **Waiting Period.** Seven days, instead of 14 days should be the period following injury during which no compensation is paid.

4. Section 14. **Partial Disability.** Loss of one eye is not included as a partial disability, but should be so recognized. We have had one or two cases of this kind in which only the surgical fees were borne by the employer. Under the law this might have been limited to \$50.00, with no compensation for first 14 days.

5. Section 49. **Insurance.**

(a) The need of a uniform form of insurance policy has been very evident to this Board. We therefore strongly recommend that every insurance company authorized to write compensation insurance in the Territory be required to adopt a form of policy to be prescribed in this Act, or by the Industrial Accident Boards together, or by a Board to be created.

(b) This Board has always believed that serious injustice is done to small employers by the practice of the insurance companies of requiring a minimum fee of \$10.00 for writing a policy. We further believe that if such minimum is to be fixed it should not amount to more than \$5.00.

(c) Because of the limited field for compensation insurance in this Territory, and the consequent more or less indifference on the part of insurance companies to this class of insurance, the Board feels that the rates are perhaps not equitable or as low as consistent with good business methods.

We therefore recommend that a Territorial Insurance Fund be established, to be administered under direction of the Territorial Treasurer

or of the Accident Board, upon the same principles, and upon the same general requirements as those governing Mutual Insurance Associations. We do not recommend, however, that such Territorial Insurance Fund be made to exclude approved insurance stock or mutual companies from doing business in the Territory.

6. Accident Board. We believe that our experience has shown the desirability of making a single Board responsible for the administration of the Workmen's Compensation Law throughout the Territory instead of separate Boards for each county. At present four Boards work without coördination or even knowledge of each other's activities. A single Board, or Commission of, say, five members should administer the law for the Territory, and at the same time the Territorial Insurance Fund to be established. The Board should be given authority to employ such clerical assistance on the several Islands as necessary. It should be required to hold hearings on the Islands on which accidents occur, whenever occasions for such hearings arise.

REPORT OF THE INDUSTRIAL ACCIDENT BOARD, COUNTY OF KAUAI.

July 1st, 1915, to December 31st, 1916.

Honorable L. E. Pinkham,

Governor of the Territory of Hawaii.

Dear Sir:—The Industrial Accident Board of Kauai held its first meeting, as prescribed in the law, on July 1, 1915. For six months meetings were held weekly. During these six months we were flooded with a large number of small cases that I considered could be settled outside, without having to call the Board members together, one of whom is a very busy man and two have to come from long distances. At the first of January, 1916, I appointed Rev. J. M. Lydgate executive member of the Board, an unusual office, perhaps, but one rendered entirely reasonable by circumstances such as we have here. Mr. Lydgate has been extremely conscientious and active, and I am sure that in so far as he is concerned the letter and spirit of the law have been carried out.

The disposition of employers of labor on Kauai has been to do more for them, in case of accident or sickness, than the Compensation Law provides for. We have had a number of cases before us (to say nothing of reports to me of private settlements outside) which show payments far in excess of legal requirements.

The cases handled by this Board during the period have been 387, as follows:

Kilauea Sugar Company	29
Kauai Railroad Company	10
Kekaha Sugar Company	23
Makee Sugar Company	22
Koloa Sugar Company	45

Lihue Sugar Company	70
Hawaiian Sugar Company	75
McBryde Sugar Company	81
Grove Farm	4
Kauai County	5
Gay and Robinson	1
Miscellaneous	22
Total.....	387

Respectfully submitted,

(Signed) L. D. TIMMONS, Chairman.

Upon motion by Senator Coney, seconded by Senator Desha, the Senate thereupon voted to concur in the amendment.

Senator Castle, for the Committee on Judiciary, presented a report (Stand. Com. Rep. No. 141) recommending that Senate Bill No. 76, entitled: "An Act to amend Sub-section 10 of Section 481 of the Revised

Honolulu, T. H., March 29, 1917.

Honorable Charles F. Chillingworth,

Sir:—Your Judiciary Committee, to which was referred Senate Bill No. 76, entitled: "An Act to amend Sub-section 10 of Section 481 of the Revised Laws of Hawaii, 1915, as amended by Section 6 of Act 136 of the Session Laws of 1915, and to amend Sub-section 11 of said Section 481, relating to Agriculture and Forestry," begs leave to report as follows:

This bill merely relates to formal matters, making a slight reorganization in the plant inspection and the division of Entomology. It merely carries out what the divisions are doing now. It creates no new offices nor any new salaries.

Upon motion by Senator Castle, seconded by Senator Kamauoha, the report was adopted. The Bill thereupon passed Second Reading.

Senator Castle, for the Committee on Judiciary, presented a report (Stand. Com. Rep. No. 142) recommending that House Bill No. 43, entitled: "An Act to amend Section 2270 of the Revised Laws of Hawaii, 1915, relating to the length and extension of the terms of Circuit Courts," be passed with certain amendments. The report was read by the Clerk as follows:

Honolulu, T. H., March 29, 1917.

Honorable Charles F. Chillingworth,
President of the Senate.

Sir:—Your Judiciary Committee, to which was referred House Bill No. 43, entitled: "An Act to amend Section 2270 of the Revised Laws of Hawaii, 1915, relating to the length and extension of the Terms of Circuit Courts," begs leave to report as follows:

The purpose of this bill is to cut out the provision that in the First and Fourth Circuits no jury trial shall be held, unless by consent, in the months of March, June and November.

Since the passage of this Bill in the House, the Judge of the Circuit Court of the Fifth Circuit is in favor of a continuous Term at Lihue to correspond with continuous Terms in Honolulu and Hilo.

The Committee recommends the following amendments: Amend the

title to read "An Act to amend Sections 2268 and 2270 of the Revised Laws of Hawaii, 1915, relating to the Terms of the Circuit Courts"; amend Section 1 to read: "Section 1. Section 2268. Held When. The Terms of the Circuit Courts shall be held as follows: In the First Circuit, at Honolulu, on the second Monday of January; in the Second Circuit, at Wailuku, on the third Wednesdays of March and October; and at Lahaina on the third Wednesday of June; in the Third Circuit, at Kailua, on the fourth Wednesdays of April and October; at North Kohala, on the fourth Wednesday of July, and at Waiohinu, on the fourth Wednesday of January; in the Fourth Circuit, at Hilo, on the second Wednesday of January; in the Fifth Circuit, at Lihue, on the second Wednesday of January."

Strike out the present Section 2 and insert the following: Section 2. Section 2270 of the Revised Laws of Hawaii, 1915, is hereby amended to read as follows: 'Section 2270. Length and Extension. The Terms of the Circuit Courts may continue and be held, subject to adjournment from time to time or without day, as follows: In the First, Fourth and Fifth Circuits until the time fixed by law for the commencement of the next succeeding Term: In the Second and Third Circuits, for twenty-four days, subject to extension by the presiding judge for not more than twelve days thereafter; provided that Sundays and legal holidays shall be excepted; that any Term shall continue so long as necessary for the sole purpose of concluding any trial begun before the time when such term would otherwise expire, and no trial in any term case shall be held in July and August; and that the Terms in North Kohala and Waiohinu shall be held for the trial of such cases only as do not require a jury, and that no jurors, grand or trial, shall be summoned for such Terms.'

Add a new Section to be numbered Section 3 and to read as follows: "Section 3. This Act shall take effect upon its approval."

As thus amended, the Committee recommends the passage of the bill.

Respectfully submitted,

JUDICIARY COMMITTEE.

ALFRED L. CASTLE, Chairman;
J. H. CONEY,
G. P. KAMAHOA,
R. H. MAKEKAU,
WM. T. ROBINSON.

Upon motion by Senator Castle, seconded by Senator Kamaoha, the report was adopted. The Bill, as amended, thereupon passed Second Reading.

Senator Castle, for the Committee on Judiciary, presented a report (Stand. Com. Rep. No. 143) recommending that House Bill No. 65, entitled: "An Act relating to the release by the Guardian of an insane married person of his ward's curtesy or dower in realty," be passed with certain amendments. The report was read by the Clerk as follows:

Honolulu, T. H., March 29, 1917.

Honorable Charles F. Chillingworth,
President of the Senate.

Sir:—Your Judiciary Committee, to which was referred House Bill No. 65, entitled: "An Act relating to the release by the guardian of an insane married person of his ward's curtesy or dower in realty," begs leave to report as follows:

Under the present law, there is no way by which a guardian of an insane married person can release his ward's curtesy or dower in realty. The bill proposes to cure this defect.

It, however, makes no provision that the guardian must first receive the approval of court.

The Committee, therefore, recommends amending Section 1 of said bill by adding after the words "guardian shall" in line 11 of said section the word "upon the approval of any circuit judge of the circuit in which any of the real property intended to be sold lies."

The last paragraph of Section 1 attempts to confirm all sales which have heretofore been made.

In the opinion of the committee there is grave doubt as to the power of the Legislature to do this, and, for practical reasons, it is not advisable.

The Committee therefore recommends that the last paragraph of Section 1 be stricken out.

As thus amended, the committee recommends the passage of the bill.

Respectfully submitted,

JUDICIARY COMMITTEE.

ALFRED L. CASTLE, Chairman;
J. H. CONEY,
R. H. MAKEKAU,
G. P. KAMAUOHA,
WM. T. ROBINSON.

Upon motion by Senator Castle, seconded by Senator Kamauoha, the report was adopted. The Bill, as amended, thereupon passed Second Reading.

Senator Castle, for the Committee on Judiciary, presented a report (Stand. Com. Rep. No. 144) recommending that House Bill No. 76, entitled: "An Act to provide for the publication of summons in attachment cases where personal service upon the defendant cannot be made," be passed with certain amendments. The report was read by the Clerk as follows:

Honolulu, T. H., March 29, 1917.

Honorable Charles F. Chillingworth,
President of the Senate.

Sir:—Your Judiciary Committee, to which was referred House Bill No. 76, entitled: "An Act to provide for the publication of summons in attachment cases where personal service upon the defendant cannot be made," begs leave to report as follows:

Under the present law, there is no way to provide for the publication

of summons in attachment where the defendant cannot be reached by personal service. This bill provides the method for reaching such defendant.

Section 1 provides that the publication shall be not less than one month. This is not specific enough and the Committee recommends striking out the words "but not less than one month" in lines 12 and 13 of said section, and inserting in lieu thereof "but not less than once a week for at least four consecutive weeks." After the word "defendant" in line 18 of said section insert the words "thus summoned." After the word "judgment" in line 19, strike out the words "if the plaintiff is entitled to judgment." Section 3 gives a form of notice of hearing and the number of weeks was left in. The committee recommends amending this section by striking out the words "ten o'clock of the morning" in lines 14 and 15 of said section and insert in lieu thereof "....." In line 23 of said Section 3 strike out the words "four consecutive weeks" and insert in lieu thereof "....."

As thus amended, the committee recommends the passage of the bill.

Respectfully submitted,

JUDICIARY COMMITTEE.

ALFRED L. CASTLE, Chairman;
J. H. CONEY,
R. H. MAKEKAU,
G. P. KAMAUOHA,
WM. T. ROBINSON.

Upon motion by Senator Castle, seconded by Senator Kamauoha, the report was adopted. The Bill, as amended, thereupon passed Second Reading.

Senator Castle, for the Committee on Judiciary, presented a report (Stand. Com. Rep. No. 145) recommending that House Bill No. 253, entitled: "An Act to amend Section 2430 of the Revised Laws of Hawaii, 1915, relating to the pay of jurors," be passed with certain amendments. The report was read by the Clerk as follows:

Honolulu, T. H., March 29, 1917.

Honorable Charles F. Chillingworth,
President of the Senate.

Sir:—Your Judiciary Committee, to which was referred House Bill No. 253, entitled: "An Act to amend Section 2430 of the Revised Laws of Hawaii, 1915, relating to the pay of Jurors," begs leave to report as follows:

This bill amends Section 2430 of the Revised Laws relating to the pay of jurors. The section, however, has been amended by Act 108 of the Session Laws of 1915.

The purpose of the bill is to give Four Dollars per day to jurors who reside more than ten miles away and three dollars a day to the others. The Committee does not favor this discrimination. However, the people who do have to come from a long distance are put to a greater expense than the ones living near the Court.

The Committee feels that fifteen cents a mile each way for persons living more than ten miles away from the Court and ten cents a mile each way for persons living under ten miles is not too much.

The present law gives ten cents a mile each way for those living more than ten miles away and nothing for those living under ten miles.

The Committee recommends amending that title to read "An Act to amend Section 2430 of the Revised Laws of Hawaii, 1915, as amended by Act 108 of the Session Laws of 1915, relating to the pay of jurors."

Amend the first two lines of Section 1 to read as follows: "Section 1. Section 2430 of the Revised Laws of Hawaii, 1915, as amended by Act 108 of the Session Laws of 1915, is hereby amended to read as follows:" Strike out the semi-colon ":", after the word "attendance" and the proviso in Section 1 and insert in lieu thereof, "and for the distance necessarily traveled from their residence in going to and returning from said Court by the shortest practical route, ten cents a mile; provided, however, that jurors residing ten miles or more from the Court shall be paid three dollars per day for each day that they shall report in person to the Clerk of the Court and for the distance necessarily traveled from their residence in going to and returning from said Court by the shortest practical route, fifteen cents a mile."

As thus amended, the Committee recommends the passage of the bill.

Respectfully submitted,

JUDICIARY COMMITTEE.

Your Committee finds that the present law is sufficient for the purpose sought for in this bill. We further find that a bill is under consideration in the House along this line that if passed will be more equitable to the Dairymen and the Board of Agriculture and Forestry.

Therefore your Committee recommends that this bill be tabled.

Senator Castle, for the Committee on Judiciary, presented a report (Stand. Com. Rep. No. 149) recommending that Senate Bill No. 65, entitled: "An Act to amend Section 1308 of the Revised Laws of Hawaii, 1915, providing for the computation of incomes for taxation," be passed. The report was read by the Clerk as follows:

Honolulu, T. H., March 30, 1917.

Honorable Charles F. Chillingworth,
President of the Senate.

Sir:—Your Judiciary Committee, to which was referred Senate Bill No. 65, entitled: "An Act to amend Section 1308 of the Revised Laws

of Hawaii, 1915, providing for the computation of incomes for taxation," begs leave to report as follows:

The purpose of this bill is to allow any person or corporation in computing income for taxation purposes to deduct a reasonable allowance for the exhaustion, wear and tear of property used in the business or trade, or more commonly known as depreciation.

Under the present system in Hawaii, depreciation is not allowed though it is a well recognized cost of any business. In Hawaii, replacements are allowed instead of depreciation. This system is faulty as it means that in any one year a large amount may be deducted rather than that the amount be spread out over a number of years as in the case of depreciation.

The proposed bill follows the wording of the United States Federal income tax which was very carefully considered by Congress with a view to deriving as much revenue as possible.

Mr. Wilder, the Tax Assessor, appeared before the Committee and stated that in his opinion the change proposed is a proper one.

The Committee recommends the passage of the bill.

Respectfully submitted,

JUDICIARY COMMITTEE.

ALFRED L. CASTLE, Chairman;
J. H. CONEY,
R. H. MAKEKAU,
G. P. KAMAUOHA,

I do not concur:

WM. T. ROBINSON.

Upon motion by Senator Castle, seconded by Senator Kamauoha, the report was adopted. The Bill thereupon passed Second Reading.

Senator Castle, for the Committee on Judiciary, presented a report (Stand. Com. Rep. No. 150) recommending that House Bill No. 202, entitled: "An Act to prohibit malicious injury to, or unlawful removal of, books and other articles in libraries, galleries, museums or exhibits, and unlawful detention of books, etc., from libraries," be passed with certain amendments. The report was read by the Clerk as follows:

Honolulu, T. H., March 30, 1917.

Honorable Charles F. Chillingworth,
President of the Senate.

Sir:—Your Judiciary Committee, to which was referred House Bill No. 202, entitled: "An Act to prohibit malicious injury to, or unlawful removal of, books and other articles in Libraries, Galleries, Museums or Exhibits, and unlawful detention of books, etc., from Libraries," begs leave to report as follows:

The present law relating to malicious injury does not sufficiently cover malicious injury to books in libraries and such public places.

The proposed bill was drawn up and introduced at the request of the Public Library and seems to be necessary in order to afford sufficient protection.

The Committee recommends striking out the words "at hard labor"

wherever it appears in the bill. In Section 3, line 13, strike out the words "less than five dollars, nor" after the word "not."

As thus amended, the Committee recommends the passage of the bill.

Respectfully submitted,

JUDICIARY COMMITTEE.

ALFRED L. CASTLE, Chairman;
J. H. CONEY,
G. P. KAMAÜOHA,
R. H. MAKEKAU,
WM. T. ROBINSON.

Upon motion by Senator Castle, seconded by Senator Kamauoha, the Bill passed Second Reading, as amended.

Senator Castle, for the Committee on Judiciary, presented a report (Stand. Com. Rep. No. 151) recommending that House Bill No. 311, entitled: "An Act to amend Section 3951 of the Revised Laws of Hawaii, 1915, relating to the punishment for the receiving of stolen goods," be passed with certain amendments. The report was read by the Clerk as follows:

Honolulu, T. H., March 30, 1917.

Honorable Charles F. Chillingworth,
President of the Senate.

Sir:—Your Judiciary Committee, to which was referred House Bill No. 311, entitled: "An Act to amend Section 3951 of the Revised Laws of Hawaii, 1915, relating to the punishment for the receiving of stolen goods," begs leave to report as follows:

The present law relating to the receiving of stolen goods makes it both imprisonment at hard labor and a fine. This bill proposes to change the law so that it may be either fine or imprisonment or both. If it is to be one or the other, then the amount of the fine should be raised.

The Committee therefore recommends striking out the words "five hundred" in lines 6 and 7 of Section 1 and inserting in lieu thereof the words "one thousand;" strike out the words "one hundred" at the end of Section 1 and insert in lieu thereof the words "five hundred."

As thus amended, the Committee recommends the passage of the bill.

Respectfully submitted,

JUDICIARY COMMITTEE.

ALFRED L. CASTLE, Chairman;
J. H. CONEY,
G. P. KAMAÜOHA,
R. H. MAKEKAU,
WM. T. ROBINSON.

Upon motion by Senator Castle, seconded by Senator Kamauoha, the Bill passed Second Reading, as amended.

Honolulu, T. H., March 30, 1917.

Honorable Charles F. Chillingworth,
President of the Senate.

Sir:—Your Judiciary Committee, to which was referred House Bill No. 314, entitled: "An Act to amend Section 3331, Revised Laws of Hawaii, 1915, relating to banking corporations," begs leave to report as follows:

The law relating to the powers of banking corporations was passed in 1884 when the United States of America came under the definition of a foreign country.

The proposed bill makes it lawful for a bank corporation organized under the laws of the Territory of Hawaii to take security by hypothecation of bills of lading for the payment of any bill or bills of exchange, drawn against any shipment of any description of produce, bullion or merchandise shipped for exportation to foreign ports or from foreign ports to any port in this Territory or to any port in the United States of America or from any port in the United States of America or from one port to another in this Territory. The addition to the law is "to any port in the United States of America or from any port in the United States of America." This addition is necessary now that the United States of America is no longer a foreign country.

The Committee recommends the passage of the bill.

Respectfully submitted,

JUDICIARY COMMITTEE.

At this point the President called the Vice-President to the Chair.

The Senate having returned to the consideration of the order of standing committee reports, Senator Baldwin, for the Committee on Public Lands and Internal Improvements, presented a report (Stand. Com. Rep. No. 153) recommending that Senate Resolution No. 17 authorizing the Commissioner of Public Lands to reduce the appraisement of certain

lots offered for homesteads at Kaaupahu, North Kohala, County of Hawaii, be adopted, with certain amendments. The report was read by the Clerk as follows:

Honolulu, T. H., March 30th, 1917.

Hon. Chas. F. Chillingworth,
President of the Senate.

Sir:—Your Committee on Public Lands and Internal Improvements to which was referred Senate Resolution No. 17, authorizing the Commissioner of Public Lands to reduce the appraisement of certain lots offered for homesteads at Kaaupahu, North Kohala, County of Hawaii, begs leave to report as follows:

That after due and careful consideration we find that this Resolution sets forth that the appraisement as made on certain lands in North Kohala, which is now being advertised for homestead drawings, is unjust, exorbitant, and excessive, and that therefore the Commissioner of Public Lands is requested to disregard said appraisement and reduce the price from \$100.00 to \$35.00 per acre.

Your Committee feels that it is inadvisable for the Legislature to request the Commissioner of Public Lands to arbitrarily reduce the price on these lands as appraised by the appraisers, but as there may be justice in the claim that the appraisement is too high, we recommend that the Resolution be amended as follows:

Insert in the first WHEREAS after the word, appraisement, in the seventh line the words: "it is claimed;"

Insert in the first WHEREAS after the word, "which," in the eighth line the words: "it is claimed;"

Insert in the second WHEREAS after the word, "locations," in the tenth line the words: "it is claimed;"

Insert in the third WHEREAS after the word, is, in the seventeenth line the words: "it is claimed."

Delete the entire last paragraph and substitute in lieu thereof the following:

THEREFORE, BE IT RESOLVED, that the Commissioner of Public Lands is hereby requested to have a new appraisement made of the lands prior to the date of the drawings, said new appraisement to be used as the basis for sale to the prospective homesteaders.

Respectfully submitted,

H. A. BALDWIN, Chairman;

Upon motion by Senator Baldwin, seconded by Senator Desha, the report was adopted. Senate Resolution No. 17, as amended, was thereupon adopted.

At this point the President called Senator Desha to the Chair.

Senator Baldwin, for the Committee on Public Lands and Internal Improvements, presented a report (Stand. Com. Rep. No. 154), recommending that House Bill No. 58, entitled: "An Act declaring and designating a certain tract of Government land at Piihonua, South Hilo, County

of Hawaii, Territory of Hawaii, as public grounds for a high school agricultural and botanical gardens," be tabled. The report was read by the Clerk as follows:

Honolulu, T. H., March 30, 1917.

Hon. Chas. F. Chillingworth,
President of the Senate.

Sir:—Your Committee on Public Lands and Internal Improvements to which was re-referred House Bill No. 58 entitled: "An Act Declaring and Designating a certain Tract of Government land at Piihonua, South Hilo, County of Hawaii, Territory of Hawaii, as public grounds for a High School, Agricultural and Botanical Gardens," begs leave to report as follows:

After further careful investigation and hearing we find no reason for changing our recommendation that this bill be tabled; and furthermore, find additional reasons why it should stand.

In the first place we find that there is no immediate demand for a new High School site and that this matter can either lay over for Two (2) Years or if the site is needed before that time the land can be set aside by Executive order as is provided for in Section 349 of the Organic Act.

We also find that the land which the bill would set aside as a high school site is now held under a lease that does not expire until 1921, and that there are certain agreements and understandings now pending between the lessee and the government which should be settled before any other disposition is made of the land.

We therefore recommend that this bill be tabled.

Respectfully submitted,

H. A. BALDWIN, Chairman;
S. L. DESHA,
ROBT. HIND,
ROBERT W. SHINGLE,
M. C. PACHECO.

Senator Makekau moved that the Bill together with the report thereon be referred to a special committee of three consisting of the Chairman of the Committee on Public Lands and Internal Improvements, the Chairman of the Committee on Judiciary, and the Chairman of the Committee on Military. This motion was seconded by Senator Kamaoaha.

At this point the President, having returned to the Senate, resumed the Chair.

Upon motion made by Senator Pacheco, seconded by Senator Desha, the motion was tabled.

Upon motion by Senator Desha, seconded by Senator Cooke, the report was adopted. House Bill No. 58, was thereupon ordered tabled.

Senator Baldwin, for the Committee on Public Lands and Internal Improvements, presented a report (Stand. Com. Rep. No. 155), recommending that House Bill No. 175, entitled: "An Act to facilitate and expedite the opening and providing for the disposition of certain public lands situated at Makaweli, in the district of Waimea, County of Kauai," be tabled. The report was read by the Clerk as follows:

Honolulu, T. H., March 30th, 1917.

Hon. Chas. F. Chillingworth,
President of the Senate.

Sir:—Your Committee on Public Lands and Internal Improvements to which was referred House Bill No. 175, entitled: "An Act to Facilitate and Expedite the Opening and Providing for the Disposition of certain Public Lands situated at Makaweli, in the District of Waimea, County of Kauai," begs leave to report as follows:

That after due and careful consideration we find that the bill seeks to immediately open up for homesteading purposes certain lands on Kauai after the expiration of a lease under which the land is now held by a certain sugar plantation. The land in question is now held by the plantation under an old time lease and the Organic Act provides that after the expiration of such leases the lessee shall be allowed at least a year to grow a ratoon crop of cane, hence the provision of the bill requiring that the land be immediately subdivided after the expiration of the lease cannot be carried out.

We further find that the land is not suitable for homesteading unless certain government claims for water rights can be established and water made available for the lands and that the question of these water rights is now pending. The land is subject to homesteading under the law, but the bill providing, as it does, that the lands shall be opened up immediately after the expiration of the lease is improper under the circumstances, and we recommend that the bill be tabled.

Upon motion by Senator Baldwin, seconded by Senator Desha, the report was adopted. The report was thereupon ordered tabled.

Senator Baldwin, for the Committee on Public Lands and Internal Improvements, presented a report (Stand. Com. Rep. No. 156), recommending that House Bill No. 212, entitled: "An Act declaring and designating a certain tract of government land at Waiakea, South Hilo, County of Hawaii, Territory of Hawaii, as a public park and play ground," be tabled. The report was read by the Clerk as follows:

Honolulu, T. H., March 30th, 1917.

Hon. Chas. F. Chillingworth,
President of the Senate.

Sir:—Your Committee on Public Lands and Internal Improvements to which House Bill No. 212, "An Act Declaring and Designating a certain Tract of Government land at Waiakea, South Hilo, County of Hawaii, Territory of Hawaii, as a Public Park and Play Ground," begs leave to report as follows:

That after due and careful consideration, we find that the Public

Park and Play Ground which it is sought by the bill to create is in a congested portion of the City of Hilo where the land is of great value for building sites and further that there is a Public Park in the near vicinity ample for the purpose set forth in the bill.

Under the circumstances we do not believe the Government should set aside valuable property for this park and play ground and recommend that the bill be tabled.

ROBERT W. SHINGLE,
M. C. PACHECO,

Upon motion by Senator Baldwin, seconded by Senator Desha, the report was adopted. The Bill was thereupon ordered tabled.

Senator Baldwin, for the Committee on Public Lands and Internal Improvements, presented a report (Stand. Com. Rep. No. 157) recommending that House Bill No. 214, entitled: "An Act declaring and designating a certain tract of government land at Piihonua, South Hilo, County of Hawaii, Territory of Hawaii, as grounds for a county building," be passed. The report was read by the Clerk as follows:

Honolulu, T. H., March 30th, 1917.

Hon. Chas. F. Chillingworth,
President of the Senate.

Sir:—Your Committee on Public Lands and Internal Improvements to which was referred House Bill No. 214, "An Act Declaring and Designating a certain Tract of Government Land at Piihonua, South Hilo, County of Hawaii, Territory of Hawaii, as Grounds for a County Building," begs leave to report as follows:

That after due and careful consideration we find the Bill seeks to acquire for a site for a County Building certain land in Hilo that is now under lease, the land to be available for the purpose after the lease has expired, and we further find that Hilo is greatly in need of a new County Building and that the site designated in the bill is eminently suitable for the purpose as it is where a civic center should be located, we therefore recommend that the bill pass.

mending that House Bill No. 215, entitled: "An Act declaring and designating a certain tract of government land at Waiakea, South Hilo, County of Hawaii, Territory of Hawaii, as a public park," be passed. The report was read by the Clerk as follows:

Honolulu, T. H., March 30th, 1917.

Hon. Chas. F. Chillingworth,

Sir:—Your Committee on Public Lands and Internal Improvements to which was referred House Bill No. 215, entitled, "An Act Declaring and Designating a certain Tract of Government land at Waiakea, South Hilo, County of Hawaii, Territory of Hawaii, as a Public Park," begs leave to report as follows:

That after due and careful consideration we find that the object of the bill is to provide a park in the suburbs of the City of Hilo where can be constructed gardens surrounding silvery lakes and about rock-bound inlets of the sea of great beauty on the order of Japanese landscape gardening that will add greatly to the beauty of this approach to the city, and further that the land desired is of little value for other purposes.

We recommend the passage of the bill.

The report was read by the Clerk as follows:

Honolulu, T. H., March 31, 1917.

Honorable Charles F. Chillingworth,

Sir:—Your Select Committee of Hawaii Senators, to whom was referred Senate Bill No. 77, entitled: "An Act to amend Section 1531 of the Revised Laws of Hawaii, 1915, relating to Salaries County Officials," begs leave to report as follows:

The purpose of the Bill is to provide for an increase in salary for all of the heads of departments and deputy sheriffs of the County of Hawaii.

Your Committee, after careful consideration, is unable to agree upon the various salaries as set forth in this Bill, and also finds that there is at present before the House of Representatives, a Bill of like nature relating to salaries of various elective and appointive officers of the County of Hawaii.

The Committee therefore recommends that the Bill be tabled.

Respectfully submitted,

G. P. KAMAUOHA, Chairman;
ROBT. HND,
S. L. DESHA.

Upon motion by Senator Kamauoha, seconded by Senator Makekau, the Bill together with the report thereon were laid on the table until Monday, April 2, 1917, to give the minority an opportunity to file a report.

No. 159), recommending that House Joint Resolution No. 3, requesting the Congress of the United States of America to order the Commissioner of Education to undertake a survey of the schools of Hawaii, be adopted. The report was read by the Clerk as follows:

Honolulu, T. H., March 30th, 1917.

Hon. Chas. F. Chillingworth,
President of the Senate.

Sir:—This House Joint Resolution No. 3, requesting the Congress of the United States of America to order the Commissioner of Education to undertake a survey of the schools of Hawaii, seeks the first opportunity to accept the offer of the Government of the United States of America through its Department of the Interior and under the direction of its Commissioner of Education the same advantages and privileges which have been offered to every community of the nation, to put its local educational problem before the national leaders in education, and that after first-hand study and investigation of local conditions by such expert or experts of national reputation in the realm of education, they may advise with the Superintendent and the Commissioners of Public Instruction of this Territory and offer suggestions and ways and means that would tend to the improvement and betterment of the present educational system of Hawaii, high as our present system may be.

Should such a survey be granted the Mid-Pacific Institute has already

kindly offered to gladly coöperate in every way possible by lending its assistance in any way that seems desirable, as this institution is among the many of our home institutions of learning that realizes the great inestimable value that would accrue to our local system should such a survey be undertaken by Dr. P. P. Claxton, U. S. Commissioner of Education, who will personally assume the duties and responsibilities of such a survey, and this fact alone shows the great interest manifested in our welfare by such a leader of national reputation.

There is not the slightest intention in this Resolution to hurt or in any way injure the standing of any of our local teachers as surmised by some without foundation, however, while on the other hand the visit of this great educator and likewise the general result of his survey, suggestions and recommendations would undoubtedly bring great benefits and advantages to the teachers themselves as well as to the department and the community in general.

The Committee on Education therefore recommends that this Joint Resolution be adopted.

Respectfully submitted,

S. L. DESHA, Chairman;
GEO. P. COOKE,
ALFRED L. CASTLE.

The report was read by the Clerk as follows:

Honolulu, T. H., March 31, 1917.

Hon. Charles F. Chillingworth,
President of the Senate.

Sir:—Your Committee on Ways and Means to which was referred Senate Bill No. 59, entitled: "An Act appropriating the sum of twelve thousand dollars (\$12,000.00) to construct, rebuild, relocate, repair and build that certain road at the Aiea Homestead Lots, District of Ewa, City and County of Honolulu," begs leave to recommend the passage of the bill with the following amendments:

Section 1. Insert after the figures (\$12,000.00) "or so much thereof as may be necessary".

Section 2. Insert after the figures (\$12,000.00) "or so much thereof as may be necessary".

On line 4 of Section 2, strike out the words "Superintendent of Public Works who shall have charge of the construction of said road," and insert in lieu thereof "Commissioner of Public Lands, who shall construct said road by contract."

Your committee finds that the first appropriation for a road for these homestead lots was practically all used in building a road from Aiea to the homestead boundary fence and that the homesteaders are without a road through their lots, which is absolutely necessary for the removal of crops and general traffic.

Respectfully submitted,

ROBERT W. SHINGLE, Chairman;
H. A. BALDWIN,

E. W. QUINN,

Your committee has had this bill under careful consideration and finds that the work of the industrial accident boards has increased enormously, and their functions grow more important every year. They are well fulfilling their duties, and are saving to persons who are injured in industrial work large sums which would have been wasted in litigation. They have decided very many important questions and their decisions so far have been uniformly upheld.

Your committee would therefore recommend the passage of the bill.

Your committee has had this bill under careful consideration and finds that the amount asked for in this bill is in accordance with the records of the Board of Harbor Commissioners and the U. S. The discrepancies in the wharfage charges made against the steamers Nippon Maru, Tenyo Maru and Shinyo Maru, during the months of May, June, July and August, 1915, were occasioned by the difference in the measurements of these vessels by the Japanese Government and the United States Government.

Respectfully submitted,

S. L. DESHA, Chairman;
ALFRED L. CASTLE,
GEO. P. COOKE.

Upon motion by Senator Desha, seconded by Senator Kamauoha, the report was adopted.

Senator Castle, for the Committee on Judiciary, presented a report (Stand. Com. Rep. No. 170) recommending that Senate Concurrent Resolution No. 8, relative to the election of the Governor and Secretary of Hawaii, be adopted. The report was read by the Clerk as follows:

Honolulu, T. H., April 2, 1917.

Honorable Charles F. Chillingworth,
President of the Senate.

Sir:—Your Judiciary Committee, to which was referred Senate Concurrent Resolution No. 8, relative to the election of the Governor and Secretary of Hawaii, begs leave to report as follows:

This Legislature has already gone on record as favoring statehood for Hawaii. Our Delegate to Congress has introduced a bill providing for the election of the Governor of this Territory.

If the Legislature feels that Hawaii is ready for statehood, it is likewise ready for the election of its own Governor.

The Committee therefore recommends that the Concurrent Resolution be adopted.

Respectfully submitted,

JUDICIARY COMMITTEE.
ALFRED L. CASTLE, Chairman;
J. H. CONEY,
G. P. KAMAUOHA,
R. H. MAKEKAU,
WM. T. ROBINSON.

Upon motion by Senator Castle, seconded by Senator Kamauoha, the report was adopted. The resolution was thereupon adopted, on the following showing of ayes and noes:

Ayes: Senators Baldwin, Castle, Coney, Cooke, Desha, Hind, Kamauoha, Makekau, Mikaele, Pacheco, Quin, Robinson, Shingle and Mr. President. Total, 14.

Noes: None.

Excused and not voting: Senator Correa. Total, 1.

Senator Castle, for the Committee on Judiciary, presented a report (Stand. Com. Rep. No. 171) recommending that Senate Concurrent Resolution No. 9, relating to the Bill introduced in Congress by the Delegate to Congress regarding woman suffrage, be adopted. The report was read by the Clerk as follows:

Honolulu, T. H., April 2, 1917.

Honorable Charles F. Chillingworth,
President of the Senate.

Sir:—Your Judiciary Committee, to which was referred Senate Concurrent Resolution No. 9, relating to the bill introduced in Congress by the Delegate to Congress regarding woman suffrage, begs leave to report as follows:

Our Delegate has introduced into the House of Representatives a bill granting the Legislature of this Territory the power to submit to the voters of this Territory the question of whether or not female citizens shall be empowered to vote. This Senate has already adopted a resolution petitioning Congress to amend the Organic Act to allow female citizens to vote. Congress may prefer to refer the matter to the people of Hawaii rather than amend the Organic Act itself, so that in the event

of the failure of Congress to amend the Organic Act, the Delegate will have on file an action of this Legislature endorsing his proposal to submit the question to the people through the Territorial Legislature.

The Committee recommends the adoption of the Concurrent Resolution.

Respectfully submitted,

JUDICIARY COMMITTEE.

ALFRED L. CASTLE, Chairman;

J. H. CONEY,

G. P. KAMAUOHA,

R. H. MAKEKAU,

WM. T. ROBINSON.

Upon motion by Senator Castle, seconded by Senator Kamauoha, the report was adopted. The resolution was thereupon adopted on the following showing of ayes and noes:

Noes: None.

Excused and not voting: Senator Correa. Total, 1.

Senator Castle, for the Committee on Judiciary, presented a report (Stand. Com. Rep. No. 172) recommending that Senate Bill No. 32, entitled: "An Act to amend Section 2539 of the Revised Laws of Hawaii, 1915, relative to costs of court in district courts," be tabled. The report was read by the Clerk as follows:

Honolulu, T. H., April 2, 1917.

Honorable Charles F. Chillingworth,
President of the Senate.

Sir:—Your Judiciary Committee, to which was referred Senate Bill No. 32, entitled: "An Act to amend Section 2539 of the Revised Laws of Hawaii, relative to costs of court in district courts," begs leave to report as follows:

Under the present law, police officers' fees have always been looked upon as a part of the perquisite of the office. The amount is small, but if the proposed bill passes there should be a slight increase made in the salaries of wages of the officers. This varies in different counties.

The Committee does not feel that anything will be gained by the passage of the bill and recommends that the bill be tabled.

Respectfully submitted,

JUDICIARY COMMITTEE.

ALFRED L. CASTLE, Chairman;

J. H. CONEY,

G. P. KAMAUOHA,

R. H. MAKEKAU,

WM. T. ROBINSON.

Upon motion by Senator Castle, seconded by Senator Kamauoha, the report was adopted. The Bill was thereupon ordered tabled.

Senator Castle, for the Committee on Judiciary, presented a report

(Stand. Com. Rep. No. 173) recommending that House Bill No. 5, entitled: "An Act to amend Division 4 of Section 2109 of the Revised Laws of Hawaii, 1915, as amended and to repeal Act 118 of the Session Laws of 1915, relating to the manufacture and sale of wine from grapes grown in the Territory," be passed with certain amendments. The report was read by the Clerk as follows:

Honolulu, T. H., April 2, 1917.

Honorable Charles F. Chillingworth,
President of the Senate.

Sir:—Your Judiciary Committee, to which was referred House Bill No. 5, entitled: "An Act to amend Division 4 of Section 2109 of the Revised Laws of Hawaii, 1915, as amended, and to repeal Act 118 of the Session Laws of 1915, relating to manufacture and sale of wine from grapes grown in the Territory," begs leave to report as follows:

Under an act passed in the Session of 1915 a fourth class license to sell wine manufactured by the licensee from grapes grown in the Territory by the licensee or others was limited to cases where the production was less than five hundred gallons annually. Although it was not so intended, it actually did hit one or two of the licensees who were in legitimate business under liquor laws passed in 1907. It was not the intention of the Legislature to amend the liquor law in any material respect. The proposed bill simply makes the fourth class license the same as it was prior to the passage of the Act referred to in 1915. The Bill, however, proposes that the Act should take effect upon its approval. The time for renewal of liquor licenses is July first of each year.

The Committee recommends striking out the present Section 3 and inserting in lieu thereof the following:

"Section 3. This Act shall take effect upon July 1st, 1917."

As thus amended, the Committee recommends the passage of the Bill.

Respectfully submitted,

JUDICIARY COMMITTEE.
ALFRED L. CASTLE, Chairman;
J. H. CONEY,
G. P. KAMAUOHA,
R. H. MAKEKAU,
WM. T. ROBINSON.

Upon motion by Senator Castle, seconded by Senator Kamauoha, the Bill passed Second Reading as amended.

Senator Castle, for the Committee on Judiciary, presented a report (Stand. Com. Rep. No. 174) recommending that House Bill No. 201, entitled: "An Act granting to the Board of Health power to subpoena and examine witnesses under oath," be passed with certain amendments. The report was read by the Clerk as follows:

Honolulu, T. H., April 2, 1917.

Honorable Charles F. Chillingworth,
President of the Senate.

Sir:—Your Judiciary Committee, to which was referred House Bill No. 201, entitled: "An Act granting to the Board of Health power to subpoena and examine witnesses under oath," begs leave to report as follows:

This bill grants to the Board of Health power to subpoena and examine witnesses under oath in cases where a license to practice medicine and surgery has been granted. It provides a penalty for a witness refusing to answer any question material to the matter pending before the Board, making no exception for privileged communications as provided by Sections 2614 and 2615, and other sections of the Revised Laws.

The Committee feels that the bill in its present form might operate as a repeal by implication of these sections in so far as it affects questions asked in the investigation of licenses relating to the practice of medicine and surgery.

The Committee recommends inserting after the word "shall" in line 2 of Section 2 the following: "except as privileged by the laws of the Territory."

As thus amended, the Committee recommends the passage of the bill.

Respectfully submitted,

JUDICIARY COMMITTEE.

ALFRED L. CASTLE, Chairman;
J. H. CONEY,
G. P. KAMAHOA,
R. H. MAKEKAU,
WM. T. ROBINSON.

Upon motion by Senator Castle, seconded by Senator Kamaucha, the report was adopted. The Bill thereupon passed Second Reading, as amended.

Senator Castle, for the Committee on Judiciary, presented a report (Stand. Com. Rep. No. 175) recommending that House Bill No. 225, entitled: "An Act to amend Section 2221 of the Revised Laws of Hawaii, 1915, as amended by Act 170 of the Session Laws of 1915, relating to Public Utilities Commission," be passed with certain amendments. The report was read by the Clerk as follows:

Honolulu, T. H., April 2, 1917,

Honorable Charles F. Chillingworth,
President of the Senate.

Sir:—Your Judiciary Committee, to which was referred House Bill No. 225, entitled: "An Act to amend Section 2221 of the Revised Laws of Hawaii, 1915, as amended by Act 170 of the Session Laws of 1915, relating to Public Utilities Commission," begs leave to report as follows:

Under the present law, no person owning stocks or bonds in any public utility corporation or having any interest or deriving any remuneration from any public utility shall be appointed or employed by the Commission. On the other hand salaried officers of the Territory or of any political sub-division may be a member of the Commission. In other words, though one party in interest is specifically enjoined from having representation on the Commission, the other party in interest is allowed representation.

The Committee feels that the Commission should be an independent one composed of persons having no interest in the corporation or government. This is the purpose sought for in the bill.

The Ways and Means Committee of this Senate have recommended that in the case of the Industrial Accident Board five dollars a day be allowed as fees, and have apparently adopted this as a policy to be followed. It

seems reasonable that some small fee should be allowed to persons performing these duties which take up a great deal of time.

The Committee recommends inserting after the word "Commission" in line 14 of Section 1 the following sentence: "Each member of said Commission shall receive compensation at the rate of five dollars per day while actually engaged in the performance of his duties as such commissioner."

It is to be observed that this money does not come out of the treasury of the Territory, but is paid by the public utilities themselves.

As thus amended, the committee recommends the passage of the bill.

Respectfully submitted,

JUDICIARY COMMITTEE.

ALFRED L. CASTLE, Chairman;

J. H. CONEY,

G. P. KAMAUOHA,

WM. T. ROBINSON.

I do not concur:

R. H. MAKEKAU.

Upon motion by Senator Castle, seconded by Senator Kamauoha, the report was adopted. The Bill thereupon passed Second Reading, as amended.

Senator Desha presented Senate Petition No. 6 from Isaac K. Keliipo and forty-one others protesting against the passage of House Bill No. 232. The petition was read by the Clerk as follows:

PETITION.

WHEREAS, a bill has been introduced in the House of Representatives (H. B. No. 232) and has passed third reading in said House, to set aside a certain tract of land at Waiakea, South Hilo, County and Territory of Hawaii, as the grounds and site for the Waiakea Armory; and

WHEREAS, there are certain people who are and who have lived for years on the premises so set aside as the site for the proposed Armory; and

WHEREAS, the Governor of the Territory of Hawaii, under Executive Order No. 44, has set aside land for a reservation for race track and drill grounds near the proposed Armory site which reservation (includes Hoolulu Park) and contains an area of 55.36 acres;

We, the citizens and taxpayers of Waiakea humbly pray your Honorable Body that said House Bill No. 232 be defeated:

1. It will entail a great hardship on several poor people living at Waiakea.

2. It will be far better and more fitting to have the Armory erected in the reservation set aside by the Governor of the Territory of Hawaii, as the said Armory could be in closer proximity to the drill grounds, and as the reservation is large enough to permit the erection of said Armory.

ISAAC K. KELIIPO,

and forty-one others.

Senate Petition No. 6 was thereupon referred to the Committee on Military.

The President announced that he was in receipt of Senate Petition

No. 7 from the Ahahui Kaahumanu protesting against a Federal School Survey, as follows:

Upon motion by Senator Castle, duly seconded and carried, the petition was laid on the table to be taken up with House Joint Resolution No. 3.

Second Reading of Senate Bill No. 77, entitled: "An Act to amend Section 1531 of the Revised Laws of Hawaii, 1915, relating to salaries county officials."

Senator Makekau presented a report of the minority of the Select Committee of Senators from Hawaii, (Spl. Com. Rep. No. 10) to which the Bill had been referred, recommending that the Bill be passed. The report was read by the Clerk as follows:

Honolulu, T. H., April 2, 1917.

Honorable Charles F. Chillingworth,
President of the Senate.

Sir:—The minority member of your Select Committee of Hawaii Senators, to whom was referred Senate Bill No. 77, entitled: "An Act to amend Section 1531 of the Revised Laws of Hawaii, 1915, relating to salaries County officials," begs leave to report as follows:

The object of this bill is to raise the salaries of all county officials of the County of Hawaii to an amount consistent with the duties imposed by law upon them.

Your minority member feels that such action is just and proper and realizes that these salaries being fixed by law such increase can only be made in this way.

It has been contended that because there has been introduced in the House of Representatives a bill relating to the same subject, Senate Bill No. 77 should be tabled. It is scarcely necessary for your minority member to point out that such bill may never reach the Senate at all.

Your minority member therefor recommends that Senate Bill No. 77 be passed.

Respectfully submitted,

R. H. MAKEKAU.

Upon motion by Senator Kamauoha, seconded by Senator Desha, the minority report was tabled.

SENATE CONCURRENT RESOLUTION.

WHEREAS, a crisis has arisen in the affairs of the United States of America in its relations with Germany on account of the total failure and refusal of that power to observe the rules of war in carrying on the great conflict now raging in Europe, as well as its direct and defiant disregard of its treaties with and promises to the United States, by reason of which the rights of American citizens have for many months been trampled under foot and hundreds of their lives ruthlessly sacrificed; and,

WHEREAS, while professing friendship for the United States, Germany has perfidiously attempted to incite other countries to attack the United States and has used its diplomatic and other agencies in said United States to plot and destroy this country; and

WHEREAS, the limits of patient endurance have been reached, and the President of the United States has, before the Congress of the Country, solemnly voiced the determination of the people of the United States to yield no longer to the outrages and injuries inflicted on the country and all of its people by the German Government, but to rise in defense of these rights and oppose by force, not only the continuance of such wrongs, but to crush forever the formidable attempts now making by Prussianism to destroy the liberties of the world; Therefore, Be It

RESOLVED, by the Senate of the Territory of Hawaii, the House of Representatives concurring, that the people of Hawaii unqualifiedly indorse and support the position now taken by the United States, as voiced by the President, and will, by every means in their power, aid and assist the country in defending its rights, maintaining an honorable national existence and opposing the triumph of principles for which Prussianism is contending, which triumph would result in the destruction of individual and national liberty in the world.

ALFRED L. CASTLE,
Senator, Third District.

The resolution was referred to the Committee on Judiciary.

Senator Baldwin introduced Senate Bill No. 108, entitled: "An Act to appropriate \$100,000.00 as a special fund for the benefit or relief of the families of certain members of the National Guard of Hawaii."

Upon motion by Senator Baldwin, seconded by Senator Desha, the Bill passed First Reading by title.

The Bill having been read throughout, upon motion by Senator Baldwin, duly seconded and carried, the rules were suspended that the Bill might be referred to the Committee on Ways and Means. The Bill was thereupon referred to the Committee on Ways and Means.

Senator Mikaele presented Senate Resolution No. 18, instructing the

Commissioner of Public Lands to open up all Government lands at Kekaha, Kauai, for homestead purposes, which was read by the Clerk as follows:

RESOLUTION.

The report was read by the Clerk as follows:

Honolulu, April 3rd, 1917.

Hon. Chas. F. Chillingworth,
President of the Senate.

Sir:—Your Committee on Education to whom was referred House Bill No. 286, entitled: "An Act amending Section 267 of the Revised Laws of Hawaii, 1915, relative to teachers in public schools," begs leave to report as follows:

Your Committee has had the bill under careful consideration. This bill seeks to amend Section 267 aforesaid by adding thereto after words, "qualified teachers," the following: "provided, however, that the department, in appointing teachers shall give the preference to citizens of the Territory of Hawaii."

Your Committee would further recommend an amendment to the above amendment by the House by inserting the following after the word "shall"; "where the qualifications are equal," so that the proviso would read:

"provided, however, that the department, in appointing teachers shall, where the qualifications are equal, give preference to citizens of the Territory of Hawaii."

With this last proviso inserted as above specified, your committee recommends that the bill pass.

Respectfully submitted,

EDUCATION COMMITTEE.
S. L. DESHA, Chairman;
ALFRED L. CASTLE,
GEO. P. COOKE.

Upon motion by Senator Desha, seconded by Senator Kamauoha, the report was adopted. The Bill, as amended, thereupon passed Second Reading.

Senator Castle, for the Committee on Judiciary, presented a report

(Stand. Com. Rep. No. 177) recommending that Senate Bill No. 88, entitled: "An Act to amend Section 3 of Act 165 of the Session Laws of 1915, relating to commutation of punishment of prisoners," be passed. The report was read by the Clerk as follows:

Honolulu, T. H., April 3, 1917.

Honorable Charles F. Chillingworth,
President of the Senate.

Sir:—Your Judiciary Committee, to which was referred Senate Bill No. 88, entitled: "An Act to amend Section 3 of Act 165 of the Session Laws of 1915, relating to commutation of punishment of prisoners," begs leave to report as follows:

Under the present law a prisoner convicted of a misdemeanor cannot be compelled to work. He is, however, allowed to request work and in this way mitigate his sentence to a certain extent. The present law also makes it the duty of the officer under whose control or in whose custody he may be to place the prisoner upon some public work.

The proposed bill allows the prisoner to mitigate his sentence in the same way, but the designation of the work shall be by the Board of Supervisors or by the Chairman thereof. As the County is the one who pays the expense, it seems just that the County Board rather than the Sheriff should designate the work to be performed.

For the reasons above stated, the Committee recommends the passage of the bill.

Respectfully submitted,

JUDICIARY COMMITTEE.
ALFRED L. CASTLE, Chairman;
J. H. CONEY,
G. P. KAMAUOHA,
WM. T. ROBINSON.

Be it further resolved that copies of this Resolution be forthwith forwarded to the President of the United States, the President of the Senate, of the United States, the Speaker of the House of Representatives and our Delegate to Congress, Honorable J. K. Kalanianaʻole.

ALFRED L. CASTLE,
Senator, Third District.

Upon motion by Senator Castle, duly seconded and carried, the amendment was adopted.

Upon motion by Senator Castle, duly seconded and carried, Senate Concurrent Resolution No. 11 as amended was thereupon adopted.

At 2:05 o'clock p. m. the Senate stood in recess subject to the call of the Chair.

At 2:30 o'clock p. m. the Senate having reconvened, Senator Shingle, for the Committee on Ways and Means, presented a report (Stand. Com. Rep. No. 178) recommending that Senate Bill No. 52, entitled: "An Act making appropriations out of the general revenues for the biennial period ending June 30, 1919," be passed with certain amendments. The report was read by the Clerk as follows:

Honolulu, T. H., April 3, 1917.

Honorable Charles F. Chillingworth,
President of the Senate.

Sir:—Your Committee on Ways and Means to which was referred Senate Bill No. 52, entitled: "An Act making appropriations out of the general revenues for the biennial period ending June 30, 1919," has the following report to make:

That all departments of the government of the Territory should be provided for out of the general revenues, by the customary method of a budget system covering the biennial period.

Your Committee has made a very thorough and painstaking examination of all the departments, from the heads down to the smallest salaried employees. The committee has endeavored to the best of its ability to arrange the salaries of corresponding positions in all branches of the Government service on an equal footing.

Your Committee feels that it has made an equitable adjustment of salaries of subheads and chief clerks in each department and a proportionate adjustment for the positions of deputies, stenographers, clerks and all minor positions.

The high cost of living has made it necessary for an increase all along the line in salaries less than \$200.00. No exact percentage of increase has been adhered to, as in the case of the School budget, but a substantial advance has been made in all departments.

A considerable amount of additional money has had to be provided for over and above the last general appropriation bill, for the purchase of materials, food stuffs, supplies, stationery, etc., because of increased prices in all commodities.

The arrangement of specific salaries has been followed with the object in view of inaugurating a more comprehensive system of bookkeeping by the Auditor's office, which will be able to keep a closer check on the expenditures of the different departments. The form of the bill as reported by the committee, has the hearty endorsement of both the Territorial Auditor and Territorial Treasurer.

Your Committee in considering the salaries of the various departmental chiefs, has taken into consideration the increased amount of work in each department. The salaries have been fixed at \$375 per month, excepting the Superintendent of Public Works, which is left at \$400 per month. The sum of \$375 was the old basis adopted by the Legislature in 1903. In 1905, the salaries were reduced upon the voluntary request of these officers to \$250.00, in order to bring the appropriation bill within the financial limits of the Treasury. Since 1907, several increases have been made by the Legislature from time to time.

Your Committee has made no provisions for the Territorial Marketing Division in this bill, as there is a bill introduced in the House, regulating said Division and its operations, and putting it upon a more business-like footing.

Your Committee feels that after consideration of such a measure, the Legislature will be able to provide funds for this Department in a more intelligent manner.

The Bureau of Hydrography at the request of the Board of Agriculture and Forestry and by acquiescence of the Superintendent of Public Lands, has been transferred to the Land Department, where its data and investigation, your committee feels, will in time prove to be of real value. Besides allowing an equal amount to the Nine Thousand Dollars appropriated by the Federal Government for this work, substantial expense items have been allowed.

Your Committee thinks that it has amply provided for the needs of this Bureau.

The Bill as amended by your committee, embodying items not heretofore covered by an appropriation bill is herewith submitted, and your committee recommends its passage.

Respectfully submitted,

ROBERT W. SHINGLE, Chairman;
H. A. BALDWIN,
E. W. QUINN,
ROBT. HIND,
J. H. CONEY.

No. 179) recommending that Senate Bill No. 108, entitled: "An Act to appropriate \$100,000.00 as a special fund for the benefit or relief of the families of certain members of the National Guard of Hawaii," be passed. The report was read by the Clerk as follows:

Honolulu, T. H., April 3, 1917.

Hon. Charles F. Chillingworth,
President of the Senate.

Sir:—Your Committee on Ways and Means to which was referred Senate Bill No. 108, entitled: "An Act to appropriate \$100,000.00 as a special fund for the benefit or relief of the families of certain members of the National Guard of Hawaii," begs leave to report as follows:

Your Committee has had this bill under careful consideration and in view of the fact that families of certain members of the National Guard

of the Territory of Hawaii, might materially suffer should the Guard be called to the colors, thereby depriving heads of the families from pursuing their daily occupation, believe that the intent of the bill a meritorious one, and therefore recommend the bill do pass.

A communication from the Secretary of the Territory (Dept. Com. No. 43) informing the Senate that the Governor had signed House Bill No. 99 as Act 60, was read by the Clerk as follows:

Honolulu, April 4, 1917.

Hon. Chas. F. Chillingworth,
President of the Senate,
Honolulu.

Dear Sir:—I beg to inform your Honorable Body that the Governor this day signed House Bill No. 99, as Act 60, entitled: "An Act to amend Section 1553 of the Revised Laws of Hawaii, 1915, pertaining to vacancies in county offices."

Yours very truly,

WADE WARREN THAYER,
Secretary of Hawaii.

A communication from the Judge of the Juvenile Court of the First

Circuit (Dept. Com. No. 44), requesting the Senate to make provision for the purchase of a new automobile and the repair of the old automobile of the probation officers was read by the Clerk as follows:

April 4, 1917.

The Honorable, the President
and Members of the Senate,
Honolulu.

Gentlemen:—The financial needs of the Juvenile Court of the First Circuit of this Territory are extremely pressing. Passing over other, and larger, items, which have doubtless been brought to your attention and for which provision is urgently needed, I respectfully call your attention to the fact that each of our probation officers, male and female, should be provided with an automobile, whereas only one such is provided at present.

The lady probation officer, Miss Maynard, is a most efficient, enthusiastic, and industrious officer, and is at present unprovided with any means of locomotion except such as nature has furnished. Her work is constantly increasing, and it extends all throughout the district of Honolulu, from Kulicouou to Moanalua and to the Pali on the mauka side. In addition, she has frequent occasion to make visits to portions of the islands outside the city.

The male probation officer, Mr. Leal, is now provided with an Overland five-seater car, of the vintage of 1913, which was paid for, as a second-hand car, by turning in a Ford that had been practically worked to death by a former probation officer, and the balance made up from circuit court expenses—the only fund available for the purpose. This car is now on the verge of collapse, and requires a new storage battery and engine repairs at an expense of probably seventy-five to one hundred dollars. Moreover, this car is not of sufficient power or strength to hold up under the increasingly heavy traffic it is called upon to carry between here and Waialeale, and, with the breaking up of the roads between said points, the strain upon the car is becoming increasingly heavy.

I therefore propose that this car be placed at the disposal of Miss Maynard, the lady probation officer, together with a sufficient fund to pay for its repair, as above—and that a new, and somewhat better and heavier car, say a six-cylinder Overland, be purchased for the male probation officer, at an expense of about \$1,185.

You will understand, Gentlemen, that our probation officer is obliged to meet all boys sent down from the other circuits, consigned to the industrial school, and to convey them to Waialeale. There is never a week during which a trip to Waialeale is not called for, and, during some weeks, several trips are required.

It is utterly out of the question that we should make this purchase with funds heretofore appropriated for circuit court expenses except at the sacrifice of circuit court work. A grand jury and two trial juries are now constantly employed in this court, owing to the congestion of its calendars as the result, in part, of several recent vacancies in the third division, and the circuit court expenses, proper, are likely to increase instead of decrease.

There has been a great increase in crime in this circuit, and the necessity of bringing the criminals to trial through the medium of the grand and trial juries involves a volume of work, and of expense, that is constantly increasing.

I therefore appeal to you, Gentlemen, to make provision for these proposed repairs and proposed purchase.

Let me say, in conclusion, that I have lately taken over the work of the juvenile court for the third time since my accession to this bench, having had two periods of similar work during as many vacations of Judge Whitney in the summer of 1915 and 1916, and on each occasion, when resuming the work of this court, I have been surprised to find how much its volume had increased.

We have these juveniles to care for, Gentlemen, and it cannot be done without money. If the probation officers are to be enabled to discharge the most important and growing functions that are assigned to them, they must be equipped with the ways and means for getting around with celerity, and for carrying considerable number of passengers.

Very respectfully submitted,

C. W. ASHFORD,
Judge, Juvenile Court, First Circuit.

Departmental Communication No. 44 was thereupon referred to the Committee on Ways and Means.

Senator Castle, for the Committee on Judiciary, presented a report (Stand. Com. Rep. No. 181) recommending that Senate Bill No. 92, entitled: "An Act relating to the employment of special counsel by officers or employees of the Territory of Hawaii," be passed with certain amendments. The report was read by the Clerk as follows:

Honolulu, T. H., April 4, 1917.

Honorable Charles F. Chillingworth,
President of the Senate.

Sir:—Your Judiciary Committee, to which was referred Senate Bill No. 92, entitled: "An Act relating to the employment of special counsel by officers or employees of the Territory of Hawaii," begs leave to report as follows:

This bill prohibits the employment of special counsel by Territorial officers or employees without first having obtained the consent of the Attorney General.

The Committee recommends inserting after the word "shall" in line 4 of Section 1: ", for and on behalf of the Territory"; amend Section 2 to read: "Section 2. This Act shall take effect upon its approval."

As thus amended, the Committee recommends the passage of the Bill.

Respectfully submitted,

JUDICIARY COMMITTEE.

WM. T. ROBINSON.

Upon motion by Senator Coney, seconded by Senator Castle, the report was adopted. The Bill thereupon passed Second Reading.

Senator Castle, for the Committee on Judiciary, presented a report (Stand. Com. Rep. No. 182) recommending that Senate Bill No. 95, entitled: "An Act to amend Sections 1897, 1898, 1899 and 1900, of the Revised Laws of Hawaii, 1915, relating to sidewalks, including curbs," be passed with certain amendments. The report was read by the Clerk as follows:

Honolulu, T. H., April 4, 1917.

Honorable Charles F. Chillingworth,
President of the Senate.

Sir:—Your Judiciary Committee, to which was referred Senate Bill No. 95, entitled: "An Act to amend Sections 1897, 1898, 1899 and 1900 of the Revised Laws of Hawaii, 1915, relating to sidewalks, including curbs," begs leave to report as follows:

The present law relating to sidewalks may or may not include curbs. At any rate, there is a doubt.

The proposed amendment merely includes curbs, and, in the matter of foreclosure of the lien, allows the County or City and County in its own name to recover the amount by various actions including any proceeding allowed for the foreclosure of tax liens.

The Committee recommends amending Section 5 by inserting after the word "on" the word "its".

As thus amended, the Committee recommends the passage of the bill.

Respectfully submitted,

JUDICIARY COMMITTEE.
ALFRED L. CASTLE, Chairman;
J. H. CONEY,
G. P. KAMAUOHA,

No. 183) recommending that Senate Bill No. 96, entitled: "An Act to amend Sections 666 and 669 of Chapter 48 of the Revised Laws of Hawaii, 1915, relating to eminent domain," be passed with certain amendments. The report was read by the Clerk as follows:

Honolulu, T. H., April 4, 1917.

Honorable Charles F. Chillingworth,
President of the Senate.

Sir:—Your Judiciary Committee, to which was referred Senate Bill No. 96, entitled: "An Act to amend Sections 666 and 669 of Chapter 48 of the Revised Laws of Hawaii, 1915, relating to eminent domain," begs leave to report as follows:

This bill would allow an agent of the County or City and County as

well as the agent of the Territory to enter upon lands for the purpose of surveying land to be condemned in accordance with the provisions of the Chapter referred to. It also allows Counties or City and Counties to institute proceedings in the name of and on behalf of such County or City and County for the condemnation of property instead of requiring the proceedings to be brought in the name of the Superintendent of Public Works. The Counties may only bring proceedings as are provided in the chapter referred to and then only in cases where the specific powers have been granted to the respective Boards of Supervisors.

The intention of the bill is to allow condemnation proceedings for purposes within the present and future powers of the Boards of Supervisors.

The Committee recommends amending Section 2 by striking out in line 12 the word "of" and inserting in lieu thereof the words: "heretofore granted, or which may hereafter be granted, to." Amend Section 3 by inserting after the word "on" the word "its."

As thus amended, the Committee recommends the passage of the bill.

Respectfully submitted,

JUDICIARY COMMITTEE.

WM. T. ROBINSON.

Upon motion by Senator Makekau, seconded by Senator Kamauoha, the report was adopted. The Bill thereupon passed Second Reading.

Senator Castle, for the Committee on Judiciary, presented a report (Stand. Com. Rep. No. 184) recommending that Senate Bill No. 98, entitled: "An Act relating to equity jurisdiction over trust estates," be passed. The report was read by the Clerk as follows:

Honolulu, T. H., April 4, 1917.

Honorable Charles F. Chillingworth,
President of the Senate.

Sir:—Your Judiciary Committee to which was referred Senate Bill No. 98, entitled: "An Act relating to equity jurisdiction over trust estates," begs leave to report as follows:

This bill proposes that trustees, where it is not contrary to the provisions of the trust, may petition the Court to authorize the trustees to sell at public sale, partition, exchange or to lease or to extend the terms of leases of lands belonging to the trust estate where the Court decides it is for the best interests of the trust estate and as best effecting the objects of the trust. It also provides that if the trust terminates before the ending of the lease, it shall not invalidate the lease.

There are many instances where a trustee has a chance to make an advantageous lease or sale of the trust property but where his term would expire in a very short time, probably he could not lease beyond the term for which he is trustee although it might be of great benefit to the estate if he were allowed to lease for a longer term.

As the lease could not be made except upon approval of the Court, and upon due notice to all parties interested, the bill seems advisable. It

may aid in the disposition either by sale or lease any lands now tied up in trust estates.

The Committee recommends the passage of the bill.

Respectfully submitted,

JUDICIARY COMMITTEE.

Upon motion by Senator Castle, seconded by Senator Kamauoha, the report was adopted. The Bill thereupon passed Second Reading.

Senator Castle, for the Committee on Judiciary, presented a report (Stand. Com. Rep. No. 185) recommending that Senate Bill No. 99, entitled: "An Act to amend Chapter 123 of the Revised Laws of Hawaii, 1915, as amended by Act 46 of the Session Laws of Hawaii, 1915, relating to municipal bonds by amending Sections 2174 and 2175," be passed. The report was read by the Clerk as follows:

Honolulu, T. H., April 4, 1917.

Honorable Charles F. Chillingworth,
President of the Senate.

Sir:—Your Judiciary Committee, to which was referred Senate Bill No. 99, entitled: "An Act to amend Chapter 123 of the Revised Laws of Hawaii, 1915, as amended by Act 46 of the Session Laws of Hawaii, 1915, relating to municipal bonds by amending Sections 2174 and 2175 thereof," begs leave to report as follows:

The present law relating to bonds provides that before the election shall be successful that there must be at least 60% of the votes in the affirmative. The law assumes that the bond election is to stand or fall as a whole.

In a recent election in the City and County of Honolulu a large number of votes were thrown out because the party had marked on his ballot a "yes" or "no" as the case might be instead of a cross (X). These votes were all counted as "no" votes.

The proposed amendment is that only valid votes shall be counted. In the instance cited in the City and County of Honolulu fully as many of the votes rejected were in favor of the bond election as were against it. To count votes intended to be in favor of an object as against this object seems hardly fair.

The proposed bill also allows the voters to determine upon any separate project and not take the election as a whole. In other words, it is possible to vote in favor of the extension of the sewer system in Honolulu but to vote against the purchase of more parks. The remaining change relates to the time for calling the election, reducing the time to "at least twenty days before the date fixed therefor." It is discretionary with the Board to send out their notices for a longer period before the election.

The Committee recommends the passage of the bill.

Respectfully submitted,

JUDICIARY COMMITTEE.

Senator Castle, for the Committee on Judiciary, presented a report (Stand. Com. Rep. No. 186) recommending that House Bill No. 51, entitled: "An Act to amend Chapter 257 of the Revised Laws of Hawaii, 1915, by adding thereto a new section to be known as Section 4149A, providing for punishment for aiding or abetting sexual intercourse with a female under eighteen," be passed. The report was read by the Clerk as follows:

Honolulu, T. H., April 4, 1917.

Honorable Charles F. Chillingworth,
President of the Senate.

Sir:—Your Judiciary Committee, to which was referred House Bill No. 51, entitled: "An Act to amend Chapter 257 of the Revised Laws of Hawaii, 1915, by adding thereto a new section to be known as Section 4149A, providing for punishment for aiding or abetting sexual intercourse with a female under eighteen," begs leave to report as follows:

The present law provides through a general section for punishment for aiding or abetting sexual intercourse with a female under fifteen. This bill provides specifically for a punishment for aiding or abetting sexual intercourse with a female under eighteen.

The Committee feels that the intent of the bill is good and recommends its passage.

Respectfully submitted,

Senator Coney, for the Committee on Military, presented a report (Stand. Com. Rep. No. 187) recommending that House Bill No. 335, entitled: "An Act relating to the employment and pay of officers and employees of the Territory of Hawaii, the several counties or city and county, while on actual service in the National Guard or Naval Militia of the Territory of Hawaii," be referred to the Committee on Ways and Means. The report was read by the Clerk as follows:

Honolulu, T. H., April 4, 1917.

Hon. Chas. F. Chillingworth,
President of the Senate.

Sir:—Your Military Committee to which was referred House Bill No. 335, relating to the employment and pay of officers and employees of the Territory of Hawaii, the several counties or the City and County, while on actual service in the National Guard or Naval Militia of the Territory of Hawaii, has given the same careful and due consideration, and beg leave to report as follows:

The object of the Bill is to protect the position of persons who are members of the National Guard and the Naval Militia of the Territory of Hawaii in the employ of the Territory and the several counties or city and county who may be called into the active service of the United States, and to provide for a certain portion of their pay while so engaged.

Your committee is in favor of the passage of the Bill, but, owing to the fact that it involves the finances of the several subdivisions of the government, it feels that the same should be referred to the Ways and Means Committee for its proper consideration; your committee therefore so respectfully recommends.

J. H. CONEY, Chairman;
M. C. PACHECO,
S. L. DESHA.

Upon motion by Senator Coney, seconded by Senator Kamauoha, the report was adopted. The Bill together with the report thereon were thereupon referred to the Committee on Ways and Means.

Your Committee after a consultation with the Superintendent of Public Instruction, and His Excellency the Governor of the Territory, having intimated a desire to favor the measure with a few amendments which your committee believes enhances the utility of the resolution, your committee therefore recommends the following amendments:

"The Congress of the United States to order," and insert in lieu thereof the words:

"The Governor and the Superintendent of Public Instruction to request."

And likewise to insert after word "Education" the words:

"of the United States of America."

Delete the entire paragraph beginning with the third "Whereas" excepting the word "therefore" at the end thereof;

Delete the words after word "That" following the enacting clause:

"the Commissioner of Education of the United States of America be and is hereby requested and invited," and insert in lieu thereof the words:

"the Governor and the Superintendent of Public Instruction be and are hereby requested to invite the Commissioner of Education of the United States of America";

Also delete the words: "the Territory" after words "schools of," and insert in lieu thereof the words:

"Hawaii, acting in conjunction with the Department of Public Instruction of the Territory of Hawaii";

Delete the remainder of last paragraph after word: "recommendations" and insert in lieu thereof the words:

"to the said Department of Public Instruction as may seem to the Commissioner of Education will aid our schools to prepare our children for true American life," so that the Joint Resolution as thus amended will read as follows:

JOINT RESOLUTION

AUTHORIZING AND DIRECTING THE GOVERNOR AND THE SUPERINTENDENT OF PUBLIC INSTRUCTION TO REQUEST THE COMMISSIONER OF EDUCATION OF THE UNITED STATES OF AMERICA TO UNDERTAKE A FEDERAL SURVEY OF THE SCHOOLS OF THE TERRITORY OF HAWAII.

WHEREAS, the Government of the United States of America, through its Department of the Interior and under the direction of its Commissioner of Education, has offered to every community of the nation an opportunity to put its local problem of schools before the national leaders in education that, after first-hand study of local conditions, such leaders may advise with local authorities to the end that the children of all the people may be prepared for national life; and

WHEREAS, Hawaii through its entire history has devoted itself to popular education and today faces conditions of peculiar difficulty and responsibility not affecting ourselves alone, but also affecting the life of the nation, and would bring to its problem all of its own resources and also such added wisdom as might come from national leaders after their study of local conditions; therefore,

Be It Resolved by the Legislature of the Territory of Hawaii:

That the Governor and the Superintendent of Public Instruction be and are hereby authorized and directed to invite the Commissioner of Education of the United States to undertake a federal survey of the schools of Hawaii, acting in conjunction with the Department of Public Instruction of the Territory of Hawaii, and to make such recommendations to the said Department of Public Instruction as may seem to the Commissioner of Education will aid our schools to prepare our children for true American life.

With the above amendments we recommend that the Joint Resolution pass as thus amended.

Respectfully submitted,

Your Committee after a consultation with the Superintendent of Public Instruction, and His Excellency the Governor of the Territory having intimated a desire to favor the measure with a few amendments which your committee believes enhances the utility of the resolution, your committee therefore recommends the following amendments:

Delete the words in title after word "resolution:"

"Requesting the Congress of the United States to order," and insert in lieu thereof the words:

"Authorizing and directing the Governor and the Superintendent of Public Instruction to request,"

And likewise to insert after word "Education" the words:

"of the United States of America."

Delete the entire paragraph beginning with the third "Whereas" excepting the word "therefore" at end thereof;

Delete the words after word "That" following the enacting clause:

"the Commissioner of Education of the United States of America be and is hereby requested and invited"

and insert in lieu thereof the words:

"the Governor and the Superintendent of Public Instruction be and are hereby authorized and directed to invite the Commissioner of Education of the United States of America;"

Also delete the words "the Territory" after words "schools of," and insert in lieu thereof the words

"Hawaii, acting in conjunction with the Department of Public Instruction of the Territory of Hawaii;"

Delete the remainder of last paragraph after word "recommendations" and insert in lieu thereof the words:

"to the said Department of Public Instruction as may seem to the Commissioner of Education will aid our schools to prepare our children for true American life," so that the Joint Resolution as thus amended will read as follows:

JOINT RESOLUTION

AUTHORIZING AND DIRECTING THE GOVERNOR AND THE SUPERINTENDENT OF PUBLIC INSTRUCTION TO REQUEST THE COMMISSIONER OF EDUCATION OF THE UNITED STATES OF AMERICA TO UNDERTAKE A FEDERAL SURVEY OF THE SCHOOLS OF THE TERRITORY OF HAWAII.

WHEREAS, the government of the United States of America, through its Department of the Interior and under the direction of its Commissioner of Education, has offered to every community of the nation an

opportunity to put its local problem of schools before the national leaders in education that, after first-hand study of local conditions, such leaders may advise with local authorities to the end that the children of all the people may be prepared for national life; and

WHEREAS, Hawaii through its entire history has devoted itself to popular education and today faces conditions of peculiar difficulty and responsibility not affecting ourselves alone, but also affecting the life of the nation, and would bring to its problem all of its own resources and also such added wisdom as might come from national leaders after their study of local conditions; therefore

Be It Resolved by the Legislature of the Territory of Hawaii:

That the Governor and the Superintendent of Public Instruction be and are hereby authorized and directed to invite the Commissioner of Education of the United States of America to undertake a federal survey of the schools of Hawaii, acting in conjunction with the Department of Public Instruction of the Territory of Hawaii, and to make such recommendations to the said Department of Public Instruction as may seem to the Commissioner of Education will aid our schools to prepare our children for true American life.

With the above amendments we recommend that the Joint Resolution pass as thus amended.

Respectfully submitted,

Senator Coney, for the Committee on Military, presented a report (Stand. Com. Rep. The report was read by the Clerk as follows:

Honolulu, T. H., April 5, 1917.

Hon. Chas. F. Chillingworth,
President of the Senate.

Sir:—Your Military Committee to which was referred Senate Joint Resolution No. 3, introduced by Senator M. C. Pacheco, directing the Department of Public Instruction to display the flag of the United States and making the singing of "The Star Spangled Banner" part of the morning exercises in the public schools, has given the same careful consideration and beg leave to report as follows:

The Committee finds that the resolution seeks to instill a sentiment of patriotism among the children of the various races attending our public schools and believes that the same should go further so as to

include the teachers in charge of public students; your committee recommends that the words "and teachers" be inserted between the "the" and "students" in line one of the third paragraph, so as to read as follows:

"That during the singing of said song the teachers and students shall stand, and at the conclusion shall salute the flag and repeat the following words: 'Our flag, long may it wave.'"

As so amended your committee respectfully recommends that the Resolution be adopted.

J. H. CONEY, Chairman;
M. C. PACHECO.

Sir:—Your Military Committee to which was referred Senate Bill No. 94, being an Act to amend Section 1 of Act 14 of the Session Laws of 1915, prohibiting the operation of aeroplanes, balloons or other aircraft in the Territory of Hawaii, with certain restrictions, has had the same under careful consideration, and beg leave to report as follows:

This Bill is the same as Act 14 of the Session Laws of 1915, save and except that it adds thereto the Naval Militia of Hawaii as one of the organizations authorized to operate air craft in or across the Territory of Hawaii.

Your committee finds that the Naval Militia is an organization authorized under the laws of the Territory and aviation being one of the requirements in its training in the service, for that reason your committee respectfully recommends that the Bill do pass.

J. H. CONEY, Chairman;
M. C. PACHECO.

Upon motion by Senator Coney, seconded by Senator Makekau, the report was adopted. The Bill thereupon passed Second Reading.

Sir:—Your Military Committee to which was referred House Bill No. 232, relating to Declaring and Designating a certain tract of Government Land at Waiakea, South Hilo, County of Hawaii, Territory of Hawaii, as grounds and site for the Waiakea Armory, has given the same due and careful consideration, and beg leave to report as follows:

Your Committee finds that the ground sought to be set aside by this Bill for the Waiakea Armory, is now held by a number of persons who have preference rights to the same, and strongly feels that those people should not be disturbed in what the committee believes to be their just rights.

The Committee therefore respectfully recommends that the Bill be tabled.

J. H. CONEY, Chairman;
M. C. PACHECO.

Upon motion by Senator Coney, seconded by Senator Kamaooha, the report was adopted. The Bill was thereupon ordered tabled.

President of the Senate.

Sir:—Your Military Committee to which was referred House Bill No. 347, requiring employers to allot to employees time for voting at elections, has had same under careful consideration, and beg leave to report as follows:

The Bill seeks to require employers to allow employees sufficient time to vote at all elections in the Territory and providing for the punishment of such employers as may directly or indirectly refuse employees time to vote or in any way freely exercise the privilege of voting, as well as to how such employee should vote.

Your Committee believes the Bill sufficiently covers the object sought and respectfully recommends that same do pass.

Sir:—Your Military Committee to whom was referred House Bill No. 306, to regulate the carrying of baggage or freight upon motor cars or trucks used for the transportation of passengers has given the same due and careful consideration and beg leave to report as follows:

Your Committee finds the Bill seeks to regulate the carrying of baggage in passenger motor cars or trucks and for the punishment of such persons as violate the same, as the Bill sets out, it covers a much needed traffic regulation upon persons operating motor vehicles, your committee, however makes the following amendment: That in line 3 of the printed Bill after the word "passengers" be added thereto the words "or freight."

With this amendment your committee respectfully recommends that the Bill do pass.

J. H. CONEY, Chairman;
M. C. PACHECO.

Upon motion by Senator Coney, seconded by Senator Kamauoha, the report was adopted. The Bill thereupon passed Second Reading.

Senator Castle, for the Committee on Judiciary, presented a report (Stand. Com. Rep. Upon motion by Senator Castle, seconded by Senator Kamauoha, the report was adopted. The Bill was thereupon ordered tabled.

Senator Castle, for the Committee on Judiciary, presented a report (Stand. Com. Rep. No. 196), recommending that Senate Bill No. 71, entitled: "An Act to amend Section 2172 of the Revised Laws of Hawaii,

1915, authorizing the issuance of municipal bonds," be passed. The report was read by the Clerk as follows:

Honolulu, T. H., April 5, 1917.

Honorable Charles F. Chillingworth,
President of the Senate.

Sir:—Your Judiciary Committee, to which was referred Senate Bill No. 71, entitled: "An Act to amend Section 2172 of the Revised Laws of Hawaii, 1915, authorizing the issuance of municipal bonds," begs leave to report as follows:

The Organic Act provides that the indebtedness which may be incurred by any county shall not exceed 3% of the assessed value of the property in such county.

Our statutes provide that it shall not exceed two-and-a-half per cent. The amount of indebtedness which may be incurred in any one calendar year shall not exceed a half of one per cent of the assessed value.

With this limitation, there does not seem to be any need for the discrepancy between the Organic Act and the territorial statute. The proposed bill merely makes our statute correspond with the Organic Act, and the Committee recommends the passage of the Bill.

Respectfully submitted,

JUDICIARY COMMITTEE.
ALFRED L. CASTLE, Chairman;
J. H. CONEY,
G. P. KAMAUOHA,
R. H. MAKEKAU,
WM. T. ROBINSON.

Upon motion by Senator Castle, seconded by Senator Makekau, the report was adopted. The Bill thereupon passed Second Reading.

Senator Castle, for the Committee on Judiciary, presented a report (Stand. Com. Rep. No. 197), recommending that Senate Bill No. 83, entitled: "An Act making special appropriation for the relief of E. M. Watson," be passed with an amendment. The report was read by the Clerk as follows:

Honolulu, T. H., April 5, 1917.

Honorable Charles F. Chillingworth,
President of the Senate.

Sir:—Your Judiciary Committee, to which was referred Senate Bill No. 83, entitled: "An Act making special appropriation for the relief of E. M. Watson," begs leave to report as follows:

In 1904, one Sophie Walker bought under foreclosure of mortgage from the Receiver in Bankruptcy seven-and-a-half acres of land at the entrance of Manoa Valley. The price paid for the land was \$2250.00, or \$340 per acre. In 1909, 4.06 acres of this land were registered in the Court of Land Registration in the name of another party.

It seemed that there had been a prior grant by the government to the 4.06 acres; Mrs. Walker buying as she thought seven-and-a-half acres, but in fact only 3.44 acres. She paid taxes on the land at the rate of \$340 an acre for the full seven-and-a-half acres up to 1909, and since then

she has paid taxes on the 3.44 acres and her claim against the other 4.06 acres without deduction.

In 1914, E. M. Watson, the claimant, bought from Mrs. Walker the seven-and-a-half acres under discussion. His deed, however, set forth the fact that 4.06 acres had been registered in the Land Court.

The Committee finds that Mr. Watson has no legal claim against the government, but feels that he has an equitable claim. If the Committee should allow the taxation value to control, namely, \$340 an acre, the amount Mr. Watson will be entitled to will be \$1380.40 for the 4.06 acres he did not get. Mr. Watson, however, bought with full notice of the title and he is claiming through his predecessor in title: Mrs. Walker.

This is a matter in which no exact figure can be arrived at; the Committee feeling, however, that the sum of 1,000 is a fair compensation under the circumstances.

The Committee therefore recommends striking out in Section 1 the words and figures "Four Thousand Dollars (\$4,000.00)" and insert in lieu thereof the words and figures "One Thousand Dollars (\$1,000.00)."

As thus amended, the Committee recommends the passage of the Bill.

Respectfully submitted,

JUDICIARY COMMITTEE.

ALFRED L. CASTLE, Chairman;

J. H. CONEY,

G. P. KAMAUOHA,

R. H. MAKEKAU,

WM. T. ROBINSON.

The report was read by the Clerk as follows:

Honolulu, T. H., April 5, 1917.

Hon. Charles F. Chillingworth,

Sir:—Your Committee on Ways and Means, to which was referred Senate Bill No. 9, entitled: "An Act to appropriate money for the purpose of defraying the expense of building, repairing and reconstruction of the Embankment of the Waimea River, Island of Kauai," begs leave to report as follows:

After careful consideration of this Bill, your Committee recommends the following amendments:

Strike out the wording of Section 2. "The above appropriation shall be expended under the supervision of the Superintendent of Public Works," and insert in lieu thereof, "The said sum of Fifty Thousand Dollars (\$50,000.00) hereby appropriated, shall be disbursed on warrants drawn by the Auditor based upon vouchers drawn by the Superintendent of Public Works, who shall have charge of the building, repairing and reconstruction of said Embankment; provided, that the Superintendent

of Public Works shall contract for the construction of said Embankment, but in no case shall contract for an amount in excess of the sum of Fifty Thousand Dollars (\$50,000.00)."

Strike out the wording of Section 3. "The Superintendent of Public Works is hereby ordered to proceed forthwith with the building, repairing and reconstruction of said embankment," and insert in lieu thereof "The amount hereby appropriated under this Act shall become immediately available and the construction of said Embankment shall be commenced as soon as the contract herein provided for shall be executed."

Strike out the wording of Section 4. "This Act shall take effect from and after the date of its approval," and insert in lieu thereof

"The said sum of Fifty Thousand Dollars (\$50,000.00) or so much thereof as may be expended, shall be repaid into the general funds of the territorial treasury from the sales of public lands in the District of Waimea, upon the Island of Kauai, for other than Homestead purposes."

Insert a new section to be Section 5.

"Section 5. This Act shall take effect upon its approval."

Your Committee finds that there are in the District of Waimea, valuable remnants of land and town lots in Waimea and Hanapepe, upon which the leases will expire in December of this year, which will be surveyed and sold in small parcels "for other than homestead purposes." The value of these remnants and town lots in Waimea and Hanapepe are appraised at approximately \$80,000.00, which is in excess of the amount asked for in this Bill.

The building of the embankment sought will greatly benefit government as well as private property in the Waimea Valley and adjoining village.

Your Committee would therefore recommend that this Bill pass as amended.

Respectfully submitted,

ROBERT W. SHINGLE, Chairman;
J. H. CONEY,
H. A. BALDWIN,
E. W. QUINN,
ROBT. HIND.

Upon motion by Senator Shingle, seconded by Senator Coney, the report was adopted. The Bill thereupon passed Second Reading, as amended.

Your Committee has had this Bill under careful consideration and

finds that the landing in question is a private one, and that the building of this road is purely a County matter, and would therefore recommend that the Bill be tabled.

Respectfully submitted,

ROBERT W. SHINGLE, Chairman;
ROBT. HIND,
J. H. CONEY,
H. A. BALDWIN,
E. W. QUINN.

Sir:—Your Committee on Ways and Means, to which was referred Senate Bill No. 101, entitled: "An Act to amend Act 174 of the Session Laws of 1915, providing for a Territorial Insurance Fund," begs leave to report as follows:

After careful consideration your Committee finds that the object of this Bill is to provide for the payment of claims against the Territory which may be found to be due by the operation of what is known as the Workmen's Compensation Act, which applies to all employees of the Territory and Counties. This Bill also provides for an increase of \$50,000.00 to be set aside in the "Territorial Insurance Fund" to meet any additional claims against the Territory arising through the application of the provisions of this Bill. Your Committee is of the opinion that the operation of this Act will be of benefit and security to all persons employed by the Territory and City and Counties, and would therefore recommend that the Bill pass.

Respectfully submitted,

ROBERT W. SHINGLE, Chairman;
E. W. QUINN,
J. H. CONEY,

Honolulu, T. H., April 5, 1917.

Hon. Charles F. Chillingworth,
President of the Senate.

Sir:—Your Committee on Ways and Means, to which was referred House Bill No. 145, entitled: "An Act to provide for the support of Industrial Schools and Detention Homes," begs leave to report as follows:

After careful consideration your Committee finds that the object of this Bill is to transfer the expenses of Industrial Schools from the School Budget to the General Appropriation Bill. The Industrial Schools are no longer under the control of the School Department. They are under the control of a board appointed by the Governor, and your Committee is of the opinion that the removal of the appropriation from the School Budget to the General Appropriation Bill of the Territory is wise, and would therefore recommend that the Bill pass.

Respectfully submitted,

ROBERT W. SHINGLE, Chairman;
E. W. QUINN,
J. H. CONEY,
H. A. BALDWIN,
ROBT. HIND.

Upon motion by Senator Shingle, seconded by Senator Quinn, the report was adopted. The Bill thereupon passed Second Reading.

Honolulu, T. H., April 5, 1917.

Hon. Charles F. Chillingworth,
President of the Senate.

Sir:—Your Committee on Ways and Means, to which was referred House Bill No. 299, entitled: "An Act authorizing monthly advances to the several counties and to the city and county on account of taxes collected," begs leave to report as follows:

After careful consideration, your Committee finds that the object of this Bill is to allow the counties to borrow money from the Treasury Department in order to carry them over the period of shortage between

tax collections, and also to enable them to borrow money at a much lower rate of interest than they would otherwise be able to do; and would therefore recommend that the Bill pass.

April 6, 1917.

To the Senate:

Gentlemen:—I beg to hand you herewith a copy of a Proclamation this day issued.

Respectfully,

LUCIUS E. PINKHAM,
Governor of Hawaii.

A PROCLAMATION.

Whereas, Congress has declared the United States of America to be in a state of war with the German Empire; and

WHEREAS, all obligations of neutrality have, from the beginning of this day, ceased; and

Whereas, the Territory of Hawaii has its duty to the Federal Government and the various States of the Union, particularly those of the Pacific Coast, and the possessions, connections, and high seas; and

Whereas, the International Institute of Agriculture of Rome through its almost universal and constant statistical agricultural information has warned the world generally that a dangerous and impending food shortage threatens the populations of all civilized countries; and

Whereas, the governments of Europe and the British Islands have taken charge of the food supplies and their distribution and consumption within their own borders; and

Whereas, the last harvest in the United States was below the average and food has reached an almost prohibitive price, particularly to the poor and persons of limited means; and

Whereas, the Territory of Hawaii is not a self-contained, self-supporting division of the United States; and

Whereas, the annual charts and reports of the Governor to the Honorable Secretary of the Interior have, item by item, disclosed wherein the Territory of Hawaii fails to such an extreme in the production of her food supplies; and

Whereas, according to the fortunes of war, the Territory of Hawaii, by her indifference and inefficiency is exposing herself, her defenders and the United States at large by her helpless food condition;

Now, therefore, Lucius E. Pinkham, Governor of Hawaii, in so far as the authority in me lies, do warn, urge and direct the owners, officers and managers of agricultural organizations of whatever nature, the owners of ranches, and the people having control of land for agriculture that their enterprise and immediate assistance is necessary in the production of the food supplies requisite to render the entire population of these far isolated islands and our defenders independent of outside assistance for reasonable subsistence.

In testimony whereof, I have hereunto set my hand and caused the Great Seal of the Territory of Hawaii to be affixed.

Done at the Capitol, in Honolulu, this 6th day of April, 1917.

LUCIUS E. PINKHAM.

COUNTY OF HAWAII, TERRITORY OF HAWAII.

RESOLUTION No. 782.

Whereas, it appears probable that the National Guard in the Territory of Hawaii, may be mobilized in the near future and called into active service; and

Whereas, such a course may result in many qualified electors being called away for an uncertain length of time from their usual places of residence, and from the various election precincts in which they are respectively entitled to vote; and

Whereas, such a course may further result in depriving many qualified electors of their right of franchise, particularly in the approaching primary and general elections to be held in the several counties of the Territory of Hawaii, unless some provision is made whereby such qualified electors may cast their votes at places other than the precincts in which they reside and are qualified to vote; now, therefore,

Be It Resolved by the Board of Supervisors in and for the County of Hawaii, that the Legislature of the Territory of Hawaii now in session in Honolulu, be respectfully urged to enact into law appropriate measures to provide in effect for a method by which qualified electors in the several precincts of the Territory of Hawaii, if called into active service as members of the National Guard, may cast their votes at places other than the precincts in which they reside and are qualified to vote, and may not be deprived of their right of franchise.

Be It Further Resolved that the County Clerk be and he hereby is directed to forward copies of this resolution to the Governor of the Territory of Hawaii, the President of the Senate and the Speaker of the House of Representatives.

Be It Further Resolved that the Chairman and Executive Officer be and he hereby is authorized and directed to communicate by wireless with W. H. Beers, Esq., County Attorney, now in Honolulu, requesting him to take steps towards securing the passage of such an Act.

Senator Robinson, for the Committee on Enrollment, Revision and Printing, presented a report (Stand. Com. Rep. No. 220), to the effect that Senate Bill No. 118 had been printed and was ready for distribution. The report was read by the Clerk as follows:

Honolulu, T. H., April 10, 1917.

Honorable Chas. F. Chillingworth,
President of the Senate.

Sir:—Your Committee on Enrollment, Revision and Printing, begs leave to report that Senate Bill No. 118 has been printed and that the same is ready for distribution.

WM. T. ROBINSON, Chairman.

The Committee on Enrollment, Revision and Printing, having returned Senate Bill No. 118, entitled: "An Act making an additional appro-

priation for the completion of Oahu Prison," the same was laid on the table to be considered later.

Senator Coney, for the Committee on Military, presented a report (Stand. Com. Rep. No. 221), recommending that Senate Bill No. 114, entitled: "An Act to provide for the display of patriotic emblems in the court houses and court rooms of the Territory and to make appropriation to be immediately available to carry out the purpose of this Act," be passed. The report was read by the Clerk as follows:

Honolulu, T. H., April 10, 1917.

Hon. Chas. F. Chillingworth,
President of the Senate.

Sir:—Your Committee on Military, to which was referred Senate Bill No. 114, introduced by Senator Alfred L. Castle, to provide for the display of patriotic emblems in the court houses and court rooms of the Territory and to make appropriation to be immediately available to carry out the purpose of this Act, has given the same due and careful consideration and beg leave to report as follows:

Your Committee finds the purpose of the Bill is to have the emblem of our country displayed in all public buildings thereby creating a patriotic feeling by the people of this Territory. The amount involved is so small that it will not burden the finances of the Territory, and will be money well spent.

Your Committee therefore recommends that the Bill do pass.

J. H. CONEY, Chairman;
M. C. PACHECO,
S. L. DESHA.

Upon motion by Senator Coney, seconded by Senator Desha, the report was adopted. The Bill thereupon passed Second Reading.

Senator Coney, for the Committee on Military, presented a report (Stand. Com. Rep. No. 222), recommending that Senate Bill No. 117, entitled: "An Act to amend Sections 226 and 228 of the Revised Laws of Hawaii, relating to the enrollment of persons subject to military duty," be passed. The report was read by the Clerk as follows:

Honolulu, T. H., April 10, 1917.

Hon. Chas. F. Chillingworth,
President of the Senate.

Sir:—Your Committee on Military, to which was referred Senate Bill No. 117, being "An Act to amend Sections 226 and 228 of the Revised Laws of Hawaii, relating to the enrollment of persons subject to military duty," has had the same under careful consideration and beg leave to report as follows:

Your Committee finds that Bill seeks to amend the present law by more fully setting out the questions and the information by the answers required, the qualification of all males over sixteen years of age residing within the Territory, who may be capable of performing military or naval duty, and those who have had previous military training in this or any other country; also that the Governor may be empowered to appoint a commission with powers of tax assessors as military census agents; and

further setting forth the compensation of the assessors in preparing such military rolls.

Your Committee feels that the Bill will enable the Governor to ascertain the number of persons available for military and naval service, who at this time may be residing within the Territory, and in view of present conditions your Committee very strongly recommends the passage of this Bill.

J. H. CONEY, Chairman;
M. C. PACHECO,
S. L. DESHA.

Upon motion by Senator Coney, seconded by Senator Desha, the report was adopted. The Bill thereupon passed Second Reading.

Senator Castle, for the Committee on Judiciary, presented a report (Stand. Com. Rep. No. 223), recommending that House Bill No. 229, entitled: "An Act to provide for a city magistrate for the City and County of Honolulu," be tabled. The report was read by the Clerk as follows:

Honolulu, T. H., April 10, 1917.

Honorable Charles F. Chillingworth,
President of the Senate.

Sir:—Your Judiciary Committee, to which was referred House Bill No. 229, entitled: "An Act to provide for a City Magistrate for the City and County of Honolulu," begs leave to report as follows:

As set forth in the Committee's report on House Bill No. 351, it appears that there is not a pressing need for the position of City Magistrate.

The Bill is further objectionable in putting the juvenile work in the hands of a District Magistrate rather than keeping it in a court of record. The Committee recommends the Bill be tabled.

Respectfully submitted,

JUDICIARY COMMITTEE.
ALFRED L. CASTLE, Chairman;
J. H. CONEY,
G. P. KAMAUOHA,
R. H. MAKEKAU,
WM. T. ROBINSON.

Upon motion by Senator Makekau, seconded by Senator Cooke, the report was adopted. The Bill was thereupon ordered tabled.

Senator Castle, for the Committee on Judiciary, presented a report (Stand. Com. Rep. No. 224), recommending that House Bill No. 301, entitled: "An Act to amend Section 1 of Act 197 of the Session Laws of 1915, entitled: 'An Act to provide for the justification of sureties of bonds.'" be passed. The report was read by the Clerk as follows:

Honolulu, T. H., April 10, 1917.

Honorable Charles F. Chillingworth,
President of the Senate.

Sir:—Your Judiciary Committee, to which was referred House Bill No. 301, entitled: "An Act to amend Section 1 of Act 197 of the Session

Laws of 1915, entitled: 'An Act to provide for the justification of sureties of bonds,''' begs leave to report as follows:

Under the present law, whenever by any law, regulation or rule of any department of the Territorial Government or of any political subdivision a bond is required for the undertaking of any contract, or the provisions of any license, there is a provision that surety companies may be accepted as sureties on such bonds.

The proposed amendment merely adds to the bonds for the performance of any contract or provision of any license "or for indemnity or security of any person, party, or any officer."''

The Committee feels the amendment is wise and recommends the passage of the Bill.

Respectfully submitted,

JUDICIARY COMMITTEE.
ALFRED L. CASTLE, Chairman;
J. H. CONEY,
G. P. KAMAUOHA,
R. H. MAKEKAU,
WM. T. ROBINSON.

Upon motion by Senator Makekau, seconded by Senator Castle, the report was adopted. The Bill thereupon passed Second Reading.

Senator Castle, for the Committee on Judiciary, presented a report (Stand. Com. Rep. No. 225), recommending that House Bill No. 345, entitled: "An Act to amend subdivision 17 of Section 1654 of the Revised Laws of Hawaii, 1915, relating to powers of the supervisors," be passed. The report was read by the Clerk, as follows:

Honolulu, T. H., April 10, 1917.

Honorable Charles F. Chillingworth,
President of the Senate.

Sir:—Your Judiciary Committee, to which was referred House Bill No. 345, entitled: "An Act to amend subdivision 17 of Section 1654 of the Revised Laws of Hawaii, 1915, relating to the powers of the supervisors," begs leave to report as follows:

This bill relates to the compensation to be paid interpreters.

The present law reads: "Such compensation shall not exceed One Hundred Dollars a month for each interpreter." The proposed bill makes it "not less than One Hundred Dollars." As a matter of fact, the salary now paid is one hundred dollars.

The work of the interpreter is sufficient in the opinion of this committee to warrant a minimum salary of a hundred dollars a month.

The Committee therefore recommends the passage of the bill.

Respectfully submitted,

JUDICIARY COMMITTEE.
ALFRED L. CASTLE, Chairman;
J. H. CONEY,
G. P. KAMAUOHA,
R. H. MAKEKAU,
WM. T. ROBINSON.

Upon motion by Senator Castle, seconded by Senator Makekau, the report was adopted. The Bill thereupon passed Second Reading.

Senator Castle, for the Committee on Judiciary, presented a report (Stand. Com. Rep. No. 226), recommending that House Bill No. 351, entitled: "An Act to provide for the appointment of a third clerk for the district court of Honolulu," be passed. The report was read by the Clerk as follows:

Honolulu, T. H., April 10, 1917.

Honorable Charles F. Chillingworth,
President of the Senate.

Sir:—Your Judiciary Committee, to which was referred House Bill No. 351, entitled: "An Act to provide for the appointment of a third clerk for the district court of Honolulu," begs leave to report as follows:

At the hearing before the Committee on the bill to provide for the appointment of a City Magistrate for Honolulu, it was brought out that there is a great congestion in the District Court. The fault does not seem to be with the Judge but with the lack of a sufficient number of clerks.

The Bill proposes that a third clerk be authorized and the Committee recommends the passage of the bill.

Respectfully submitted,

JUDICIARY COMMITTEE.

ALFRED L. CASTLE, Chairman;
J. H. CONEY,
G. P. KAMAUOHA,
R. H. MAKEKAU,
WM. T. ROBINSON.

Upon motion by Senator Castle, seconded by Senator Makekau, the report was adopted. The Bill thereupon passed Second Reading.

Senator Castle, for the Committee on Judiciary, presented a report (Stand. Com. Rep. No. 227), recommending that House Bill No. 358, entitled: "An Act to amend Section 1369 of the Revised Laws of Hawaii, 1915, relating to schedule of stamp duties," be passed. The report was read by the Clerk as follows:

Honolulu, T. H., April 10, 1917.

Honorable Charles F. Chillingworth,
President of the Senate.

Sir:—Your Judiciary Committee, to which was referred House Bill No. 358, entitled: "An Act to amend Section 1369 of the Revised Laws of Hawaii, 1915, relating to schedule of Stamp Duties," begs leave to report as follows:

The only amendment to the law is the following proviso: "Provided, however, that patents for land given in exchange for land deeded to the Territory of Hawaii shall be exempt."

As the Territory itself is exempt, the proviso seems fair, and the Committee therefore recommends the passage of the bill.

Respectfully submitted,

JUDICIARY COMMITTEE.

Senator Baldwin, for the Committee on Public Lands and Internal Improvements, presented a report (Stand. Com. Rep. No. 228), recommending that Senate Bill No. 90, entitled: "An Act making an appropriation by way of advancement out of the general revenues for the completion of roads in and to the homestead tract in the district of Makawao, County of Maui, to be reimbursed out of the proceeds of sales of homesteads in said district," be passed. The report was read by the Clerk as follows:

Honolulu, T. H., April 10, 1917.

Hon. Charles F. Chillingworth,
President of the Senate.

Sir:—Your Committee on Public Lands and Internal Improvements, to which was referred Senate Bill No. 90, entitled: "An Act making an appropriation by way of advancement out of the general revenues for the completion of roads in and to the homestead tract in the District of Makawao, County of Maui, to be reimbursed out of the proceeds of sales of homesteads in said District," begs leave to report as follows:

We find that the object of this bill is to appropriate out of the general revenues \$2,000.00 to complete a homestead road in and to the homestead tract at Pihiolo, Makawao, County of Maui. The legislature two years ago appropriated \$15,000.00 for the purpose of the construction of this road, said amount to be appropriated out of the general funds, and to be apportioned among the homestead lots to be benefited by the road, the general fund to be reimbursed after the sale of the lots. The \$2,000.00 asked for in this bill is to be similarly apportioned and the general fund to be similarly reimbursed. We find that this amount is necessary to complete and finish the road and recommend the passage of the bill.

Upon motion by Senator Baldwin, seconded by Senator Quinn, the report was adopted. The Bill thereupon passed Second Reading.

recommending that Senate Resolution No. 18, instructing the Commissioner of Public Lands to open up all government lands at Kekaha for homestead purposes, be tabled. The report was read by the Clerk as follows:

Honolulu, T. H., April 10, 1917.

Hon. Charles F. Chillingworth,
President of the Senate.

Sir:—Your Committee on Public Lands and Internal Improvements, to which was referred Senate Resolution No. 18, instructing the Commissioner of Public Lands to open up all government lands at Kekaha for homestead purposes, begs leave to report as follows:

The object of this Resolution is to instruct the Commissioner of Public Lands to open up for homesteading purposes, certain lands at Kekaha, County of Kauai.

We find that the Public Lands Department is already working on a plan to carry out the purpose and we therefore find that the Resolution is unnecessary and would recommend that the same be tabled.

President of the Senate.

Sir:—Your Committee on Public Lands and Internal Improvements, to which was referred House Bill No. 368, entitled: "An Act appropriating Twenty Thousand Dollars (\$20,000.00) for roads to and through the homestead lots of Waiau Ili, in Piihonua, County of Hawaii," begs leave to report as follows:

We find that this bill seeks to provide for a road to and through homestead lots at Waiau, County of Hawaii. The legislature has already passed a bill in connection with the opening up of these lots and it is advisable that the road to and through same be provided, the amount thereby appropriated is to be paid out of the general funds but is to be repaid out of the sale of public lands on the Island of Hawaii, we recommend the passage of this bill.

Respectfully submitted,

H. A. BALDWIN, Chairman;
S. L. DESHA,
M. C. PACHECO,
R. W. SHINGLE,
ROBT. HIND.

Upon motion by Senator Makekau, seconded by Senator Baldwin, the report was adopted. The Bill thereupon passed Second Reading.

Senator Baldwin, for the Committee on Public Lands and Internal Improvements, presented a report (Stand. Com. Rep. No. 231), recommending that House Concurrent Resolution No. 6, requesting the Governor and the Commissioner of Public Lands to set aside a certain lot in the Omao Homestead Tract, County of Kauai, for school and other public purposes be adopted. The report was read by the Clerk as follows:

Honolulu, T. H., April 10, 1917.

Hon. Charles F. Chillingworth,
President of the Senate.

Sir:—Your Committee on Public Lands and Internal Improvements, to which was referred House of Representatives Concurrent Resolution No. 6, requesting the Governor and the Commissioner of Public Lands to set aside a certain lot in the Omao Homestead Tract, County of Kauai, for school or other public purposes, begs leave to report as follows:

We find that the Resolution seeks to set aside a certain lot in the Omao Homestead Tract for school or other public purposes. The lot in question is located on the government road and is apparently eminently suitable for the purpose of a school which is commendable and we recommend that the Senate concur in the Resolution.

Respectfully submitted,

H. A. BALDWIN, Chairman;
S. L. DESHA,
M. C. PACHECO,
R. W. SHINGLE,
ROBT. HIND.

Upon motion by Senator Baldwin, seconded by Senator Makekau, the report was adopted. The Resolution was thereupon adopted.

Senator Baldwin, for the Committee on Public Lands and Internal Improvements, presented a report (Stand. Com. Rep. No. 232), recommending that House Concurrent Resolution No. 9, requesting the Commissioner of Public Lands to withdraw from advertising for lease the lands of Pahoehe, in the District of South Kona, County of Hawaii, be adopted. The report was read by the Clerk as follows:

Honolulu, T. H., April 10, 1917.

Hon. Charles F. Chillingworth,
President of the Senate.

Sir:—Your Committee on Public Lands and Internal Improvements, to which was referred House of Representatives Concurrent Resolution No. 9, requesting the Commissioner of Public Lands to withdraw from advertising for lease the lands of Pahoehe, in the District of South Kona, County of Hawaii, begs leave to report as follows:

This Resolution sets forth that the government land at Pahoehee, which has been advertised for lease is desired for homesteading purposes and requests the Commissioner of Public Lands to withdraw from advertising for lease the said land. We find that the Commissioner of Public Lands is already acting in accordance with the suggestion of the Resolution, but that he may be advised that we approve of such withdrawal; we recommend that the senate concur in this Resolution.

Respectfully submitted,

H. A. BALDWIN, Chairman;
S. L. DESHA,
M. C. PACHECO,
R. W. SHINGLE,
ROBT. HIND.

Upon motion by Senator Kamauoha, seconded by Senator Desha, the report was adopted. The Resolution was thereupon adopted.

Senator Baldwin, for the Committee on Public Lands and Internal Improvements, presented a report (Stand. Com. Rep. No. 233), recommending that House Concurrent Resolution No. 18, requesting the Commissioner of Public Lands to open up for homesteading certain government lands in Kawaihae, South Kohala, County of Hawaii, be tabled. The report was read by the Clerk as follows:

Honolulu, T. H., April 10, 1917.

Hon. Charles F. Chillingworth,
President of the Senate.

Sir:—Your Committee on Public Lands and Internal Improvements, to which was referred House of Representatives Concurrent Resolution No. 18, requesting the Commissioner of Public Lands to open up for homesteading certain government lands in Kawaihae, South Kohala, County of Hawaii, begs leave to report as follows:

We find that the passage of this Resolution will not expedite the object sought, that is, the opening up of certain lands at Kawaihae, County of Hawaii, for homesteading purposes, as the law provides that through proper petition from homesteaders this land shall be withdrawn from lease and opened for homesteading, and so recommend that the Senate do not concur in this Resolution.

Respectfully submitted,

H. A. BALDWIN, Chairman;
S. L. DESHA,
M. C. PACHECO,
R. W. SHINGLE,
ROBT. HIND.

Upon motion by Senator Baldwin, seconded by Senator Cooke, the report was adopted. The Resolution was thereupon ordered tabled.

Senator Shingle, for the Committee on Ways and Means, presented a report (Stand. Com. Rep. No. 234), recommending that Senate Bill No. 29, entitled: "An Act to amend Section 1515 of the Revised Laws of

Hawaii, 1915, salaries of supervisors, County of Hawaii," be tabled. The report was read by the Clerk as follows:

Honolulu, T. H., April 10, 1917.

Hon. Charles F. Chillingworth,
President of the Senate.

Sir:—Your Committee on Ways and Means, to which was referred Senate Bill No. 29, entitled: "An Act to amend Section 1515 of the Revised Laws of Hawaii, 1915, Salaries of Supervisors, County of Hawaii," begs leave to report as follows:

Your Committee has had this bill under careful consideration and finds that the salaries of Supervisors in all counties is \$50.00 per month. While Hawaii is a large island and some of the supervisors live quite a distance from the county seat, Hilo, still they are allowed traveling expenses when attending meetings. Your Committee believes that, under the circumstances, this is an equitable adjustment of compensation, and would therefore recommend that this bill be tabled.

Respectfully submitted,

ROBERT W. SHINGLE, Chairman;
J. H. CONEY,
ROBT. HIND,
H. A. BALDWIN,
E. W. QUINN.

Upon motion by Senator Shingle, seconded by Senator Baldwin, the report was adopted. The Bill was thereupon ordered tabled.

Senator Shingle, for the Committee on Ways and Means, presented a report (Stand. Com. Rep. No. 235), recommending that Senate Bill No. 79, entitled: "An Act to extend for a period of ten years Section 1250 of the Revised Laws of Hawaii, 1915, relative to exemption of property from taxation," be passed. The report was read by the Clerk as follows:

Honolulu, T. H., April 10, 1917.

Hon. Charles F. Chillingworth,
President of the Senate.

Sir:—Your Committee on Ways and Means, to which was referred Senate Bill No. 79, entitled: "An Act to extend for a period of ten years Section 1250 of the Revised Laws of Hawaii, 1915, relative to exemption of property from taxation," begs leave to report as follows:

Your Committee after due consideration finds that the water systems coming under the provisions of this Act are at present in a precarious financial condition, and, if the exemption prayed for in this Act is granted, it will enable them to so improve their ditches, etc., by concreting same and making them a more permanent nature, so that in time, the government would be repaid in increased tax returns from the very properties, which are now only receiving a part of the volume of water they would obtain, if these systems were enabled to improve their whole plant, consisting of ditches, tunnels, flumes and weirs, etc.

Therefore your Committee would recommend that this Bill do pass.

Respectfully submitted,

ROBERT W. SHINGLE, Chairman;
H. A. BALDWIN,
E. W. QUINN,
J. H. CONEY,
ROBT. HIND.

Upon motion by Senator Coney, seconded by Senator Makekau, the Resolution was adopted.

The President announced that he was in receipt of a communication from C. C. Bitting, Esq., (Misc. Com. No. 23), referring to roads in Palolo Valley. The communication was read by the Clerk as follows:

Honolulu, Hawaii, April 10, 1917.

To the Honorable,

The President and Members of the Senate,
Territory of Hawaii.

The undersigned most respectfully desires to call your attention to the fact that your Governor, in the morning paper, has urged upon those

owning land or other facilities for the cultivation of food stuffs, in the event of drastic conditions on these islands and on account of the war with which we have now become a part.

There are thirteen pieces of acreage land on the Waiomao side of Palolo Valley upon each of these pieces, undoubtedly, a large amount of provender and forage could be raised. The writer knows this for a fact from personal experience and experimentation of his own land, and he ventures to say that with what other patriotic citizens would be willing to do, enough food could be raised in the district mentioned to pilot over until more supplies could be brought from a greater distance.

There is absolutely no way of ingress and egress through this very large tract of land by any hauling or driving vehicle. It is an impossibility to draw a load over what was once mapped out as a road. Personally, I have been compelled, when I was cultivating my land, to destroy provender which would have fed many a hungry mouth in Honolulu if I could have gotten the stuff into Honolulu, even to give away.

Your Honorable Body, a few years ago, made an appropriation of Five Thousand Dollars to construct a road to a certain extent along this land. What the construction was could readily be seen now if any one cared to go and look for himself. The tract of land was opened up as a homestead land.

For instance, on July 11, 1903, an Act appropriating Ten Thousand Dollars for Palolo New Road was approved by Governor Dole. At the special session of the Legislature of 1905, Act 6 was passed in which an appropriation for completing Palolo Road of Ten Thousand Dollars was made, and also, in the same Act an additional Four Thousand Dollars for Wai-lupe, Pukele, Waiomao homestead roads. The money was never used for the purposes for which it was appropriated, and I am informed that one appropriation of Ten Thousand Dollars was allowed to lapse. These facts can be ascertained by an inspection of the public records.

A peculiar feature of the matter is that the name of 5th Avenue on the mauka side of the Waiialae Road in Kaimuki was changed about this time to "Palolo Road," and a good deal of money was spent there. (Get confirmation of this statement from the records of the City and County in the hands of the clerk.) The Territorial officials put some lands, cut up into town lots, on the market along the line of this 5th Avenue, afterwards called "Palolo Road" which were sold by the Territory.

It seems like a desperate matter and a condition of impertinence that I should come beseeching you, but it is a matter where plain justice is involved, and where at the present time the community may or may not become vitally interested in matter of food supply, forage for animals, etc.

Personally, I have expended more money than I could spare in an effort to improve my place. My taxes are paid and never grow less, and I have before me, at the present time, a statement from the office of the Assessor and Collector of Taxes that the valuations which I gave are increased about six hundred dollars. This Palolo place which I own could not be sold under the hammer today, except to a speculator of influence and who knew how a good road could be obtained for as much money as it costs me every year. I am compelled to pay a large hotel bill every month in Honolulu, when I have a home as beautiful and pretty as God ever made even in these beautiful islands, and yet I cannot live there because I cannot go back and forth to my own.

In becoming personal this way I am stating facts which apply without exception to most every one who owns land up there, and yet it is an actual fact that today I am the only one who has hung on to the proposition and still continues in good faith to attempt to make a home of beauty and productiveness, not only for myself, but for others who indirectly would be benefited. I have consumed almost a ream of paper and infinite time and patience in attempting to get the Board of Supervisors of the City and County of Honolulu to do something for me, copies of which are in my possession, or the originals of which may be obtained from the clerk of the City and County of Honolulu. In the remote past I have had positive promises, both written and verbal; nothing has yet been done.

The courts would decide against us if we refused to pay our taxes, and, while it is a good plan which all thinking men endorse that each individual member of the community should bear his responsibilities and burdens for the benefit of all, on the other hand it does not look fair or moral or right that expenditures of public money should be made more for the gratification of the pleasures of the rich than to make a small outlay, if even for the benefit of an individual or a small class of individuals where this small expenditure would result in ultimate good to the community at large, and even give the pleasure seekers a more splendid conception of the variety in scenery and the grandeur of secluded spots on our beautiful island.

I respectfully ask that both for myself and other owners of land in this particular valley and district that something may be done to help us out.

C. C. BITTING.

The communication was referred to the Committee on Ways and Means.

Honorable Chas. F. Chillingworth,
President of the Senate.

Sir:—Your Committee on Enrollment, Revision and Printing, begs leave to report that Senate Bills Nos. 119 and 120 have been printed and that the same are ready for distribution.

WM. T. ROBINSON, Chairman.

The Committee on Enrollment, Revision and Printing, having returned Senate Bill No. 119, entitled: "An Act to amend Sections 374 and 375 of the Revised Laws of Hawaii, 1915, relating to the construction of roads to and through homesteads and lands opened for residence and business purposes," the same was referred to the Committee on Public Lands and Internal Improvements.

The Committee on Enrollment, Revision and Printing, having returned Senate Bill No. 120, entitled: "An Act to authorize the City and County of Honolulu to lease for certain purposes portions of the area comprised within the limits of Puunui Park," the same was referred to the Committee on Public Lands and Internal Improvements.

Senator Cooke, for the Committee on Public Health, presented a report (Stand. Com. Rep. No. 237), recommending that Senate Bill No. 85, entitled: "An Act to amend Chapter 79 of the Revised Laws of Hawaii of 1915, relating to the practice of dentistry," be passed. The report was read by the Clerk as follows:

Honolulu, T. H., April 11, 1917.

Hon. Charles F. Chillingworth,
President of the Senate,
Honolulu, T. H.

Sir:—Your Health Committee, to which was referred Senate Bill No. 85, entitled: "An Act to amend Chapter 79 of the Revised Laws of 1915, relating to the practice of dentistry," begs leave to report as follows:

The changes proposed by the Bill are as follows:

First: The definition of the practice of dentistry is amplified and made more certain.

Second: The employment by any practitioner of an unlicensed dentist to perform operations in the human mouth, is prohibited.

Third: The advertisement of fraudulent and misleading statements by any practitioner is forbidden.

Fourth: An annual registration fee to meet the expenses of the Board of Dental Examiners is placed on every practicing dentist in the sum of \$2.

All the above changes in the law your Committee finds to be neces-

sary and beneficial to the public, and therefore your Committee recommends that this Bill do pass.

Respectfully submitted,

GEO. P. COOKE Chairman;
S. P. CORREA.

Upon motion by Senator Cooke, seconded by Senator Correa, the report was adopted. The Bill thereupon passed Second Reading.

Senator Cooke, for the Committee on Public Health, presented a report (Stand. Com. Rep. No. 238), recommending that Senate Bill No. 105, entitled: "An Act to amend Section 2007 of the Revised Laws of Hawaii, of 1915, as amended by Act 26 of the Session Laws of 1915, relating to license to slaughter cattle and sell beef," be passed. The report was read by the Clerk as follows:

Honolulu, T. H., April 11th, 1917.

Hon. Charles F. Chillingworth,
President of the Senate.

Sir:—Your Health Committee, to which was referred Senate Bill No. 105, entitled: "An Act to amend Section 2007 of the Revised Laws of Hawaii of 1915, as amended by Act 26 of the Session Laws of 1915, relating to License to Slaughter Cattle and Sell Beef," begs leave to report as follows:

After due and careful consideration finds that this Bill merely seeks to allow the slaughtering of 12 head of cattle at any time during the year, instead of one a month.

As the killing of more than one animal a month may be advantageous to the raiser in that the stock may be ready for slaughtering at one time and might lose in weight and fitness if held and slaughtered one a month; therefore your committee recommends that this Bill pass.

Respectfully submitted,

GEO. P. COOKE Chairman;
S. L. DESHA,
S. P. CORREA.

Upon motion by Senator Cooke, seconded by Senator Correa, the report was adopted. The Bill thereupon passed Second Reading.

Senator Cooke, for the Committee on Public Health, presented a report (Stand. Com. Rep. No. 239), recommending that Senate Bill No. 106, entitled: "An Act to amend Section 2011 of the Revised Laws of Hawaii of 1915, as amended by Act 18 of the Session Laws of 1915, relating to license to slaughter swine and sell pork," be passed. The report was read by the Clerk as follows:

Honolulu, T. H., April 11th, 1917.

Hon. Charles F. Chillingworth,
President of the Senate.

Sir:—Your Health Committee, to which was referred Senate Bill No. 106, entitled: "An Act to amend Section 2011 of the Revised Laws of Hawaii of 1915, as amended by Act 18 of the Session Laws of 1915, relating to license to slaughter swine and sell pork," begs leave to report as follows:

Respectfully submitted,

GEO. P. COOKE Chairman;
S. L. DESHA,
S. P. CORREA.

Upon motion by Senator Cooke, seconded by Senator Correa, the report was adopted. The Bill thereupon passed Second Reading.

Senator Castle, for the Committee on Judiciary, presented a report (Stand. Com. Rep. No. 240), recommending that House Concurrent Resolution No. 4, requesting that preference be given citizens or those eligible to become such, on all contract work on any government wharf or any like property owned by the Territory of Hawaii, be adopted with certain amendments. The report was read by the Clerk as follows:

Honolulu, T. H., April 11, 1917.

Honorable Charles F. Chillingworth,
President of the Senate.

Sir:—Your Judiciary Committee, to which was referred House Concurrent Resolution No. 4, requesting that preference be given citizens, or those eligible to become such, on all contract work on any government wharf or any like property owned by the Territory of Hawaii, begs leave to report as follows:

The Concurrent Resolution asks that the Legislature state its opinion that preference right should be given by all contractors and employers to citizens to perform the work of longshoremen or stevedores on any government wharf.

The resolution can have force only as an expression of opinion, and cannot act as a direction to the stevedoring firms.

The Committee feels, however, that we should follow the wording of the present statutes relating to citizen labor. The Committee therefore recommends amending the first part of the resolving clause down to the semi-colon (;) to read as follows:

"RESOLVED by the House of Representatives, the Senate concurring, that in the opinion of the Legislature of the Territory of Hawaii citizens of the United States or those eligible to become such citizens, except in cases where it is not reasonably practicable to obtain citizens for the work, should be given a preference right by all contractors and employers

to perform all work as stevedores or longshoremen on any government wharf, dock or pier, and on any like property owned or controlled by the Government of the Territory of Hawaii."

As thus amended, the Committee recommends the adoption of the Resolution.

Respectfully submitted,

JUDICIARY COMMITTEE.

ALFRED L. CASTLE, Chairman;

J. H. CONEY,

G. P. KAMAUOHA,

R. H. MAKEKAU,

WM. T. ROBINSON.

Upon motion by Senator Castle, seconded by Senator Kamauoha, the report was adopted. House Concurrent Resolution No. 4, as amended, was thereupon adopted.

Senator Castle, for the Committee on Judiciary, presented a report (Stand. Com. Rep. No. 241), recommending that House Concurrent Resolution No. 8, relating to a request that the Attorney General look into the ownership of the Hanapepe Stream in the District of Waimea, County of Kauai, be adopted. The report was read by the Clerk as follows:

Honolulu, T. H., April 11, 1917.

Honorable Charles F. Chillingworth,
President of the Senate.

Sir:—Your Judiciary Committee, to which was referred House Concurrent Resolution No. 8, relating to a request that the Attorney General look into the ownership of the Hanapepe Stream in the District of Waimea, County of Kauai, begs leave to report as follows:

The Attorney General is already looking into this matter and promises to take whatever action is necessary.

There is no reason, however, why the Resolution should not be adopted, and the Committee therefore recommends the adoption of the Concurrent Resolution.

Respectfully submitted,

JUDICIARY COMMITTEE.

ALFRED L. CASTLE, Chairman;

J. H. CONEY,

G. P. KAMAUOHA,

R. H. MAKEKAU,

WM. T. ROBINSON.

Upon motion by Senator Castle, seconded by Senator Correa, the report was adopted. House Concurrent Resolution No. 8 was thereupon adopted.

Senator Castle, for the Committee on Judiciary, presented a report (Stand. Com. Rep. No. 242), recommending that House Concurrent Resolution No. 11, relating to requesting Congress to enact a law under which all Federal appointees within the Territory of Hawaii shall be bona fide residents of said Territory for at least one year prior to their appointment, be adopted. The report was read by the Clerk as follows:

Honolulu, T. H., April 11, 1917.

Honorable Charles F. Chillingworth,
President of the Senate.

Sir:—Your Judiciary Committee, to which was referred House Concurrent Resolution No. 11, relating to requesting Congress to enact a law under which all federal appointees within the Territory of Hawaii shall be bona fide residents of said Territory for at least one year prior to their appointment, begs leave to report as follows:

The platforms of both the National Republican and the National Democratic parties contain a plank relating to appointments in the territories of bona fide residents of the Territory.

This Concurrent Resolution, in a way, carries out the ideas of both national parties, and the Committee therefore recommends its adoption.

Respectfully submitted,

JUDICIARY COMMITTEE.
ALFRED L. CASTLE, Chairman;
J. H. CONEY,
G. P. KAMAUOHA,
R. H. MAKEKAU,

Senator Castle, for the Committee on Judiciary, presented a report (Stand. Com. Rep. No. 243), recommending that Senate Bill No. 209, entitled: "An Act to amend the law providing for the parole of prisoners, as embraced within Chapters 107 and 216 of the Revised Laws of Hawaii, 1915," be passed. The report was read by the Clerk as follows:

Honolulu, T. H., April 11, 1917.

Honorable Charles F. Chillingworth,
President of the Senate.

Sir:—Your Judiciary Committee, to which was referred House Bill No. 209, entitled: "An Act to amend the law providing for the parole of prisoners, as embraced within Chapters 107 and 216 of the Revised Laws of Hawaii, 1915," begs leave to report as follows:

The main change in the law is allowing a commutation on a minimum sentence. This has been the practice followed, but it is questionable whether it was proper under the old law. The other change is putting all territorial prisoners throughout the Territory under the Board here in Honolulu. The reason is that practically all territorial prisoners are here in Honolulu, and as a matter of fact, the Boards for the other counties have rarely, if ever, met.

The Committee recommends the passage of the Bill.

Respectfully submitted,

JUDICIARY COMMITTEE.
ALFRED L. CASTLE, Chairman;
J. H. CONEY,
G. P. KAMAUOHA,
R. H. MAKEKAU,

Senator Castle, for the Committee on Judiciary, presented a report (Stand. Com. Rep. No. 245), recommending that Senate Bill No. 45, entitled: "An Act to amend and add certain sections and paragraphs of Title XIX of the Revised Laws of Hawaii, 1915, relating to the charter of the City and County of Honolulu, be tabled. The report was read by the Clerk as follows:

Honolulu, T. H., April 11, 1917.

Honorable Charles F. Chillingworth,

Sir:—Your Judiciary Committee, to which was referred Senate Bill No. 45, entitled: "An Act to amend and add certain sections and paragraphs of Title XIX of the Revised Laws of Hawaii, 1915, relating to the Charter of the City and County of Honolulu," begs leave to report as follows:

The proposed charter for the City and County of Honolulu, after many hearings in the House and passage by the House, is now in the hands of the Oahu Select Committee. The points proposed in Senate Bill No. 45 have been considered in connection with the House Bill.

For the above reasons, the Committee recommends that the Bill be tabled.

Senator Desha, for the Committee on Education, presented a report (Stand. Com. Rep. No. 246), recommending that House Bill No. 272, entitled: "An Act adding a new section to the Revised Laws of Hawaii, 1915, to be known as Section 288A, relating to the appointment of truant officers within the District of Honolulu," be passed. The report was read by the Clerk as follows:

Honolulu, T. H., April 11th, 1917.

Hon. Chas. F. Chillingworth,
President of the Senate,
Senate Chamber.

Sir:—Your Committee on Education, to whom was referred House Bill No. 272, entitled: "An Act adding a new section to the Revised Laws of Hawaii, 1915, to be known as Section 288A, relating to the appointment of Truant Officers within the District of Honolulu," begs leave to report as follows:

The object of this Bill is to add a new section to the Revised Laws of Hawaii, 1915, to be known as Section 288A, giving the Sheriff of the City and County of Honolulu, upon the nomination of the Judge of the Juvenile Court of the First Judicial Circuit, the authority to appoint not less than three truant officers who shall act under the direction of said judge.

The Superintendent of Public Instruction explained to your Committee the urgent need of such truant officers as the services of the present incumbent are far too inadequate to meet the present needs of the schools within the District of Honolulu, and we therefore recommend that the Bill pass.

Respectfully submitted,

S. L. DESHA, Chairman;

GEO. P. COOKE.

Hawaii, 1915, relating to fishing boats," be passed. The report was read by the Clerk as follows:

Honolulu, T. H., April 11, 1917.

Hon. Charles F. Chillingworth,
President of the Senate.

Sir:—Your Committee on Ways and Means to which was referred House Bill No. 55, entitled: "An Act to amend Section 2031 of the Revised Laws of Hawaii, 1915, relating to fishing boats," begs leave to report as follows:

Your Committee has had this bill under careful consideration and finds that the principal features of the amendments to Section 2031, Revised Laws of Hawaii, 1915, are: Increasing the license fee for a fishing boat driven by motor power, from \$5 to \$10, and requiring all fishing boats to display a number to be furnished at cost by the Treasurer of the City and County and County issuing said license. The fee of \$5 for license for fishing boats impelled with oars or paddles has not been changed. The requirement, for the display in a conspicuous place, of the number of the boat is advantageous to the fisherman should he use his boat in waters of the different counties. Your Committee would recommend that this bill do pass.

Sir:—Your Committee on Ways and Means to which was referred House Bill No. 199, entitled: "An Act to amend Section 2197 of the Revised Laws of Hawaii, 1915, relating to expenses, Circuit Courts," begs leave to report as follows:

After careful consideration, your Committee finds that the three shorthand reporters of the Circuit Courts originally petitioned for a salary of \$225.00 per month. Affidavits furnished this committee disclose the fact that two of the reporters received on the side, for transcript work, an average of \$23.52 per month. The third reporter, owing to the extraordinary case of the Rapid Transit and Land Company, Limited, received a larger amount, an average of \$40.00 extra per month. Your Committee after careful consideration of this bill finds that Mr. James L. Coke was retained as legal adviser on the matters mentioned in said bill, by the Superintendent of Public Works, while in the City of Washington, D. C. At a later date, when the Superintendent of Public Works had to leave Washington, he requested Mr. Coke to remain and represent the Territory in the matter of the refund of \$1,750,000.00 worth of Territorial bonds, and the matter of granting additional authority, power and jurisdiction to the Public Utilities Commission. The original amount of this claim as presented to the House was for \$1,650.00. A compromise was effected, making the amount \$1,250.00, which your Committee believes to be a just claim against the Territory and would therefore recommend that the bill do pass.

Respectfully submitted,

ROBERT W. SHINGLE, Chairman;
H. A. BALDWIN,
J. H. CONEY,
ROBT. HIND,
E. W. QUINN.

Upon motion by Senator Pacheco, seconded by Senator Desha, the Bill, together with the report thereon, were thereupon referred to the Committee on Judiciary for the purpose of having that Committee pass upon the question of whether or not the claim could be legally paid.

Senator Shingle, for the Committee on Ways and Means, presented a

report (Stand. Com. Rep. No. 258), recommending that Senate Bill No. 48, entitled: "An Act making an appropriation of ten thousand dollars for repairing the wharf and shed at Hanakaape Landing, Koloa, Kauai," be tabled. The report was read by the Clerk as follows:

Honolulu, T. H., April 11, 1917.

Hon. Charles F. Chillingworth,
President of the Senate.

Sir:—Your Committee on Ways and Means to which was referred Senate Bill No. 48, entitled: "An Act making an appropriation of ten thousand dollars for repairing the wharf and shed at Hanakaape Landing, Koloa, Kauai," begs leave to report as follows:

Your Committee has had this bill under careful consideration and finds that the Hanakaape Landing, Koloa, is located on private property, and does not believe it good government policy to make appropriations for such projects. Your Committee would therefore recommend that this bill be tabled.

Respectfully submitted,

ROBERT W. SHINGLE, Chairman;
H. A. BALDWIN,
ROBT. HIND,
J. H. CONEY,
E. W. QUINN.

Upon motion by Senator Shingle, seconded by Senator Kamaooha, the report was adopted. Senate Bill No. 48 was thereupon ordered tabled.

Senator Shingle, for the Committee on Ways and Means, presented a report (Stand. Com. Rep. No. 259), recommending that Senate Bill No. 104, entitled: "An Act to provide for the publication of the decisions of the United States District Court for Hawaii," be passed. The report was read by the Clerk as follows:

Honolulu, T. H., April 11, 1917.

Hon. Charles F. Chillingworth,
President of the Senate.

Sir:—Your Committee on Ways and Means to which was referred Senate Bill No. 104, entitled: "An Act to provide for the publication of the decisions of the United States District Court for Hawaii," begs leave to report as follows:

Your Committee has had this bill under careful consideration and finds that its object is to secure an additional appropriation of \$3,500.00 to the amount of \$2,500.00 appropriated in 1915, for the publication of the decisions of the U. S. District Court for Hawaii. The original estimate was inadequate to meet the advance in the cost of material and labor necessary in this work. The amount of \$3,500.00 also includes the printing of decisions rendered since 1915. As this publication is much needed and the sale of which will be a government realization, your Committee would recommend that the bill do pass.

Respectfully submitted,

ROBERT W. SHINGLE, Chairman;
H. A. BALDWIN,
J. H. CONEY,
ROBT. HIND,
E. W. QUINN.

Upon motion by Senator Shingle, seconded by Senator Desha, the report was adopted. Senate Bill No. 104 thereupon passed Second Reading.

Senator Shingle, for the Committee on Ways and Means, presented a report (Stand. Com. Rep. No. 260), recommending that Senate Bill No. 112, entitled: "An Act to amend Section 2197 of the Revised Laws of Hawaii, 1915, relating to salaries and expenses, courts," be passed. The report was read by the Clerk as follows:

Honolulu, T. H., April 11, 1917.

Hon. Charles F. Chillingworth,
President of the Senate.

Sir:—Your Committee on Ways and Means to which was referred Senate Bill No. 112, entitled: "An Act to amend Section 2197 of the Revised Laws of Hawaii, 1915, relating to Salaries and Expenses, Courts," begs leave to report as follows:

Your Committee has had this bill under careful consideration, and, along the lines of the policy adopted in the Appropriation Bill and the School Budget, would recommend that this bill do pass.

H. A. BALDWIN,

Senator Coney, for the Committee on Military, presented a report (Stand. Com. Rep. No. 261), recommending that Senate Bill No. 87, entitled: "An Act to regulate the installation, operation and maintenance of elevators and to improve the factor of safety thereof," be passed with certain amendments. The report was read by the Clerk as follows:

Honolulu, H. T., April 11, 1917.

Hon. Chas. F. Chillingworth,
President of the Senate.

Sir:—Your Committee on Military, to which was referred Senate Bill No. 87, introduced by Senator E. W. Quinn, being an Act to regulate the installing, operation and maintenance of elevators, and to improve the factor of safety thereof, has given the same due and careful consideration and begs leave to report as follows:

Your Committee finds that the purpose of the Bill is to provide against the indiscriminate installation of elevators in this Territory, regulate the operation of the same, and at the same time to better protect the lives of people having to use elevators.

The bill carries 40 sections, 39 of which are mere detail of the different types of elevators, the power to be used, definition of words, and the rules to govern the installation and operation of such elevators.

Section 3 deals with the proper inspection of elevators and all machinery connected therewith, both before and after installation.

Your Committee feels that the bill is a step in the right direction in that it provides for better safeguarding lives of persons operating and traveling on elevators and therefore respectfully recommends that, with the following amendments the bill do pass.

1. In Section 3, lines 3 and 4, delete the words "An inspector holding a certificate of competency issued by the Industrial Accident Board" and insert in lieu thereof the words "the building inspector of the City and County of Honolulu or of the respective counties as the case may be."

2. In line 5, after the word "shall," delete the words "have a like inspection" and insert in lieu thereof the words "be similarly inspected."

3. In line 11, after the word "be" delete the words "submitted for approval to the Industrial Accident Board," and insert in lieu thereof the words "approved by said building inspector."

4. In line 13, between the words "has" and "been" add the word "first".

5. In lines 13 and 14, delete the words "Industrial Accident Board" and insert in lieu thereof the words "said building inspector."

6. In line 15, after the word "to", delete the words "the Industrial Accident Board" and insert in lieu thereof the word "said building inspector and also to the county or city and county in which said elevators are situated."

7. Delete paragraphs (e) commencing at line 20 and (f) commencing at line 29.

8. In Section 4, line 5, after the word "the", delete the words "Industrial Accident Board" and insert in lieu thereof the words "building inspector."

Respectfully submitted,

J. H. CONEY, Chairman;
S. L. DESHA,
M. C. PACHECO.

FORTY-THIRD DAY

Thursday, April 12, 1917.

The Senate met at 1:00 o'clock p. m. pursuant to adjournment.

After prayer by the Chaplain, the roll was called showing all Senators present.

The Journal of the Forty-Second Day was read by the Clerk, and upon motion by Senator Makekau, seconded by Senator Correa, was approved.

A message from the Governor (Gov. Mess. No. 3), vetoing House Bill No. 225, entitled: "An Act to amend Section 2221 of the Revised Laws of 1915, as amended by Act 170 of the Session Laws of 1915, relating to Public Utilities Commission," was read by the Clerk as follows:

Executive Chamber,
Honolulu, Hawaii, April 11, 1917.

To the Legislature:

As prescribed by Section 49 of the Organic Act, I return herewith, disapproved, "An Act to amend Section 2221 of the Revised Laws of Hawaii, 1915, as amended by Act 170 of the Session Laws of 1915, relating to Public Utilities Commission."

It is not my duty to seek the intent of the amended Act as proposed, but to call your attention to its effect.

It is to be justly and soundly assumed that when Chapter 128, Revised Laws of Hawaii, 1915, entitled: "Public Utilities Commission," Sections 2221-2240 inclusive, was enacted, there were good and sufficient reasons for the enactment and the financial support involved. The Act, in part, reads as follows:

PUBLIC UTILITIES COMMISSION.

"Section 2221 (in part). One member shall also be appointed chairman of the commission and shall receive a salary of six thousand dollars a year. The other two members shall receive salaries of twelve hundred dollars each a year and may be salaried officers of the Territory or any political division thereof.

"Section 2237. Finances. All salaries, wages and expenses, including traveling expenses, of the commission, each commissioner and its officers, assistants and employees, incurred in the performance or exercise of the powers or duties conferred or required by this chapter, may be paid out of any appropriation available for the purpose. Section 2540 of the Revised Laws shall apply to said commission and each commissioner, as well as to the supreme and circuit courts and the justices and judges thereof, and all costs and fees paid or collected hereunder shall be deposited in the treasury of the Territory to the credit of a special fund to be called the 'Public Utilities Commission Fund' and which is created for the purpose. There shall also be paid to the commission in each of the months of March and September in each year by each public utility which is subject to investigation by the commission a fee which shall be equal to one-twentieth of one per cent of the gross income from the

public utility business carried on by such public utility in this Territory during the preceding year, plus one-fiftieth of one per cent of the par value of the stock issued by such public utility and outstanding on December 31 of the preceding year, if its principal business is that of performing public utility services in this Territory. Such fee shall likewise be deposited in the treasury to the credit of said fund. The moneys in said fund are appropriated for the payment of all salaries, wages and expenses authorized or prescribed by this chapter."

This discloses the fact that the Public Utilities Commission is not supported by general taxation but by fees as above provided.

The working of these two sections, and also as amended by Act 170, S. L. 1915, proved to be as follows:

1. Salaries from July 1 to December 31, 1913:

E. A. Mott-Smith, Chairman.....	\$3,000.00
*J. N S. Williams, Commissioner.....	300.00
A. J. Gignoux, Commissioner.....	600.00

Total.....\$3,900.00

* Commissioner Williams refused salary for the month of July, August and September, on account of absence from the Territory.

2. Rate of salaries provided by Act 89, S. L. 1913:

Chairman.....	\$6,000.00 per annum.
Two Commissioners.....	1,200.00 per annum each.

3. Salaries of three commissioners from July 1 to Dec. 31, 1913

.....	\$3,900.00	No. Meetings	11
*Salaries of Chairman and two Commissioners for the year 1914.....	3,835.48		56
Salaries of two Commissioners from Jan. 1 to April 26, 1915.....	800.00		20

* Chairman resigned on March 27, 1914, and no successor appointed during the remainder of the year.

4. Rate of salaries provided by Act 170, S. L. 1915:

"Each member of said commission shall receive compensation at the rate of ten dollars per day while actually engaged in the performance of his duties as such Commissioner."

Salaries for the year 1915, from	Amount.	Meetings.....	56
May 1 to Dec. 31.....	\$1,240 00	Investigations 13	69

Salaries for the year 1916.....	3,300.00	Meetings.....	88
		Investigations 41	129

Salaries from Jan. 1 to Feb. 28, 1917	390.00	Meetings.....	11
		Investigations 6	17

5. Average salaries per meeting under Act 89, S. L. 1913, \$98.10.

Average salaries per meeting under Act 170, S. L. 1915, \$22.93.

From the above can be readily understood why the Governor was disposed to delay the appointment of a Chairman, when a vacancy occurred under the original act, and awaited an opportunity to consult the Legislature, Session 1915, and also from the fact that Act 135, S. L. 1913, had not been approved by the Congress of the United States, which fact limited the work of the Commission.

The duties of the members of the Public Utilities Commission correspond relatively to the officials of the utility corporations with whom they deal and the corporations by legal fees imposed make it possible

for the Territorial Treasurer to moderately compensate the Commissioners.

I cannot believe a departure from compensation is wise, just, or in accordance with the best interests of the public.

Respectfully,

LUCIUS E. PINKHAM,
Governor of Hawaii

Upon motion by Senator Makekau, seconded by Senator Castle, all action on the Governor's message was deferred until such time as the Senate should be informed of the action taken by the House of Representatives.

A communication from the Governor of the Territory (Dept. Com. No. 53), informing the Senate that the provisions of House Joint Resolution No. 3, calling for a Federal Survey of the schools of the Territory, had been complied with, and suggesting that an appropriation be made to meet the expenses of the same, was read by the Clerk as follows:

Executive Chamber,
Honolulu, Hawaii, April 11, 1917.

Communication.

To the Legislature:

I have this day approved the Joint Resolution relative to a Federal School Survey.

I am anxious certain surveys be particularly made, believing they would produce strikingly economic results, hence beg to suggest that an appropriation be made of a suitable sum.

Respectfully,

LUCIUS E. PINKHAM,
Governor of Hawaii.

“ ‘Provided, that no deduction shall be made for any amounts paid out for new buildings, permanent improvements or betterments, made to increase the value of any property or estate.

Sir:—Your Committee on Enrollment, Revision and Printing, begs leave to report that Senate Bills Nos. 121, 122, 124 and 125, have been printed and that the same are ready for distribution.

Senator Castle, for the Committee on Judiciary, presented a report (Stand. Com. Rep. No. 263), recommending that Senate Joint Resolution No. 1, relating to regulating the payment of the personal expenses of Territorial officials while traveling abroad on official business, be passed with certain amendments. The report was read by the Clerk as follows:

Honolulu, T. H., April 12, 1917.

Honorable Charles F. Chillingworth,
President of the Senate.

Sir:—Your Judiciary Committee, to which was referred Senate Joint Resolution No. 1, relating to regulating the payment of the personal expenses of Territorial officials while traveling abroad on official business, begs leave to report as follows:

The Resolution proposes that Territorial officials traveling abroad on official business will be allowed the sum of ten dollars a day to cover personal expenses, but not including steamer and railroad fares. This seems to be a fair amount and will stop to a large extent disputes and litigation on questionable items.

The form of the Resolution, however, is incorrect. The Committee recommends striking out the enacting clause and after the words "Be It Resolved" in the last paragraph insert "by the Senate and House of Representatives of the Territory of Hawaii"; strike out the word "will" after the word "business" in the second line of the resolving clause.

As thus amended, the Committee recommends the passage of the Resolution.

Respectfully submitted,

JUDICIARY COMMITTEE.

ALFRED L. CASTLE, Chairman;
J. H. CONEY,
G. P. KAMAHOA,
R. H. MAKEKAU,
WM. T. ROBINSON.

Upon motion by Senator Castle, seconded by Senator Makekau, the report was adopted. The Joint Resolution thereupon passed Second Reading, as amended.

No. 264), recommending that Senate Bill No. 107, entitled: "An Act to amend Section 2651 of the Revised Laws of Hawaii, 1915, relating to limitations of real actions," be passed with an amendment. The report was read by the Clerk as follows:

Honolulu, T. H., April 12, 1917.

Honorable Charles F. Chillingworth,
President of the Senate.

Sir:—Your Judiciary Committee, to which was referred Senate Bill No. 107, entitled: "An Act to amend Section 2651 of the Revised Laws of Hawaii, 1915, relating to limitations of real actions," begs leave to report as follows:

Under the present law adverse possession cannot run against the government, but it can in favor of the government. The Bill proposes that adverse possession shall not run in favor of the government.

The Committee recommends amending Section 2 so as to read: "Section 2. This Act shall take effect upon its approval."

As thus amended, the passage of the Bill is recommended.

Respectfully submitted,

JUDICIARY COMMITTEE.

ALFRED L. CASTLE, Chairman;
J. H. CONEY,
G. P. KAMAUOHA,
R. H. MAKEKAU,
WM. T. ROBINSON.

Upon motion by Senator Castle, seconded by Senator Makekau, the report was adopted. The Bill as amended was thereupon referred to the Committee on Ways and Means.

Senator Castle, for the Committee on Judiciary, presented a report (Stand. Com. Rep. No. 265), recommending that Senate Bill No. 111, entitled: "An Act to amend Section 2810 of the Revised Laws, 1915, relative to garnishment," be passed with certain amendments. The report was read by the Clerk as follows:

Honolulu, T. H., April 12, 1917.

Honorable Charles F. Chillingworth,
President of the Senate.

Sir:—Your Judiciary Committee, to which was referred Senate Bill No. 111, entitled: "An Act to amend Section 2810 of the Revised Laws, 1915, relative to garnishment," begs leave to report as follows:

This bill provides that the garnishee may file in the court issuing the summons against him a return under oath setting forth fully what goods, monies or chattels, etc., if any, of the defendant are in his hands. A copy of this return is to be served upon the plaintiff or his attorney before the return day, and the filing of the return shall be deemed a compliance with the summons excepting that the plaintiff may call the garnishee to appear and be examined orally.

The Committee feels that the law is fair and is needed.

The Committee recommends amending the title by striking out the figures "2810" and inserting in lieu thereof "2801"; also strike out the

word "relative" in the title and insert in lieu thereof the word "relating."

As thus amended, the Committee recommends the passage of the bill.

Respectfully submitted,

JUDICIARY COMMITTEE.

ALFRED L. CASTLE, Chairman;
J. H. CONEY,
G. P. KAMAHOA,
R. H. MAKEKAU,
WM. T. ROBINSON.

Upon motion by Senator Castle, seconded by Senator Kamaoha, the report was adopted. The Bill, as amended, thereupon passed Second Reading.

Senator Castle, for the Committee on Judiciary, presented a report (Stand. Com. Rep. No. 266), recommending that House Bill No. 36, entitled: "An Act relating to the appointment of District Magistrates and amending Section 2295 of the Revised Laws of Hawaii, 1915, as amended by Act 203 of the Session Laws of 1915," be passed with certain amendments. The report was read by the Clerk as follows:

Honolulu, T. H., April 12, 1917.

Honorable Charles F. Chillingworth,
President of the Senate.

Sir:—Your Judiciary Committee, to which was referred House Bill No. 36, entitled: "An Act relating to the appointment of District Magistrates and amending Section 2295 of the Revised Laws of Hawaii, 1915, as amended by Act 203 of the Session Laws of 1915," begs leave to report as follows:

The Committee feels that the appointment of District Magistrates is an executive function rather than a judicial one. The qualifications for the appointment as District Magistrates should, however, be more strict.

The Committee recommends striking out the words "Supreme Court" and inserting in lieu thereof the word "Governor"; add at the end of the first section the words "at least six months prior to the time of his appointment."

As thus amended, the Committee recommends the passage of the bill.

Respectfully submitted,

JUDICIARY COMMITTEE.

J. H. CONEY,
G. P. KAMAHOA,
R. H. MAKEKAU,
WM. T. ROBINSON.

Upon motion by Senator Castle, seconded by Senator Makekau, the

report was adopted. The Bill, as amended, thereupon passed Second Reading.

Senator Castle, for the Committee on Judiciary, presented a report (Stand. Com. Rep. No. 267), recommending that House Bill No. 59, entitled: "An Act to provide for the attachment of animals, implements, machines and vehicles whereby injuries to persons or property shall be caused and to apply thereto the payment of damages sustained by reason of such injuries," be tabled. The report was read by the Clerk as follows:

Honolulu, T. H., April 12, 1917.

Honorable Charles F. Chillingworth,
President of the Senate.

Sir:—Your Judiciary Committee, to which was referred House Bill No. 59, entitled: "An Act to provide for the attachment of animals, implements, machines and vehicles whereby injuries to persons or property shall be caused and to apply thereto the payment of damages sustained by reason of such injuries," begs leave to report as follows:

This bill proposes a drastic change particularly in relation to suits against persons who have automobile accidents. It provides that the suit shall not only be against the person himself, but, if so desired, against the machine causing the accident or damage. It makes a judgment rendered against the machine prior to previously recorded mortgages or leases. The result unquestionably would be to prevent the sale of automobiles to a large extent, as the majority of the machines are probably sold under a chattel mortgage.

If the bill is for the purpose of allowing action against the machine similar to proceedings in admiralty, we do not think the bill is necessary. If the object sought is to prevent the use of machines by irresponsible drivers, then this can be reached by city and county ordinance or by requiring all automobile drivers to put up a bond.

For the reasons above indicated, the Committee recommends the bill be tabled.

Respectfully submitted,

JUDICIARY COMMITTEE.

ALFRED L. CASTLE, Chairman;
J. H. CONEY,
G. P. KAMAŪOHA,
R. H. MAKEKAU,
WM. T. ROBINSON.

Upon motion by Senator Castle, seconded by Senator Makekau, the report was adopted. The Bill was thereupon ordered tabled.

Senator Castle, for the Committee on Judiciary, presented a report (Stand. Com. Rep. No. 268), recommending that House Bill No. 65, entitled: "An Act relating to the release by the guardian of an insane married person of his ward's curtesy or dower in realty," be passed with certain amendments. The report was read by the Clerk as follows:

Honolulu, T. H., April 12, 1917.

Honorable Charles F. Chillingworth,
President of the Senate.

Sir:—Your Judiciary Committee, to which was referred House Bill No. 65, entitled: "An Act relating to the release by the guardian of an insane married person of his ward's curtesy or dower in realty," begs leave to report as follows:

This bill was re-referred to the Judiciary Committee for the purpose of considering amendments which were proposed after the report of the Committee was filed.

After careful consideration, the Committee sees no reason to change its former report, and recommends the passage of the bill as amended by our former report submitted March 29, and numbered 143.

Respectfully submitted,

JUDICIARY COMMITTEE.

ALFRED L. CASTLE, Chairman;
J. H. CONEY,
G. P. KAMAUOHA,
R. H. MAKEKAU,
WM. T. ROBINSON.

Upon motion by Senator Castle, seconded by Senator Makekau, the report was adopted. The Bill thereupon passed Second Reading, as amended.

Senator Castle, for the Committee on Judiciary, presented a report (Stand. Com. Rep. No. 269), recommending that House Bill No. 126, entitled: "An Act to amend Chapter 141 of the Revised Laws of Hawaii, 1915, relating to probate jurisdiction and procedure, by adding certain new sections thereto to be known as Section 2506A, 2506B, 2506C, 2506D, 2506E, 2506 F and 2506G," be passed with an amendment. The report was read by the Clerk as follows:

Honolulu, T. H., April 12, 1917.

Honorable Charles F. Chillingworth,
President of the Senate.

Sir:—Your Judiciary Committee, to which was referred House Bill No. 126, entitled: "An Act to amend Chapter 141 of the Revised Laws of Hawaii, 1915, relating to probate jurisdiction and procedure, by adding certain new sections thereto to be known as Sections 2506A, 2506B, 2506C, 2506D, 2506E, 2506F and 2506G," begs leave to report as follows:

Under the present laws relating to probate jurisdiction and procedure in a small estate if an executor or administrator is to be appointed and the notice prescribed by the statute is to be given, the entire funds of the estate might be taken up.

The Bill provides that the Clerk of the Court shall have authority to collect and receive money or funds owing to the estate where the sum does not exceed One Hundred Dollars. The Clerk is required to publish notice by posting a notice at the front entrance to the court house of

each circuit. Creditors are required to present their claims within one year, and the estate is to be closed up within a year.

As a matter of fact, in a very small estate the money is ordinarily needed much more quickly than in a large estate.

The Committee agrees with the intention of the bill but thinks the notice required runs to too long a time. The Committee recommends striking out the words "one year" wherever they occur and insert in lieu thereof the words "sixty days."

As thus amended, the Committee recommends the passage of the bill.

Respectfully submitted,

JUDICIARY COMMITTEE.

ALFRED L. CASTLE, Chairman;
J. H. CONEY,
G. P. KAMAUOHA,
R. H. MAKEKAU,
WM. T. ROBINSON.

Upon motion by Senator Castle, seconded by Senator Kamauoha, the report was adopted. The Bill thereupon passed Second Reading as amended.

Senator Castle, for the Committee on Judiciary, presented a report (Stand. Com. Rep. No. 270), recommending that House Bill No. 164, entitled: "An Act to compensate Francisco Dina," be passed with an amendment. The report was read by the Clerk as follows:

Honolulu, T. H., April 12, 1917.

Honorable Charles F. Chillingworth,
President of the Senate.

Sir:—Your Judiciary Committee, to which was referred House Bill No. 164, entitled: "An Act to compensate Francisco Dina," begs leave to report as follows:

The Committee finds that Francisco Dina, while a patient at the insane asylum, was employed at the quarry of the asylum and on direction of one of the lunas or guards took some action which resulted in an explosion of dynamite resulting in severe damage to one of his eyes and partially crippling his hands.

The Committee feels that the sum proposed, Three Hundred Dollars, is fair. The bill, however, does not provide for a full release, and the Committee recommends amending the bill by adding at the end of Section 1 the words: "said sum to be paid the said Francisco Dina upon his filing with the Auditor of the Territory a full and complete release of any claim for damages, either to his person or property, against the Territory or any officer or employee thereof."

As thus amended, the Committee recommends the passage of the bill.

Respectfully submitted,

R. H. MAKEKAU,
WM. T. ROBINSON.

Upon motion by Senator Castle, seconded by Senator Kamauoha, the report was adopted. The Bill, as amended, thereupon passed Second Reading.

Senator Castle, for the Committee on Judiciary, presented a report (Stand. Com. Rep. No. 271), recommending that House Bill No. 343, entitled: "An Act to amend Chapter 189, Revised Laws of Hawaii, 1915, relating to the registration of copartnerships, by amending Sections 3410, 3411, 3412, 3413 and 3414, and by adding thereto a new section to be known as Section 3415A," be passed with certain amendments. The report was read by the Clerk as follows:

Honolulu, T. H., April 12, 1917.

Honorable Charles F. Chillingworth,
President of the Senate.

Sir:—Your Judiciary Committee, to which was referred House Bill No. 343, entitled: "An Act to amend Chapter 189, Revised Laws of Hawaii, 1915, relating to the registration of copartnerships, by amending Sections 3410, 3411, 3412, 3413 and 3414, and by adding thereto a new section to be known as Section 3415A," begs leave to report as follows:

The proposed change in the law relating to the registration of copartnerships is: 1st, that the registration shall be within thirty days after the commencement of the business; 2nd., if there is a change in the copartnership or a dissolution thereof, a filing of a statement within thirty days; and 3rd., the filing of annual statements, showing the names and residences of the copartners, the nature of the business, the firm name and place of business. As it is now there is no possible way to check up changes in copartnerships. There is added a new section penalizing failure to make the necessary return.

The Committee recommends several minor amendments. In Section 2, strike out the words "one month" and insert in lieu thereof the words "thirty days" so that it shall correspond with Section 1; after the word "newspaper" in Section 3 insert the words "of general circulation."

As thus amended, the Committee recommends the passage of the bill.

Upon motion by Senator Castle, seconded by Senator Kamauoha, the report was adopted. The Bill, as amended, thereupon passed Second Reading.

Senator Desha, for the Committee on Education, presented a report (Stand. Com. Rep. No. 272), recommending that House Bill No. 321, entitled: "An Act to authorize and direct the Board of Supervisors of the

County of Maui to make an appropriation for the purpose of establishing a water works system and laying a pipe line from the water head to the public school grounds in Halawa Valley, Island of Molokai," be tabled. The report was read by the Clerk as follows:

Honolulu, T. H., April 12th, 1917.

Hon. Chas. Chillingworth,
President of the Senate.

Sir:—Your Committee on Education, to whom was referred House Bill No. 321, entitled: "An Act to authorize and direct the board of supervisors of the County of Maui to make an appropriation for the purpose of establishing a water works system and laying a pipe line from the water head of the public school grounds in Halawa Valley, Island of Molokai," begs leave to report as follows:

Your Committee has had the same under careful consideration. The intent of the bill is to authorize the Maui County Board of Supervisors to appropriate the sum of \$5,000.00 for supplying the public school grounds at Halawa Valley, Molokai, with mountain water from the water head at or near Moaula Falls. Your Committee is cognizant of the fact that the county has already the power to make such an appropriation.

On enquiry however at the office of the Commissioner of Public Lands, the information given was that the water rights at the water head are privately owned, the Bishop Estate, Mrs. Maria King Estate, besides many native kuleana-holders being interested parties, and that the government has no water rights whatever.

Under such conditions therefore, the majority of your committee recommends that the bill be tabled.

Respectfully submitted,

S. L. DESHA, Chairman;
ALFRED L. CASTLE,
Majority Education Committee.

I do not concur:

GEO. P. COOKE,
Minority of Education Committee.

Upon motion by Senator Desha, seconded by Senator Castle, the report was adopted. House Bill No. 321 was thereupon ordered tabled.

Senator Desha, for the Committee on Education, presented a report (Stand. Com. Rep. No. 273), recommending that House Bill No. 288, entitled: "An Act to fix the minimum pay of persons teaching in the public schools of the Territory of Hawaii," be passed. The report was read by the Clerk as follows:

Honolulu, T. H., April 12th, 1917.

Hon. Charles F. Chillingworth,
President of the Senate.

Sir:—Your Committee on Education, to whom was referred House Bill No. 288, entitled: "An Act to fix the minimum pay of persons teaching in the public schools of the Territory of Hawaii," begs leave to report as follows:

This bill seeks to fix the pay of any person teaching in the public schools of the Territory to be not less than \$40.00 per month.

The Superintendent of Public Instruction favors this bill, and as the appropriation necessary to meet this increase is provided for by House Bill No. 131, which has been favorably reported upon with minor amendments by the Ways and Means Committee, your Committee therefore recommends that the bill pass.

Respectfully submitted,

EDUCATION COMMITTEE.

S. L. DESHA, Chairman;
ALFRED L. CASTLE,
GEO. P. COOKE.

Upon motion by Senator Desha, duly seconded and carried, the report was adopted. The Bill thereupon passed Second Reading.

Senator Shingle, for the Committee on Ways and Means, presented a report (Stand. Com. Rep. No. 274), recommending that House Bill No. 150, entitled: "An Act appropriating the sum of eighteen thousand dollars (\$18,000.00) for the construction of an asphalt macadam road through the homestead lots at Puukapu, South Kohala, Hawaii," be tabled. The report was read by the Clerk as follows:

Honolulu, T. H., April 11, 1917.

Hon. Charles F. Chillingworth,
President of the Senate.

Sir:—Your Committee on Ways and Means, to which was referred House Bill No. 150, entitled: "An Act appropriating the sum of Eighteen Thousand Dollars (\$18,000.00) for the construction of an asphalt macadam road through the homestead lots at Puukapu, South Kohala, Hawaii," begs leave to report as follows:

Your Committee has had this bill under careful consideration and finds that the section of road sought to be rebuilt is at the present time in fairly good condition, and that it is a section of the belt road of the County of Hawaii, and cannot be constructed with funds drawn from funds available for homestead roads.

Your Committee would therefore recommend that this bill be tabled.

328, entitled: "An Act to construct homestead roads through the Waiohinu Homestead Lots, District of Kau, County of Hawaii, by making an appropriation out of the fund available for homestead roads," be tabled. The report was read by the Clerk as follows:

Honolulu, T. H., April 11, 1917.

Senator Cooke, for the Committee on Public Health, presented a report (Stand. Com. Rep. No. 278A) to the effect that the Senate Committee on Public Health and the House of Representatives Committee on Public Health had visited the Settlement at Molokai, and giving a report of said visit. The report was also signed by the Committee on Health of the House of Representatives. The report was read by the Clerk as follows:

Honolulu, T. H., April 12, 1917.

Hon. Chas. F. Chillingworth,
President of the Senate
of the Territory of Hawaii.

Hon. H. L. Holstein,
Speaker of the House of Representatives
of the Territory of Hawaii.

Gentlemen:—Your Committee on Health after a visit of investigation to the Leper Settlement at Kalaupapa, Molokai, beg leave to present herewith a joint report of their findings.

On Saturday, April 7th, 1917, at 1 o'clock p. m., after visiting the homes and several institutions, a meeting was held in the new social hall at Kalaupapa, at which the chairman of the meeting, the same being the chairman of the Senate Health Committee, asked the inmates to freely state any complaints or needs.

A certain Mr. Joe da Souza, Jr., arose and stated that his wife was in the hospital and was not receiving proper care. Mr. da Souza was instructed to proceed to the hospital and that at the close of the meeting the Committee would visit the hospital and investigate the case.

There being no further complaints presented to your Committee, a request of a statement of the wants was invited from the inmates.

These are as follows:

1st.—That the weekly ration of poi be made one of weight, viz.: 21 lbs. instead of by value.

2nd.—That the clothes allowance be increased from \$10.00 a year to not less than \$14.00 a year.

3rd.—That an oculist be employed to test the eyes of the inmates and furnish glasses to those needing them.

4th.—That an item be inserted in the Appropriation Bill for the overhead charges at the Kalaupapa Store, these charges being, payroll, \$3,700.00; freight, \$7,200.00.

5th.—That Act No. 192 of the Session Laws of 1915, be amended so that the unclean party as well as the clean party of a wedded couple could secure a divorce.

6th.—That \$15,000.00 be appropriated for a pump and piping for fire protection.

7th.—That a motor truck with both passenger and freight body be purchased to replace the 6 or 8 bullock teams now used.

8th.—That an emergency appropriation be made to complete and furnish the Bay View Home.

9th.—That an appropriation be made of \$36,000.00 for a special weekly 50c. allowance to each leper.

The first four wants of the inmates are properly taken care of in the Appropriation Bill as it left the Senate.

The fifth want cannot be amended by law until an opinion has been rendered in two cases now pending in the circuit court.

The sixth want has been inserted in the loan bill.

The seventh want is in a special bill introduced in the House by Hon. A. F. Tavares.

The eighth want is covered in Senate Bill No. 127.

Your Committee recommend that the 9th want be inserted as an item in the Appropriation Bill now in the hands of the Finance Committee of the House.

Members of your Committee, in questioning Mrs. Joe da Souza, Jr., ascertained from her that she was receiving good care and attention and your Committee further found that Mr. da Souza had frequently been brought into court for various charges; that he was a troublesome individual and that on testimony of several of the inmates, was probably mentally deficient, and your Committee found his charges were unfounded.

Your Committee wish to commend the Superintendent, Doctor, Sisters and Brothers and attendants, as to the way the welfare of the inmates and property of the Settlement have been looked after, particularly considering the decrease in the appropriations for the biennial period.

GEO. P. COOKE, Chairman;

S. P. CORREA,

S. L. DESHA,

Members, Health Committee on the part of the Senate;

Honorable Charles F. Chillingworth,
President of the Senate.

Sir:—Your Judiciary Committee, to which was referred Senate Joint Resolution No. 5, "authorizing the printing of the Session Laws of 1917 in the Hawaiian language," begs leave to report as follows:

The Committee feels that the printing of a limited number of copies

of the Session Laws of 1917 in the Hawaiian language would be of assistance, and therefore recommends the passage of the Joint Resolution.

Respectfully submitted,

JUDICIARY COMMITTEE.
ALFRED L. CASTLE, Chairman;
J. H. CONEY,
G. P. KAMAÜOHA,
R. H. MAKEKAU,

The report was read by the Clerk as follows:

Honolulu, T. H., April 13, 1917.

Honorable Charles F. Chillingworth,
President of the Senate.

Sir:—Your Judiciary Committee, to which was referred Senate Bill No. 81, entitled: "An Act to amend Section 2970 of the Revised Laws of Hawaii, 1915, relating to desertion and non-support of wife or children and penalty therefor," begs leave to report as follows:

The present law relating to desertion and non-support of wife or children is part criminal and part civil.

The Bill proposes that if the husband deserts the wife, or parent deserts a child, the fine after conviction shall be paid to the wife or to the deserted child.

As a matter of fact, in such cases the husband or parent is told by the court that unless he supports his wife or children he will be put into prison. This method seems to be working satisfactorily and there is no reason for a change of the law unless there is a complete re-arrangement of our system and establish a court of domestic relations, which can hardly be done at the present time.

For the reasons above indicated, the Committee recommends that the Bill be tabled.

Respectfully submitted,

JUDICIARY COMMITTEE.
ALFRED L. CASTLE, Chairman;
J. H. CONEY,
G. P. KAMAÜOHA,
R. H. MAKEKAU,
WM. T. ROBINSON.

Upon motion by Senator Castle, duly seconded and carried, the report was adopted. Senate Bill No. 81 was thereupon ordered tabled.

Honolulu, T. H., April 13, 1917.

Honorable Charles F. Chillingworth,
President of the Senate.

Sir:—Your Judiciary Committee, to which was referred Senate Bill No. 88, entitled: "An Act to amend Section 3 of Act 165 of the Session Laws of 1915, relating to commutation of punishment of prisoners," begs leave to report as follows:

The Committee, after careful consideration, finds no reason to change its former report on this Bill, and recommends its passage.

Respectfully submitted,

JUDICIARY COMMITTEE.
ALFRED L. CASTLE, Chairman;

President of the Senate.

Sir:—Your Judiciary Committee, to which was referred Senate Bill No. 97, entitled: "An Act to amend Section 1565, Revised Laws of Hawaii, 1915, relating to Deputy Sheriffs," begs leave to report as follows:

The report was read by the Clerk as follows:

Honolulu, T. H., April 13, 1917.

Honorable Charles F. Chillingworth,
President of the Senate.

Sir:—Your Judiciary Committee, to which was referred House Bill No. 324, entitled: "An Act to amend Section 2 of Chapter 2 of the Revised Laws of Hawaii, 1915, relating to the promulgation of laws," begs leave to report as follows:

This Bill relates to the publishing of the Session Laws in the English and Hawaiian languages.

Under the wording of the bill, however, it might mean that the laws should be published in both the English and Hawaiian languages in both the English and Hawaiian newspapers. This is unnecessary.

The Committee recommends striking out the first sentence in the body of Section 1 and inserting in lieu thereof the following: "The Secretary of the Territory of Hawaii shall promulgate all the laws enacted by the Legislature by publishing the same in the English and Hawaiian languages; the English version to be published in a newspaper published daily in the English language, and the Hawaiian version in a newspaper published weekly in the Hawaiian language; both being newspapers of general circulation published in Honolulu."

As thus amended, the Committee recommends the passage of the Bill.

Respectfully submitted,

No. 284), recommending that House Bill No. 364, entitled: "An Act to amend Section 2404 of the Revised Laws of Hawaii, 1915, relating to the time within which an act is to be done," be passed with certain amendments. The report was read by the Clerk as follows:

Honolulu, T. H., April 13, 1917.

Honorable Charles F. Chillingworth,
President of the Senate.

Sir:—Your Judiciary Committee, to which was referred House Bill No. 364, entitled: "An Act to amend Section 2404 of the Revised Laws of Hawaii, 1915, relating to the time within which an act is to be done," begs leave to report as follows:

The only change in the law is that if the last day for doing an act in accordance with the chapter relating to civil procedure is a legal holiday, it shall be excluded. The Committee feels that this is correct. The title of the Act is a little peculiar, however, and the Committee recommends striking out the words "relating to the time within which an act is to be done," and inserting in lieu thereof the words "relating to civil procedure."

As thus amended, the Committee recommends the passage of the Bill.

Respectfully submitted,

JUDICIARY COMMITTEE.

ALFRED L. CASTLE, Chairman;
J. H. CONEY,
G. P. KAMAUOHA,
R. H. MAKEKAU,
WM. T. ROBINSON.

Upon motion by Senator Castle, seconded by Senator Correa, the report was adopted. House Bill No. 364 thereupon passed Second Reading as amended.

Upon motion by Senator Shingle, duly seconded and carried, the report of the Committee on Judiciary, on Senate Bill No. 88, entitled: "An Act to amend Section 3 of Act 165 of the Session Laws of 1915, relating to commutation of punishment of prisoners," action upon which had been deferred, was laid on the table to be taken up on Third Reading.

Senator Shingle, for the Committee on Ways and Means, presented a report (Stand. Com. Rep. No. 285), recommending that Senate Bill No. 121, entitled: "An Act appropriating \$20,000.00 for completing the topographical survey of the Island of Hawaii," be passed. The report was read by the Clerk as follows:

Honolulu, T. H., April 14, 1917.

Hon. Charles F. Chillingworth,
President of the Senate.

Sir:—Your Committee on Ways and Means, to which was referred Senate Bill No. 121, entitled: "An Act appropriating \$20,000.00 for completing the Topographical Survey of the Island of Hawaii," begs leave to report as follows:

Your Committee has had this bill under careful consideration and finds that its passage is strongly recommended by the Board of Trade of Hawaii and other influential elements of the Island of Hawaii. The Islands of Kauai and Oahu enjoy the benefits of a complete topographical survey. The appropriation asked for is for the completion of the work already begun on Hawaii and is to be spent in conjunction with a Federal appropriation of like amount, but not otherwise, as is provided for in this bill.

The bill also provides that in case the Federal Government does not make a like appropriation and start work by December 1, 1917, this appropriation reverts back to the Government Treasury. Your Committee would therefore recommend that the bill do pass.

Respectfully submitted,

ROBERT W. SHINGLE, Chairman;
H. A. BALDWIN,
J. H. CONEY,
E. W. QUINN,
ROBT. HIND.

Upon motion by Senator Shingle, seconded by Senator Makekau, the report was adopted. Senate Bill No. 121 thereupon passed Second Reading.

Senator Shingle, for the Committee on Ways and Means, presented a report (Stand. Com. Rep. No. 286), recommending that House Bill No. 98, entitled: "An Act appropriating the sum of five thousand dollars (\$5,000.00) for the construction of a landing at Mokulau, Kaupo, County of Maui," be tabled. The report was read by the Clerk as follows:

Honolulu, T. H., April 14, 1917.

Hon. Charles F. Chillingworth,
President of the Senate.

Sir—Your Committee on Ways and Means, to which was referred House Bill No. 98, entitled: "An Act appropriating the sum of five thousand dollars (\$5,000.00) for the construction of a landing at Mokulau, Kaupo, County of Maui," begs leave to report as follows:

Your Committee has had this bill under careful consideration and finds that the landing at Mokulau is a small one, and equipped with sufficient facilities to handle the small amount of freight coming to the district.

The Harbor Commission have not made a recommendation for the landing in question.

Your Committee is of the opinion that this expenditure is inadvisable at the present time, and would recommend that the bill be tabled.

Respectfully submitted,

ROBERT W. SHINGLE, Chairman;
H. A. BALDWIN,
J. H. CONEY,
E. W. QUINN,
ROBT. HIND.

The communication was read by the Clerk as follows:

Honolulu, April 13, 1917.

Hon. Chas. F. Chillingworth,
President of the Senate,
Honolulu, T. H.

Dear Sir:—I beg to inform your Honorable Body that the Governor yesterday signed Senate Bill No. 25, as Act 75, entitled: "An Act to amend Section 275 of the Revised Laws of Hawaii, 1915, relative to Private Schools."

Yours very truly,

WADE WARREN THAYER,
Secretary of Hawaii.

Third Reading of Senate Bill No. 88, entitled: "An Act to amend Section 3 of Act 165 of the Session Laws of 1915, relating to commutation of punishment of prisoners."

The Bill having been previously read throughout by the Clerk, upon motion by Senator Castle, seconded by Senator Desha, the Bill passed Third Reading on the following showing of ayes and noes:

Senator Shingle, for the Committee on Ways and Means, presented a report (Stand. Com. Rep. No. 287), recommending that Senate Bill No. 109, entitled: "An Act to provide for public improvements," be tabled. The report was read by the Clerk as follows:

Honolulu, T. H., April 13, 1917.

Hon. Charles F. Chillingworth,
President of the Senate.

Sir:—Your Committee on Ways and Means, to which was referred Senate Bill No. 109, entitled: "An Act to provide for public improvements," begs leave to report as follows:

Your Committee has had this bill under careful consideration. The majority of your Committee feels that it has been the policy of the United States Government that there shall be at least one harbor in each island, large enough and safe enough to handle all deep sea commerce of the island, and under this policy the United States Government has already committed itself to the projects of Hilo Harbor and Kahului Harbor, respectively; that the object of this bill, is a purely Federal matter and that the action, as sought for in this bill, should be deferred until the Congress of the United States shall pass an appropriation large enough to commence and carry through to completion this project.

The majority of your Committee are further of the opinion, that if the Territory should commit itself to this undertaking, that the United States Government may feel itself relieved of its responsibility of establishing a deep sea port at Nawiliwili, Kauai.

The majority of your Committee therefore feels that the expenditure of the amount of money asked for in the bill, is inadvisable at this time and would therefore recommend that this bill be tabled.

Respectfully submitted,

ROBERT W. SHINGLE, Chairman;
H. A. BALDWIN,
ROBT. HIND.

Senator Coney, for the minority of the Committee on Ways and Means, presented a report (Stand. Com. Rep. No. 288), recommending that the Bill be passed with certain amendments. The report was read by the Clerk as follows:

Honolulu, T. H., April 13, 1917.

Hon. Charles F. Chillingworth,
President of the Senate.

Sir:—Your Minority Committee on Ways and Means begs leave to report on Senate Bill No. 109, entitled: "An Act to provide for public improvements, as follows:

We find that the breakwater at Nawiliwili is a very needed and essential improvement for the Island of Kauai, in as much as ships have been lost there in recent years, and that it is about time something were done to protect lives and property.

Your Minority Committee knows that Congress is very backward about appropriating for projects of this nature away from the mainland, but has had information from the Chairmen of the Committee on Rivers and Harbors of the last House of Representatives, that, if the people of the Island of Kauai would show their earnestness in this matter, by commencing the undertaking, there would be no trouble in securing the balance of \$1,000,000.00 from Congress to complete the undertaking.

A Resolution was adopted by the Chamber of Commerce of Kauai asking this Legislature to pass an appropriation out of loan funds to commence this project for a breakwater at Nawiliwili of \$200,000.00, such moneys to be refunded by the County of Kauai to the Territory of Hawaii.

Your Minority Committee would therefore recommend that the bill do pass with the following amendments:

Insert at the end of Section 1, after the word "Kauai" the following:

"Provided, however, that the County of Kauai shall pay to the Territory, on the interest dates of any bonds that may be issued by the Territory, the proceeds of which shall have been expended for this purpose, interest upon an amount equal to the par value of such bonds at the rate of interest specified in such bonds, and also such sums annually on the second interest date and the same date each year thereafter, during the term for which such bonds shall have been issued, whether afterwards refunded or not, that the aggregate of such sums so annually paid will, compound annually at such rate of interest, equal, at the expiration of such term, such par value; and the Auditor of the Territory is hereby authorized to deduct from the amount of any warrant or warrants otherwise issuable by him to the Treasurer of the County of Kauai, such amounts when due as are required by this Section, to be paid by said County of Kauai, and proper receipts shall thereupon be exchanged between the Treasurers of the Territory and the County of Kauai; provided, however, that said County of Kauai, may, at

the option of its Board of Supervisors, pay on account of such bonds on any such interest date, any additional sum, and when the accrued values of all sums other than interest, paid on account of such bonds, shall equal the par value of such bonds, all obligations of the County of Kauai in respect of such bonds, principal and interest, shall be discharged. Every such additional sum so paid shall be deposited to the credit of the sinking fund provided for by Section 1182, Revised Laws of Hawaii, 1915, in addition to the amounts required to be deposited by said Section."

Strike out in Section 3 the words "Harbor Commissioners" and insert in lieu thereof "by the United States Government, through its engineers."

Strike out Section 4.

Respectfully submitted,

J. H. CONEY,
E. W. QUINN.

Senator Coney moved that the minority report be adopted. This motion was seconded by Senator Makekau.

Senator Shingle having called for the aye and no vote, the roll was called with the following result:

Ayes: Senators Castle, Coney, Correa, Desha, Kamauoha, Makekau, Mikaele, Pacheco, Quinn, and Robinson. Total, 10.

Noes: Senators Baldwin, Cooke, Hind, Shingle, and Mr. President. Total, 5.

Senator Shingle, for the Committee on Ways and Means, presented a report (Stand. Com. Rep. No. 289), recommending that Senate Bill No. 122, entitled: "An Act appropriating twenty thousand dollars (\$20,000.00) for the expenses connected with the removal of the warehouse now situated on Lot 44, Government Esplanade Lots, from said lot to Lot 31, Esplanade Lots, Honolulu," be passed. The report was read by the Clerk as follows:

Honolulu, T. H., April 13, 1917.

Hon. Charles F. Chillingworth,
President of the Senate.

Sir:—Your Committee on Ways and Means, to which was referred Senate Bill No. 122, entitled: "An Act appropriating twenty thousand dollars (\$20,000.00) for the expenses connected with the removal of the warehouse now situated on Lot 44, Government Esplanade Lots, from said lot, to Lot 31, Esplanade Lots, Honolulu," begs leave to report as follows:

Your Committee has had this bill under careful consideration and finds that the object is the removal of a brick warehouse leased to Theo. H. Davies & Co. until 1928, from Lot 44, Government Esplanade Lot, to Lot 31, same tract. Both these lots belong to the government. The object of the removal is to allow for the extension of Bishop street to the waterfront.

The extension of Bishop street will be of great advantage to Honolulu. The building in question is the only hindrance to the extension at the present time; practically all the property necessary for the extension has been put at the disposal of the government at a nominal

price. The benefits to be derived from this extension are greatly in excess of the expenses necessary to bring them about. The extension of this street will open up a gateway to Honolulu from the main steamer landings where a large amount of money is being expended at the present time, to the main arteries of the city.

The sale of remnants of government property adjacent to this street extension, which will include the old abandoned street, for an amount in the neighborhood of \$160,000.00, will enable the Land Commissioner to purchase desired property for the erection of an office building, which is the policy of the government. Your Committee would therefore recommend that this bill do pass.

Respectfully submitted,

ROBERT W. SHINGLE, Chairman;
J. H. CONEY,
E. W. QUINN,
H. A. BALDWIN,
ROBT. HIND.

Upon motion by Senator Shingle, seconded by Senator Desha, the report was adopted. Senate Bill No. 122 thereupon passed Second Reading.

Senator Shingle, for the Committee on Ways and Means, presented a report (Stand. Com. Rep. No. 290), recommending that House Bill No. 361, entitled: "An Act to compensate J. S. Kalakiela," be passed. The report was read by the Clerk as follows:

Honolulu, T. H., April 13, 1917.

Hon. Charles F. Chillingworth,
President of the Senate.

Sir:—Your Committee on Ways and Means, to which was referred House Bill No. 361, entitled: "An Act to compensate J. S. Kalakiela," begs leave to report as follows:

Your Committee has had this bill under careful consideration and finds that the claim of J. S. Kalakiela contained in said bill is for services actually rendered as clerk to the Deputy Sheriff of Honolulu, City and County of Honolulu, Territory of Hawaii, from June 1st. to the 31st. day of December, 1914, at a monthly salary of \$125.00.

The object of the bill is to authorize the board of supervisors of the City and County of Honolulu, through the City and County Auditor, to pay the herein mentioned claim. The original protest against this payment came from the Civil Service Commission.

The present Civil Service Commission reports that they have no right to protest the payment of this amount.

Taking into consideration that the services were faithfully performed and that if Mr. Kalakiela had not been employed, some one else would have been appointed; that the work performed was of a technical character with which he was familiar, your Committee believes that

payment for services rendered should be made and would therefore recommend that the bill do pass.

Respectfully submitted,

ROBERT W. SHINGLE, Chairman;
J. H. CONEY,
E. W. QUINN,
H. A. BALDWIN,
ROBT. HIND.

Upon motion by Senator Pacheco, seconded by Senator Castle, the Bill was amended by striking out the preamble.

Upon motion by Senator Shingle, duly seconded and carried, the report was adopted. House Bill No. 361 thereupon passed Second Reading as amended.

Senator Desha, for the Committee on Education, presented a report (Stand. Com. Rep. No. 291), recommending that House Bill No. 405, entitled: "An Act to create a trade and vocational school at Lahainaluna, Maui," be passed, with certain amendments. The report was read by the Clerk as follows:

Honolulu, T. H., April 13, 1917.

Hon. Chas. F. Chillingworth,
President of the Senate.

Sir:—Your Committee on Education, to whom was referred House Bill No. 405, entitled: "An Act to create a trade and vocational school at Lahainaluna, Maui," by the House Education Committee as a substitute to House Bill No. 188, after carefully considering the same, begs leave to report as follows:

This Bill seeks to re-organize Lahainaluna School situate at Lahaina, Maui County, the oldest institution of learning in these islands, and one whose history has permeated into the very life and existence of this country, while its long illustrious history has ever been for the uplifting and ennobling of the Hawaiian people. It is now sought to create a new institution out of it on a higher and more advanced basis for the benefit of the younger and future generations of this Territory who will take advantage of its beneficent influences. The main object of this young of Hawaii will be given a thorough and practical course of instruction to make Lahainaluna a trade and vocational school where the instruction in agriculture, the mechanical arts, and the natural sciences connected therewith, and such other branches of learning as may be devised and prescribed by the Board of Commissioners hereby created thus freeing this institution from the Department of Public Instruction. The school has at present under lease to the Pioneer Mill Co., of Lahaina, 276.45 acres of agricultural lands, thus leaving about 34.50 acres for use by the school. This is an excellent measure, one that will not fail to instill into the minds of the Hawaiians and others the nobility and grandeur of labor. Formerly the school has been almost self-supporting, but that plan has been found out to be unworkable.

The leading residents of Maui County are heartily in favor of this bill as it has been drawn up to suit their needs. The necessary appropriation of \$50,000.00 for maintenance and equipment of the school is provided for in Senate Bill No. 52 now in the House.

We recommend to delete the words: "Superintendent of Public Instruction," in line 2, Section 2, of the typewritten bill, and insert in lieu thereof the words: "Commissioner of Public Instruction of Maui County," and with this amendment we recommend that the bill pass as amended.

Respectfully submitted,

EDUCATION COMMITTEE.
S. L. DESHA, Chairman;
ALFRED L. CASTLE,
GEO. P. COOKE.

Upon motion by Senator Desha, duly seconded and carried the report was adopted. The Bill thereupon passed Second Reading as amended.

Senator Correa, for the Committee on Public Expenditures, presented a report (Stand. Com. Rep. No. 292), setting out the findings of the Committee in connection with the construction of Oahu Prison. The report was read by the Clerk as follows:

Honolulu, T. H., April 13, 1917.

Honorable Charles F. Chillingworth,
President of Senate, 9th Territorial Legislature,
Honolulu, T. H.

Sir:—Your Committee on Expenditures, to whom was referred the matter of the investigation of the Oahu Prison now under construction by the Department of Public Works, begs leave to report as follows:

Your Committee finds that the plumbing contractor, Mr. E. W. Quinn, has only performed such work as is legal and in accordance with the plumbing ordinance of the City and County of Honolulu, and in strict accordance with sanitary regulations.

Your Committee also finds that the Session Laws of 1911, page 277, Section 3, authorizes the work to be performed by prison labor; that prison labor has been employed on the construction of the penitentiary with such additional skilled mechanics as would be necessary.

Your Committee finds that contracts have been let for all materials required except in case of emergency where such action would have been detrimental to the interest of the Territory.

Your Committee also finds that the prison labor has so far given as satisfactory results as can be expected; and that provided this contract is completed at a cost not to exceed \$200,000.00, the Territory will have saved a sum equal to \$50,000.00 by the use of this labor together with saving on contracts made by the Department of Public Works.

Your Committee also finds that the Department of Public Works has exercised due care and diligence in the direction and supervision of this work; that the present condition of the work is entirely satisfactory.

Respectfully submitted,

S. P. CORREA, Chairman;
M. C. PACHECO,
ROBERT W. SHINGLE.

The Senate having returned to the consideration of the order of petitions, memorials, and communications, Senator Castle presented Senate Petition No. 9 from W. R. Castle and twenty-two others praying for the repair of the Tantalus Road. The Petition was read by the Clerk as follows:

To the Honorable
the Legislature of the Territory of Hawaii:

The undersigned, owners and holders of house lots on Tantalus Heights, Honolulu, and others, respectfully represent to your Honorable Body as follows, to wit:

Several years ago, indeed during the reign of Kalakaua and subsequent thereto, under the Republic of Hawaii, and since Hawaii became a part of the United States of America, the Government sought to sell house lots in the high region to the Southwest, South and East of the mountain called Tantalus or "Puu Ohia," in and near the Makiki district of Honolulu. But before the lots could be sold, it became necessary to open a road or roads to connect such lots with the town, and the said Government agreed to open and maintain such road or roads. When the road was opened, nearly all of such government lots were sold and many thousands of dollars have been expended by the purchasers in improvements of all kinds, greatly adding to the value of such lands, and on which the owners and holders have paid and now continue to pay

thousands of dollars yearly in taxes upon this property, which, prior to their ownership, was of little or no value to the Government.

Your petitioners further show that such road or roads were for a time kept in repair sufficient for the service required, but have now, owing to several causes, become useless and impassable except for persons on foot or horseback. These causes may be roughly classed as improper construction originally, absolute lack of care and repair, and permitting certain improper uses thereof. An improper use which probably did more than any other cause to ruin the road has been the transportation of heavy loads of "honohono" and other feed grasses for dairies in town, dependence on which necessitated the use of the road every day, no matter what the weather, so that in very rainy times the road has been cut all to pieces. If the money which was paid for this material had been returned to the road, it would have gone far to maintain repairs.

Your petitioners further show that repeated applications to the authorities for relief have been absolutely disregarded; nothing has been done, and your petitioners have been gradually and now finally deprived of the use of their said property.

They further show that if the Tantalus road had been kept in repair, the drive up one way and down the other would have constituted one of the finest attractions for visitors, while the actual use of the property by the owners would have been conducive to health.

WHEREFORE, your petitioners pray that an appropriation of public funds may be made for the purpose of putting the road in repair, at least from the junction of the Makiki Homestead road up to the line of the John Waterhouse property, and that petitioners may have a hearing before any appropriate committee of the Legislature.

Presented by W. R. CASTLE and 22 others.

Presented by
ALFRED L. CASTLE,
Senator, Third District.

To the Governor and Members of the Legislature

We the undersigned residents of the Territory of Hawaii, having either been benefitted or having seen the benefits resulting from Chiropractic adjustments, given by Chiropractors now practicing in Hawaii, believe that it is in the best interests of the PEOPLE OF THE TERRITORY, that Chiropractors be permitted by law to practice their profession in the Territory of Hawaii.

We therefore petition you to enact such legislation as will enable Chiropractors to practice their profession in Hawaii Territory, in order that the people of the Territory may have the right and privilege of selecting a doctor of the school or cult of their choice.

CONCURRENT RESOLUTION.

WHEREAS, the laws of the Territory of Hawaii, now in effect, relating to homesteading, have not resulted in bringing upon its lands a homesteading population as contemplated, but have resulted in the cultivation of a majority of the homestead lands by persons not bona fide homesteaders, such cultivation being financed and encouraged almost in its entirety either directly or indirectly by plantation companies engaged in the cultivation of sugar cane; and

WHEREAS, unless some remedy is afforded, the remaining Public Domain of the Territory subject to homesteading under the present laws, will be alienated without benefit to the citizens of the Territory, and the Territory will be deprived of its lands and a large potential income therefrom without adequate public benefit or financial return; and

WHEREAS, in order to provide for the settlement of bona fide homesteaders upon the Public Domain of the Territory of Hawaii, it is deemed expedient and necessary that all applications for homesteading be made through a Board or Commission authorized and empowered to ascertain and determine whether or not lands should be allotted under such applications; and

WHEREAS, in order to enable the Territory of Hawaii to obtain a full and adequate compensation for its Public Domain, it is necessary that portions of it be disposed of by lease or otherwise, in large units, in order to encourage, foster and make possible the institution and continuance of agricultural enterprise, under terms and conditions that will result in the payment to the Territory of Hawaii of rental value commensurate with the value of the lands; and

WHEREAS, there has been appropriated by the Legislature of the Territory of Hawaii, as necessary for the biennial period provided in said appropriation, moneys in excess of \$6,000,000, a sum far in excess of the resources of the Territory, and that can only be raised through a large increase of the tax rate; and

WHEREAS, the declaration of war between the United States and the Empire of Germany will make necessary the raising of large funds for federal purposes in excess of the normal funds required by the country, which said excess will be obtained by additional taxes and burdens upon all of the people of the United States, including the people of the Territory of Hawaii; and

WHEREAS, the war strength of the National Guard of Hawaii, in the event the same is recruited thereto, is approximately 9,000 men, which, upon the withdrawal of any appreciable number of the regular army garrison of the Territory, would not be more than sufficient to safely guard the interests of the Territory, the cost of which recruited National Guard, if the same is used for purely local protection, would have to be borne by the Territory at an expense of approximately 6,000 dollars a day; and

WHEREAS, changes in the present land laws of the Territory of Hawaii can only be effected through legislative action of the Congress of the United States;

THEREFORE, BE IT RESOLVED by the Legislature of the Territory of Hawaii that the Congress of the United States be and it is hereby requested to amend or change the Land Laws of the Territory of Hawaii, as follows:

(a) So that all applications for homesteads shall be made to the Land Board of the Territory of Hawaii, and prior to the issuance of homestead right, be approved by said Land Board;

(b) So that the Land Commissioner of the Territory of Hawaii, by and with the approval of the Governor, upon the application of the Land Board of the Territory of Hawaii, on or before the 15th day of January of each year, shall set aside for homesteading lands sufficient to accommodate all bona fide homesteader-applicants therefor;

(c) So that the Territory of Hawaii, upon application of the Land Board, and by and with the consent and approval of the Governor and Land Commissioner of the Territory of Hawaii, may lease, in such tracts or areas as said Land Board, Governor and Land Commissioner may deem advisable, and upon such rental and for such term of years, not exceeding twenty years, as said Board and said Governor may determine to

be for the best interests of the Territory, so much of the Public Domain of the Territory of Hawaii as is not necessary to accommodate homesteaders as aforesaid, all leases of said lands as aforesaid, to be sold at public auction, and to provide among such other reasonable covenants, and to provide among such other reasonable covenants, as the Land Board, Governor and Land Commissioner may determine, that upon the expiration of the leasehold tenure, or any extension thereof, (which extension shall in no case exceed the time necessary to mature and harvest crops growing at the time said leases expire by limitation) all improvements and betterments of every kind and nature shall revert to and become the property of the Territory of Hawaii.

AND BE IT FURTHER RESOLVED, that copies of this Resolution, duly certified, be forwarded by the Secretary of the Territory of Hawaii to the President of the Senate and the Speaker of the House of Representatives of the Congress of the United States, to the Territorial Delegate to said Congress, and to the Secretary of the Interior of the United States.

Com. Rep. No. 297), recommending the passage of a substitute bill. The report was read by the Clerk as follows:

Honolulu, T. H., April 16, 1917.

Hon. Charles F. Chillingworth,
President of the Senate.

Sir:—Your Committee on Ways and Means, to which was referred Senate Bill No. 93, entitled: "An Act to provide a sewer and cesspool pumping fund for the City and County of Honolulu by an additional tax on real and personal property therein, and forbidding the charging of rates or fees for sewer and cesspool pumping services," begs leave to report as follows:

Your Committee has had this bill under careful consideration and recommends the passage of the bill amended to read as hereto appended:

Your Committee finds that the bill as originally introduced provided for a free sewer and garbage system by a tax levy of one and 5/10ths mills. Your Committee is of the opinion that an extra tax rate of one and 5/10ths mill at the present time is inadvisable and has offered amendments eliminating free garbage from the bill and providing for a free sewer and cesspool pumping service, with a special tax rate of 6/10 mills made up as follows:

Interest and sinking fund on Sewer Bonds charged to the City and County at present, amounts to \$20,389.71; rate to produce this amount, 2/10 mills. Yearly operating cost of sewers, \$30,000.00; rate necessary to produce, 3/10 mills. Yearly operating cost of cesspool pumping, \$10,000.00; rate necessary to produce, 1/10 mills; making a total of 6/10ths mills on a taxable property valuation of \$100,000,000.00.

Respectfully submitted,

ROBERT W. SHINGLE, Chairman;
ROBT. HIND,
J. H. CONEY,
E. W. QUINN.

Be it Enacted by the Legislature of the Territory of Hawaii:

SECTION 1. In addition to all other rates or taxes upon real and personal property within the City and County of Honolulu, the tax assessor for the taxation division in which such city and county is located shall add each year a rate of 6/10ths mills to be taxed upon such real and personal property for the support of a free sewer and cesspool pumping system within the City and County of Honolulu.

SECTION 2. All moneys collected from such additional rate shall be paid over to the Treasurer of the City and County of Honolulu at the end of each and every month and by him kept in a special sewer and cesspool pumping fund.

SECTION 3. The Treasurer of the City and County of Honolulu shall set aside each year from said fund sufficient moneys for interest and sinking fund on the outstanding thirty year sewer bonds and shall make a part payment on the principal of said bonds so that the entire outstanding issue of said bonds may be retired, both principal and interest, at the time for payment of said bonds.

SECTION 4. After the purposes set forth in Section 3 hereof have

been provided for, the balance of said sewer and cesspool pumping fund in each year shall be used and applied by the City and County of Honolulu in improving, operating and maintaining the Honolulu Sewer Works and Cesspool Pumping system of the City and County.

SECTION 5. Any and all balances remaining in said sewer and cesspool pumping fund shall be applied towards the redemption of said bond issue.

SECTION 6. After January 1, 1918, the City and County of Honolulu shall fix no further rate or rates for sewer or cesspool pumping service and shall neither charge nor collect fees for sewer and cesspool pumping services in such City and County, except that the expenses of making any connection or connections or disconnections with the public sewer shall be borne by the person desiring such connection or disconnection as provided by statute or ordinance.

The report was read by the Committee as follows:

Honolulu, H. T., April -16, 1917.

Hon. Chas. F. Chillingworth,
President of the Senate.

Sir:—Your Committee on Military to which was referred Senate Bill No. 91, introduced by Senator Robert W. Shingle, being an Act creating the office of Registrar of Firearms and Ammunition, providing the duties thereof and amending Chapter 125 of the Revised Laws of Hawaii, 1915, by adding thereto five new Sections to be known as Sections 2201A, 2201B, and 2202B, 2202C and 2202D, and by amending Sections 2220 and 2201, have had the same under careful consideration and beg leave to report as follows:

The purpose of this Bill is to create the office of Registrar of Firearms and Ammunition for the Territory of Hawaii, and providing for the duties thereof.

Your Committee feels that the government authorities of this Territory should know where and by whom firearms and ammunition is kept and the quantities of the same and for that purpose there should be some person appointed to properly record all articles of this description, and as the Bill seeks to provide for such measure, your Committee respectfully recommends that it do pass.

J. H. CONEY, Chairman;
S. L. DESHA.

I do not concur:
M. C. PACHECO.

Honolulu, H. T., April 16, 1917.

Hon. Chas. F. Chillingworth,
President of the Senate.

Sir:—Your Committee on Military, to which was referred House Bill No. 133, being an Act to amend Section 2068 of the Revised Laws of Hawaii, 1915, relating to Peddlers, has given the same due and careful consideration, and begs leave to report as follows:

Your Committee finds that the purpose of this Bill is to allow peddlers to take a short term license and relieve the hardship of taking out a \$50.00 yearly license to peddle merchandise for a few months only. We believe that it will also be of benefit to people living in the outside districts, and assist them in purchasing goods at much more reduced prices.

Although a number of wholesalers of the city object to the granting short term licenses, as provided for in this bill, yet we feel that it will not interfere in their rights in doing business, and think that it would be of more benefit to the majority of the peddlers and the community at large.

We therefore respectfully recommend that the Bill do pass.

J. H. CONEY, Chairman;
S. L. DESHA.

I do not concur:
M. C. PACHECO.

Upon motion by Senator Coney, duly seconded and carried, the report was adopted. The Bill thereupon passed Second Reading.

The report was read by the Clerk as follows:

Honolulu, T. H., April 17, 1917.

Sir:—Your Committee on Agriculture and Forestry, to whom was referred House Bill No. 318, entitled: "An Act to Prevent, Suppress and Eradicate Bovine Tuberculosis and to Provide for Indemnification of owners of Cattle Destroyed under the Provisions of this Act," begs leave to report as follows:

The purpose of this Bill is to Prevent, Suppress and Eradicate Bovine Tuberculosis and to provide for Indemnification of owners of cattle destroyed.

Under Sections 503 and 504 of the Revised Laws of Hawaii, 1915, as amended by Act 136 of the Session Laws of 1915, the Board of Agriculture and Forestry is empowered to make rules and regulations for and concerning inspection, quarantine, disinfection or destruction of animals, but has never exercised its powers, although it has tested cattle for bovine tuberculosis, and destroyed the same when found to be afflicted, with the consent of the dairy owners of the Territory.

During the years from 1910 to 1916 inclusive, out of a total of 36,261 cattle tested, a total of 1616 head were found to be infected with bovine

tuberculosis and destroyed, without direct compensation on the part of the Territory to the owners thereof.

This Bill seeks to make it compulsory that all dairy cattle within the Territory, more than six months old shall be tested by the Board of Agriculture and Forestry for bovine tuberculosis; and also to provide for the indemnification to the owners thereof of all cattle so tested and ordered destroyed.

The Committee therefore recommends the passage of the Bill.

Respectfully submitted,

WHEREAS, the existence of a state of war between the United States and Germany has increased the need of such prohibition; and

WHEREAS, several bills intended to accomplish such purpose have been introduced in the Legislature of this Territory at the present session, and after careful and extended consideration have been rejected, largely because of contentions that such bills if enacted into law would be invalid on account of an alleged want of power in the Legislature to enact the same under the provisions of the Organic Act of the Territory; and

WHEREAS, insufficient time remains in the present session of the Legislature to prepare and enact another bill providing for such prohibition that would be valid in case the Legislature could enact a bill of any kind that would be adequate for such purpose and at the same time valid; Now, Therefore, Be It

At 1:50 o'clock p. m., the Senate retired to the House of Representatives for the purpose of meeting in joint session to receive a message from the Governor.

The Governor appearing at 2:00 o'clock p. m. delivered his message (Gov. Mess. No. 5), as follows:

Territory of Hawaii,
Executive Chamber,
Honolulu, April 16, 1917.

The Honorable President of the Senate,
The Honorable Speaker of the House, and
Members of the Legislature of the Territory of Hawaii.

Gentlemen:—Some sixty days ago the prospects of Honolulu and the Territory for a rapidly increasing visiting, seasonal, and residential population of leisure and independent means was very flattering. The prices at which residential lots sold in near subdivisions gave a basis for calculation in estimating the prospective values of the areas at Waikiki that could be drained, reclaimed, streets planned and construction undertaken and all desirable utilities provided. The rapidity of the sale and occupancy of such residence lots gave an idea of the rate of progress of reclamation that would be prudent from a financial, civic and rational real estate point of view.

One civic point of view is the urgency of preserving our present great asset, the Waikiki beach. Waikiki beach cannot be refined, made sanitary or preserved so long as the surface drainage, contaminated and discolored, of hillsides, flats and valleys from Punchbowl to Palolo Valley inclusive drain on to Waikiki beach, disfiguring it permanently. Shifting the discharge a short distance to the right or left will not do away with the offensive conditions. The entire surface drainage must be intercepted and delivered over the reef into deep water where the current sets toward the west.

There is a known normal flow of one hundred and sixteen million gallons daily and probably much more from this district. In downpours the quantities rapidly increase in volume. In the recent kona the engineer of the Department of Public Works estimated the rainfall in the district to have largely exceeded one billion gallons per twenty-four hours, while the Bureau of Hydrography estimated it as two billion gallons. With the present means of determining, accuracy as to volumes is hardly to be expected.

The keynote of the whole proposition is a **drainage canal** or **lagoon**, so placed that the surface grades lead to the canal draining the entire area mauka of Kalakaua Avenue. The location of the canal must be such as will permit every advantage to be taken in utilizing the slight grade of the land.

While it is not intended to run any sewerage into the canal, a sewerage plan should be adopted that would run along the lines of the drainage canal and deliver the sewerage into the sea at the drainage outlet beyond the reef, so no sewerage could work back on to the beach, the current being toward the west.

The lands involved are owned by approximately one hundred and seventeen owners, more or less. To undertake to condemn each piece of

property would be expensive and occasion intolerable delay. There needs to be absolute coöperation between the landowners and the government. Both should take a broad view, such as other communities and cities have taken. The work should be done gradually as groups of owners desire and material conditions indicate wise and proper.

The government must present some inducements that affect the whole ownership of the Waikiki reclaimable lands and reduce the cost as much as possible.

The Territory of Hawaii owns 86.65 acres, the canal or lagoon has an area of 60.84 acres, the proposed eighty foot boulevard on the makai side of the lagoon 18.36 acres, and the proposed eighty foot boulevard on the mauka side 18.73 acres. By exchanges, the government should be able to secure ownership of the lands covering the canal and boulevards approximating 97.93 acres, against which the government owns 86.65 acres and must purchase 11.28 acres.

The government should contribute this area without any charge whatsoever to the property owners. The government should fill the areas involved in the two eighty-foot boulevards without charge to the property owners. As the boulevards impinge on owners' property on only one side, the government should bear its just proportion of the paving of the boulevards and also the entire cost of the sidewalks and retaining walls of the outer side of the lagoon or canal. By such a contribution to the land owners, they should eagerly enter into an agreement with the government to effectuate it, otherwise there can be no modern, high-class city.

As in all other projects, the owners will have to provide streets other than the boulevards and utilities as a fundamental necessity to opening up their property.

The fill, which ranges from 4½ feet down to 3 feet, can be most economically made by taking and distributing the dredging from the proposed drainage canal.

It is a mistake to think that the owners must be hurried in this reclamation, for the funds can be secured and work be done over a comparatively long period of years. In order to give the owners an opportunity to turn over and dispose of such of their lands as they desire, the government could stipulate that for ten years after the fill and utilities were established the owners should be charged only interest, and that the payments on principal be covered in the balance of the bond term.

I must confess after twelve years' study, in which I have contributed most liberally of my private time and money, I see no other way of securing the voluntary coördination of the land owners.

It is imperative that a fixed and unchangeable plan of streets be adopted and adopted quickly. The one before you I believe to be the proper and rational one. You can see the privately laid-out roads in private subdivisions upset all harmony. Royal Grove and Ainahau may satisfy present conditions and owners, but they do not fit into a broad plan which really would add certain values to their property.

This scheme is not intended to disturb any agricultural or garden lands mauka of the proposed canal. They are involved ultimately, but only when there is a practical demand for that area that surpasses their garden value.

I think there should be a commission representing the Territory and city, including the Superintendent of Public Works, City Engineer, Land Commissioner, Territorial Treasurer, Attorney General, a suitable representative of the beach owners and a representative of the land owners to be selected by themselves. The Executive of the Territory should be represented on the commission.

This Commission should be given authority, and be provided with sufficient funds, to make the necessary surveys, plans and estimates, and

also to secure, to the extent possible, the necessary agreements with the land owners. Said commission should be instructed to prepare and present a detailed report and comprehensive scheme to the Tenth Legislature, Session of 1919.

If this Legislature will so direct, the Attorney General will draw the necessary Act.

It will be impossible to attempt this drainage proposition until the Territory, by exchanges, has title to the imperatively necessary land for canal and boulevards. The idea is to dredge, until more material is required for filling owners' lands, only half the width (and a fraction only of the ultimate depth) of the canal from the reef off Ala Moana to Kapahulu Road, an approximate length of 13,400 feet by 125 feet in width by 10 feet in depth.

I trust you may see your way clear to broadly rescue and beautify this part of Honolulu and gradually get the land owners out of mud and water.

It would seem that Honolulu may shortly obtain at almost no cash cost great and distinguishing improvements.

Two years ago, I requested the assistance of the Legislature in furthering a Civic Center by urging action favoring the Irwin site for the Federal Building. The Governor never for a moment let up on the effort, and several gentlemen were equally insistent, and one finally turned the trick for the Irwin site.

Assistant Secretary Newton, in calling on Her Majesty Liliuokalani, requested her advice, which she gave concisely and to the point—**'Keep your public buildings grouped together.'** This advice may well be respected, for it is sound.

On the eighteenth day of January, 1916, negotiations were begun for securing the properties in Judiciary Square so that the Government might own the entire block. Instead of calling on the Legislature for the funds, it was expected, through transactions covering 30,000 or more square feet of land mauka of Allen Street, between Alakea and the extension of Bishop Street, that the desired land could be secured. To free the Allen Street land, it is necessary to exchange 30,000 feet of land Ewa of the extension of Bishop Street for the Federal owned 30,000 square feet Waikiki of said Bishop Street. These exchanges require action by the President of the United States, and the papers have been in Washington some weeks.

The tremendous pressure of war has made us hesitate, but on Saturday afternoon last we cabled one hundred and twenty-six words to Washington trying to hasten action by the President.

When we shall have secured the Civic Center other projects and improvements will naturally follow.

I trust it will be your ambition to make your Capital City, Honolulu, all it should be, not only for our own reputation, but from every advanced point of view.

Should you desire to make any inquiries at this time, I should be pleased to answer them.

Very respectfully submitted,

LUCIUS E. PINKHAM,
Governor of Hawaii.

Sir:—Your Committee on Enrollment, Revision and Printing, begs leave to report that Senate Bills Nos. 132, 133 and 134, have been printed and that the same are ready for distribution.

WM. T. ROBINSON, Chairman.

The Committee on Enrollment, Revision and Printing, having returned Senate Bill No. 132, entitled: "An Act to provide a sewer and cesspool pumping fund for the City and County of Honolulu by an additional tax on real and personal property therein, and forbidding the charging of rates or fees for sewer and cesspool pumping service," upon motion by Senator Pacheco, the same was referred to the Committee on Judiciary.

Senator Castle, for the Committee on Judiciary, presented a report (Stand. Com. Rep. No. 304), recommending that certain amendments to Senate Bill No. 109, entitled: "An Act to provide for public improvements," be adopted. The report was read by the Clerk as follows:

Honolulu, T. H., April 18, 1917.

Honorable Charles F. Chillingworth,
President of the Senate.

Sir:—Your Judiciary Committee, to which was referred Senate Bill No. 109, entitled: "An Act to provide for Public Improvements," begs leave to report as follows:

The object of the bill is to provide a sum of Two Hundred Thousand Dollars to be carried on in conjunction with a possible appropriation by the United States Congress for the building of the Nawiliwili Breakwater.

In line 11 of Section 1, the Committee recommends striking out the word "expended" and inserting in lieu thereof the word "appropriated". The object of this amendment is to provide that the people of Kauai shall pay the interest on the bonds just as soon as the bonds have been issued.

The bill in its present form does not make the expenditure of the Two Hundred Thousand Dollars on the Nawiliwili breakwater contingent on an appropriation by Congress.

The Committee recommends striking out the present Section 2 and inserting in lieu thereof the following:

"SECTION 2. The sum hereby appropriated shall be used in conjunction with any appropriation made by the United States for the purpose of constructing the breakwater at Nawiliwili, Kauai, Territory of Hawaii, but shall not be used in the absence of such appropriation by the United States. Should such appropriation by the United States be made, the sum hereby appropriated may be expended upon plans and specifications submitted and provided by the United States Government through its engineers, and said sum may also be expended under the supervision of the United States Government."

The present Section 3 should be stricken out. Re-number the present Section 5 "Section 3" and have the same read: "SECTION 3. This Act shall take effect upon its approval."

The Committee recommends the adoption of the above amendments.

Respectfully submitted,

JUDICIARY COMMITTEE.

ALFRED L. CASTLE, Chairman;
J. H. CONEY,
G. P. KAMAUOHA,
R. H. MAKEKAU,
WM. T. ROBINSON.

Upon motion by Senator Coney, seconded by Senator Kamauoha, the report was adopted and further action on the Bill deferred until later in the day's session.

Honolulu, T. H., April 18, 1917.

Honorable Charles F. Chillingworth,
President of the Senate.

Sir:—Your Judiciary Committee, to which was referred Senate Bill No. 116, entitled: "An Act to prevent corporations, joint stock companies, trust companies, and fiduciary companies from practicing law," begs leave to report as follows:

The Committee has carefully considered the bill and approves of the principle set forth. It has, however, been necessary to so amend the bill that the amendments to the Sections might be rather confusing.

The Committee recommends that Senate Bill No. 116 be tabled and submits with this report a substitute bill covering the same subject and more clearly expressing the ideas of the Committee.

Respectfully submitted,

JUDICIARY COMMITTEE.

This relates to rules promulgated by the Board of Health for the protection of the Leper Settlement, Kalihi Hospital and any work connected with leprosy. It merely adds a new section to the law to provide for a penalty for the violation of any of these rules.

The Committee recommends the passage of the bill.

Respectfully submitted,

JUDICIARY COMMITTEE.

ALFRED L. CASTLE, Chairman;
J. H. CONEY,
G. P. KAMAUOHA,
R. H. MAKEKAU,

The purpose of this bill is to bar all claims against the estate of a decedent which are not presented within six months time whether or not the same is due before the six months period. It also provides for the filing of authenticated copies of claims instead of the originals.

The report was read by the Clerk as follows:

Honolulu, T. H., April 18, 1917.

Hon. Charles F. Chillingworth,

Sir:—Your Committee on Ways and Means, to which was referred Senate Joint Resolution No. 4, entitled: "Requesting the Governor and the Commissioner of Public Lands of the Territory of Hawaii to set aside water for the use of the County Farm and Sanitorium, on the Island of Kauai," begs leave to report as follows:

Your Committee has had this Resolution under careful consideration and finds that the object of the Resolution is to procure water for irrigation purposes for the County Farm, Island of Kauai. The water sought to be secured is under Government control. Your Committee is of the opinion that the said County Farm is entitled to the water asked for, free of charge, and would therefore recommend that this Resolution be adopted.

Respectfully submitted,

ROBERT W. SHINGLE, Chairman;
H. A. BALDWIN,
J. H. CONEY,
ROBT. HIND,
E. W. QUINN.

Upon motion by Senator Coney, seconded by Senator Makekau, the report was adopted. The resolution thereupon passed Second Reading.

The report was read by the Clerk as follows:

Honolulu, T. H., April 18, 1917.

Hon. Charles F. Chillingworth,
President of the Senate.

Sir:—Your Committee on Ways and Means, to which was referred Senate Bill No. 131, entitled: "An Act to construct roads to and through the homestead lots of Kukuioapae, in the District of South Kona, County and Territory of Hawaii, by making an appropriation by way of ad-

vancement out of the general revenues of the Territory of Hawaii, the same to be reimbursed out of the proceeds of the sale of Public Lands upon the Island and County of Hawaii," begs leave to report as follows:

Your Committee has had this bill under careful consideration and finds that the appropriation asked for is to construct a road to extend from the main road, mauka, about one mile to connect up the homestead lots that were opened about six years ago. No road to these homestead lots has ever been constructed.

Your Committee is of the opinion that these homesteaders are entitled to the road asked for and would recommend that the bill do pass.

Respectfully submitted,

ROBT. HIND,
E. W. QUINN.

Senator Shingle, for the Committee on Ways and Means, presented a report (Stand. Com. Rep. No. 311), recommending that House Bill No. 171, entitled: "An Act relating to the pay of, and services rendered by second district magistrates, and repealing Sections 1753 and 1754 of the Revised Laws of Hawaii, 1915," be passed with certain amendments. The report was read by the Clerk as follows:

Honolulu, T. H., April 18, 1917.

Hon. Charles F. Chillingworth,
President of the Senate.

Sir:—Your Committee on Ways and Means, to which was referred House Bill No. 171, entitled: "An Act relating to the pay of, and services rendered by Second District Magistrates, and repealing Sections 1753 and 1754 of the Revised Laws of Hawaii, 1915," begs leave to report as follows:

Your Committee has had this bill under careful consideration and finds that the bill seeks to fix the Second District Magistrates' compensation in Counties, which are at present paid by the District Magistrates of the various Counties, with the exception of the City and County of Honolulu, who receives seven dollars per diem in the absence of the Magistrate.

Your Committee would recommend that the bill pass with the following amendments:

Amend Section 1, by striking out in lines 9 and 10, after the word "Honolulu" the words "South Hilo, Wailuku and Lihue, as the case may be."

Amend Section 1, by adding thereto a new paragraph, to read:

"The Second District Magistrate of South Hilo, Wailuku and Lihue, as the case may be, shall receive for compensation for his services during such disqualification, illness or absence of the district magistrate, the sum of five dollars per diem."

Your Committee believes that \$5.00 per diem for the second district

magistrates of South Hilo, Wailuku and Lihue is in more equitable proportion to the salaries of the respective district magistrates than the amount proposed in the original bill.

Respectfully submitted,

ROBERT W. SHINGLE, Chairman;
H. A. BALDWIN,
J. H. CONEY,
ROBT. HIND,
E. W. QUINN.

Upon motion by Senator Shingle, seconded by Senator Kamaooha, the report was adopted. The Bill as amended thereupon passed Second Reading.

The report was read by the Clerk as follows:

President of the Senate.

Sir:—Your Committee on Ways and Means, to which was referred House Bill No. 309, entitled: "An Act to amend Section 2198 of the Revised Laws of Hawaii, 1915, relating to salaries of the District Magistrates," begs leave to report as follows:

Your Committee has had this bill under careful consideration and finds that the object of the bill is to increase the salaries of District Magistrates in the District of Koloa, Waimea, Kawaihau and Hanalei, Island of Kauai, in various amounts from \$10.00 to \$25.00.

Your Committee recommends that the bill pass with the following amendments:

Amend Item "36. District Magistrate of Koloa (\$75.00) \$900.00" by striking out the figures '(\$75.00) 900.00' and insert in lieu thereof '(\$80.00) 960.00.' "

Amend Item "38. District Magistrate of Kawaihau (\$75.00) 900.00" by striking out the figures '(75.00) 900.00' and insert in lieu thereof '(65.00) 780.00.' "

Amend Item "39. District Magistrate of Hanalei (\$75.00) 900.00" by striking out the figures "(75.00) 900.00" and insert in lieu thereof "(\$60.00) 720.00." "

The amendments offered increases the salary of all District Magistrates \$10.00, who at the present time receive a salary of less than \$100.00 per month. Your Committee believes this to be an equitable adjustment of salaries.

Respectfully submitted,

ROBERT W. SHINGLE, Chairman;
H. A. BALDWIN,
J. H. CONEY,
ROBT. HIND,
E. W. QUINN.

Upon motion by Senator Shingle, seconded by Senator Mikaele, the report was adopted. The Bill as amended thereupon passed Second Reading.

The report was read by the Clerk as follows:

Honolulu, T. H., April 18, 1917.

Hon. Charles F. Chillingworth,

Sir:—Your Committee on Ways and Means, to which was referred House Bill No. 344, entitled: "An Act to provide an appropriation of three thousand dollars (\$3,000.00), by way of advancement, for the completion of the Palolo Belt Road," begs leave to report as follows:

Your Committee has had this bill under careful consideration and finds that the road sought to be constructed is partially through Government property, a right of way for the balance of the road is being negotiated by the Land Commissioner at the present time. This road will connect up two ends of existing roads constructed at the present time, and would greatly benefit homesteaders in this district. Your Committee would therefore recommend that the bill pass with the following amendment:

Amend line 4, Section 3, by striking out the words "Palolo Valley, City and County of Honolulu," after the word "lands" and inserting in lieu thereof the words "Island of Oahu."

Hon. Charles F. Chillingworth,
President of the Senate.

Sir:—Your Committee on Ways and Means, to which was referred House Bill 384, entitled: "An Act making an appropriation for reimbursement to Captain N. C. Neilson," begs leave to report as follows:

Your Committee has had this bill under careful consideration and finds

that N. C. Neilson, Pilot's watchman at Diamond Head, was sick for one month and unable to attend to his duties; that he hired a substitute and paid him \$75.00 for his services. The Harbor Commission was unable to pay a substitute as Mr. Neilson's salary is made specific in the appropriation bill.

Your Committee is of the opinion that the claim made in this bill is a just one and would recommend that the bill do pass.

A communication from the Deputy City and County Clerk of the City and County of Honolulu (Misc. Com. Honolulu, T. H., April 18, 1917.

Hon. Chas. F. Chillingworth,
President of the Senate,
Honolulu, T. H.

Dear Sir:—Enclosed please find copy of Resolution No. 745, which was adopted at a meeting held by the Board of Supervisors the 17th instant, which is self-explanatory.

Respectfully yours,

E. BUFFANDEAU,
Deputy City and County Clerk.

The enclosed copy of Resolution No. 745 was thereupon read by the Clerk as follows:

RESOLUTION No. 745.

WHEREAS, the City and County of Honolulu has for a long time past had a pressing need for a building to be used as a City Hall; and,

WHEREAS, through provision by the Government of the United States of America, or through provision by the Territory of Hawaii, it may be possible in the near future to render the present Judiciary Building opposite the Government Building on King Street vacant and available for the purposes and needs of the City and County of Honolulu as a City Hall;

NOW, THEREFORE, BE IT RESOLVED by the Board of Supervisors of the City and County of Honolulu that for the best interests of the public at large and for the carrying out of the functions of government delegated to the City and County it would be eminently fitting and

proper if the Legislature of the Territory of Hawaii could arrange to have such building set aside for use as a City Hall for the City and County of Honolulu when the same is not longer used or necessary as a Judiciary building.

BE IT FURTHER RESOLVED that the setting aside of this building for such a purpose would work a great saving to the people of the City and County of Honolulu both in the expense of providing a substitute for such a City Hall and in the facility of performing the duties of government in such a civic center.

BE IT FURTHER RESOLVED that copies of this Resolution be forwarded by the Clerk of the Board to the Governor of the Territory of Hawaii, to the President of the Senate, and Speaker of the House of the Legislature of Hawaii now in session.

Introduced by

BEN HOLLINGER,
Supervisor.

Further action on Miscellaneous Communication No. 28 was thereupon deferred until later in the day's session.

Senator Robinson, for the Committee on Enrollment, Revision and Printing, presented a report (Stand. Com. Rep. No. 319), to the effect that Senate Bills Nos. 135 and 139 had been printed and were ready for distribution. The report was read by the Clerk as follows:

Honolulu, T. H., April 19th, 1917.

Honorable Chas. F. Chillingworth,
President of the Senate.

Sir:—Your Committee on Enrollment, Revision and Printing, begs leave to report that Senate Bills Nos. 135 and 139 have been printed and that the same are ready for distribution.

WM. T. ROBINSON, Chairman.

The Committee on Enrollment, Revision and Printing, having returned Senate Bill No. 135, entitled: "An Act to prevent corporations, joint stock companies, trust companies, fiduciary companies, and copartnerships doing business as trust or fiduciary companies, from practice of law," further action on the same was deferred until later in the day's session.

The Committee on Enrollment, Revision and Printing, having returned Senate Bill No. 139, entitled: "An Act to amend Section 29 of the Revised Laws of Hawaii, 1915, relating to primary elections," further action on the same was deferred to later in the day's session.

Senator Castle, for the Committee on Judiciary, presented a report (Stand. Com. Rep. No. 320), recommending that Senate Bill No. 75, entitled: "An Act to secure the setting apart, construction, improvement and maintenance of Territorial Highways; to provide for administering of the same; to provide funds for the construction, improvement and maintenance of such highways and to provide for all necessary or proper

ways and means for accomplishing such purposes or either of them," be tabled. The report was read by the Clerk as follows:

Honolulu, T. H., April 19, 1917.

Honorable Charles F. Chillingworth,
President of the Senate.

Sir:—Your Judiciary Committee, to which was referred Senate Bill No. 75, entitled: "An Act to secure the setting apart, construction, improvement and maintenance of Territorial Highways; to provide for administering of the same; to provide funds for the construction, improvement and maintenance of such highways and to provide for all necessary or proper ways and means for accomplishing such purposes or either of them," begs leave to report as follows:

The Ways and Means Committee of the Senate have under consideration various bills relating to roads and use of public monies in the construction of roads.

With the proposed increase in taxes, the counties are going to be largely benefited.

This bill provides an additional tax for Territorial highways, the sum to be expended largely under the control of the central highways commission.

A public hearing was held on the bill at which arguments were heard for and against the bill.

The Committee, however, feels that if our taxes are to be increased and a new system is going to be worked out for the spending of public monies in the construction of roads, that the counties should be given another two years in which to make good under the increased taxation.

The Committee therefore recommends that the bill be tabled.

Respectfully submitted,

JUDICIARY COMMITTEE.

ALFRED L. CASTLE, Chairman;
J. H. CONEY,
G. P. KAMAUOHA,
R. H. MAKEKAU,
WM. T. ROBINSON.

Upon motion by Senator Castle, seconded by Senator Baldwin, the report was adopted. Senate Bill No. 75 was thereupon ordered tabled.

Senator Castle, for the Committee on Judiciary, presented a report (Stand. Com. Rep. No. 321), recommending that Senate Bill No. 113, entitled: "An Act to amend Act 106 of the Session Laws of 1915, being 'An Act to amend Chapter 45 of the Revised Laws of Hawaii, 1915, relating to immigration, labor and statistics,' by adding thereto a new section to be known as Section 656A," be passed with certain amendments. The report was read by the Clerk as follows:

Honolulu, T. H., April 19, 1917.

Honorable Charles F. Chillingworth,
President of the Senate.

Sir:—Your Judiciary Committee, to which was referred Senate Bill No. 113, entitled: "An Act to amend Act 106 of the Session Laws of 1915, being 'An Act to amend Chapter 45 of the Revised Laws of Hawaii, 1915, relating to Immigration, Labor and Statistics,' by adding thereto a new section to be known as Section 646A," begs leave to report as follows:

In the session of 1915 as part of the Immigration Law an act was passed authorizing the Board of Immigration from time to time to spend money from its appropriation as the board may deem best for the temporary relief of indigent, suffering or helpless persons. It was not confined to immigrants. The sum or sums were to be administered by the Commissioner of Immigration, Labor and Statistics, under the advice and approval of the Governor. This was intended to apply to the relief of immigrants but under the technical wording of the Act sums were diverted to purposes not intended by the Legislature.

The bill seeks to repeal the act. The Committee, however, feels that it would be a mistake to repeal the act for there are times when the Board of Immigration in its wisdom ought to have the authority to relieve immigrants. The expenditure should be confined to immigrants and should be under the absolute control of the Board of Immigration and the Board of Immigration should not be ignored as it has been during the past two years.

The Committee recommends striking out the words in the title "by adding thereto a new section to be known as Section 646A."

Amend Section 1 to read as follows: "Section 1. The first section of Act 106 of the Session Laws of 1915, amending Chapter 45 of the Revised Laws of Hawaii, 1915, is hereby amended to read as follows: "Section 1. Chapter 45 of the Revised Laws of Hawaii, 1915, is hereby amended by adding thereto a new section to be known as Section 645A reading as follows: 'Section 645A. The Board may from time to time set aside and expend such sum or sums of money from its appropriation as it may deem best for the temporary relief of indigent, suffering or helpless immigrants; which sum or sums shall be administered by the Commissioner of Immigration, Labor and Statistics under the advice and approval of the Board.'"

As thus amended, the Committee recommends the passage of the bill.

Respectfully submitted,

JUDICIARY COMMITTEE.

ALFRED L. CASTLE, Chairman;
J. H. CONEY,
G. P. KAMAUOHA,
R. H. MAKEKAU,
WM. T. ROBINSON.

Upon motion by Senator Castle, seconded by Senator Cooke, the report was adopted. Senate Bill No. 113 thereupon passed Second Reading as amended.

Senator Castle, for the Committee on Judiciary, presented a report (Stand. Com. Rep. No. 322), recommending that Senate Bill No. 123,

entitled: "An Act to amend Sections 680 and 682 of Chapter 48 of the Revised Laws of Hawaii, 1915, relating to rights of way," be tabled. The report was read by the Clerk as follows:

Honolulu, T. H., April 19, 1917.

Honorable Charles F. Chillingworth,
President of the Senate.

Sir:—Your Judiciary Committee, to which was referred Senate Bill No. 123, entitled: "An Act to amend Sections 680 and 682 of Chapter 48 of the Revised Laws of Hawaii, 1915, relating to rights of way," begs leave to report as follows:

This provides that irrigation companies may have the right of eminent domain for conveying, distributing and transmitting water. It is not limited to irrigation purposes, as under the present law.

The Committee does not believe in extending the power of eminent domain without the strictest safeguards and therefore recommends that the bill be tabled.

Respectfully submitted,

JUDICIARY COMMITTEE.

ALFRED L. CASTLE, Chairman;
J. H. CONEY,
G. P. KAMAUOHA,
WM. T. ROBINSON.

I do not concur:
R. H. MAKEKAU.

Upon motion by Senator Castle, seconded by Senator Kamaooha, the report was adopted. Senate Bill No. 123 was thereupon ordered tabled.

Senator Castle, for the Committee on Judiciary, presented a report (Stand. Com. Rep. No. 323), recommending that Senate Bill No. 129, entitled: "An Act to provide prison labor for public works in Kapiolani Park, City and County of Honolulu," be passed with certain amendments. The report was read by the Clerk as follows:

Honolulu, T. H., April 19, 1917.

Honorable Charles F. Chillingworth,
President of the Senate.

Sir:—Your Judiciary Committee, to which was referred Senate Bill No. 129, entitled: "An Act to provide prison labor for public work in Kapiolani Park, City and County of Honolulu," begs leave to report as follows:

Kapiolani Park and the Tantalus Road, although both should be among the greatest of tourist assets, are today in disgraceful condition. With the numerous frontage tax improvements being carried on in Honolulu and with the limited funds at the disposition of the Board of Supervisors the park and the Tantalus Road have been neglected. It does not seem possible to put into decent condition either the park or Tantalus Road without calling upon prison labor.

The Committee recommends amending the title by inserting after the word "Kapiolani Park" the words "and Tantalus Road";

Insert in Section 1 after the words "Kapiolani Park" the words "or Tantalus Road";

The Bill proposes that not less than twenty-five nor more than seventy-five Territorial prisoners should be placed on such work. The maximum amount is unquestionably high enough but it may be that the minimum amount is not low enough, for it is conceivable that at some time it will be necessary to put only ten or twenty men at work.

The Committee recommends amending the word "twenty-five" in line 5 of Section 1 to read "ten".

As thus amended, the Committee recommends the passage of the bill.

Respectfully submitted,

JUDICIARY COMMITTEE.

J. H. CONEY,
G. P. KAMAHOA,
R. H. MAKEKAU,
WM. T. ROBINSON.

The report was read by the Clerk as follows:

Honolulu, T. H., April 19, 1917.

Honorable Charles F. Chillingworth,
President of the Senate.

Sir:—Your Judiciary Committee, to which was referred House Bill No. 68, entitled: "An Act to authorize and provide for the manufacture, maintenance, distribution and supply of electric current for light and power within the District of Hamakua, on the Island and County of Hawaii, Territory of Hawaii," begs leave to report as follows:

After due and careful consideration the Committee recommends the following amendments:

Strike out in Section 1 the words "for the term of fifty (50) years from and after the passage of this Act," and the words "for said term of fifty years";

Strike out the present Section 2, and renumber the present Sections 3, 4, 5, 6, 7, 8, 9, Sections 2, 3, 4, 5, 6, 7, and 8, respectively.

Insert in renumbered Section 5 after the word "jurisdiction" the words "or any utility commission which is, or may hereafter be, created by law of the Territory of Hawaii or of the United States,";

At the end of renumbered Section 7, strike out the word "in said District of Hamakua";

Strike out the present Section 10, and renumber the present Sections 11, 12, 13, 14, 15, to read Sections 9, 10, 11, 12 and 13;

In renumbered Section 10, after the word "Hawaii" in line 5 insert the words "or the rules promulgated under Section 2 of this Act,";

In renumbered Section 13 strike out all that follows after the word "Territory" in line 8 of said Section;

Renumber present Section 16 Section 17;

Insert after renumbered Section 13 three new Sections to be numbered 14, 15, and 16, and to read as follows:

"SECTION 14. The Public Utilities Commission of the Territory of Hawaii is hereby granted the power to order said association, its successors or assigns, to make extensions of its service lines whenever it shall be made to appear that said extension is a public necessity and that the total plant of said association, including such extension or extensions, can be made to earn a reasonable profit on the cost and maintenance of the same; provided that all orders of the Public Utilities Commission herein provided for shall be subject to review by the courts of the Territory as provided by law."

"SECTION 15. The right hereby granted shall cease and determine if operations hereunder are not commenced by beginning the construction of buildings or other work for manufacturing or supplying electric current for light or power, or by placing poles and wiring the same, or constructing conduits and laying wires therein, in any of the streets, roads or other places, for the purpose of conducting electric current for light and power, and shall have actually expended in such work a sum not less than five thousand dollars (\$5,000.00) within one year from and after the date of the approval of this Act by the Congress of the United States."

"SECTION 16. That the Territory of Hawaii, the County of Hawaii, or any political subdivision thereof, may at any time and upon six months' notice in writing to the association, given pursuant to proper authority, when so authorized by the Legislature of the Territory of Hawaii, acquire by purchase all the property of the association, subject to the then existing charges thereon.

The amount to be paid to the association for such purchase shall be determined by a commission of three persons, one to be appointed by the association, or in case it should fail to do so within thirty days after having been requested to do so by the purchaser, then by the chief justice of the Supreme Court of Hawaii, one by the purchaser, and the third by the two so appointed, or in case they should fail to agree upon the third member within thirty days, then by said chief justice, any such action by the chief justice to be taken only after giving to each party notice and an opportunity to be heard, but such amount shall in no case exceed the actual cost or the actual value of the tangible property, or the actual cost of reproducing or replacing it, less depreciation and less the charges thereon. The value of the franchise or good-will or any other intangible element shall not be considered in determining the amount to be paid.

Either the association or the purchaser may appeal to the Supreme Court of Hawaii from the decision of such commission by filing a written notice of appeal with the commission within five days after the decision is rendered. It shall thereupon be the duty of the commission immediately to certify up to the Supreme Court the record of its proceedings, showing in such certificate the valuation claimed by the association, the value claimed by the purchaser, and the valuation as determined by the commission. Such certificate shall be accompanied by copies of all papers, documents, and evidence upon which the decision of the commission was based, and a copy of such decision. Upon any

such appeal, the supreme court may, in its behalf, take or require further evidence to be introduced by either party.

Within six months after the determination of the purchase price as aforesaid, the same shall be paid to the association, and thereupon the franchise granted hereby shall cease and determine, and all the property of said association shall become the property of such purchaser without any further conveyance, but said association shall make all such further conveyances as may be desired by the purchaser and approved by said commission or said court on appeal."

Renumber the present Section 17 to be Section 18 and add to the end of said Section 18 the words "such approval of Congress to be secured within two years from the date of such approval by the Governor."

With the foregoing amendments, the Committee recommends the passage of the bill.

Honolulu, T. H., April 19, 1917.

Hon. Charles F. Chillingworth,

After due and careful consideration recommends that this bill pass.

Your Committee found that since the severe storm of January, 1916, over a year ago, the road from Kalaupapa to Kalawao has been impassable for vehicles except oxcarts. The pali trail, though there have been no human fatalities from using this trail, is however extremely narrow, and needs some repairs and widening in places where it might be considered dangerous.

Senator Coney, for the Committee on Judiciary, presented the report of the majority of the committee (Stand. Com. Rep. No. 330), recommending that House Bill No. 91, entitled: "An Act to amend Section 1017 of the Revised Laws of Hawaii, 1915, relating to licenses to practice medicine and surgery," be passed. The report was read by the Clerk as follows:

Honolulu, T. H., April 19, 1917.

Hon. C. F. Chillingworth,
President of the Senate.

Sir:—Your Judiciary Committee, to whom was referred House Bill No. 91, introduced in the House by Hon. Ed. K. Fernandez, and entitled "An Act to amend Section 1017 of the Revised Laws of Hawaii, 1915, relating to licenses to practice medicine and surgery," begs to report that this bill has had careful consideration by your Committee; a hearing was had on the subject matter of the bill, at which hearing arguments were heard for and against the bill.

It is the opinion of the majority of your Committee that the bill should become law. There is no provision at the present time for licensing chiropractors, and we believe that the public health will be safeguarded to a greater extent than is now the case, if this bill become law. The chiropractors now in the Territory have demonstrated their ability to cope successfully with various diseases, and no complaints were made before your committee citing any instances of their incompetency.

By the terms of this bill, all chiropractors who desire to practice in this Territory in future are required to be graduates from a legally chartered and regularly conducted school or college of chiropractic, and also to have successfully passed an examination before a State Board of Chiropractic Examiners in some State which now licenses chiropractors.

It is our opinion that the health and welfare of the people of this Territory is amply safeguarded, because if a chiropractor has the ability to practice in one state he should be equally competent to practice in another state. In our opinion it is not fair and just that members of one school of healing should be examined by graduates of another competitive school, and this bill is designed to provide for competent, licensed chiropractors from other states whereby they may come to Hawaii and practice until such time as there are sufficient chiropractors in the Territory to form a Board of Chiropractic Examiners to examine and pass on the fitness of chiropractors coming here later on.

This is identically the same plan under which the osteopaths are now being admitted to practice in Hawaii, and we consider it only fair and right that the chiropractors be accorded the same privileges.

In the case of the infectious and contagious diseases, the chiropractors would of course be under the same rules and regulations of the Board of Health as are the other practitioners, and the general health of the community is in this way fully protected.

Your Committee recommends the passage of the bill.

Respectfully submitted,

J. H. CONEY,
R. H. MAKEKAU,
G. P. KAMAUOHA.

Senator Castle, for the Committee on Judiciary, presented a report of the minority of the Committee (Stand. Com. Rep. No. 331), recommending that the Bill be tabled. The report was read by the Clerk as follows:

Honolulu, T. H., April 19, 1917.

Honorable Charles F. Chillingworth,
President of the Senate.

Sir:—A minority of your Committee on Judiciary, to which was referred House Bill No. 91, entitled: "An Act to amend Section 1017 of the Revised Laws of Hawaii, 1915, relating to the practice of medicine and surgery," begs leave to report as follows:

The medical profession has for years been working on the question of infectious and contagious diseases, and the prevention of epidemics. The standard of the profession has been steadily raised until today there is perhaps no other profession which requires such a severe course of study and practical work combined. Through our own medical boards and the examinations held by them it has been the policy in the Territory to raise the qualifications, not for the purpose of preventing competition, but for the general health and welfare of the community.

We are now asked to admit as "doctors" a certain class known as chiropractors, without examination, except that in general they shall have been admitted in another state by a state board, for in a few states there are boards to examine chiropractors.

The Committee went over in a general way the course of study prescribed for chiropractors. As compared with the course prescribed for doctors of medicine it is absurd. The minority of the Committee is convinced that graduates of courses prescribed for chiropractors are not properly qualified to diagnose cases.

The main objection, however, is that of infectious and contagious diseases. Honolulu, being a port of call for the entire world, is particularly subject to danger from such diseases. We have already had several terrible epidemics, and the reason that more have not occurred is because of the vigilance and intelligence of our medical profession.

We also have here in Hawaii that terrible disease, leprosy. In the opinion of the minority, chiropractors are not competent to handle infectious or contagious diseases, unless they have actual medical knowledge and training sufficient to pass a medical examination. We believe that this Legislature would make a serious and inexcusable mistake if it took action tending to destroy the standards insisted upon by the medical profession, standards which, owing to our peculiar position, are absolutely essential.

For the reasons above indicated, the minority of the Committee recommends the bill be tabled.

Respectfully submitted,

ALFRED L. CASTLE,
WM. T. ROBINSON,

Minority Members, Senate Judiciary Committee.

CONCURRENT RESOLUTION

REQUESTING THE CONGRESS OF THE UNITED STATES TO PROVIDE WAYS AND MEANS FOR THE DREDGING OF KALIHI CHANNEL AT HONOLULU, BETWEEN HONOLULU AND KAPALAMA BASIN.

WHEREAS, the proposed Kalihi Channel between Honolulu and the Kapalama Basin is one of the most important projects for harbor improvements in Honolulu, civic and commercial organizations having long ago recognized the necessity of increasing the present limited area of harbor space in the Harbor of Honolulu, with a view of providing for the future increased shipping at this port, and

WHEREAS, surveys and official reports on this project were provided for in the River and Harbor Act of 1893, the volume of business taxing the present limited wharfage space repeatedly during the last two years, the constant increase in arrival of vessels since the opening of the Panama Canal, the time is not far distant when vessels will be unnecessarily delayed in this port through lack of berthing accommodations, and

WHEREAS, the opening of the Kalihi Channel is the only solution to this problem, and it is a most imperative necessity for early commencement on the same, and

WHEREAS, the Territory of Hawaii has now under construction, project known as Piers 8, 9 and 10, at a cost of \$285,000.00 which, when completed, will consume all the available waterfront area bordering on the harbor of Honolulu for wharf purposes except the Marine Railway site. Future wharf construction must therefore be on the opposite shore and the dredging of Kalihi Channel is the initial step for this important future work.

NOW, THEREFORE, BE IT RESOLVED by the Senate of the Territory of Hawaii, Session of 1917, the House of Representatives concurring, that the Congress of the United States be, and it hereby is petitioned and asked to pass such legislation as may be necessary to provide ways and means for dredging of Kalihi Channel at Honolulu, between Honolulu and Kapalama Basin.

Honolulu, T. H., April 21, 1917.

Hon. Charles F. Chillingworth,
President of the Senate.

Sir:—Your Committee on Ways and Means to which was referred Senate Bill No. 46, entitled: "An Act to regulate the salaries of the Deputy Treasurer, Deputy Clerks and Deputy Auditor of the City and County of Honolulu," begs leave to report as follows:

Your Committee has had this bill under careful consideration, and recommends that it be tabled with the consent of the introducer, as these salaries are regulated by the Board of Supervisors.

Respectfully submitted,

R. W. SHINGLE, Chairman;
H. A. BALDWIN,
ROBT. HIND,
E. W. QUINN,
J. H. CONEY.

Upon motion by Senator Shingle, seconded by Senator Baldwin, the report was adopted. Senate Bill No. 46 was thereupon ordered tabled.

Senator Shingle, for the Committee on Ways and Means, presented a report (Stand. Com. Rep. No. 351), recommending that House Bill No. 152, entitled: "An Act to fix the school budget for the biennial period beginning January 1, 1918, and ending December 31, 1919," be passed with certain amendments. The report was read by the Clerk as follows:

Honolulu, T. H., April 20, 1917.

Hon. Charles F. Chillingworth,
President of the Senate.

Sir:—Your Committee on Ways and Means, to which was referred House Bill No. 152, entitled: "An Act to fix the School Budget for the biennial period beginning January 1, 1918, and ending December 31, 1919," begs leave to recommend that the bill pass with the following amendments:

That the item "Salaries of Office Force" be changed from \$20,400 to \$24,000.

Strike out "Survey Director, \$4,800.00" and insert in lieu thereof "Statistical Clerk, \$4,800."

Insert new item "Clerk, \$3,600."

That the item "General expenses" be changed from \$11,000 to \$15,500.

That the item "Stationery, Postage and Incidentals" be changed from \$8,000 to \$10,000.

The Committee recommends that the item of \$10,000 for stationery, postage and incidentals be placed at \$10,000, as originally recommended by the Department, as the increase in the business of the Department, as well as the increased cost of supplies, makes that item appear a reasonable one.

That the item of "Traveling Expenses, Commissioners and Committee of Estimates" be changed from \$1,500 to \$2,000.

That a new item be inserted after "Traveling Expenses, Superintendent," to read "Expenses Federal Survey of Schools, \$2,000."

That the item "Industrial and Manual Training" be changed from \$45,000 to \$60,000.

The declaration of war and the consequent desirability of the Territory's becoming self-supporting in as large a measure as it is possible, have created a demand for an increase in the efforts which the Department has already made towards the establishment of agricultural instruction. In order to provide the extra instruction and material, which the extension of agricultural instruction requires, (such as agricultural instructors' salaries, implements, seeds, fencing, etc., etc.), an additional sum has been asked for by your Committee.

That the item "Special Schools" be changed from \$87,000 to \$92,000.

That the item, under the heading of Normal and Training School, entitled "New Building, etc., \$30,000", be amended so as to read "New Buildings, furniture, etc., \$35,000."

The Committee asks that the sum of \$35,000 for new buildings and furniture for the Normal School be provided. This sum is to provide not only for the construction of a twelve-room concrete building, on the lines of that at the Central Grammar School, but also for the removal and remodeling of the large wooden building now on the premises, and for furniture and fixtures for the new building and for toilet accommodations for the increased number of pupils for which the new building is provided.

Amend the total under "General Fund" by striking out the figures "\$202,300" and insert in lieu thereof "\$230,400."

SPECIAL FUND.

That the item "New Building, \$149,000, \$67,500, \$199,000, \$68,000," be amended so as to read "New Buildings, \$139,500, \$70,000, \$232,800, \$68,000."

That the item "Janitors, etc., \$14,000, \$12,000, \$38,000, 3,000," be amended so as to read "Janitors, etc., \$14,000, \$12,000, \$45,000, \$3,000."

The item of \$45,000 for pay of Janitors for the City and County of Honolulu is an increase of \$5,000 from the sum asked for by the Committee of Estimates. This is due to the fact that the City and County has found it necessary to increase the pay of janitors from \$40.00 to \$50.00, since the time that the Board of Estimates met.

That the item containing the totals reading "\$218,000, \$119,500, \$288,000, \$99,700" be amended so as to read \$218,500, \$122,000, \$328,000, \$99,700.

That the words "The total sum of \$483,500 as set forth" be amended so as to read "The total sum of \$520,300 as set forth," etc.

That the item "Hilo High School (provided same is built on new site Pihoonua, Hilo) \$75,000" be changed so as to read "Hilo High School, \$40,000," "Hilo Union School, \$35,000."

The figures as amended are practically those of the original bill which asked for \$40,000 for the Hilo High School and \$34,000 for the Hilo Union School.

The bill providing for a new high school site at Piihonua having been killed, the new high school building will necessarily be built as originally planned, on the present high school site and an assembly hall can be added to the Hilo Union School, just across the street, in accordance with the original plans.

That the item "Kau District, \$4,500," be amended so as to read "Kau District, land and buildings, \$5,000."

That the item "Total, \$149,000" as referring to the County of Hawaii be amended so as to read "Total, \$149,500."

Amend item "Molokai and Lanai, \$2,500" by striking out "\$2,500" and insert in lieu thereof "\$5,000."

That the item "Total, \$67,500" as referring to County of Maui, be amended so as to read "Total, \$70,000."

The amount of \$5,000 for Molokai and Lanai is strongly recommended by the Maui delegation and is believed to be very much needed.

That the item "Honolulu District, \$70,000" be amended so as to read "Honolulu District, \$103,800."

The committee strongly recommends that the item for new buildings, City and County of Honolulu, remain at \$103,800, as recommended by the Department of Public Instruction and by the Board of Estimates. The item provides for two new concrete buildings of the type constructed in the Central Grammar School with toilet buildings and other accessories, which must necessarily accompany these new buildings.

Twelve thousand dollars is intended for an addition to Pohukaina School, where a temporary outside wall is falling down and where an addition must be placed, in accordance with the original plans for the construction of the building.

Five thousand dollars is provided for a large frame school house at Manoa, where an increasingly large number is expected, owing to the establishing of several children's "homes" in that vicinity. The rest of the money is to provide for bungalows wherever the need arises.

The schools of Honolulu are now overcrowded to such an extent that effective instruction is being made almost impossible in many places. The Legislature has already provided funds which will make it possible for the Department to allot a smaller number of pupils per teacher than is now given in many cases. This will, however, make it necessary to provide a number of new rooms, which will take care of the school population which is already on hand. It is thus estimated that if all the teachers in Honolulu are given only thirty-five pupils each (a number which educators agree should not be exceeded) fifty-two new teachers—and consequently fifty-two new rooms—will be needed for Honolulu for the population which is now in the schools. It is estimated, also, that thirty-eight new rooms will be needed for the increase in the school population, during the next two years (this being a very conservative estimate). On the basis of these figures, the town of Honolulu alone will need, during the next two years, ninety new rooms, whereas the budget item, in the bill, of \$103,800, as recommended by the committee provides for only sixty-eight new rooms. Under the circumstances, it will seem that the item is conservative.

That the item "Total, \$199,000," as referring to the City and County of Honolulu, be amended so as to read "Total, \$232,800."

That the item "Total of General Fund, \$202,300" be made to read "Total of General Fund, \$230,400."

That the item "Total of Special Fund, \$725,200" be made to read "Total of Special Fund, \$769,000."

That the item "Total of General and Special Funds, \$927,500" be amended so as to read "Total of General and Special Funds, \$999,400."

That a new section be added as follows:

"SECTION 2. It is provided, however, that the salary changes pro-

vided for under the heading of "General Fund" shall become and be effective on and after July 1, 1917, the differences in the amounts to be provided from whatever balances remain to the credit of the school fund."

The recommendation that the salary changes provided for in the General Fund take effect July 1, 1917, instead of January 1, 1918, is, of course, due to a desire to have the employees of the Department of Public Instruction share the benefit of such salary increases as they may be granted with the employees of the other departments, by having them take effect in all the departments, including that of Public Instruction, at the same time.

Respectfully submitted,

R. W. SHINGLE, Chairman;
H. A. BALDWIN,
ROBT. HIND,
E. W. QUINN.

Upon motion by Senator Shingle, seconded by Senator Cooke, the report was adopted. House Bill No. 152 thereupon passed Second Reading as amended.

Senator Shingle, for the Committee on Ways and Means, presented a report (Stand. Com. Rep. No. 352), recommending that Senate Bill No. 3, entitled: "An Act to amend Section 164 of the Revised Laws of Hawaii of 1915, as amended by Act 9 of the Session Laws of 1915, designating the pay of laborers engaged in constructing or repairing roads, bridges, streets, water works or other works in the Territory of Hawaii, or for any political subdivision thereof," be tabled. The report was read by the Clerk as follows:

Honolulu, T. H., April 21, 1917.

Hon. Charles F. Chillingworth,
President of the Senate.

Sir:—Your Committee on Ways and Means, to which was referred Senate Bill No. 3, entitled: "An Act to amend Section 164 of the Revised Laws of Hawaii of 1915, as amended by Act 9 of the Session Laws of 1915, designating the pay of laborers engaged in constructing or repairing roads, bridges, streets, water works or other works in the Territory of Hawaii, or for any political subdivision thereof," begs leave to report as follows:

Your Committee has had this bill under careful consideration and finds that it is identical with House Bill No. 2, which is being reported back to the Senate with an amendment, recommending that it do pass.

Your Committee would recommend that this bill be tabled.

Respectfully submitted,

R. W. SHINGLE, Chairman;
ROBT. HIND,
H. A. BALDWIN,
E. W. QUINN.

Upon motion by Senator Shingle, seconded by Senator Cooke, the report was adopted. Senate Bill No. 3 was thereupon ordered tabled.

Senator Shingle, for the Committee on Ways and Means, presented a report (Stand. Com. Rep. No. 353), recommending that Senate Bill No. 24, entitled: "An Act to provide a revolving fund for the construction of homestead roads," be tabled. The report was read by the Clerk as follows:

Honolulu, T. H., April 21, 1917.

Hon. Charles F. Chillingworth,
President of the Senate.

Sir:—Your Committee on Ways and Means, to which was referred Senate Bill No. 24, entitled: "An Act to provide a revolving fund for the construction of homestead roads," begs leave to report as follows:

Your Committee has had this bill under careful consideration and finds that the object of the bill is to establish a homestead road Revolving Fund, from which to pay for the construction of homestead roads in the Territory.

The present Legislature has passed numerous bills providing for road construction in the usual way. The matter of the resolutions seeking to amend the present land laws convinces your committee that the work to be accomplished under this bill would be inadvisable at this time. This bill could well lay over two years, awaiting the action of the Congress of the United States, and your Committee would therefore recommend that the bill be tabled.

Respectfully submitted,

R. W. SHINGLE, Chairman;
ROBT. HIND,
H. A. BALDWIN,
E. W. QUINN.

Senator Shingle, for the Committee on Ways and Means, presented a report (Stand. Com. Rep. The report was read by the Clerk as follows:

Honolulu, T. H., April 21, 1917.

Hon. Charles F. Chillingworth,
President of the Senate.

Sir:—Your Committee on Ways and Means, to which was referred House Bill No. 287, entitled: "An Act to amend Section 161 of the Revised Laws of Hawaii, 1915, relating to hours of labor and payment thereof," begs leave to report as follows:

Your Committee has had this bill under careful consideration and would recommend that the bill be tabled for the reason that it will not

give the relief to the daily laborers, contemplated, as a majority of them are paid by the hour, on an eight hour per day basis.

Your Committee is of the opinion that such a law would work a hardship on contractors doing Government work, who at present have an hourly wage scale, if they were required to pay an eight hour wage for five hours work.

Respectfully submitted,

ROBERT W. SHINGLE, Chairman;
H. A. BALDWIN,
ROBT. HIND,

Your Committee has had this bill under careful consideration and finds that the object of the bill is to finish up street improvements in the Auwaiolimu Tract, Honolulu. The report was read by the Clerk as follows:

The monies collected shall be held in the special sewer and cesspool fund for the purpose of retiring the outstanding bonds and for the improving, operating and maintaining of sewer works and cesspool pumping system. section thereto to be known as Section 4101A, providing further penalties for heedless driving," be passed. The report was read by the Clerk as follows:

Honolulu, T. H., April 21, 1917.

Honorable Charles F. Chillingworth,

Sir:—Your Judiciary Committee, to which was referred House Bill No. 411, entitled: "An Act to amend Chapter 252 of the Revised Laws of Hawaii, 1915, as amended by Act 50, Session Laws of 1915, by adding a new section thereto to be known as Section 4101A, providing further penalties for heedless driving," begs leave to report as follows:

This bill provides a further penalty for heedless driving, the vital point being that on conviction the judge shall suspend the use and operation of the license for a period of not less than three months or more than one year.

This is clearly better than the present system of imposing fines and will act as a real check for heedless driving.

The Committee recommends the passage of the bill.

Senator Castle, for the Committee on Judiciary, presented a report (Stand. Com. Rep. The report was read by the Clerk as follows:

Honolulu, T. H., April 21, 1917.

Honorable Charles F. Chillingworth,
President of the Senate.

Sir:—Your Judiciary Committee, to which was referred House Bill No. 429, entitled: "An Act authorizing an attorney who holds a license to practice law in the district courts only to appear on the appeal of a case from the District Court before a circuit court or judge at chambers or the Supreme Court," begs leave to report as follows:

This bill would allow District Court Attorneys to appear before a circuit court either with jury or jury-waived, or the Supreme Court on appeal from the district court. In other words, one might just as well abolish the examinations for practice in the circuit court and supreme court.

Although bills have been introduced in the Legislature suggesting a

right for district court attorneys to appear before circuit judges at chambers, it is doubtful if a bill has ever gone to the extent suggested by this bill.

The Committee recommends that the bill be tabled.

For many years in the Territory a fee of one dollar has been charged for acknowledgments, but there is no authority under the law for so doing. The bill provides for a fee of one dollar for acknowledgments.

The Committee recommends the passage of the bill.

Upon motion by Senator Correa, seconded by Senator Desha, the Bill passed First Reading by title.

Senator Baldwin, for the Committee on Public Lands and Internal Improvements, presented a report (Stand. Com. Rep. No. 364), recommending that House Bill No. 149, entitled: "An Act to amend Section 342 of the Revised Laws of Hawaii, 1915, be passed. The report was read by the Clerk as follows:

Honolulu, T. H., April 21st, 1917.

Hon. Charles F. Chillingworth,
President of the Senate.

Sir:—Your Committee on Public Lands and Internal Improvements, to which was referred House Bill No. 149, entitled: "An Act to amend Section 342 of the Revised Laws of Hawaii, 1915," begs leave to report as follows:

Your Committee has had this bill under careful consideration and finds that the object of the bill is to enable the Commissioner of Public Lands to authorize the Land Agent in the district in which sales for transfer of lands are to be made, to hold such sales at the door of their respective offices instead of at the door of the capitol at Honolulu. This is to enable intending buyers to obtain such lands, in the locality where situated, and obviating the necessity of the expenses incidental to a trip to and from Honolulu.

Your Committee would therefore recommend that the bill do pass.

Respectfully submitted,

H. A. BALDWIN, Chairman;
ROBT. HIND,
R. W. SHINGLE,
M. C. PACHECO,
S. L. DESHA.

Upon motion by Senator Baldwin, duly seconded and carried, the report was adopted. House Bill No. 149 thereupon passed Second Reading.

Senator Baldwin, for the Committee on Public Lands and Internal Improvements, presented a report (Stand. Com. Rep. No. 365), recommending that House Bill No. 376, entitled: "An Act making a special appropriation for the payment of all unsettled claims awarded by the Commission appointed under the provisions of Act 55 of the laws of 1894, entitled: 'An Act to authorize the Minister of the Interior to take possession of and acquire on the Island of Molokai for the use of the government, land and property that may be required by the Board of Health,' approved October 5, 1893," be passed. The report was read by the Clerk as follows:

Honolulu, T. H., April 23, 1917.

Hon. Charles F. Chillingworth,
President of the Senate.

Sir:—Your Committee on Public Lands and Internal Improvements, to which was referred House Bill No. 376, entitled: "An Act making a special appropriation for the payment of all unsettled claims awarded by the commission appointed under the provisions of Act 55 of the laws of 1894, entitled: 'An Act to authorize the Minister of the Interior to take possession of and acquire on the Island of Molokai for the use of the government, land and property that may be required by the Board of Health,' approved October 5, 1893," begs leave to report as follows:

The Legislature of 1894 authorized the Minister of the Interior to appoint a commission to appraise private lands in the Leper Settlement at Molokai. The Government has been in possession of all the land since that time.

The object of the bill is to acquire the remnants of properties still remaining under various owners.

The Commissioner of Public Lands states that this is the correct list of the remnants, and, as the Board of Health is very anxious to have this matter cleared up, your Committee would therefore recommend that the bill do pass.

Respectfully submitted,

H. A. BALDWIN, Chairman;
M. C. PACHECO,
R. W. SHINGLE,
S. L. DESHA,
ROBT. HIND.

Upon motion by Senator Baldwin, seconded by Senator Desha, the report was adopted. House Bill No. 376 thereupon passed Second Reading.

Senator Baldwin, for the Committee on Public Lands and Internal Improvements, presented a report (Stand. Com. Rep. No. 366), recommending that House Bill No. 409, entitled: "An Act to facilitate and expedite the opening and providing for the disposition of certain public lands at Piipihonua, in the District of South Hilo, County of Hawaii," be tabled. The report was read by the Clerk as follows:

Honolulu, T. H., April 23rd, 1917.

Hon. Charles F. Chillingworth,
President of the Senate.

Sir:—Your Committee on Public Lands and Internal Improvements, to which was referred House Bill No. 409, entitled: "An Act to facilitate and expedite the opening and providing for the disposition of certain public lands at Piihonua, in the District of South Hilo, Country of Hawaii," begs leave to report as follows:

Your Committee has had this bill under careful consideration and finds that the object of the bill is to order the Commissioner of Public Lands to subdivide 300 acres of the land of Piihonua into lots not to exceed one acre and also to enable present tenants, living on said land within the boundaries as set forth in the bill, to acquire house lots they now occupy.

The same objections prevail in the consideration of this bill, as they did in House Bill No. 58. Your Committee finds that the lease on said land does not expire until 1921 and that there are certain agreements and understandings now pending between the lessee and the government, which should be settled before any other disposition is made of the land, and would therefore recommend that the bill be tabled.

Respectfully submitted,

H. A. BALDWIN, Chairman;
ROBT. HIND,
S. L. DESHA,
M. C. PACHECO,
R. W. SHINGLE.

Upon motion by Senator Baldwin, seconded by Senator Desha, the report was adopted. House Bill No. 409 was thereupon ordered tabled.

Senator Castle, for the Committee on Judiciary, presented a report (Stand. Com. Rep. No. 367), recommending that Senate Bill No. 53, entitled: "An Act to reapportion the membership in the Senate and House of Representatives of the Territory of Hawaii among the Senatorial and Representative Districts on the basis of the population of each of said Districts on the basis of the population of each of said Districts who are citizens of the Territory as appears by the census enumeration of 1910," be tabled, and submitting a concurrent resolution on the subject, adoption of which the committee recommends. The report was read by the Clerk as follows:

Honolulu, T. H., April 23, 1917.

Honorable Charles F. Chillingworth,
President of the Senate.

Sir:—Your Judiciary Committee, to which was referred Senate Bill No. 53, entitled: "An Act to reapportion the membership in the Senate and House of Representatives of the Territory of Hawaii among the Senatorial and Representative Districts on the basis of the population of each of said Districts who are citizens of the Territory as appears by the census enumeration of 1910," begs leave to report as follows:

This bill provides for a reapportionment of the Senators and Repre-

sentatives. This Legislature cannot carry out the idea proposed as it is in conflict with the Organic Act. The number of representatives suggested for the various districts are apparently based on the supposed citizen population of the districts. As a matter of fact the census of 1910 does not give the number of citizens in each district, it being possible only to make a rough guess by excluding all nationalities except Hawaiian, Part-Hawaiian and Caucasian. The Committee feels that it would be a mistake to change the representation in the Senate, but agrees that districts having materially increased in population should have a larger representation in the House of Representatives. As a practical matter, it would be hard to elect representatives based on census returns as they are not complete; but the Great Register gives a reasonably correct idea of the citizen population of each district, if it is assumed that all male citizens entitled to vote will register. The Great Register is also a ready means of ascertaining at any one time the number of voters and, indirectly, the number of citizens in any one district.

The Committee therefore recommends that the bill be tabled and submits herewith a Concurrent Resolution which is recommended for adoption.

Respectfully submitted,

JUDICIARY COMMITTEE.
ALFRED L. CASTLE, Chairman;

G. P. KAMAUOHA,
R. H. MAKEKAU,
WM. T. ROBINSON.

Upon motion by Senator Castle, seconded by Senator Kamauoha, so much of the report as recommends the tabling of Senate Bill No. 53, was adopted. Senate Bill No. 53 was thereupon ordered tabled.

The concurrent resolution presented by the Committee on Judiciary (S. Con. Res. No. 18) was read by the Clerk as follows:

CONCURRENT RESOLUTION.

WHEREAS, under the Organic Act the Legislature of the Territory of Hawaii is from time to time obliged to reapportion the membership in the Senate and the House of Representatives among the Senatorial and Representative Districts on the basis of the population in each of said districts who are citizens of the Territory; and,

WHEREAS, a reapportionment based on citizenship is inadvisable and difficult of ascertainment due to the fact that it is dependent on the census taken every ten years, which census has not shown to date the number of citizens in each district, while the number of registered voters in each district forms a ready means for a readjustment and represents fairly the citizen population of each district; and,

WHEREAS, it is inadvisable to change the present representation in the Senate, but it is just that one branch of the Legislature should have representation according to the voting population, following to a certain extent the precedent of the Congress of the United States; provided, however, that the present representation from each district shall not be reduced;

THEREFORE, BE IT RESOLVED by the Senate of the Territory of Hawaii, the House of Representatives concurring, that the Congress of

the United States is requested to amend the Organic Act so that the representation in the House of Representatives shall be based on one representative from each district for each seven hundred and fifty registered voters in the respective district, as shown by the general county register on the first day of January, 1918, and every six years thereafter; provided, however, that the representation from the several districts shall at no time be less than:

In the 1st Representative District, 4;
“ 2nd “ “ 4;
“ 3rd “ “ 6;
“ 4th “ “ 6;
“ 5th “ “ 6;
“ 6th “ “ 4;

and further provided, that the Senate shall at all times consist of the following:

In the 1st Senatorial District, 4;
“ 2nd “ “ 3;
“ 3rd “ “ 6;
“ 4th “ “ 2.

BE IT FURTHER RESOLVED, that a copy of this Resolution be forwarded to the President of the United States, the President of the Senate and the Speaker of the House of Representatives of the Congress of the United States, and the Delegate to Congress from Hawaii.

JUDICIARY COMMITTEE.

By ALFRED L. CASTLE, Chairman.

Upon motion by Senator Castle, seconded by Senator Kamauoha, the resolution was adopted.

Senator Castle, for the Committee on Judiciary, presented a report (Stand. Com. Rep. No. 368), recommending that House Bill No. 96, entitled: “An Act to amend Act 221 of the Session Laws of Hawaii, 1915, entitled: ‘An Act relating to compensation to employees for personal injuries sustained in the course of their employment,’ by amending Section 1, 12, 13, 14, 30, 31, 34, 39, 45, 47, 49 and 60 thereof,” be passed with certain amendments. The report was read by the Clerk as follows:

Honolulu, T. H., April 23, 1917.

Honorable Charles F. Chillingworth,
President of the Senate.

Sir:—Your Judiciary Committee, to which was referred House Bill No. 96, entitled: “An Act to amend Act 221 of the Session Laws of Hawaii, 1915, entitled: ‘An Act relating to compensation to employees for personal injuries sustained in the course of their employment,’ by amending Sections 1, 12, 13, 14, 30, 31, 34, 39, 45, 47, 49 and 60 thereof,” begs leave to report as follows:

This bill amends certain sections of the compensation act. Many of the amendments are merely minor amendments. Section 1, being Section 1 of the Act of 1915, extends the Act to cover diseases proximately caused by such employment or resulting from the nature of such employment. Section 3, being Section 12 of the Act, changes the amount of medical attendance the employer is required to furnish under the Act from fifty dollars with a time limit of fourteen days to an amount of

two hundred dollars with no limit as to time. The Committee feels that two hundred dollars is rather high and recommends amending Section 3 by striking out the words and figures "two hundred dollars \$200.00)" in line 6 of said section and inserting in lieu thereof "one hundred and fifty dollars (\$150.00)." Section 4, being Section 13 of the Act, provides for the payment of compensation immediately after the accident occurs instead of fourteen days as under the original Act. This is, perhaps, the most important change suggested. There are only two states which allow compensation from the date of the injury. The majority of the states provide for a waiting period of two weeks as under our original Act, which was the uniform Act recommended by the Committee on Uniformity of Legislation of the American Bar Association. The idea of the waiting period is to prevent what is known as malingering, or in other words, feigning injury. It has been the experience of insurance companies here that people who claim they are injured, when after a few days find out they are not receiving compensation, suddenly revive and go to work. On the other hand, there are instances where relief should start earlier. Five of the states which have the two weeks waiting period have recently cut this period down to one week. None of the states which have a waiting period have cut it out entirely. The Committee after careful consideration feels that the waiting period should be one week and not two weeks as under the original bill, and recommends inserting after the word "disability" at the end of line 4 of Section 4, the words ", but not including the first seven days thereof,". There is a minor typographical error in the list of permanent disabilities in the same section in the disability marked "5" where the words "or of" appear before the words "one arm," and the Committee recommends striking out the words "or of" and inserting in lieu thereof the word "and".

Section 5, being Section 14 of the Act, provides a list of permanent partial disabilities which, from the experience of the Board, should be included in the Act.

Section 6, being Section 30 of the Act, attempts to cut out agreements between the employer and employee to accept a lesser sum than is provided by the Act unless these agreements are approved by the Board. A proviso, however, at the end of the section provides that even if the agreement is made, unless it is questioned within one year after its date, it shall be final. The Committee is opposed to any agreement to pay a lesser sum unless the sum is approved by the Board, and therefore recommends striking out the entire proviso at the end of Section 6.

In Section 7, being Section 31 of the Act, there is a slight omission and the Committee recommends inserting after the words "Section 31," in line 3 of Section 7, the word "award".

Section 8, being Section 34 of the Act, cuts out the three dollars allowed to the doctor as this fee has been found to be too low.

Section 12, being Section 49 of the Act, provides for a standard form of insurance policies. It takes a long time to get out these forms and the Committee recommends inserting before the last paragraph of Section 12 the words "From and after the thirtieth day of June, 1918,".

Section 13, being Section 60 of the Act, further defines the word "employment" making it cover professionals excepting the legal or medical professions. The Committee sees no reason for making any special exception for any one or two professions and therefore recommends striking out the words in paragraph "e" of Section 13, "excepting the legal or medical professions."

With the foregoing amendments, the Committee recommends the passage of the bill.

Respectfully submitted,

JUDICIARY COMMITTEE.

ALFRED L. CASTLE, Chairman;
J. H. CONEY,
G. P. KAMAUOHA,
R. H. MAKEKAU,
WM. T. ROBINSON.

Upon motion by Senator Castle, seconded by Senator Correa, the report was adopted. House Bill No. 96 thereupon passed Second Reading as amended.

Senator Castle, for the Committee on Judiciary, presented a report (Stand. Com. Rep. No. 369), recommending that House Bill No. 106, entitled: "An Act to amend Sections 2469 and 2470 of the Revised Laws of Hawaii, 1915, relating to exemptions," be passed with certain amendments. The report was read by the Clerk as follows:

Honolulu, T. H., April 23, 1917.

Honorable Charles F. Chillingworth,
President of the Senate.

Sir:—Your Judiciary Committee, to which was referred House Bill No. 106, entitled: "An Act to amend Sections 2469 and 2470 of the Revised Laws of Hawaii, 1915, relating to exemptions," begs leave to report as follows:

This bill proposes to raise the exemptions from forced sale of a lot of land owned by a housekeeper, changing the law which was last amended in 1876. The exemption under the old law is one-half an acre provided the value thereof shall not exceed two hundred and fifty dollars.

Land values have risen considerably since then and the Committee does not feel the exemptions proposed in the House Bill, that is to say: a piece of land not to exceed one acre, provided the value thereof shall not exceed one thousand dollars, is excessive.

The Committee, however, does not approve of the high exemptions relating to personal property as it undoubtedly would result in a party being able to avoid his just debts to that amount.

The Committee recommends amending the title to read: "An Act to amend Section 2469 of the Revised Laws of Hawaii, 1915, relating to exemptions."

Strike out all of Section 2 and renumber Section 3 "Section 2" and have it read as follows: "Section 3. This Act shall take effect upon its approval."

As thus amended, the Committee recommends the passage of the Bill.

Respectfully submitted,

JUDICIARY COMMITTEE.

ALFRED L. CASTLE, Chairman;
J. H. CONEY,
G. P. KAMAUOHA,
R. H. MAKEKAU,
WM. T. ROBINSON.

Upon motion by Senator Castle, seconded by Senator Correa, the report was adopted. House Bill No. 106 thereupon passed Second Reading, as amended.

Senator Castle, for the Committee on Judiciary, presented a report (Stand. Com. Rep. No. 370), recommending that House Bill No. 402, entitled: "An Act to amend Section 3732 of the Revised Laws of Hawaii, 1915, relating to bail," be passed with certain amendments. The report was read by the Clerk as follows:

Honolulu, T. H., April 23, 1917.

Honorable Charles F. Chillingworth,
President of the Senate.

Sir:—Your Judiciary Committee, to which was referred House Bill No. 402, entitled: "An Act to amend Section 3732 of the Revised Laws of Hawaii, 1915, relating to bail," begs leave to report as follows:

This Act provides that in all misdemeanor cases cash bail may be given for the prisoner. As a matter of fact, in a great majority of misdemeanor cases cash bail is deposited and there is no reason why it should not be.

The Committee, however, feels that cash bail might well relate to more than misdemeanor cases.

The Committee recommends striking out the last sentence of Section 1 and inserting in lieu thereof the following: "It is provided, however, that the prisoner, or any person in his behalf, at any time after the amount of the bail has been fixed by competent authority, instead of giving bail with sureties as above provided, may deposit with the clerk of the court, or with such other authority having jurisdiction to fix the amount of the bail as in this chapter provided, an amount of money equal to the amount of bail so fixed by such authority, and such sum of money so deposited shall be held and dealt with, by the court having jurisdiction thereof, as security for the appearance of the said prisoner for trial in the same manner as though the said prisoner had entered into a recognizance for his appearance as in this chapter provided."

As thus amended, the Committee recommends the passage of the bill.

Respectfully submitted,

JUDICIARY COMMITTEE.

ALFRED L. CASTLE, Chairman;
J. H. CONEY,
G. P. KAMAUOHA,
R. H. MAKEKAU,
WM. T. ROBINSON.

Upon motion by Senator Castle, seconded by Senator Kamauoha, the report was adopted. House Bill No. 402 thereupon passed Second Reading as amended.

Senator Castle, for the Committee on Judiciary, presented a report (Stand. Com. Rep. No. 371), recommending that House Concurrent Resolution No. 14, authorizing the Board of Agriculture and Forestry to promulgate rules and regulations for the protection of the bird, animal and vegetable life, be tabled. The report was read by the Clerk as follows:

Honolulu, T. H., April 23, 1917.

Honorable Charles F. Chillingworth,
President of the Senate.

Sir:—Your Judiciary Committee, to which was referred House Concurrent Resolution No. 14, begs leave to report as follows:

This Concurrent Resolution authorizes and directs the Board of Agriculture and Forestry to promulgate such rules and regulations as will afford protection to certain sea-birds on small islands along our coast. Unfortunately the Board of Agriculture and Forestry has not the authority to promulgate rules and regulations relating to these tropical birds.

A bill, however, has been introduced in the Senate to cover the point. The Committee therefore recommends the tabling of the resolution.

Respectfully submitted,

JUDICIARY COMMITTEE.

ALFRED L. CASTLE, Chairman;
J. H. CONEY,
G. P. KAMAHOA,
R. H. MAKEKAU,
WM. T. ROBINSON.

Upon motion by Senator Castle, seconded by Senator Kamaoha, the report was adopted. House Concurrent Resolution No. 14 was thereupon ordered tabled.

Senator Castle, for the Committee on Judiciary, presented a report (Stand. Com. Rep. No. 372), recommending that House Concurrent Resolution No. 23, relating to church organizations and societies who have occupied government lands for church purposes, be adopted with certain amendments. The report was read by the Clerk as follows:

Honolulu, T. H., April 23, 1917.

Honorable Charles F. Chillingworth,
President of the Senate.

Sir:—Your Judiciary Committee, to which was referred House Concurrent Resolution No. 23, relating to church organizations and societies who have occupied government lands for church purposes, begs leave to report as follows:

This resolution requests the Commissioner of Public Lands to issue to church organizations and societies occupying and using government lands and whose claim of title thereto is legitimate under the Organic Act patents for those sites. The church organizations have in many instances failed to obtain their patents due to ignorance.

The resolution further provides that in case church organizations and societies shall not be entitled, the Commissioner of Public Lands is requested to set aside suitable lots for the purposes of such churches or societies.

The Committee agrees with the first feature of the resolution, but not with the last. The Committee recommends striking out all after the

word "legitimate" in line 7 of the resolving clause and inserting in lieu thereof "under the provisions of the Organic Act."

As thus amended the Committee recommends the adoption of the Concurrent Resolution.

Respectfully submitted,

JUDICIARY COMMITTEE.

ALFRED L. CASTLE, Chairman;
J. H. CONEY,
G. P. KAMAUOHA,
R. H. MAKEKAU,
WM. T. ROBINSON.

Upon motion by Senator Castle, seconded by Senator Correa, the report was adopted. House Concurrent Resolution No. 23 was thereupon adopted as amended.

Senator Coney, for the Committee on Military, presented a report (Stand. Com. Rep. No. 373), recommending that House Bill No. 421, entitled: "An Act providing for the registration of certain vessels operated in the waters of the Territory of Hawaii," be passed. The report was read by the Clerk as follows:

Honolulu, T. H., April 23, 1917.

Hon. Chas. F. Chillingworth,
President of the Senate.

Sir:—Your Committee on Military, to which was referred House Bill No. 421, introduced by Representative N. K. Lyman, being "An Act providing for the registration of certain vessels operated in the waters of the Territory of Hawaii," has given the same due and careful consideration, and begs leave to report as follows:

The purpose of the bill is to compel the registration of vessels of fifteen tons or less, which operate in the waters of the Territory of Hawaii, which are propelled in whole or in part by steam, gas, gasoline, petroleum, kerosene, naptha, fluid or electricity.

A bill which has become law setting out similar regulations covering the registration of fishing boats and the numbering of the same gives the authorities, particularly the naval authorities, a better check on such boats operating in our waters.

Under existing circumstances, your committee feels that Bill 421 more particularly sets out the requirements of owners or persons in control of vessels of the class designated in said bill other than fishing boats, and gives the naval officials an opportunity to have better supervision of boats of the class defined in this bill.

Your Committee therefore respectfully recommends that the bill do pass.

J. H. CONEY, Chairman;
S. L. DESHA,
M. C. PACHECO.

Upon motion by Senator Coney, seconded by Senator Makekau, the

report was adopted. House Bill No. 421 thereupon passed Second Reading.

Senator Coney, for the Committee on Military, presented a report (Stand. Com. Rep. No. 374), recommending that House Bill No. 430, entitled: "An Act to amend Section 1 of Act 199 of the Session Laws of 1915, relating to the vacation of public employees," be passed. The Report was read by the Clerk as follows:

Honolulu, T. H., April 23, 1917.

Hon. Chas. F. Chillingworth,
President of the Senate.

Sir:—Your Committee on Military, to which was referred House Bill No. 430, introduced by Representative Robert Ahuna, being "An Act to amend Section 1 of Act 199 of the Session Laws of 1915, relating to the vacation of Public employees," has given the same due and careful consideration, and begs leave to report as follows:

This bill seeks to legalize the payment of the salary of territorial, county and city and county employees while on their vacation, provided such employees have been continuously employed for at least one year, and for each year thereafter while he remains in the employ of a department of the territorial, county and city and county governments.

Your Committee finds that the general rule is for the heads of the different departments to grant government employees at least two weeks vacation each year under full pay, although the payment of such employees during the time they are on vacation is not authorized by law.

A bill of this nature passed both houses last session but before it reached the Governor for his signature, it was discovered that it also included teachers, they already were entitled to pay during their full vacation, the Bill was reconsidered and tabled.

Your Committee feels that the present Bill No. 430 is a good measure and respectfully recommends that it do pass.

J. H. CONEY, Chairman;
S. L. DESHA,
M. C. PACHECO.

Upon motion by Senator Coney, seconded by Senator Desha, the report was adopted. House Bill No. 430 thereupon passed Second Reading.

Senator Hind, for the Committee on Agriculture and Forestry, presented a report (Stand. Com. Rep. No. 375), recommending that House Bill No. 378, entitled: "An Act to authorize the Secretary of Hawaii to make final disposition of the Hawaii Building at the Panama-Pacific Exposition," be passed. The report was read by the Clerk as follows:

Honolulu, T. H., April 23, 1917.

Honorable Charles F. Chillingworth,
President of the Senate.

Sir:—Your Committee on Agriculture and Forestry, to whom was referred House Bill No. 378, entitled: "An Act to authorize the Secretary of Hawaii to make final disposition of the Hawaii Building at the Panama-Pacific Exposition," begs leave to report as follows:

The purpose of this bill is to give the Secretary of Hawaii the authority to execute a deed of gift of the Hawaii Building and its contents, upon the grounds of the Panama-Pacific Exposition at San Francisco, California, to the Exposition Preservation League, or to such other organization, corporation or individual as may seem proper, in trust for the City and County of San Francisco.

Your Committee after careful consideration recommends that the bill be passed.

GEO. P. COOKE,
E. W. QUINN.

Upon motion by Senator Hind, seconded by Senator Cooke, the report was adopted. House Bill No. 378 thereupon passed Second Reading.

Senator Hind, for the Committee on Agriculture and Forestry, presented a report (Stand. Com. Rep. No. 376), recommending that House Bill No. 431, entitled: "An Act creating a commission to administer funds for relief of dependents of members of the National Guard who have been called into service, and to regulate the distribution of food supplies within the Territory," be passed. The report was read by the Clerk as follows:

Honolulu, T. H., April 23, 1917.

Honorable Charles F. Chillingworth,
President of the Senate.

Sir:—Your Committee on Agriculture and Forestry, to whom was referred House Bill No. 431, entitled: "An Act creating a commission to administer funds for relief of dependents of members of the National Guard who have been called into service, and to regulate the distribution of food supplies within the Territory," begs leave to report as follows:

The purpose of this bill is to create a commission of seven members, who shall be appointed by the Governor, and to be known as the Territorial Relief Commission. Their duties shall be to administer any funds appropriated and to have the power to regulate the sale or distribution of food supplies within the Territory during such time as the United States shall be at war.

The Committee after careful consideration recommends the passage of the bill.

Respectfully submitted,

ROBT. HIND, Chairman;
GEO. P. COOKE,
E. W. QUINN.

Upon motion by Senator Hind, seconded by Senator Cooke, the report was adopted. House Bill No. 431 thereupon passed Second Reading.

Senator Cooke, for the Committee on Public Health, presented a report (Stand. Com. Rep. No. 377), recommending that Senate Bill No. 40, enti-

tion: "An Act to enact the Sanitary Code of Hawaii of 1917," be tabled. The report was read by the Clerk as follows:

Hon. Charles F. Chillingworth,
President of the Senate.

Sir:—Your Committee on Ways and Means, to which was referred House Bill No. 313, entitled: "An Act making an appropriation for the benefit of E. P. Aikue," begs leave to report as follows:

Your Committee has had this bill under careful consideration and finds that E. P. Aikue mentioned in this bill has served the government continuously for a period of 52 years and that his salary at present is \$60.00 per month as District Magistrate of Koolaupoko.

Your Committee is of the opinion that E. P. Aikue is entitled to a pension for such service, but not of the amount provided for in this bill. Your Committee would recommend that the bill pass with the following amendment:

Amend line 4, Section 1, by striking out the words and figures "sixty dollars (\$60.00)" after the words "sum of" and insert in lieu thereof the words and figures "Forty dollars (\$40.00)."

Respectfully submitted,

R. W. SHINGLE, Chairman;
H. A. BALDWIN,
E. W. QUINN,
J. H. CONEY,
ROBT. HIND.

Upon motion by Senator Shingle, seconded by Senator Correa, the report was adopted. House Bill No. 313 thereupon passed Second Reading as amended.

Senator Shingle, for the Committee on Ways and Means, presented a report (Stand. Com. Rep. No. 387), recommending that House Bill No. 433, entitled: "An Act appropriating the sum of twenty-five thousand dollars (\$25,000.00) for the pay and subsistence of officers and enlisted men of the National Guard when ordered for special duty," be passed with certain amendments. The report was read by the Clerk as follows:

Honolulu, T. H., April 23, 1917.

Hon. Charles F. Chillingworth,
President of the Senate.

Sir:—Your Committee on Ways and Means, to which was referred House Bill No. 433, entitled: "An Act appropriating the sum of twenty-five thousand dollars (\$25,000.00) for the pay and subsistence of officers and enlisted men of the National Guard when ordered for special duty," begs leave to report as follows:

Your Committee has had this bill under careful consideration and would recommend that the bill do pass with the following amendments:

Amend title so as to read, "An Act appropriating the sum of twenty-five hundred dollars (\$2,500.00) for the pay and subsistence of officers and enlisted men of the National Guard when ordered for special duty."

Amend Section 1, by striking out in the first two lines "twenty-five thousand dollars (\$25,000.00)" and inserting in lieu thereof "twenty-five hundred dollars (\$2,500.00)."

Your Committee has ascertained that the amount of \$2,500.00 will, in all probability, meet all emergency situations up to June 30, 1917, after which time appropriations already made will provide for this emergency.

Amend Section 1 by adding the following sentence: "This appropriation shall be expended by and under the authority of the Adjutant General, with the approval of the Governor."

This amendment would obviate all uncertainty as to who shall have charge of the appropriation.

Respectfully submitted,

R. W. SHINGLE, Chairman;
H. A. BALDWIN,
E. W. QUINN,
J. H. CONEY,
ROBT. HIND,

The report was read by the Clerk as follows:

Honolulu, T. H., April 23, 1917.

Hon. Charles F. Chillingworth,
President of the Senate.

Sir:—Your Committee on Ways and Means, to which was referred House Bill No. 135, entitled: "An Act to amend Section 2198 of the Revised Laws of Hawaii, 1915, relating to salaries of District Magistrates," begs leave to report as follows:

Your Committee has had this bill under careful consideration and recommends that it do pass with the following amendments:

Amend "District Magistrate, Wailuku, \$2,100," by striking out the figures "2,100.00" and insert in lieu thereof the figures "1,920.00."

Amend "District Magistrate, Hana, 1,080.00" by striking out the figures "1,080.00" and insert in lieu thereof the figures "1,020.00."

Amend "District Magistrate, Molokai, 900.00" by striking out the figures "900.00" and insert in lieu thereof the figures "720.00."

Your Committee makes the same recommendations for increase of salaries of District Magistrates for the County of Maui as was made by it in the case of the County of Kauai.

Respectfully submitted,

The report was read by the Clerk as follows:

Honolulu, T. H., April 24, 1917.

Honorable Charles F. Chillingworth,
President of the Senate.

Sir:—Your Judiciary Committee, to which was referred Senate Bill No. 66, entitled: "An Act to amend Sections 1793, 1794, 1795, 1796, 1797, 1798, 1799 and 1800 of the Revised Laws of Hawaii, 1915, as amended by Act 164 of the Session Laws of 1915, relating to the opening and improvement of highways," begs leave to report as follows:

This bill was carefully considered in connection with House Bill No. 340 on which a full report is submitted.

The Committee therefore recommends the bill be tabled.

Respectfully submitted,

JUDICIARY COMMITTEE.

ALFRED L. CASTLE, Chairman;
J. H. CONEY,
G. P. KAMAUOHA,
R. H. MAKEKAU,
WM. T. ROBINSON.

Upon motion by Senator Castle, seconded by Senator Kamauoha, the report was adopted. Senate Bill No. 66 was thereupon ordered tabled.

Senator Castle, for the Committee on Judiciary, presented a report (Stand. Com. Rep. No. 390), recommending that House Bill No. 125, entitled: "An Act relating to the use of water from artesian wells," be passed with certain amendments. The report was read by the Clerk as follows:

Honolulu, T. H., April 24, 1917.

Honorable Charles F. Chillingworth,
President of the Senate.

Sir:—Your Judiciary Committee, to which was referred House Bill No. 125, entitled: "An Act relating to the use of water from artesian wells," begs leave to report as follows:

The object of this bill is to prevent waste by artesian wells. A well which is not capped, cased, equipped or furnished with such mechanical appliance as will readily and effectively arrest and prevent the flow of any water from such well is declared to be a public nuisance, and the person permitting such nuisance to continue is guilty of a misdemeanor. The Act defines "waste" and provides that each day's continuance of such waste after notice by the supervisors or other constituted authority constitutes a new offense. The sheriff and his officers or any authorized representative of the county or the Superintendent of Hydrography may enter the premises for the purpose of inspection.

There is one part of the Act, however, with which the Committee does not agree; namely, the last sentence in Section 3. This prevents the use of any water for domestic or garden purposes from a private well within any area which is served by a waterworks in an amount greater than, or at a time period other than, fixed for domestic or garden use by rule of the waterworks or other constituted authority. As waste is clearly defined, this provision is, to a certain extent, in conflict with the general purpose of the bill; and the Committee recommends striking out the last sentence of Section 3.

There is a question as to the constitutionality of this Act and there is a section providing that if any section, sub-section, sentence, clause or phrase of the Act is for any reason held to be unconstitutional, such decision shall not affect the validity of the remaining portions of the Act.

The Committee recommends the passage of the Bill with the amendment to Section 3 above referred to.

Respectfully submitted,

JUDICIARY COMMITTEE.

ALFRED L. CASTLE, Chairman;
J. H. CONEY,
G. P. KAMAUOHA,
R. H. MAKEKAU,
WM. T. ROBINSON.

Upon motion by Senator Castle, seconded by Senator Kamauoha, the report was adopted. House Bill No. 125 thereupon passed Second Reading by title.

Senator Castle, for the Committee on Judiciary, presented a report (Stand. Com. Rep. No. 391), recommending that House Bill No. 260, entitled: "An Act to amend Section 168 of the Revised Laws of Hawaii, 1915, forbidding officers and employees of the Territory, or political subdivisions thereof, to become interested in public contracts," be passed. The report was read by the Clerk as follows:

Honolulu, T. H., April 24, 1917.

Honorable Charles F. Chillingworth,
President of the Senate.

Sir:—Your Judiciary Committee, to which was referred House Bill No. 260, entitled: "An Act to amend Section 168 of the Revised Laws of Hawaii, 1915, forbidding officers and employees of the Territory, or political subdivisions thereof, to become interested in public contracts," begs leave to report as follows:

This bill provides that the Section forbidding officers and employees of the Territory or counties to become interested in public contracts shall not prohibit any member of the Legislature from bidding in open competition with others for the purchase or sale of any property or the performance of any work set forth in the section.

The Committee feels that it is unreasonable to prevent members of the Legislature from bidding where the competition is open, and recommends the passage of the bill.

Respectfully submitted,

JUDICIARY COMMITTEE.

ALFRED L. CASTLE, Chairman;
J. H. CONEY,
G. P. KAMAUOHA,
R. H. MAKEKAU,
WM. T. ROBINSON.

Upon motion by Senator Castle, seconded by Senator Kamauoha, the report was adopted. House Bill No. 260 thereupon passed Second Reading.

Senator Castle, for the Committee on Judiciary, presented a report (Stand. Com. Rep. No. 392), recommending that House Bill No. 340, entitled: "An Act to amend Sections 1793, 1794, 1795, 1796, 1798, 1799, 1800, 1801, 1805, 1806, 1807, and repealing Section 1797 of the Revised Laws of Hawaii, 1915, as amended by Act 164 of the Session Laws of 1915, relating to the opening and the improving of new or existing highways in the District of Honolulu, City and County of Honolulu," be passed with certain amendments. The report was read by the Clerk as follows:

Honolulu, T. H., April 24, 1917.

Honorable Charles F. Chillingworth,
President of the Senate.

Sir:—Your Judiciary Committee, to which was referred House Bill No. 340, entitled: "An Act to amend Sections 1793, 1794, 1795, 1796,

1798, 1799, 1800, 1801, 1805, 1806, 1807, and repealing Section 1797, of the Revised Laws of Hawaii, 1915, as amended by Act 164 of the Session Laws of 1915, relating to the opening and the improving of new or existing highways in the District of Honolulu, City and County of Honolulu," begs leave to report as follows:

The main changes proposed in the frontage tax law, outside of merely changes in procedure, are: 1st, the provision that the City and County is to pay thirty-three and a third per cent of the cost of the improvement; 2nd, the provision striking out Section 1797, which is the Section relating to the power of sixty per cent of the owners of the frontage upon any street to petition for the opening or improvement of any highway.

The first amendment, relating to the thirty-three and a third per cent, seems fair. In other words, the county would pay one-third and the owners on each side of the street would pay one-third. The objection is that the county has not enough money to pay this amount. As a matter of fact, the county should pay a certain amount on street improvements and the percentage suggested seems fair to the Committee.

As long as we are providing that the county must pay a certain amount, then of necessity we must strike out the Section 1797 hereinabove referred to; otherwise, it would be possible to swamp the county with improvements which are not for the majority of the public.

Certain improvement projects have been started, however, under the provisions of Section 1797 and partially carried through. If the county is obliged to pay one-third on these projects, the county ought to have the right to stop these projects at once, for several of the projects would not be carried on if the county had to pay one-third. This is particularly true in the case of projects such as the Beach Walk improvement where the owners are to pay practically one hundred per cent. They are willing to do this and the county would not do so if they were obliged to pay the one-third.

The Committee therefore recommends inserting after Section 12 a new Section to be numbered Section 13 and to read as follows: "SECTION 13. Section 1 to 5 of this Act, both inclusive, shall not apply to any frontage improvement or improvement district as to which a public hearing under Sections 1793 to 1813 of the Revised Laws of Hawaii, 1915, as amended by Act 164 of the Session Laws of 1915, has been finally held."

Renumber Section 13 to be Section 14.

As thus amended, the Committee recommends the passage of the bill.

Respectfully submitted,

JUDICIARY COMMITTEE.

R. H. MAKEKAU,
WM. T. ROBINSON.

Upon motion by Senator Castle, seconded by Senator Correa, the report was adopted. House Bill No. 340 thereupon passed Second Reading as amended.

Senator Castle, for the Committee on Judiciary, presented a report (Stand. Com. Rep. No. 393), recommending that House Bill No. 434, entitled: "An Act relating to the disposition of personal property belonging to the Territory of Hawaii," be passed. The report was read by the Clerk as follows:

Honolulu, T. H., April 24, 1917.

Honorable Charles F. Chillingworth,
President of the Senate.

Sir:—Your Judiciary Committee, to which was referred House Bill No. 434, entitled: "An Act relating to the disposition of personal property belonging to the Territory of Hawaii," begs leave to report as follows:

This Bill provides a means for disposing of personal property belonging to the Territory of Hawaii, creating the treasurer and the Superintendent of Public Works a board of disposal.

There is no way under the law at present by which personal property belonging to the Territory can be sold or otherwise disposed of.

The Committee recommends the passage of the bill.

Respectfully submitted,

JUDICIARY COMMITTEE.

ALFRED L. CASTLE, Chairman;
J. H. CONEY,
G. P. KAMAUOHA,
R. H. MAKEKAU,
WM. T. ROBINSON.

Upon motion by Senator Castle, seconded by Senator Kamauoha, the report was adopted. House Bill No. 434 thereupon passed Second Reading.

Senator Desha, for the Committee on Public Health, presented a report (Stand. Com. Rep. No. 394), recommending that House Concurrent Resolution No. 29, authorizing the Commissioners of Public Instruction to establish courses of training in truck-gardening and farming in the public schools of the Territory of Hawaii, be tabled. The report was read by the Clerk as follows:

Honolulu, T. H., April 24th, 1917.

Hon. Chas. F. Chillingworth,
President of the Senate.

Sir:—Your Committee on Education, to whom was referred House Concurrent Resolution No. 29, relating to authorizing the commissioners of public instruction to establish courses of training in truck-gardening and farming in the public schools of the Territory of Hawaii, begs leave to report as follows:

Your Committee has had the same under careful consideration and finds that the object of this resolution is evidently to increase the utilization and conservation of all sources of food supply in this Territory by inaugurating courses in truck-gardening and farming in the public schools and directing the commissioners of public instruction to establish courses in training in said farming and that teachers shall have charge of such work not only at the school gardens but also at the respective homes of the children and allowing said teachers in charge of such work extra Ten Dollars (\$10.00) per month as traveling expenses.

A concurrent resolution has not the force and effect of law and therefore cannot authorize the appropriating of any money.

The Superintendent of Public Instruction thinks that this resolution

would mean the appointment of new teachers in courses in agriculture in many schools which would not be feasible. The Department of Public Instruction is already carrying on such truck-gardening and farming in many of the public schools and with great success in many instances, and the department believes that this resolution would not in any wise increase its efficiency.

Your Committee therefore recommends that this resolution be tabled.

Respectfully submitted,

EDUCATION COMMITTEE.

S. L. DESHA, Chairman;
ALFRED L. CASTLE,
GEO. P. COOKE.

Upon motion by Senator Desha, seconded by Senator Cooke, the report was adopted. House Concurrent Resolution No. 29 was thereupon ordered tabled.

Senator Shingle, for the Committee on Ways and Means, presented a report (Stand. Com. Rep. No. 395), recommending that House Bill No. 282, entitled: "An Act to amend Section 1323 of Chapter 95 of the Revised Laws of Hawaii, 1915, relating to inheritance tax," be passed. The report was read by the Clerk as follows:

Honolulu, T. H., April 23, 1917.

Hon. Charles F. Chillingworth,
President of the Senate.

Sir:—Your Committee on Ways and Means, to which was referred House Bill No. 282, entitled: "An Act to amend Section 1323 of Chapter 95 of the Revised Laws of Hawaii, 1915, relating to inheritance tax," begs leave to report as follows:

Your Committee has had this bill under careful consideration and finds that this bill provides for a slight increase in the present inheritance tax rate. This bill is a slight modification of the recommendations of the Tax Commission appointed under the laws of 1915, and has the approval of said Commission.

Your Committee would therefore recommend that the bill do pass.

Respectfully submitted,

ROBERT W. SHINGLE, Chairman;
H. A. BALDWIN,
E. W. QUINN,
J. H. CONEY,
ROBT. HIND.

Upon motion by Senator Shingle, seconded by Senator Desha, the report was adopted. House Bill No. 282 thereupon passed Second Reading.

Senator Cooke, for the Committee on Public Health, presented a report (Stand. Com. Rep. No. 396), recommending that House Bill No. 447, entitled: "An Act to amend Sub-section (b) of Section 992 of the Revised

Laws of Hawaii, 1915, relating to food," be passed with certain amendments. The report was read by the Clerk as follows:

Honolulu, T. H., April 24, 1917.

Hon. Charles F. Chillingworth,
President of the Senate.

Sir:—Your Health Committee, to which was referred House Bill No. 447, entitled: "An Act to amend Sub-section (b) of Section 992 of the Revised Laws of Hawaii, 1915, relating to food," begs leave to report as follows:

Your Committee after careful consideration and a hearing with some of the local manufacturers of ice-cream, representatives of the Board of Health and officers of the Federal Bureau of Pure Food, finds as follows:

That the manufacturers of ice-cream cannot obtain enough cream from local dairies for their business; that substitutes have necessarily been used in the past; and further that the proposed amendment to the Sub-section (b) of Section No. 992 of the Revised Laws, 1915, will allow the making of ice-cream with pure dairy products.

Your Committee recommends the passage of the bill with the following amendment:

On page No. 2, line No. 15, after the words "'vegetable gum," add the following:

"(the milk substances permitted are milk, cream, butter, condensed milk, and skimmed milk. President of the Senate,

Yours very truly,

WADE WARREN THAYER,
Secretary of Hawaii.

A message from the Governor (Gov. Mess. No. 6), returning House Bill No. 354, entitled: "An Act incorporating the City and County of Honolulu and providing for the government thereof," unsigned and disapproved, was read by the Clerk as follows:

April 24, 1917.

To the Legislature:

I have endeavored to persuade, almost to force, my judgment and conscience to believe "H. B. 354, An Act incorporating the City and County of Honolulu and providing for the government thereof" to be for the best good of the City and County of Honolulu, for the Territory of Hawaii and for the Federal Government in its peculiarly intimate relations with the Island, Oahu, but I cannot so persuade or force, hence I return the Act unsigned and disapproved for the following reasons:

I wish to say that in my ensuing statements I refer to no individual concerned in the past, present or future.

I have endeavored to inform myself as to the various so-called reform municipal governments, and venture to assert that, in the ultimate analysis of every one of them, the success or failure—and there have been more failures than successes—rests in the character, ability, experience, common sense, devotion and integrity of those elected or appointed to office, and but slightly due the forms prescribed by law.

You have, under the present charter, full opportunity to secure good government.

Under the proposed Act, you have an opportunity to have good government solely if you elect good men, or to have the worst possible government entrenched almost beyond attack.

In this act the attempt is made to combine legislative, presiding, deciding and executive functions in one man, the Mayor, a most unprecedented and dangerous combination.

The Mayor, if he performs strictly his legislative function, must take part and sides in discussing legislation and appropriations.

The Mayor, in consequence, would become, from a legal and sound viewpoint, incompetent to decide a tie in the proceedings of the Board of Supervisors, and moreover he could not fail, in the position in which he is placed in deciding ties, to be a biased arbiter or stultify his position as a legislator.

The Mayor, instead of acting as an adviser and arbiter on appropriations, must be partizan in his function as a legislator in the Board of Supervisors.

The Mayor, as a legislator, must pass on the confirmation of his own appointees. This to my mind is untenable in good government.

There are some strange features in this Act.

In the Superintendent of City Works is created a far more powerful official than even the Mayor. Important and powerful as he is, this Act, while it provides for a bond of \$25,000.00, fails to name the salary he is to receive or indicate why no specific provision is made by which the salary is to be determined. Simply to leave it to a combination of three members of the Board of Supervisors and the Mayor in his legislative capacity can hardly be designated as prudent government.

The Superintendent of City Works, as I read the Act, is immune to official or citizen recall and to impeachment, because he is not elected. I note but one way he can be reached and that is the Mayor's power of suspension and removal.

I believe it is unnecessary for me to go into further details as to this paramount City and County office, although other points might be raised.

The island, Oahu, in other words the City and County of Honolulu, is becoming a trinity of interests, which fact, I fear at times, is being intentionally overlooked and will continue to be until a rude awakening is forced. The components are the Federal Government as represented by the Army and Navy; the Territory of Hawaii, which is responsible for large and growing indebtedness of counties; and the City and County of Honolulu, differentiated in powers from the other counties.

If the present plans of the Army and Navy now in progress are continued, and there is no indication of a change but the reverse, the Federal Government will become in expenditures by great odds paramount to any political subdivision, branch of government, or corporate or private interests in this Territory.

The Federal Government is primarily interested in health conditions, sanitation and highways.

To date, although the subject has been not infrequently called to their attention, no county officials has approached the Commander of the Hawaiian Department or the military head of the Corps of United States Engineers relative to highways, although their tentative plans overshadow those of the City and County.

H. B. 354 is incomplete without some mandatory provisions to secure absolute preliminary inter-information between City and County officials and the Hawaiian Department and their coöperation in matters of mutual concern.

An agricultural island, largely mountainous, of only 598 square miles in area, is too small to permit of the degree of autonomous and conflicting divisions of government proposed without absolute coöperation.

The Act under consideration does not specifically repeal the existing Charter, but only repeals all Acts or parts of Acts in conflict therewith, either directly or by implication.

While not of legal education, I apprehend the phrase—"in conflict therewith either directly or by implication" would not prevent, but rather invite appeals to the courts for decisions or interpretations of disputed inconsistencies and uncertainties, hence it would seem time should be taken to present a text free from possibilities of dispute.

There is no provision for Repeal of Ordinances in H. B. 354. The provisions of Section 1653, R. L. H. 1915, are still in force.

The provisions relating to bonds of public officers are left in a very uncertain state. Several sections of Chapter 111, R. L. H. 1915, relating to such bonds were repealed and amended by Act 67, S. L. 1915. This seems not to have been noted by the framers of the new Act.

The Mayor's Power of Veto, as granted by Sections 1648-1651, R. L. H. 1915, is not specifically denied him by the new Act. The law is therefore left in such indefinite state that ordinances and appropriations might be attacked.

The new charter is inconsistent in itself in certain particulars. For example, by Section 25 it is provided that the officers of the City and Coun-

ty of Honolulu must have resided for at least two years in the City and County before their election. By Section 78 of the Deputy Auditor is required to have the qualifications of the Auditor; by Section 96 the Deputy Treasurer is required to have the qualifications of the Treasurer; by Section 108 the Deputy Clerk is required to have the qualifications of the Clerk, but by Section 123 it is provided that all Deputies, Clerks, Assistants and other employes of the City and County must have resided in the City and County for one year next preceding their appointment.

The Act is full of grammatical errors.

From the above brief analysis of the Act under consideration, you will realize that from my point of view, approval of same is impossible.

Respectfully,

LUCIUS E. PINKHAM,
Governor of Hawaii

The report was read by the Clerk as follows:

Honolulu, T. H., April 23, 1917.

Hon. Charles F. Chillingworth,
President of the Senate.

Sir:—Your Committee on Ways and Means, to which was referred House Bill No. 124, entitled: "An Act for the construction of the road to Waipio Valley out of the permanent improvement fund of the Territory of Hawaii," begs leave to report as follows:

Your Committee has had the bill under careful consideration and would recommend that the same be tabled for the reason that it is not in favor of the tying up of such a large sum from the Permanent Improvement Fund, when other projects of a more vital nature to the welfare of this county demand attention.

The roads around this island and other roads which are absolutely necessary for the present traffic should first be looked after, and for the Legislature to commit this county to a policy of expending a large sum on an entirely new scheme seems unwise at this time.

Respectfully submitted,

Senator Coney, for the Committee on Military, presented a report (Stand. Com. Rep. No. 399), recommending that House Bill No. 428, entitled: "An Act to establish a fund for pensioning retired police officers, firemen and bandsmen of the counties and city and county and certain persons dependent upon them, and to regulate the collection, management and disbursement thereof," be passed with certain amendments. The report was read by the Clerk as follows:

Honolulu, T. H., April 25, 1917.

Hon. Chas. F. Chillingworth,
President of the Senate.

Sir:—Your Committee on Military, to which was referred House Bill No. 428, introduced by the Municipal Committee of the House of Representatives, being "An Act to establish a fund for pensioning retired police officers, firemen and bandsmen of the counties and city and county and certain persons dependent upon them, and to regulate the collection, management and disbursement thereof," begs leave to report as follows:

Your Committee finds that the object of the bill is to provide a pension fund for members of the police force, fire department and the band of the city and county and the respective counties for employees who have retired after service of twenty years or more, or who are disabled in line of their duty or die, whether as a result of accident incurred in line of their duty, or from natural causes, leaving dependents.

The Act is broader than the Workmen's Compensation Act in that it covers not only accidents incurred in the course of accident, disability or death, whether incurred within the course and scope of the employment or otherwise.

The theory of the act is to provide sure and certain benefits for a class of employees, whose compensation is small, yet, the best years of their lives, and the lives themselves are sacrificed in the service of the public.

Your Committee heartily approves of the principles of this act. Your

Committee feels, however, that the benefits provided for under this act should not be in addition to any benefits which might be received under the Workmen's Compensation Act, as were such an employee to receive the benefits under both acts, a situation may readily arise where the employee would receive more by way of compensation for injury or disability than the total salary he would receive if able to work.

Your Committee feels, however, that the employee or his dependents should not be deprived of the right to elect whether he or they desire to take compensation under this act or under the Workmen's Compensation Act.

Your Committee therefore recommends that the bill do pass with the following amendments:

1. Insert after the word "successor" in last sentence of Section 1 of said bill the following words "in the office of the Treasurer of the County or City and County."

2. Delete the word "of" in the second sentence of Section 3 of said bill between the words "improvement bonds" and the words "the Territory" and insert in lieu thereof the following "of any improvement district within."

3. Insert in paragraph numbered second in the sentence before last of Section 3 of said bill after the words "but all times" the word "so".

4. Delete in paragraph numbered second in Section 3 of said bill in the last sentence of said paragraph the words "upon the request of" and insert in lieu thereof the words "solely paid by".

5. Insert in paragraph numbered third of Section 3 of said bill after the words and figures "\$25.00 per month" the following words "until her death or remarriage."

6. Add at the end of Section 3 of said bill two new paragraphs reading as follows:

"Provided, however, that the benefits hereinbefore set forth shall be in lieu of any or other compensation payable to said member of such police force, fire department, or band or any of his dependents under or on account of Act 221, Session Laws of Hawaii, 1915, as amended, or any other claim or demand against the county or city and county by whom said member is employed."

"Provided, further, however, that said member of such police force, fire department or band or his dependents may at his or their election waive the benefit provided for in this act and in lieu thereof claim any compensation or benefits that would otherwise be payable to said member or his dependents under said Act 221, Session Laws of Hawaii, 1915, as amended or in any manner authorized by law."

7. Amend Section 4 of said bill by deleting the words "by a" in the sentence before the last sentence of said Section after the words "deemed proper" and insert in lieu thereof the words "by such".

8. Amend Section 8 of said bill by inserting in said section after the words "but not exceeding twenty years" the following: "and who shall be unable through sickness or other disability to support himself and his dependents."

9. Amend Section 8 of said bill by deleting the period at the end of said section and adding the following words "so long as so disabled."

Respectfully submitted,

J. H. CONEY, Chairman;
M. C. PACHECO,
S. L. DESHA.

Upon motion by Senator Coney, seconded by Senator Makekau, the

report was adopted. House Bill No. 428 thereupon passed Second Reading.

The Honorable W. R. Castle being present in the Senate Chamber was escorted to a seat beside the President.

Senator Castle, for the Committee on Judiciary, presented a report (Stand. Com. Rep. No. 400), recommending that Senate Concurrent Resolution No. 15, requesting the Congress to enact a law prohibiting the sale of liquor in the Territory of Hawaii, be tabled. The report was read by the Clerk as follows:

Honolulu, T. H., April 25, 1917.

Honorable Charles F. Chillingworth,
President of the Senate.

Sir:—Your Judiciary Committee, to which was referred Senate Concurrent Resolution No. 15, requesting Congress to enact a law prohibiting the sale of liquor in the Territory of Hawaii, begs leave to report as follows:

Section 55 of the Organic Act reads, in part, as follows: "nor shall any lottery or sale of lottery tickets be allowed; nor shall spirituous or intoxicating liquors be sold except under such regulations and restrictions as the Territorial Legislature shall provide". No one will contend under the Organic Act that a lottery would be allowed in Hawaii. If the Organic Act read "nor shall spirituous or intoxicating liquors be sold" and stopped there, no one would contend liquor could be sold. The act goes on to say that liquor may be sold under the regulations and restrictions of the Legislature. In other words, if the Territorial Legislature does not permit the sale of liquor, it could not be sold in this Territory. If we today repealed the present liquor law and there was a penalty against the sale of liquor, no liquor could be sold in this Territory.

The position taken by the concurrent resolution that Congress should enact a prohibition law is inconsistent with the position taken by this Committee and by the Senate. This Legislature and this Territory have sufficient power to deal with the entire question of prohibition, and the Committee recommends that the Resolution be tabled.

Respectfully submitted,

JUDICIARY COMMITTEE.

ALFRED L. CASTLE, Chairman;
J. H. CONEY,
G. P. KAMAUOHA,
R. H. MAKEKAU,
WM. T. ROBINSON.

Upon motion by Senator Castle, seconded by Senator Makekau, the report was adopted. Senate Concurrent Resolution No. 15 was thereupon ordered tabled.

Senator Castle, for the Committee on Judiciary, presented a report (Stand. Com. Rep. No. 401), recommending that Senate Bill No. 134, entitled: "An Act making an appropriation for the benefit of Lyons B. Nainoa," be passed with certain amendments. The report was read by the Clerk as follows:

Honolulu, T. H., April 25, 1917.

Honorable Charles F. Chillingworth,
President of the Senate.

Sir:—Your Judiciary Committee, to which was referred Senate Bill No. 134, entitled: “An Act making an appropriation for the benefit of Lyons B. Nainoa,” begs leave to report as follows:

Judge Nainoa has occupied his position for fourteen years and is now seventy-six years old. He has been a most faithful judge and there seems to be no reason why he should not be reappointed. In the event he is not reappointed, then it is only fair that he should receive a pension in the sum of thirty dollars per month. His present salary is sixty dollars per month.

The Committee recommends amending the bill by striking out the whereas clauses and inserting in Section 1 the words and figures “thirty (\$30.00)” instead of “twenty (\$20.00)” and adding to the first sentence of Section 1 “provided, however, that no payment under this Act shall be made to the said Lyons B. Nainoa as long as he holds the position of District Magistrate.”

As thus amended, the Committee recommends the passage of the bill.

Respectfully submitted,

JUDICIARY COMMITTEE.

ALFRED L. CASTLE, Chairman;
J. H. CONEY,
G. P. KAMAHOA,
R. H. MAKEKAU,
WM. T. ROBINSON.

Upon motion by Senator Makekau, seconded by Senator Kamaoha, the report was adopted. House Bill No. 134 thereupon passed Second Reading as amended.

Senator Castle, for the Committee on Judiciary, presented a report (Stand. Com. Rep. No. 402), recommending that House Bill No. 370, entitled: “An Act to forbid the selling or dealing in the capital stock or other securities of foreign corporations by persons non-resident within this Territory, or by their brokers or agents, until such non-resident persons shall have subjected themselves to the jurisdiction of Hawaiian courts and laws; to provide for the service of legal processes and notices upon such non-resident persons, and to provide penalties for the violation of this Act,” be passed. The report was read by the Clerk as follows:

Honolulu, T. H., April 25, 1917.

Honorable Charles F. Chillingworth,
President of the Senate.

Sir:—Your Judiciary Committee, to which was referred House Bill No. 370, entitled: “An Act to forbid the selling or dealing in the capital stock or other securities of foreign corporations by persons non-resident within this Territory, or by their brokers or agents, etc.,” begs leave to report as follows:

Under the present laws, brokers or other agents or any faker assuming the name of a broker or promoter may palm off on the people of this Territory all sorts of stocks in mines which were once supposed to have produced gold or other such mines or wild-cat schemes.

This bill provides that these persons shall subject themselves to the jurisdiction of Hawaiian courts and laws. The bill, although far-reaching in its effect, is, in the opinion of the Committee, a needed one; and the Committee recommends its passage.

Respectfully submitted,

JUDICIARY COMMITTEE.

ALFRED L. CASTLE, Chairman;
J. H. CONEY,
G. P. KAMAUOHA,
R. H. MAKEKAU,
WM. T. ROBINSON.

Upon motion by Senator Castle, seconded by Senator Desha, the report was adopted. House Bill No. 370 thereupon passed Second Reading.

Senator Castle, for the Committee on Judiciary, presented the majority report of the Committee (Stand. Com. Rep. No. 403), recommending that House Bill No. 383, entitled: "An Act to provide for a plebiscite by submitting to the qualified electors of the Territory of Hawaii the question of whether the importation, manufacture and sale of intoxicating liquors shall be prohibited by law, and calling for a special session of the Legislature to enact such a law in case the plebiscite shall decide in favor of such prohibition," be tabled. The report was read by the Clerk as follows:

Honolulu, T. H., April 25, 1917.

Honorable Charles F. Chillingworth,
President of the Senate.

Sir:—The majority of your Judiciary Committee, to which was referred House Bill No. 383, entitled: "An Act to provide for a plebiscite by submitting to the qualified electors of the Territory of Hawaii the question of whether the importation, manufacture and sale of intoxicating liquors shall be prohibited by law, and calling for a special session of the Legislature to enact such a law, etc.," begs leave to report as follows:

At the hearing before the Committee, the representatives of the Anti-Saloon League stated they were not in favor of the Bill as it passed the House. The main objection is that the bill attempts to compel the Governor to call a special session, which cannot be done under the Organic Act.

The majority of the Committee further feel that the present liquor laws are adequate to deal with any situation arising.

For the reasons herein indicated, we recommend that the bill be tabled.

Respectfully submitted,

Majority Members, JUDICIARY COMMITTEE.

G. P. KAMAUOHA,
R. H. MAKEKAU,
WM. T. ROBINSON.

Honolulu, T. H., April 25, 1917.

Hon. Chas. F. Chillingworth,
President of the Senate.

Sir:—Your Judiciary Committee, to which was referred House Bill No. 385, entitled: "An Act relating to public utility corporations and the assignment and transfer of their franchises and property," begs leave to report as follows:

The purpose of this bill is to allow public utility corporations on a vote of three-fourths of the shares of stock of the corporation to separate that part of the business which is strictly a public utility business from that which is not. For instance, if a public utility corporation is doing a railroad business and also a land business it will permit that corporation to divorce from its railroad business its land business, which will result in a proper segregation of the business.

The Committee, therefore, recommends the passage of the bill.

Respectfully submitted,

JUDICIARY COMMITTEE.

ALFRED L. CASTLE, Chairman;
J. H. CONEY,
G. P. KAMAUOHA,
R. H. MAKEKAU,
WM. T. ROBINSON.

Upon motion by Senator Castle, seconded by Senator Makekau, the report was adopted. House Bill No. 385 thereupon passed Second Reading.

Your Committee has had this resolution under careful consideration and finds that the object of the resolution is to ask Congress of the United States to reduce the rate of interest from 8% to 6% on rentals for homesteads held under right of purchase lease.

Your Committee is of the opinion that this matter is a meritorious one and would recommend that the Senate do concur.

Upon motion by Senator Baldwin, seconded by Senator Kamauoha, the report was adopted.

Senator Baldwin, for the Committee on Public Lands and Internal Improvements, presented a report (Stand. Com. Rep. No. 407), recommending that House Bill No. 41, entitled: "An Act to facilitate and expedite the opening and providing for the disposition of certain public lands at Waiakea, in the District of South Hilo, County of Hawaii," be adopted with certain amendments. The report was read by the Clerk as follows:

Honolulu, T. H., April 25, 1917.

Hon. Charles F. Chillingworth,
President of the Senate.

Sir:—Your Committee on Public Lands and Internal Improvements, to which was referred House Bill No. 41, entitled: "An Act to facilitate and expedite the opening and providing for the disposition of certain public lands at Waiakea, in the District of South Hilo, County of Hawaii," after much thought and careful consideration of this bill, begs leave to report as follows:

The bill seeks first to open up for homesteading forthwith, or as soon as the crops of cane now maturing are taken off by the plantation, a tract of 2,000 acres comprised in the government land now occupied by the Waiakea Sugar Company of Hawaii, except that such portion of said 2,000 acre tract bordering on Kilauea Avenue shall be laid out for residence lots, and, second, that all the remaining area comprised in the plantation be opened up for homesteaders as soon as it is available. Believing that the Waiakea lands present an ideal opportunity for trying out homesteading of sugar lands, but at the same time believing that the plantation itself should be kept a going concern in order that the homesteader will have a market for his cane, we recommend the passage of the bill amended, as per draft, hereto attached and made a part hereof.

At the same time we wish to call attention to the fact that the 2,000 acre tract to be opened up is the cream of the plantation, and that satisfactory arrangements must be made by the Commissioner of Public Lands with the Waiakea Mill Company for the surrender of the land as soon as the growing crops of cane thereon are harvested or the provisions of the bill can not be carried out.

Respectfully submitted,

H. A. BALDWIN, Chairman;
ROBT. HIND,
M. C. PACHECO,
S. L. DESHA,
ROBERT W. SHINGLE.

AN ACT

TO FACILITATE AND EXPEDITE THE OPENING AND TO PROVIDE FOR THE DISPOSITION, AS RESIDENCE LOTS AND HOMESTEADS, OF CERTAIN PUBLIC LANDS AT WAIAKEA, IN THE DISTRICT OF SOUTH HILO, COUNTY OF HAWAII.

Be it Enacted by the Legislature of the Territory of Hawaii:

SECTION 1. The Commissioner of Public Lands, with the approval of the Governor, shall forthwith order the subdivision for residence lots and homesteads into areas as hereafter provided upon the harvesting of the growing crops of cane thereon of that portion of the government land of Waiakea, now under lease to the Waiakea Mill Company, and lying on both sides of Kilauea Avenue, beginning at the one-mile post on said avenue and running out to the four-mile bridge on said avenue, following the lava flow on the lower side of said avenue and running between three thousand and four thousand feet on the mauka side of said avenue, running in a straight line parallel with the said road and thence back to the point of commencement; containing an area of two thousand acres, more or less. From the lands so to be opened shall be excepted all lands in use by said company for railroad lines, depots or stations and camp sites.

Section 2. That portion of said two thousand acres situated along and adjoining both sides of the main road shall be laid out for residence lots of not less than two acres each and shall be appraised and numbered in the manner provided by law and sold by auction in the manner provided by law upon such terms and conditions as to payment as shall be prescribed by the Commissioner of Public Lands, with the approval of the Governor, provided that no applicant shall be entitled to receive more than one lot.

Section 3. The remainder of said two thousand acres shall be subdivided into lots of not more than twenty-five acres each in area and shall be appraised and numbered in the manner provided by law and shall be disposed of for homestead purposes upon such terms and conditions as may be fixed by the Commissioner of Public Lands, with the approval of the Governor.

Section 4. The Commissioner of Public Lands, with the approval of the Governor, shall immediately, after this act takes effect, make arrangements with the said Waiakea Mill Company for the release and surrender of the above mentioned tract of land comprising two thousand acres, more or less, as soon as the growing crops of sugar cane thereon is harvested.

Section 5. This Act shall take effect from and after the date of its approval.

Upon motion by Senator Baldwin, seconded by Senator Shingle, the report was adopted. House Bill No. 41 thereupon passed Second Reading as amended.

Senator Baldwin, for the Committee on Public Lands and Internal Improvements, presented a report (Stand. Com. Rep. No. 408), recommending that House Bill No. 413, entitled: "An Act to amend subdivision 2 of Section 421 of the Revised Laws of Hawaii, 1915, relating to right of purchase leases," be tabled. The report was read by the Clerk as follows:

Honolulu, T. H., April 25, 1917.

Hon. Charles F. Chillingworth,
President of the Senate.

Sir:—Your Committee on Public Lands and Internal Improvements, to which was referred House Bill No. 413, entitled: "An Act to amend subdivision 2 of Section 421 of the Revised Laws of Hawaii, 1915, relating to right of purchase leases," begs leave to report as follows:

Your Committee has had this bill under careful consideration and finds that the object of the bill is to amend subdivision 2 of Section 421 of the Revised Laws of Hawaii, 1915, to shorten the period whereby a homesteader shall maintain his home on such premises from five years to two years, provided, however, that the government shall construct roads to such premises during the second year. As the bill does not provide an appropriation for the above purposes, and, as in the matter of opening up homesteads, road construction is subject to and has to await returns from sales of such lots, your Committee finds that the intent of the bill would prove to be unworkable, and would therefore recommend that the bill be tabled.

Respectfully submitted,

H. A. BALDWIN, Chairman;
ROBT. HIND,
M. C. PACHECO,
S. L. DESHA,
ROBERT W. SHINGLE.

Upon motion by Senator Correa, seconded by Senator Cooke, the report was adopted. House Bill No. 413 was thereupon ordered tabled.

Senator Baldwin, for the Committee on Public Lands and Internal Improvements, presented a report (Stand. Com. Rep. No. 409), recommending that House Bill No. 438, entitled: "'An Act providing for the disposition of certain public lands within the tract known as Papaalooa Homesteads, in the district of North Hilo, County of Hawaii, Territory of Hawaii,'" be tabled. The report was read by the Clerk as follows:

Honolulu, T. H., April 25, 1917.

Hon. Charles F. Chillingworth,
President of the Senate.

Sir:—Your Committee on Public Lands and Internal Improvements, to which was referred House Bill No. 438, entitled: "An Act providing for the disposition of certain public lands within the tract known as the Papaalooa homesteads, in the District of North Hilo, County of Hawaii, Territory of Hawaii," begs leave to report as follows:

Your Committee has had this bill under careful consideration and finds that the object of the bill is to direct the Commissioner of Public Lands to cut up and offer, for sale, by drawing, lots 26, 27, 59, 60, 75, 76 and 77 of the Papaalooa Homesteads in lots of one acre and not over two acres for house lots. The fulfillment of conditions on said house lots to be held to validate conditions applying to other homestead holdings such owners may have previously obtained in other parts of said Papaalooa Homesteads.

Your Committee is of the opinion that this matter is not along the lines of bona fide homesteading and would recommend that the bill be tabled.

Respectfully submitted,

H. A. BALDWIN, Chairman;
ROBT. HIND,
M. C. PACHECO,
S. L. DESHA,
ROBERT W. SHINGLE.

Senator Baldwin, for the Committee on Public Lands and Internal Improvements, presented a report (Stand. Com. Rep. No. 410), recommending that House Bill No. 449, entitled: "An Act making appropriation for the construction of a road to and through the Puuanahulu Homestead Lots, in the District of North Kona, County of Hawaii, Territory of Hawaii, out of the proceeds of the sales of homestead lots in said County," be tabled. The report was read by the Clerk as follows:

Honolulu, T. H., April 25, 1917.

Hon. Charles F. Chillingworth,
President of the Senate.

Sir:—Your Committee on Public Lands and Internal Improvements, to which was referred House Bill No. 449, entitled: "An Act making appropriation for the construction of a road to and through the Puuanahulu homestead lots, in the District of North Kona, County of Hawaii, Territory of Hawaii, out of the proceeds of the sales of homestead lots in said county," begs leave to report as follows:

Your Committee has had this bill under careful consideration and finds that the object of the bill is to build a road about a quarter of a mile in length for the benefit of three homesteaders, who have pastoral homesteads. There is now a fairly passable trail in existence leading to said homestead. From information presented to your Committee the homesteaders themselves are not asking for said road, and your Committee would therefore recommend that the bill be tabled.

Respectfully submitted,

H. A. BALDWIN, Chairman;
ROBT. HIND,
M. C. PACHECO,
S. L. DESHA,
ROBERT W. SHINGLE.

relating to the powers of the Boards of License Commissioners," be passed with certain amendments. The report was read by the Clerk, as follows:

Honolulu, T. H., April 25, 1917.

Hon. Charles F. Chillingworth,
President of the Senate.

Sir:—Your Committee on Military, to which was referred Senate Bill No. 125, introduced by Senator Alfred L. Castle, being "An Act to amend Chapter 122 of the Revised Laws of Hawaii, 1915, by adding thereto a new section to be known as Section 2104A, relating to the powers of the Boards of License Commissioners," has given the same due and careful consideration and beg leave to report as follows:

This bill seeks to add certain additional powers to the Boards of License Commissioners of the several counties for regulating the sale of liquor during the existence of war, strikes, turmoil, disorder or epidemics.

Your Committee feels that additional powers controlling the situations mentioned in this bill should be granted to the Boards of License Commissioners, and with the following amendments your Committee respectfully recommend that the bill do pass.

Delete the words "suspend" and "revoke" in line 4 of the new section.

After the word "liquors" in line 5 of said new section insert the following: "both as to time of sale and the kind of liquors which may be sold."

Respectfully submitted,

J. H. CONEY, Chairman;
M. C. PACHECO,
S. L. DESHA.

Senator Hind, for the Committee on Agriculture, Forestry and Promotion, presented a report (Stand. Com. Rep. No. 413), in compliance with Senate Resolution No. 20, calling for an investigation of the question of the high cost of food stuffs, and recommending that the Resolution be tabled. The report was read by the Clerk as follows:

Honolulu, T. H., April 21, 1917.

Honorable Charles F. Chillingworth,
President of the Senate.

Sir:—Your Committee on Agriculture and Forestry, to whom was referred Senate Resolution No. 20, calling for an investigation of the question of high cost of food stuffs now being charged to consumers within this Territory and to make such recommendation as it might find feasible for the relief of the residents of the Territory of Hawaii, whether by legislative action or otherwise, begs leave to report as follows:

Your Committee, with the limited time at its disposal has been unable to ascertain in any definite way that there is any concerted effort to unlawfully or improperly increase the price of food stuffs. Evidence of this character is difficult to secure, and still more difficult to sift and value properly. During its investigations the Committee has ascertained the fact that the Legal Committee of the Honolulu Chamber of Commerce has the same general subjects under consideration, and that this committee is coöperating closely with the United States Attorney for the Territory. We are informed that this committee is still engaged in gathering information, and at the present time has reached no definite conclusions. Considering this fact, and in view of the fact that so short a time now remains before the adjournment of this session of the Legislature, your Committee believes that the public interest will be well protected by the work of the public officials within whose jurisdiction this general subject falls, supplemented as it is by the work of the commercial organizations of the community.

Furthermore, adequate control of the sale and distribution of food is national in its scope; the Territory could not control the importation of foods from the Coast or abroad, inasmuch as Congress has sole power to regulate interstate or foreign commerce. Any attempted Territorial regulation would not prevent purchases of food in California or elsewhere which could be imported into the Territory free from Territorial regulation or control.

The Committee therefore recommends that the Resolution be tabled.

Respectfully submitted,

ROBT. HIND, Chairman;
GEO. P. COOKE,
E. W. QUINN.

Upon motion by Senator Hind, seconded by Senator Castle, the report was adopted. Senate Resolution No. 20 was thereupon ordered tabled.

The report was read by the Clerk as follows:

Honolulu, T. H., April 25, 1917.

Honorable Charles F. Chillingworth,
President of the Senate.

Sir:—Your Committee on Agriculture and Forestry, to whom was referred House Bill No. 452, entitled: "An Act authorizing the Superintendent of the Territorial Marketing Division to distribute seeds for food products and appropriating the sum of two thousand five hundred dollars (\$2,500.00) for the purchase of the same," begs leave to report as follows:

The purpose of this bill is to give the Superintendent of the Territorial Marketing Division authority to purchase seeds for distribution among homesteaders for the purpose of raising food products for the Territorial Marketing Division.

The Committee recommends amending the bill as follows:

After the word "price" in line 2 of Section 2, strike out the remainder of said section.

With the above amendment the committee recommends the passage of the bill.

Senator Castle, for the Committee on Judiciary, presented a report (Stand. Com. Rep. No. 415), recommending that House Bill No. 371, entitled: "An Act to empower the warden of the Territorial prison and sheriffs of the political subdivisions of the Territory to carry into effect identification systems of criminals and criminal suspects," be passed. The report was read by the Clerk as follows:

Honolulu, T. H., April 26, 1917.

Honorable Charles F. Chillingworth,
President of the Senate.

Sir:—Your Judiciary Committee, to which was referred House Bill No. 371, entitled: "An Act to empower the Warden of the Territorial Prison and the Sheriffs of the political subdivisions of the Territory to carry into effect identification systems of criminals and criminal suspects," begs leave to report as follows:

This bill merely empowers the Warden of the Territorial Prison and the various sheriffs to carry into effect identification systems. The bill could easily have been made a part of House Bill No. 372 on which a report follows.

The Committee recommends the passage of the bill.

Respectfully submitted,

ALFRED L. CASTLE, Chairman;
J. H. CONEY,
G. P. KAMAUOHA,
R. H. MAKEKAU,
WM. T. ROBINSON.

Upon motion by Senator Castle, seconded by Senator Correa, the report was adopted. House Bill No. 371 thereupon passed Second Reading.

Senator Castle, for the Committee on Judiciary, presented a report (Stand. Com. Rep. No. 416), recommending that House Bill No. 372, entitled: "An Act to provide for the establishment of systems for the identification of criminals and those persons suspected of criminal acts, and

for the appropriation of the sum of three thousand dollars (\$3,000.00) for the inauguration of such system," be passed. The report was read by the Clerk as follows:

Honolulu, T. H., April 26, 1917.

Honorable Charles F. Chillingworth,
President of the Senate.

Sir:—Your Judiciary Committee, to which was referred House Bill No. 372, entitled: "An Act to provide for the establishment of systems for the identification of criminals and those persons suspected of criminal acts and for the appropriation of the sum of Three Thousand Dollars (\$3,000.00) for the inauguration of such systems," begs leave to report as follows:

The High Sheriff appeared before the Committee and explained at length the need of the establishment of the Bertillon system of identification, which is the system of measurements, and the finger print system. It will mean that criminals can be much more easily identified than at present and will be a saving to the Territory as, under it, there will not be the need of sending police officers to the other islands.

The Committee recommends the passage of the bill.

Respectfully submitted,

ALFRED L. CASTLE, Chairman;
J. H. CONEY,
G. P. KAMAUOHA,
R. H. MAKEKAU,
WM. T. ROBINSON.

Upon motion by Senator Castle, seconded by Senator Correa, the report was adopted. House Bill No. 372 thereupon passed Second Reading.

Senator Castle, for the Committee on Judiciary, presented a report (Stand. Com. Rep. No. 417), recommending that House Bill No. 383, entitled: "An Act to provide for a plebiscite by submitting to the qualified electors of the Territory of Hawaii the question of whether the importation, manufacture and sale of intoxicating liquors shall be prohibited by law, and calling for a special session of the Legislature to enact such a law in case the plebiscite shall decide in favor of such prohibition," be passed with certain amendments. The report was read by the Clerk as follows:

Honolulu, T. H., April 26, 1917.

Honorable Charles F. Chillingworth,
President of the Senate.

Sir:—The Minority members of your Judiciary Committee, to which was referred House Bill No. 383, entitled: "An Act to provide for a plebiscite by submitting to the qualified electors of the Territory of Hawaii the question of whether the importation, manufacture and sale of intoxicating liquors shall be prohibited by law, and calling for a special session of the Legislature to enact such a law, etc.," begs leave to report as follows:

The Minority Committee feel that the Senate having already gone on record as being in favor of a prohibition plebiscite, it would now be inconsistent for it to table a bill providing for such plebiscite. At the time of the passage of Senate Bill No. 33, President Chillingworth's bill, both sides had practically agreed upon submitting the question of prohibition to the people. The House, by passing the bill now before the Committee, agreed on the proposition of a plebiscite, but did not agree that the bill as passed by the Senate was in the correct form. The proposition of the House is first to have the plebiscite and then to compel the Governor to call a special session of the Legislature to pass a law absolutely prohibiting the importation and sale of liquors in the Territory of Hawaii.

The minority feels that the bill as passed by the House is incomplete in that it does not attempt to place before the people squarely the question of law they are voting on. The minority therefore proposes to submit to the people the provisions set forth in Senate Bill No. 33, which is the proposed prohibition law, but is willing to agree with the House that if for any reason the Act should be held invalid, provided the plebiscite is in favor of prohibition, then the Governor is authorized and directed to call a special session of the Legislature to enact the law which was passed at the plebiscite vote.

The only possible objection is that the Governor cannot be compelled to call a special session, which is true; but if the Governor approves of the bill passed by this Legislature, it will be his consent in advance to call a special session.

The minority therefore recommends the following amendments:

Amend the title of this bill to read as follows: "An Act to provide for the prohibition of the importation of intoxicating liquors into the Territory of Hawaii and to prohibit the manufacture or sale of such liquors therein, except under certain conditions, calling for a plebiscite on the question of enforcing prohibition throughout the Territory of Hawaii and of enforcing prohibition throughout the Territory of Hawaii and for a special session of the Legislature under certain conditions, and making appropriations to give effect to this Act."

Amend House Bill 383 by inserting before Section 1 ten new sections to be known as Section 1, 2, 3, 4, 5, 6, 7, 8, 9, 10 respectively, and to read as follows:

"SECTION 1. From and after the first day of July, nineteen hundred and eighteen, it shall be unlawful for any person to import, ship, receive, or aid or assist in importing, shipping, or receiving into the Territory of Hawaii any spirituous, vinous, malted, fermented, or any other kind of intoxicating liquor by whatsoever name it may be called, or within said Territory to manufacture, sell, barter, give away, or otherwise dispose of, or to offer to sell, barter, give away, or otherwise dispose of, or to keep in stock for sale, barter, gift, or other disposition thereof, any such intoxicating liquor, except only as hereinafter provided, or to use any such intoxicating liquor lawfully acquired, for any purpose than that specified at the time such purchase was made and indicated in the prescription, requisition, or statement upon which such purchase was predicted as also hereinafter provided.

"SECTION 2. The Governor of the Territory shall appoint, for a term of three years, and may at pleasure remove, an agent for the Territory to be designated the liquor agent, who shall maintain his principal office and place of business in Honolulu, and branch offices in the following towns, to wit, Hilo, Wailuku, and Lihue. Each of such branch offices shall be in charge of a sub-agent appointed by the agent with the consent and approval of the Governor. Each sub-agent shall be appointed for a term of three years, and may be removed at any time by the agent acting with the approval of the Governor. The agent shall receive a

salary of \$3,000.00 a year, and each sub-agent a salary of \$1,800.00 a year, to be paid by the Territory.

"SECTION 3. Said agent only may import, upon the conditions hereinafter mentioned, intoxicating liquors and pure grain alcohol into said Territory, and may, personally or through said sub-agent, sell the same for medical, sacramental, mechanical, or scientific purposes only. Sales for medical purposes shall be made only upon the written prescription of a duly licensed practicing physician, which prescription shall be filled but once and shall remain on file with said agent. Sales for sacramental purposes shall be made only upon the written requisition of a minister or other duly authorized officer of the church or religious organization requiring the same, which requisition shall be filled but once and shall remain on file with said agent. Sales of pure grain alcohol to be used only for mechanical or scientific purposes shall be made only upon the sworn statement of the person desiring to use the same, which statement shall specifically show the exact use to which such alcohol is to be put, and shall be filled but once and shall remain on file with said agent.

"SECTION 4. Said agent shall keep in his main office, and require said sub-agents to keep in the branch offices of which they are respectively in charge, an accurate register of every sale at such office, showing the amount sold, the date upon which the sale was made, the name of the purchaser, his or her residence, and the name of the physician or minister or other church officer or other persons on whose prescription or requisition or statements said sale was made, together with a statement clearly showing the use for which the purchase was made.

"SECTION 5. No person who has been engaged in the manufacture or sale of intoxicating liquors within a period of five years shall be eligible for appointment as a liquor agent or sub-agent. Provided, however, that agents or sub-agents appointed hereunder shall be eligible for reappointment.

"SECTION 6. Any person found guilty of violating any of the provisions of this Act shall be punished by a fine not exceeding \$1,000.00 or by imprisonment at hard labor for not exceeding two years, or by both such fine and imprisonment.

"SECTION 7. Any agent who shall import or sell any intoxicating liquors or pure grain alcohol contrary to the provisions of this Act, or who shall fail to keep the register as required, or any physician who shall give a prescription to any person for the purpose of enabling such person to obtain intoxicating liquors for any other than medical purposes, or any minister or other church officer who shall make a requisition for intoxicating liquors except for sacramental purposes, or any person who shall make a false statement as to the purpose or use of pure grain alcohol, shall be punished by a fine of not to exceed \$500.00 or by imprisonment at hard labor for not to exceed two years, or by both such fine and imprisonment.

"SECTION 8. Before entering upon his duties, the agent shall give a bond in the sum of \$5,000.00, and each sub-agent shall give a bond in the sum of \$1,000.00, running to the Territory of Hawaii conditioned for the faithful performance of the duties required under this Act and in such form as the Governor shall approve. There shall be at least two sureties on each of such bonds whose qualifications and sufficiency shall be subject to the approval of the Governor, and who shall each be required to justify in an amount not less than the amount of the bond:

"PROVIDED, HOWEVER, That a corporation, organized for the purpose of becoming surety on bonds of public officers authorized under the laws of the United States or of the Territory of Hawaii to act as surety and doing business in the Territory, under the provisions of the laws of the United States and of the Territory, if a corporation foreign to the Territory, if a Hawaiian corporation, may be accepted as surety

in lieu of the personal sureties hereinbefore required, whenever, in the opinion of the Governor, the interests of the public will be fully protected. In case of the conviction of any agent or sub-agent of any offense under this Act, in addition to the penalties hereinbefore prescribed, his bond shall be forfeited, and judgment upon such bond may be entered immediately upon a judgment of conviction.

"SECTION 9. The following sums are hereby appropriated out of any moneys in the Treasury, for the following purposes:

"Salary of Agent, \$3,000.00 a year.....\$ 6,000.00

"Salaries of Sub-agent, 3 @ \$1,800.00 a year..... 10,800.00

"For purchase of supplies of liquor and other necessary expenses 6,000.00

"All moneys shall be disbursed on warrants signed by the agent and approved by the Governor.

"SECTION 10. All laws or such laws inconsistent with this Act are hereby repealed."

Re-number Section 1, 2, 3, 4, 5, 6, 7, 8 and 11 of this bill respectively so that they shall be Numbers 11, 12, 13, 14, 15, 16, 17, 18 and 20:

Strike out all after the colon (:) in line 4 of the re-numbered Section 11 to the end of said section and substitute in lieu thereof the following:

"'Shall prohibition against the importation, manufacture and sale of intoxicating liquors be enforced throughout the Territory of Hawaii?' If the majority of valid votes cast at such election throughout the Territory of Hawaii be in the affirmative on this question, then the foregoing provisions of Sections 1 to 10 hereof shall become operative on July 1st, A. D. 1918; if the majority of such votes be in the negative on this question, then the manufacture, importation or sale of intoxicating liquors shall continue under the restrictions of Chapter 122 of the Revised Laws of Hawaii, 1915';

In re-numbered Section 15, which is Section 5 in the House Bill, strike out the question in lines 12-14 of said section beginning with "Shall" to and including "Hawaii" and insert in lieu thereof the words:

"Shall prohibition against the importation, manufacture and sale of intoxicating liquors be enforced throughout the Territory of Hawaii?'

In re-numbered Section 16, which is Section 6 of the House Bill, strike out the words and figures "or before May 31" in line 3 of said section and insert in lieu thereof the words and figures "June 15";

Strike out Sections 9 and 10 of the House Bill.

Add a new Section to be known as Section 19 to read as follows:

"SECTION 19. If the plebiscite provided for in Section 11 hereof be in favor of enforcing prohibition throughout the Territory of Hawaii and, thereafter, in any suit or action brought to test, or depending upon, the constitutionality of this Act it should be determined by the Court of last resort to which suit or action be taken that this Act is unconstitutional, in that event the Governor of the Territory of Hawaii is hereby authorized and directed to issue a proclamation calling a special session of the Legislature of the Territory of Hawaii to convene within sixty days after the date of such decision of such court, for the purpose of ratifying the decision of said plebiscite by passing a law substantially like this Act and omitting the unconstitutional features thereof or any further plebiscite thereon prohibiting the importation of intoxicating liquors into the Territory of Hawaii and prohibiting the manufacture or sale of such liquors therein, except for medicinal, sacramental, mechanical or scientific uses."

As thus amended, the Minority members of the Committee recommend the passage of the Bill.

Respectfully submitted,

ALFRED L. CASTLE,
J. H. CONEY.

Further action on the report was thereupon deferred until later in the day's session.

Senator Shingle, for the Committee on Ways and Means, presented a report (Stand. Com. Rep. No. 418), recommending that House Bill No. 455, entitled: "An Act to appropriate money for the purpose of defraying the expenses of the regular session of the House of Representatives of the Legislature of the Territory of Hawaii of the year 1917 from the public treasury," be passed with certain amendments. The report was read by the Clerk as follows:

Honolulu, T. H., April 26, 1917.

Senator Shingle, for the Committee on Ways and Means, presented a report (Stand. Com. Rep. No. 419), recommending that House Bill No. 198, entitled: "An Act making an appropriation for the benefit of Captain John C. Lorenzen," be passed. The report was read by the Clerk as follows:

Honolulu, T. H., April 26, 1917.

Hon. Charles F. Chillingworth,
President of the Senate.

Sir:—Your Committee on Ways and Means, to which was referred House Bill No. 198, entitled: "An Act making an appropriation for the benefit of Captain John C. Lorenzen," begs leave to report as follows:

Your Committee has had this bill under careful consideration and finds

that the object of same is to provide for the payment of \$75.00 to Captain John C. Lorenzen, per month, for the balance of his life. Captain Lorenzen served as Government Pilot for more than 25 years and was compelled to retire on account of failure of eyesight, and is at present in ill health and in need of support.

This bill originally provided for the payment of \$100.00, but was amended in the House to \$75.00.

Your Committee believes that Captain Lorenzen's past services in the Government, entitle him to some consideration, and would recommend that the bill do pass.

E. W. QUINN,
J. H. CONEY,
ROBT. HIND.

Senator Shingle, for the Committee on Ways and Means, presented a report (Stand. Com. Rep. No. 420), recommending that House Bill No. 388, entitled: "An Act making appropriation for the relief of Captain F. Mosher," be passed. The report was read by the Clerk as follows:

Honolulu, T. H., April 26, 1917.

Hon. Charles F. Chillingworth,
President of the Senate.

Sir:—Your Committee on Ways and Means, to which was referred House Bill No. 388, entitled: "An Act making appropriation for the relief of Captain F. Mosher," begs leave to report as follows:

Your Committee has had this bill under careful consideration and finds that the object of this bill is to reimburse Captain Mosher, Pilot at Hilo, to the amount of \$182.00, paid by him from his private funds for office rent from May 1, 1909, to July 1, 1911.

The Harbor Board recognizes this claim as a just one, but is unable to give Captain Mosher any relief as the amount was paid prior to the establishment of the Board, July 1, 1911.

Your Committee is of the opinion that the claim is a just one and would recommend that this bill do pass.

Respectfully submitted,

ROBERT W. SHINGLE, Chairman;
H. A. BALDWIN,

After due and careful consideration of this Bill, the Committee is of the opinion that the bill should be amended so as to conform with other salary raises adopted for the outside counties and to that end recommends that the words "twenty-seven hundred" be struck out and the words "two thousand and five hundred and eighty" be inserted in lieu thereof.

With the foregoing amendment, the Committee recommends the passage of the bill.

Respectfully submitted,

SELECT COMMITTEE MAUI.

Upon motion by Senator Baldwin, seconded by Senator Robinson, the report was adopted. House Bill No. 446 thereupon passed Second Reading as amended.

Senator Coney, for the Committee on Military, presented a report (Stand. Com. Rep. No. 421), recommending that Senate Concurrent Resolution No. 13 urging the members of the various county and city and county boards of license commissions to curtail as far as possible the sale of intoxicants, and to issue no licenses after July 1, 1917, be tabled. The report was read by the Clerk as follows:

Honolulu, T. H., April 26, 1917.

Hon. Chas. F. Chillingworth,
President of the Senate.

Sir:—Your Committee on Military, to which was referred Senate Concurrent Resolution Number 13, introduced by Senator George P. Cooke, that the members of the various county and city and county Boards of License Commissioners be urged and requested to curtail as far as possible under the present laws the sale of intoxicants, and to issue no licenses after July 1, 1917, has given the same due and careful consideration and begs leave to report as follows:

Your Committee finds that the purpose of this Concurrent Resolution was to urge and request the various Board of License Commissioners to curtail the sale of liquors during the present war, and not to issue licenses after July 1, 1917.

Your Committee has had two Bills amending the present liquor laws of the Territory, which in both instances your Committee have recommended be passed with certain amendments. Both said Bills cover the object sought by this resolution.

Your Committee therefore recommend that the resolution be tabled.

Respectfully submitted,

J. H. CONEY, Chairman;
M. C. PACHECO,
S. L. DESHA.

Upon motion by Senator Coney, seconded by Senator Kamauoha, the report was adopted. Senate Concurrent Resolution No. 13 was thereupon ordered tabled.

Senator Coney, for the Committee on Military, presented a report (Stand. Com. Rep. No. 422) recommending that House Bill No. 456, entitled: "An Act authorizing the various counties and city and county, by ordinances, to regulate and prescribe the construction of chimneys and smoke-stacks and to compel the building and cleaning of same, and to regulate and prevent the emission of dense smoke or poisonous gases therefrom, and to declare the same a nuisance," be passed. The report was read by the Clerk as follows:

Honolulu, T. H., April 26, 1917.

Hon. Chas. F. Chillingworth,
President of the Senate.

Sir:—Your Committee on Military, to which was referred House Bill No. 456, being an Act authorizing the various counties and city and county, by ordinances, to regulate and prescribe the construction of chimneys and smoke-stacks and to compel the building and cleaning of same, and to regulate and prevent the emission of dense smoke or poisonous gases therefrom, and to declare the same a nuisance, has given the same due and careful consideration, and beg leave to report as follows:

Your Committee finds that a Bill covering the same objects was defeated by the last Legislature, but owing to the increase of the number of factories, canneries and other business now running their machinery with steam, your Committee is of the opinion that the objects sought to be covered by this bill should be properly regulated by ordinances of the various counties or the city and county and therefore respectfully recommend that the Bill do pass.

Respectfully submitted,

J. H. CONEY, Chairman;
M. C. PACHECO,
S. L. DESHA.

Upon motion by Senator Coney, seconded by Senator Desha, the report was adopted. House Bill No. 456 thereupon passed Second Reading.

Senator Coney, for the Committee on Military, presented a report (Stand. Com. Rep. No. 423), recommending that House Bill No. 454, entitled: "An Act establishing a life saving patrol for Waikiki beach," be

passed with certain amendments. The report was read by the Clerk as follows:

Honolulu, T. H., April 26, 1917.

Hon. Chas. F. Chillingworth,
President of the Senate.

Sir:—Your Committee on Military, to which was referred House Bill No. 454, introduced by Representative G. P. Wilder, being an Act establishing a Life Saving Patrol for Waikiki beach, has given the same due and careful consideration, and beg leave to report as follows:

Your Committee finds that the purpose of this Bill is to establish a life saving patrol for Waikiki beach under the control and supervision of the board of supervisors of the City and County of Honolulu, the same to consist of two men who shall be appointed by said Board of Supervisors.

Your Committee feels that a measure to provide for such a patrol is most necessary, however, the committee is of the opinion that the control and supervision of the same should be under and the appointments of the men be made by the board of harbor commissioners, and the following amendments your Committee recommend that the bill do pass.

In Section 1, after the word "of" delete the following words: "supervisors of the City and County of Honolulu," and insert in lieu thereof the words "harbor commissioners".

In Section 2, first paragraph, after the word "of" delete the words "supervisors of the City and County of Honolulu" and insert in lieu thereof the words "harbor commissioners".

In Section 3, first paragraph, after the word "of" delete the words "supervisors of the City and County of Honolulu" and insert in lieu thereof the words "harbor commissioners".

In Section 5, first line after the word "of" in said line delete the words "supervisors of the City and County of Honolulu" and insert in lieu thereof the words "harbor commissioners".

Sir:—Your Committee on Military, to which was referred the communication of Mr. A. K. Vieira, Supt. Park and Playgrounds, inviting the Senate to attend the opening of the Aala Park Playground, on Saturday, April 28th, at 3 p. m., has had the same under consideration, and begs leave to report as follows:

Your Committee finds that the children of that locality who are not properly cared for have been taken in charge by a lady by the name of Mrs. Fred Waldron, and under her care they are being taught to become useful to themselves. They are being taught to make different articles of clothing and other useful things and an exhibition of garments and other articles made by them will be held under the supervision of the park commission, this the Committee thinks it will be of interest to the members of the Senate and therefore recommends that the invitation be accepted by the Senate.

Respectfully submitted,

President of the Senate.

Sir:—Your Committee on Military, to which was referred House Bill No. 124, introduced by Senator Alfred L. Castle, being an Act to amend Chapter 98 of the Revised Laws of Hawaii, 1915, by adding thereto a new section to be known as Section 1371A, relating to Social Clubs, has had the same under careful consideration, and beg leave to report as follows:

Your Committee finds that the purpose of this Bill is to amend the present law so as to grant the Treasurer of the Territory the power, authority, and discretion to suspend, regulate and control licenses granted under the provisions of Chapter 98, during the existence of war, strikes, turmoil, disorder or epidemics.

Your Committee feels, however, that the sale of liquors by social clubs during occasions as mentioned in the Bill should properly be under the sole control of the Board of License Commissioners of the County or City and County in which such social club is situated.

Your Committee respectfully recommends that said new section be amended so as to read as follows:

"Section 1371A. The Board of License Commissioners, provided by Chapter 122 of the Revised Laws of Hawaii, 1915, of the respective County or City and County in which the social club is situated, shall have the sole power, authority and discretion to regulate and control the furnishing of intoxicating liquors by any social club, which has paid its annual tax as provided by this Chapter, in any manner, including the time of furnishing of said liquors and the kind of liquors which may be furnished, during war, strikes, turmoil, disorder, or epidemics, whenever in its opinion public interest requires such regulation and control.

The exercise of said power, authority and discretion shall be final in

each case and shall not be reviewable by or appealable to any court or tribunal.

As so amended your Committee recommend that the bill do pass.

Respectfully submitted,

J. H. CONEY, Chairman;
M. C. PACHECO,
S. L. DESHA.

The Senate having returned to the consideration of Standing Committee reports, Senator Shingle, for the Committee on Ways and Means, presented a report (Stand. Com. Rep. No. 428), recommending that House Bill No. 176, entitled: "An Act appropriating the sum of five thousand dollars (\$5,000.00) for the filling of public lands and proposed roadways in the Ponahawai Lots, District of South Hilo, County of Hawaii," be passed. The report was read by the Clerk as follows:

Honolulu, T. H., April 26, 1917.

Hon. Charles F. Chillingworth,
President of the Senate.

Sir:—Your Committee on Ways and Means, to which was referred House Bill No. 176, entitled: "An Act appropriating the sum of five thousand dollars (\$5,000.00) for the filling of public lands and proposed roadways in the Ponahawai Lots, District of South Hilo, County of Hawaii," begs leave to report as follows:

Your Committee has had this bill under careful consideration and finds that the object of the bill is to provide for the construction of a road and fill through the Ponahawai Lots in Hilo, in order that same may be

filled in accordance with the original intention of the Public Lands Department, at the time said lots were sold. This bill has the endorsement of the Public Lands Commission and is necessary to carry out the original intention at the time the tract was opened up.

Your Committee would recommend that the bill do pass.

Respectfully submitted,

ROBERT W. SHINGLE, Chairman;
H. A. BALDWIN,
E. W. QUINN,
ROBT. HIND,
J. H. CONEY.

Upon motion by Senator Shingle, seconded by Senator Kamaooha, the report was adopted. House Bill No. 176 thereupon passed Second Reading.

Senator Shingle, for the Committee on Ways and Means, presented a report (Stand. Com. Rep. No. 429), recommending that House Bill No. 392, entitled: "An Act to provide for the institution of certain payments to prisoners for work done by them and to appropriate moneys therefore," be passed with certain amendments. The report was read by the Clerk as follows:

Honolulu, T. H., April 26, 1917.

Hon. Charles F. Chillingworth,
President of the Senate.

Sir:—Your Committee on Ways and Means, to which was referred House Bill 392, entitled: "An Act to provide for the institution of certain payments to Prisoners for work done by them and to appropriate moneys therefor," begs leave to report as follows:

Your Committee has had this bill under careful consideration and finds that this bill seeks to provide a fund from which prisoners may be paid a small daily wage, according to the class of work performed by them, under rules and regulations of the Board of Prison Inspectors upon recommendation of the Prison Warden.

The results of such experiments, as tried in many of the States in the Union, and what is hoped to be accomplished through this measure by the Board of Prison Inspectors and Prison Warden, leads your Committee to believe that it will result in great beneficial results to all concerned. It will tend to create ambition on the part of the prisoners to earn monies, while serving sentences, from which they may, upon approval, buy necessities; or in the case of prisoners having families, they may be enabled to remit, at times, small amounts towards the support of their families. Under present practice the Government gives to each discharged prisoner the amount of \$5.00. Under this bill a prisoner will be able to save an amount considerably larger than the above amount in anticipation of his discharge. The incentive, to be enabled to earn and to save money, will undoubtedly result in the Government receiving a greater amount of labor performed per man than has been the custom in the past. This measure has the urgent recommendation of the Attorney General and the Board of Prison Inspectors.

In view of the above reasons, your Committee would recommend that the bill do pass with the following amendments:

Amend Section 3 to read as follows:

"SECTION 3. All claims arising under the authorization of Section 2 of this Act shall be presented monthly on pay rolls, properly certified by the Warden of Oahu Prison, and paid by the Auditor of the Territory, by warrant to the said Warden as Trustee."

Amend Section 4 to read as follows:

"SECTION 4. The Warden shall deposit in a bank all sums collected as above, and shall open individual ledger accounts in his office with each prisoner, crediting the same with all sums collected from time to time, and shall charge the accounts of each prisoner for all monies as may be drawn under the provisions of Section 5 of this act. And the said Warden shall issue to each prisoner a pass book showing the credits and debits as they are made from time to time."

Insert at the end of Section 5, after the words "to his credit," the words "'and all sums so forfeited shall be deposited with the Treasurer of the Territory as a realization.'"

Respectfully submitted,

ROBERT W. SHINGLE, Chairman;
H. A. BALDWIN,
J. H. CONEY,
ROBT. HIND.

Upon motion by Senator Shingle, seconded by Senator Desha, the report was adopted. House Bill No. 392 thereupon passed Second Reading as amended.

Consideration of House Bill No. 124, entitled: "An Act for the construction of the road to Waipio Valley out of the permanent improvement fund of the Territory of Hawaii."

Senator Coney moved that further action on the Bill as well as on the report thereon (Stand. Com. Rep. No. 398), be deferred until Saturday, April 28, 1917.

Upon motion by Senator Shingle, seconded by Senator Correa, the aye and no vote on the motion to defer was taken with the following result:

Ayes: Senators Coney, Correa, Kamaooha, Makekau, Pacheco, Robinson, and Mr. President. Total, 7.

Noes: Senators Baldwin, Castle, Cooke, Desha, Hind and Shingle. Total, 6.

Excused and not voting: Senators Mikaele and Quinn. Total, 2.

Senator Shingle, for the Committee on Ways and Means, presented a report (Stand. Com. Rep. No. 430), recommending that House Bill No. 137, entitled: "An Act appropriating the sum of five thousand dollars (\$5,000.00) from the general revenues of the Territory of Hawaii by way of advancement, the same to be reimbursed from sales of public lands on the Island of Maui, for the reconstruction of the road through the Waiohuli-Keokea Beach Lots, County of Maui," be tabled. The report was read by the Clerk as follows:

Honolulu, T. H., April 26, 1917.

Hon. Charles F. Chillingworth,
President of the Senate.

Sir:—Your Committee on Ways and Means, to which was referred House Bill No. 137, entitled: "An Act appropriating the sum of five thousand dollars (\$5,000.00) from the general revenues of the Territory of Hawaii by way of advancement, the same to be reimbursed from sales of public lands on the Island of Maui, for the reconstruction of the road through the Waiohuli-Keokea Beach Lots, County of Maui," begs leave to report as follows:

Your Committee has had this bill under careful consideration and would recommend that the same be tabled for the reason that there was appropriated in 1915, the sum of \$4,500.00 for this road, a balance of \$1,600.00 of which amount is unexpended at the present time. This amount together with the balance to be received in payment for these lots, will be ample to complete the road construction desired.

The Public Lands Commissioner is ready to commence the construction of this road as soon as proper arrangements can be made with the supervisors of the County of Maui who, under the provisions of this Act shall construct said road.

Respectfully submitted,

ROBERT W. SHINGLE, Chairman;
J. H. CONEY,
H. A. BALDWIN,
ROBT. HIND.

Honolulu, T. H., April 26, 1917.

Hon. Charles F. Chillingworth,
President of the Senate.

Sir:—Your Committee on Ways and Means, to which was referred Senate Petition No. 9, Petition of W. R. Castle and 22 others praying that an appropriation of funds be made for the purpose of putting the Tantalus Road in repairs," begs leave to report as follows:

Your Committee has had this Petition under careful consideration and finds that the petition seeks some action on the part of the Legislature providing for the repair and reconstruction of what is known as the Tantalus road, which your Committee believes should be given in the interests of the residents in this district as well as the community as a whole. The Legislature has passed a bill providing for the employment of prisoners on the Tantalus Road, and after hearing petitioners and consulting the High Sheriff and Prison Commissioners, find that the relief can be secured by the use of prisoners, provided the City and County of Honolulu assists with material and equipment.

Your Committee submits herewith as a part of this report, a bill pro-

viding for the reconstruction and repairs of the Tantalus Road as prayed for in this petition and recommends that the same be enacted into law.

Respectfully submitted,

ROBERT W. SHINGLE, Chairman;
H. A. BALDWIN,
J. H. CONEY,
ROBT. HIND.

A message from the Governor (Gov. Mess. No. 6A), returning, disapproved, Senate Bill No. 99, entitled: "An Act to amend Chapter 123 of the Revised Laws of Hawaii, 1915, as amended by Act 46 of the Session Laws of Hawaii, 1915, relating to municipal bonds, by amending Sections 2174 and 2175 thereof," was read by the Clerk, as follows:

April 27, 1917.

To the Legislature:

I herewith return disapproved "An Act to amend Chapter 123 of the Revised Laws of Hawaii, 1915, as amended by Act 46 of the Session Laws of Hawaii, 1915, relating to Municipal Bonds by amending Sections 2174 and 2175 thereof."

In voting credits to be liquidated by future taxpayers proper consideration and conservative, aggressive, intelligent enterprise and public spirit should be used. This Act, in my opinion, solely serves the purpose of getting around the conservatism the electorate showed in two bond elections.

The statistics of four elections disclose the difference between sixty per cent of registered voters and sixty per cent of votes cast.

Year.	—Sixty per Cent of—		
	Registered Voters.	Votes Cast.	Difference.
1910	4,533	4,132	401
1912	4,788	4,274	514
1914	5,938	4,651	1,287
1916	6,427	4,263	2,164

It is easy to see this Act throws all conservatism away and places an opportunity for political manipulations and disregard of citizen property rights by fixing on their property liens they do not, to an appropriate degree, consent to.

Twenty days legal notice is too short for a proper public discussion of bond proposals.

LUCIUS E. PINKHAM,
Governor of Hawaii.

The message was thereupon referred to the Select Committee consisting of the members from Oahu.

Senator Shingle, for the Committee on Ways and Means, presented a report (Stand. Com. Rep. Your Committee has had this bill under careful consideration and would recommend that the same do pass with the following amendments:

Amend Section 1, by inserting after the words "as follows", "District Magistrate of Honolulu, \$285.00.....\$3,420.00".

Delete "District Magistrate of Koolauloa, 60.00.....720.00". No increase is asked for this position as an advance was allowed in 1915.

Amend item "First Clerk, Honolulu District Court, 175.00.....2,100.00" by striking out the marks and figures "175.00.....2,100.00" and insert in lieu thereof the marks and figures "170.00.....2,040.00".

Amend item "Second Clerk, Honolulu District Court, 150.00.....1,800.00" by striking out the marks and figures "150.00.....1,800.00" and insert in lieu thereof the marks and figures "145.00.....1,740.00".

These amendments provide an increase of \$10.00 per month over the salaries paid at the present time, and is believed to be a sufficient increase.

Respectfully submitted,

ROBERT W. SHINGLE, Chairman;
J. H. CONEY,
E. W. QUINN,
H. A. BALDWIN,
ROBT. HIND.

Hon. Charles F. Chillingworth,
President of the Senate.

Sir:—Your Committee on Ways and Means, to which was referred House Bill No. 360, entitled "An Act for the relief of Clarence D. Pringle", begs leave to report as follows:

Your Committee has had this bill under careful consideration and finds that the object of the same is to authorize the Board of Supervisors of the City and County of Honolulu to pay C. D. Pringle the sum of \$462.50 for services rendered as second clerk of the third division of the First Circuit Court, from December 7, 1914, to March 30, 1915, which amount was withheld on account of irregularity of appointment, and not through any fault of C. D. Pringle, who performed his duties in perfect good faith.

The error in appointment was made on the part of Judge Stuart, who refused to comply with the spirit of the law and was later overruled by the Circuit and Supreme Courts.

Your Committee feels that in justice to Mr. Pringle, who was the innocent sufferer as a result of Judge Stuart's error, that he should receive payment for services rendered and would recommend that this bill do pass.

Honolulu, T. H., April 27, 1917.

Hon. Charles F. Chillingworth,
President of the Senate.

Sir:—Your Committee on Ways and Means, to which was referred House Bill No. 107, entitled: "An Act making appropriation for the benefit of George Waipa," begs leave to report as follows:

Your Committee has had this bill under careful consideration and finds that the object of the same is to provide a monthly pension of \$60.00 for George Waipa; that he has served the government in the capacity of police officer for a period of 42 years; that he has been faithful to his duties and is contemplating upon an early retirement.

Your Committee would recommend that the bill do pass with the following amendment:

In making this amendment, your Committee believes that an allowance of $\frac{2}{3}$ of the original salary received is a reasonable pension and has followed this proportion in making recommendations in this and other cases of this nature.

President of the Senate.

Sir:—Your Judiciary Committee, to which was referred House Bill No. 335, entitled: "An Act relating to the employment and pay of officers of the Territory of Hawaii, the several counties or city and county while on actual service in the National Guard or Naval Militia of the Territory of Hawaii," begs leave to report as follows:

This bill was referred to the Committee for the purpose of considering whether when a specific salary is appropriated the Treasurer might pay out less than the specific salary as contemplated by the bill.

The act itself would authorize the Treasurer to do this. The Committee therefore feels that there is no legal objection to the bill, though as a matter of legislation it ought to become law after the appropriation bill becomes law.

The Committee returns herewith the bill to the Senate.

Respectfully submitted,

JUDICIARY COMMITTEE.
ALFRED L. CASTLE, Chairman;
J. H. CONEY,
G. P. KAMAHOA,
WM. T. ROBINSON.

Upon motion by Senator Castle, duly seconded and carried, House Bill No. 335, which had been previously read throughout by the Clerk, passed Third Reading on the following showing of ayes and noes:

Ayes: Senators Baldwin, Castle, Coney, Correa, Cooke, Desha, Hind, Kamauoha, Pacheco, Quinn, Robinson, Shingle, and Mr. President. Total, 13.

Senator Castle, for the Committee on Judiciary, presented a report (Stand. Com. Rep. No. 441), recommending that House Bill No. 236, entitled: "An Act to amend Section 2077 of the Revised Laws of Hawaii, 1915, as amended by Act 223 of the Session Laws of 1915," be tabled. The report was read by the Clerk as follows:

Honolulu, T. H., April 27, 1917.

Honorable Charles F. Chillingworth,
President of the Senate.

Sir:—Your Judiciary Committee, to which was referred House Bill No. 236, entitled: "An Act to amend Section 2077 of the Revised Laws of Hawaii, 1915, as amended by Act 223 of the Session Laws of 1915," begs leave to report as follows:

The present moving picture concerns pay an annual license of two hundred dollars plus one dollar for each Sunday a show is given. The bill proposes a straight two hundred dollars to include Sundays, and to allow Sunday shows to be given without the consent of the Board of Supervisors. The moving picture concerns have not made objection to the fees paid, but they do object to control by the Supervisors.

This matter of control was fully considered in the Session of 1915. It is clearly a subject which each county or city and county should decide for itself.

The Committee therefore recommends the bill be tabled.

Respectfully submitted,

JUDICIARY COMMITTEE.
ALFRED L. CASTLE, Chairman;
G. P. KAMAUOHA,
WM. T. ROBINSON.

I do not concur:
J. H. CONEY.

The report was read by the Clerk as follows:

Honolulu, T. H., April 27, 1917.

Honorable Charles F. Chillingworth,
President of the Senate.

Sir:—Your Judiciary Committee, to which was referred House Bill No. 352, entitled: "An Act to amend Section 2908 of the Revised Laws of Hawaii, 1915, relating to marriage licenses," begs leave to report as follows:

Amend the title to read: "An Act to amend Chapter 166 of the Revised Laws of Hawaii, 1915, relating to marriage licenses, by amending Section 2908 and by adding a new section thereto to be known as Section 2909A."

Amend Section 1, line 4, by striking out the words "a suitable number of " and inserting in lieu thereof the words "one or more."

Strike out all after the first paragraph in Section 1.

Add a new section to be known as Section 2 and to read as follows:

"SECTION 2. A new section is hereby added to Chapter 166 of the Revised Laws of Hawaii, 1915, to be known as Section 2909A and to read as follows: 'Section 2909A. To persons apparently under age. Upon the application of any persons who appears to be under the age of eighteen, if a female, or under twenty, if a male, to any agent authorized to grant marriage licenses, for a license to marry, such agent may, before granting such persons a license to marry, require a sworn statement or affidavit signed by such applicant or by the parents of such applicant relative to the age of such applicant.'

Every such agent or his deputy is hereby given power to administer oaths in all cases in which oaths are authorized or required to be taken or administered and false swearing before such agent or his deputy shall be punishable as perjury."

Remember the present Section 2 to read Section 3.

As thus amended, the Committee recommends the passage of the bill.

Respectfully submitted,

Honolulu, H. T., April 25, 1917.

Hon. Chas. F. Chillingworth,
President of the Senate.

Sir:—Your Committee on Military, to which was referred House Bill No. 283, being "An Act to regulate the exhibition of moving pictures on Sundays," has had the same under careful consideration and begs leave to report as follows:

The purpose of this bill is to regulate the exhibiting of moving pictures of an educational or biblical character on Sundays after the hour of six-thirty p. m.

Your Committee feels that the exhibition of moving pictures on Sunday of the kind set forth in the bill should be allowed, and is of the opinion that the law should be so amended as to allow exhibitions of the kind at an earlier hour than that mentioned in the bill; this will provide a peaceful and quiet amusement on Sunday afternoons to such of the community as may wish to avail themselves of the opportunity.

Your Committee, therefore, recommends that with the following amendments the bill do pass.

Amend the title of the bill so as to read as follows:

"An Act to amend Act 185 of the Session Laws of 1915, relating to moving pictures."

Delete all of Section 1 of the bill and insert in lieu thereof the following:

"Section 1. The boards of supervisors of the several counties and the City and County of Honolulu are hereby authorized and empowered to provide by ordinance for the exhibiting of moving pictures of an educational or biblical character on Sundays after the hour of one-thirty p. m. under such restrictions as they may prescribe."

Delete all of Section 2 of said bill.

Delete all of Section 3 of said bill and insert in lieu thereof the following and to read Section 2:

"Section 2. This Act shall take effect upon its approval."

Senator Cooke, for the Committee on Public Health, having heretofore presented a verbal report recommending that House Bill No. 273, entitled: "An Act to provide for the ascertainment, adjudication and payment of claims of certain Chinese poi manufacturers and taro planters who have suffered a loss of property by reason of the orders of the Territorial Board of Health and the officials of the City and County of Honolulu in the year 1911, to prevent the spread of cholera in the Territory of Hawaii," be tabled, presented a report in writing (Stand. Com. Rep. No. 447). The report was read by the Clerk as follows:

Honolulu, T. H., April 28, 1917.

Hon. Chas. F. Chillingworth,
President of the Senate.

Sir:—Your Health Committee, to which was referred House Bill No. 273, entitled: "An Act to Provide for the Ascertainment, Adjudication and Payment of Claims of Certain Chinese Poi Manufacturers and Taro Planters who have suffered a loss of property by reason of the orders of the Territorial Board of Health and the officials of the City and County of Honolulu in the year 1911 to prevent the spread of cholera in the Territory of Hawaii," begs leave to report as follows:

Your Committee, after careful consideration, finds that the poi shops were closed in 1911 by the Board of Health and the officials of the City and County of Honolulu to prevent the spread of cholera. The reason for closing these shops was on account of the extremely filthy and insanitary condition of the shops and the manner in which they were conducted. As the proprietors of these shops were to blame for their insanitary condition, your Committee can see no just cause for the claim for damages.

Therefore your Committee recommends that this Bill be tabled.

Respectfully submitted,

GEO. P. COOKE, Chairman;
S. P. CORREA,
S. L. DESHA.

Sir:—Your Committee on Ways and Means, to which was referred House Bill 37, entitled: "An Act making appropriation for the benefit of Jose Maria Gomes," begs leave to report as follows:

Your Committee has had this Bill under careful consideration and finds that Jose Maria Gomes has been a member of the Hawaiian Band since 1879, that his services have been satisfactorily and faithfully rendered, and that he is old and in failing health, and desires to retire from active service.

Your Committee would recommend that the Bill do pass with the following amendment:

Amend line 5, Section 1, by striking out the words "the remainder of the life, of said Jose Maria Gomes," after the word "for" and insert in lieu thereof the words "a period of two years, after the passage of this Act."

Sir:—Your Judiciary Committee, to which was referred Senate Bill No. 137, entitled: "An Act granting a franchise for the purpose of manufacturing and supplying gas in the District of Wailuku, County of Maui, Territory of Hawaii," begs leave to report as follows:

This Bill was introduced very late in the session and is not endorsed by the people of Maui.

The Committee feels that we ought not to go any further at this time in the matter of the exemptions. This Bill provides that not only must the County pay up to one hundred dollars in cases where counsel has been assigned to defend accused persons who are not able to hire counsel, but provides that the County shall pay all expenses of preparing the necessary transcripts of evidence and records for the consideration of the Supreme Court on appeal. The effect of this would be to encourage appeals in all cases and would be a very material expense to the County.

Honorable Charles F. Chillingworth,

Senator Castle, for the Committee on Judiciary, presented a report (Stand. Com. Rep. No. 463), recommending that House Concurrent Resolution No. 13, requesting Congress to enact a law under which a limited number of Chinese may be admitted into the Territory, be adopted. The report was read by the Clerk as follows:

Honolulu, T. H., April 30, 1917.

Honorable Charles F. Chillingworth,
President of the Senate.

Sir:—Your Judiciary Committee, to which was referred House Concurrent Resolution No. 13, requesting Congress to enact a law under which a limited number of Chinese may be admitted into the Territory, begs leave to report as follows:

The Committee, after a full hearing, feels that the admission of a limited number of Chinese, particularly in the present crisis, to work in the rice fields or any other agricultural pursuits would be advisable.

The matter however must go to Congress where it will be taken up in connection with existing treaty-rights and agreements with foreign countries. Congress alone can judge in this matter.

The reason that the Committee takes any action at all on this resolution is because letters from prominent congressmen have asked for an expression of opinion of the people of Hawaii either by popular vote or through the legislature.

The Committee recommends inserting after the words "United States" in the first resolving clause the words "providing it does not interfere with existing treaties or agreements with foreign countries."

As thus amended, the Committee recommends the adoption of the Concurrent Resolution.

Upon motion by Senator Shingle, seconded by Senator Chillingworth, further action on the report was deferred until Tuesday, May 1, 1917.

Senator Castle, for the Committee on Judiciary, presented a report (Stand. Com. Rep. The report was read by the Clerk as follows:

Honolulu, T. H., April 30, 1917.

Honorable Charles F. Chillingworth,
President of the Senate.

Sir:—Your Judiciary Committee, to which was referred House Concurrent Resolution No. 38, requesting the Commissioners appointed under Act 126, Session Laws of 1917, to take cognizance of and include in their inquiry and adjudication the subject matter of House Petition No. 35, begs leave to report as follows:

This Concurrent Resolution states that Frank Godfrey duly filed his claim for damages in connection with the Kewalo reclamation scheme as provided by Act 153 and of the Session Laws of 1915, but owing to a clerical error, his claim was rejected. The resolution requires the Commissioners appointed under the provisions of Act 126 of the Session Laws of 1917 to take cognizance of the claim of Frank Godfrey. The Act referred to, namely: Act 126 of the Session Laws of 1917, provides that the Commissioners shall investigate all the claims which were rejected in the matter of the Kewalo reclamation.

The Committee does not see how this Concurrent Resolution adds anything to the Act passed by this Legislature and therefore recommends that the Concurrent Resolution be tabled.

derstood to include all corporations, societies, associations and organizations of producers, of producers and distributors, or of distributors, co-operative or otherwise, formed for the purpose of facilitating the marketing of territorial products.

All settlements with producers shall be made once a month or oftener, and the Territorial Marketing Division shall retain the commission charged.

Section 9. The Board shall have power to rent, lease, occupy and use for the division all such lands and buildings as may be needed in the business of the division or any of its branches, and may provide the same with a sufficient force of officers, clerks, and other employees, as may be deemed necessary to carry out the provisions of this Act, and shall rent or purchase, and use all equipment, appliances, horses, mules trucks or wagons, and all supplies necessary for the carrying on of said business.

Section 10. The division shall gather and disseminate information on all subjects relating to the marketing of Hawaiian products, and shall issue reports thereon, and by every practicable means keep the producers informed of the supply and demand and at what market their products can best be handled.

Section 11. The salary or compensation of the superintendent and all other persons holding office or employment in the division under the Board, at the head office or elsewhere, shall be fixed by the Board and may be paid monthly from the Territorial Marketing Division expense appropriation, after being approved by the Chairman of the Board upon vouchered claims therefor.

Section 12. There is hereby created a fund to be known as the "Territorial Marketing Division Fund." All fees, charges and costs col-

lected by said Territorial Marketing Division under this Act shall be deposited by the superintendent of the Territorial Marketing Division to the credit of such fund in one or more local banks. Any expenses of whatsoever nature, incurred by the Territorial Marketing Division under the provisions of this Act, may be paid by cash from the said Territorial Marketing Division fund.

Section 13. All payments made under this Act, except those from the "Territorial Marketing Division fund," shall be by warrants issued by the Auditor of the Territory upon vouchers approved by the Board of Commissioners of Agriculture and Forestry.

The report was read by the Clerk as follows:

Honolulu, T. H., April 30, 1917.

Honorable Charles F. Chillingworth,
President of the Senate.

Sir:—The Majority of your Judiciary Committee, to which was referred House Bill No. 24, entitled: "An Act to encourage the establishment of a rural population by providing capital for agricultural development and for other purposes," begs leave to report as follows:

The object of this Bill is to give governmental assistance to those engaged in farming. Particularly at the present crisis when the Territory must develop its agricultural resources as far as possible, we believe farmers should be given every possible aid. We feel that the amount provided in the bill, namely: \$100,000.00 is enough to give the Farm Loan Act a fair trial.

The majority of the Committee therefore recommends the passage of the Bill.

Respectfully submitted,

MAJORITY JUDICIARY COMMITTEE.

G. P. KAMAUOHA,
J. H. CONEY,
R. H. MAKEKAU.

Senator Castle, for the Minority of the Committee on Judiciary, presented a report (Stand. Com. Rep. No. 470), recommending that the Bill be tabled. The report was read by the Clerk as follows:

Honolulu, T. H., April 30, 1917.

Honorable Charles F. Chillingworth,
President of the Senate.

Sir:—The Minority of your Judiciary Committee, to which was referred House Bill No. 24, entitled: "An Act to encourage the establishment of a rural population by providing capital for agricultural development, and for other purposes," begs leave to report as follows:

The object of this Bill is to assist those engaged in agriculture upon a limited scale by making it possible for them to borrow money at more favorable terms than they can at present. In order to accomplish this purpose, the Bill proposes to create a farm loan board with authority to loan Territorial money appropriated for that purpose, taking as security mortgages upon farm lands, whether held in fee simple or under lease; and to borrow, using these mortgages either directly or indirectly as security, further sums, which sums are in turn to be loaned upon like security. The Bill carries an appropriation of \$100,000.00, to be loaned under the provisions of the Act, and a further appropriation of \$15,000.00 to create a reserve fund.

Your Minority Committee has given careful consideration to this Bill and believes that it is in contravention of the provisions of the Organic Act respecting the incurring of indebtedness by the Territory except in certain prescribed methods. Although the Bill continually repeats the statement that sums borrowed by the farm loan board shall not involve the general credit of the Territory, yet the plain fact of the matter is that the credit of the Territory is pledged in order to secure the requisite funds. Unless the credit of the Territory is in fact pledged, and therefore a considerably larger sum than \$100,000.00 becomes available to the farm loan board for loaning purposes, the plan outlined by the Act would, in the opinion of your Committee, be ineffective, or, in other words, the revolving fund would not revolve; and in practice it would come down to an appropriation of \$100,000.00 for the purpose of loaning that sum, and no other sum, to a comparatively small number of individuals. The Bill provides that not more than \$5,000.00 could be loaned to any one individual, and if loans of this amount were accepted, twenty individuals alone would secure assistance by reason of this particular Act.

The Minority of the Committee further believes that before we should pass a farm loan Act, we should know more of the workings of the federal farm loan Bill. That was only adopted in July of last year and has not yet had a chance to show whether the plan is feasible. If the plan is feasible, the Territory might get Congress to extend the federal act to Hawaii, which would be sounder legislation than for the Territory themselves to go into the business. Another reason advanced is the fact that the Districts in which small farming is carried on are not properly served by roads and other means of transportation, and until this important question is solved the Bill cannot be a success.

For the reasons above indicated, the Minority of the Committee recommends that the Bill be tabled.

Respectfully submitted,

MINORITY OF THE JUDICIARY COMMITTEE.

ALFRED L. CASTLE,
WM. T. ROBINSON.

Senator Castle, for the Committee on Judiciary, presented a report (Stand. Com. Rep. No. 471), recommending that House Bill No. 261, entitled: "An Act to create in each of the several counties of the Territory of Hawaii a commission to be known as the Delinquent Tax Commission," be passed. The report was read by the Clerk, as follows:

Honolulu, T. H., May 1, 1917.

Honorable Charles F. Chillingworth,
President of the Senate.

Sir:—Your Judiciary Committee, to which was referred House Bill No. 261, entitled: "An Act to create in each of the several counties of the Territory of Hawaii a commission to be known as the Delinquent Tax Commission", begs leave to report as follows:

The object of this bill is to have created a commission of five members in each of the several counties to examine delinquent tax accounts and

determine the possibility of collecting such delinquent taxes; and if the accounts are found to be uncollectable then to cancel the same. The books of the various counties are simply full of accounts which are uncollectable and this would be a means of wiping out a lot of dead timber.

The Committee recommends the passage of the bill.

Respectfully submitted,

JUDICIARY COMMITTEE.

ALFRED L. CASTLE, Chairman;
J. H. CONEY,
G. P. KAMAUOHA,
R. H. MAKEKAU,
WM. T. ROBINSON.

Upon motion by Senator Castle, seconded by Senator Kamauoha, the report was adopted. House Bill No. 261 thereupon passed Second Reading.

Senator Castle, for the Committee on Judiciary, presented a report (Stand. Com. Rep. No. 472), recommending that House Bill No. 356, entitled: "An Act to amend Chapter 108 of the Revised Laws of Hawaii, 1915, relating to county government, by adding thereto a new section to be known as Section 1585A, requiring county attorneys to aid the poor without charge," be tabled. The report was read by the Clerk, as follows:

Honolulu, T. H., April 30, 1917.

Honorable Charles F. Chillingworth,
President of the Senate.

Sir:—Your Judiciary Committee, to which was referred House Bill No. 356, entitled: "An Act to amend Chapter 108 of the Revised Laws of Hawaii, 1915, relating to county government, by adding thereto a new section to be known as Section 1585A, etc.," begs leave to report as follows:

This bill makes it the duty of the county attorney upon request by the board of supervisors to give counsel and aid to poor and oppressed citizens of the county. As a matter of fact, in all meritorious cases this is done at the present time. The Committee feels that to pass such a law would result in repeated requests to the supervisors to force the county attorney to give advice.

The Committee recommends the bill be tabled.

Respectfully submitted,

JUDICIARY COMMITTEE.

ALFRED L. CASTLE, Chairman;
J. H. CONEY,
G. P. KAMAUOHA,
R. H. MAKEKAU,
WM. T. ROBINSON.

Upon motion by Senator Castle, seconded by Senator Kamaooha, the report was adopted. House Bill No. 356 was thereupon ordered tabled.

No. 473), recommending that House Bill No. 357, entitled: "An Act to amend Chapter 111 of the Revised Laws of Hawaii, 1915, relating to municipal government, by adding thereto a new section to be known as Section 1740A, requiring the city and county attorney to aid the poor without charge," be tabled. The report was read by the Clerk, as follows:

Honolulu, T. H., April 30, 1917.

Honorable Charles F. Chillingworth,
President of the Senate.

Sir:—Your Judiciary Committee, to which was referred House Bill No. 357, entitled: "An Act to amend Chapter 111 of the Revised Laws of Hawaii, 1915, relating to municipal government, by adding thereto a new section to be known as Section 1740A, etc.," begs leave to report as follows:

This bill is a companion bill to House Bill No. 356 except that it relates to the City and County of Honolulu.

For the same reasons indicated in the report on House Bill No. 356, the Committee recommends that the bill be tabled.

Respectfully submitted,

JUDICIARY COMMITTEE.

ALFRED L. CASTLE, Chairman;
J. H. CONEY,
G. P. KAMAUOHA,
R. H. MAKEKAU,
WM. T. ROBINSON.

Upon motion by Senator Castle, seconded by Senator Correa, the report was adopted. House Bill No. 357 was thereupon ordered tabled.

Senator Castle, for the Committee on Judiciary, presented a report (Stand. Com. Rep. No. 474), recommending that House Bill No. 385, entitled: "An Act relating to public utility corporations and the assignment and transfer of their franchises and property," be passed on third reading. The report was read by the Clerk, as follows:

Honolulu, T. H., May 1, 1917.

Honorable Charles F. Chillingworth,
President of the Senate.

Sir:—Your Judiciary Committee, to which was referred House Bill No. 385, entitled: "An Act relating to public utility corporations and the assignment and transfer of their franchises and property," begs leave to report as follows:

The Committee does not desire to change its former report, except that it recommends striking out in line 18 of Section 1 the words "or are

deemed by it to be." If those words are stricken out, then the corporation desiring to separate its public utility business would be obliged to separate for the use of the public utility business property which was necessary or convenient for the use of the public utility feature.

As thus amended, the Committee recommends the passage of the bill.

Respectfully submitted,

JUDICIARY COMMITTEE.

ALFRED L. CASTLE, Chairman;

Upon motion by Senator Castle, seconded by Senator Kamaooha, the report was accepted and House Bill No. 385 placed on the order of the day for third reading.

Senator Castle, for the Committee on Judiciary, presented a report (Stand. Com. Rep. No. 475), recommending that House Bill No. 424, entitled: "An Act conferring additional powers upon the public utilities commission of the Territory of Hawaii," be passed. The report was read by the Clerk, as follows:

Honolulu, T. H., May 1, 1917.

Honorable Charles F. Chillingworth,
President of the Senate.

Sir:—Your Judiciary Committee, to which was referred House Bill No. 424, entitled: "An Act conferring additional powers upon the Public Utilities Commission of the Territory of Hawaii," begs leave to report as follows:

Under the Public Utilities Act, the commission can investigate the rates of all companies doing a public utility business. There are certain of the ditch companies, however, which are obliged to sell water for domestic use at rates to be fixed by the Commissioner of Public Lands. This is a contract right and cannot be changed by the Legislature.

This bill merely provides a method of investigation by the Commission as to the reasonableness of rates and provides a method by which consumers may obtain relief.

The Committee recommends the passage of the bill.

Respectfully submitted,

JUDICIARY COMMITTEE.

ALFRED L. CASTLE, Chairman;
J. H. CONEY,
G. P. KAMAHOA,
R. H. MAKEKAU,
WM. T. ROBINSON.

Upon motion by Senator Castle, seconded by Senator Kamaooha, the report was adopted. House Bill No. 424 thereupon passed Second Reading.

Senator Hind, for the Committee on Agriculture, Forestry and Promotion, presented a report (Stand. Com. Rep. No. 476), recommending that House Concurrent Resolution No. 41, directing the Commissioner of Public Lands to establish demonstration plots on government lands of Kawaihae-uka and Ookala, be tabled. The report was read by the Clerk, as follows:

Honolulu, T. H., May 1, 1917.

Honorable Charles F. Chillingworth,
President of the Senate.

Sir:—Your Committee on Agriculture and Forestry, to whom was referred House Concurrent Resolution No. 41, begs to report that the object of the resolution is to direct the Commissioner of Public Lands and certain other officials, to establish demonstration plots on government lands of Kawaihae-uka and Ookala, County of Hawaii.

The establishment of demonstration plots, above the forest, on the land of Kawaihae-uka would bring it within the swamp marshes of the Kohala mountains, and as for the lands of Ookala, the plots would be situated on the dry waste lands of the slopes of Mauna Kea. However, we believe that the Experiment Station has tried various localities on the Island of Hawaii, with the planting of food products, and have given the homesteaders the results of their undertakings through the bulletins.

We therefore recommend that the Resolution be tabled.

Respectfully submitted,

ROBT. HIND, Chairman;
GEO. P. COOKE,
E. W. QUINN.

Upon motion by Senator Hind, seconded by Senator Mikaele, the report was adopted. House Concurrent Resolution No. 41 was thereupon ordered tabled.

Senator Desha, for the Committee on Education, presented a report (Stand. Com. Rep. No. 477), recommending that House Joint Resolution No. 8, authorizing and directing the superintendent of public instruction to cause the Hawaiian language to be taught for two half-hour periods each week in the public schools of the Territory where the parents of at least thirty-five pupils apply for the privilege, be tabled. The report was read by the Clerk, as follows:

Honolulu, T. H., May 1, 1917.

Hon. Chas. F. Chillingworth,
President of the Senate.

Sir:—Your Education Committee, to whom was referred House Joint Resolution No. 8, relating to authorizing and directing the Superintendent of Public Instruction to cause the Hawaiian language to be taught for two half-hour periods each week in the public schools of the Territory where the parents of at least thirty-five pupils apply for the privilege, begs leave to report as follows:

Your committee has had the same under careful consideration, realizes that the object of the bill is a worthy one, but the Superintendent of Public Instruction is of the opinion that the adoption of this resolution would mean the appointment of at least 250 new teachers who are conversant with the Hawaiian language, its etymology and grammar, but that such materials are not easy to obtain. Besides, the school budget has already passed and no provisions therein made for the additional expense, and therefore the majority of your committee recommends that this resolution be tabled.

Respectfully submitted,

EDUCATION COMMITTEE.

ALFRED L. CASTLE,
GEO. P. COOKE,
Majority of Committee.

I do not concur:

S. L. DESHA, Chairman,
Minority of Committee.

Upon motion by Senator Cooke, seconded by Senator Castle, the report was adopted. House Joint Resolution No. 8 was thereupon ordered tabled.

Senator Desha, for the Committee on Education, presented a report (Stand. Com. Rep. No. 478), recommending that House Bill No. 410, entitled: "An Act to establish a high school department at Honokaa, in the District of Hamakua, County of Hawaii, be tabled. The report was read by the Clerk, as follows:

Honolulu, T. H., April 27, 1917.

Hon. Charles F. Chillingworth,
President of the Senate.

Sir: Your Committee on Education to whom was referred House Bill No. 410, entitled: "An Act to establish a high school department at Honokaa, in the District of Hamakua, County of Hawaii," begs leave to report as follows:

Your Committee has had the same under careful consideration. The object of the bill is to establish a high school department at Honokaa, District of Hamakua, Hawaii county, by the Department of Public Instruction, the same to be known as the Hamakua Vocational and Trade High School, giving the department the right to make rules and regulations relating to its courses of instruction and the manner of the appointment of its teachers and assistants with their salaries. Hawaii has already a high school at Hilo, while Maui and Kauai have theirs. There have been similar bills introduced this session for a high school at Hana on Maui, and Kailua on Hawaii, and both measures have been tabled. The Superintendent of Public Instruction states that in the entire Hamakua district there are seven public schools, but that only Honokaa provides an eighth-grade class from which pupils may be drafted for the new high school, but from experience one-half of the graduates take up vocations to earn their livelihood, which would leave only a handful of pupils as a nucleus of a costly institution with a staff of high salaried teachers, which the government could ill afford at this time. There is a daily train running between Hilo and Honokaa. Besides there is La-

hainaluna on Maui, which is open to all the youths of the country who would avail of its advantages.

Your Committee therefore recommends that this bill be tabled.

Respectfully submitted,

EDUCATION COMMITTEE.

S. L. DESHA, Chairman;
ALFRED L. CASTLE,
GEO. P. COOKE.

No. 483), recommending that the Senate do not concur in House Concurrent Resolution No. 33, requesting the Congress of the United States to amend Section 73 of the Organic Act of the Territory of Hawaii. The report was read by the Clerk as follows:

Honolulu, T. H., May 2, 1917.

Hon. Charles F. Chillingworth,
President of the Senate.

Sir:—Your Committee on Public Lands and Internal Improvements, to which was referred House Concurrent Resolution No. 33, requesting the Congress of the United States to amend Section 73 of the Organic Act of the Territory of Hawaii, begs leave to report as follows:

We believe that the provisions of this resolution are contrary to the best interests of the homesteading project and are of a dangerous nature. Although in some instances it might be best for the public interests to allow certain homesteaders to own two or more homesteads, it would not be sound policy to have it so generally and provided for by law. Individual cases where homesteaders suffer from the hardships mentioned in the resolution can and should be cared for by specific resolutions, such as Senate Concurrent Resolution No. 17 recently passed by this Senate. We recommend that the Senate do not concur in the resolution.

Respectfully submitted,

H. A. BALDWIN, Chairman;
ROBERT W. SHINGLE,
ROBT. HIND,
S. L. DESHA,
M. C. PACHECO.

Upon motion by Senator Baldwin, seconded by Senator Cooke, the report was adopted.

The report was read by the Clerk as follows:

Honolulu, T. H., May 2, 1917.

Hon. Charles F. Chillingworth,
President of the Senate.

Sir:—Your Committee on Public Lands and Internal Improvements, to which was referred House Concurrent Resolution No. 36, requesting the Congress of the United States to make certain appropriations for public improvements within the Territory of Hawaii, begs leave to report as follows:

Under item 8, amend word "Uniserval" to read "Universal".

Strike out item 9 and insert in lieu thereof a new item 9 to read as follows:

"9. Establishing fish hatcheries."

With these amendments, your Committee would recommend that the Senate do concur in this Resolution.

Respectfully submitted,

H. A. BALDWIN, Chairman;
ROBERT W. SHINGLE,

No. 485), recommending that House Concurrent Resolution No. 42, requesting the Governor and the Commissioner of Public Lands to reserve certain waters at Kapaa, Island of Kauai, for the use of the homesteaders in said Kapaa, be adopted with certain amendments. The report was read by the Clerk as follows:

Honolulu, T. H., May 2, 1917.

Hon. Charles F. Chillingworth,
President of the Senate.

Sir:—Your Committee on Public Lands and Internal Improvements, to which was referred House Concurrent Resolution No. 42, requesting the Governor and the Commissioner of Public Lands to reserve certain

waters at Kapaa, Island of Kauai, for the use of the homesteaders in said Kapaa, begs leave to report as follows:

Under the heading "Resolved, etc.," strike out on lines 4 and 5, the word "the" and the letter "s" in the word waters," so that said item shall read "respectfully requested to reserve water."

Senator Coney, for the Special Committee on Investigation of Piers 8, 9 and 10, presented a report (Spl. Com. Rep. No. 17). The report was read by the Clerk, as follows:

Honolulu, T. H., May 2, 1917.

Honorable Charles F. Chillingworth,
President of the Senate.

Sir:—Your Special Committee appointed to investigate Piers 8, 9 and 10 begs leave to make the following report:

It has been an impossibility to make a comprehensive investigation in the short time allotted. The Committee, however, has employed a competent engineer who has made a careful study of the situation.

The plans for the piers were changed from the original, particularly in the question of anchorage on Piers 8 and 9, but these plans have now been changed, and although the new plans are not complete, the future construction will probably be correct. The changes, however, were not within the original contract and will result in a further cost to the Territory.

As to Pier 10 the Committee recommends the construction of a gravity section wall as set forth in the report of the Committee of Engineers which made an independent examination of the matter of Piers 8, 9 and 10.

The Committee appends hereto the report of its special engineer, C. H. Kluegel, making this report a part of its report, and recommends its adoption.

Respectfully submitted,

SPECIAL COMMITTEE.

J. H. CONEY, Chairman;
M. C. PACHECO,
ALFRED L. CASTLE,
ROBT. HIND,
H. A. BALDWIN.

Honolulu, T. H., April 6, 1917.

To the Chairman, Senate Select Committee,
Investigating Piers 8, 9 and 10,
Honolulu, T. H.

Sir:—I have the honor to report on the construction of Piers 8, 9 and 10.

The details of the construction to date, as well as the proposed changes, have been so fully and ably discussed by the Committee of Engineers appointed by the Board of Harbor Commissioners, and as there is no question regarding the correctness of the calculations of the various stresses due to the dead and live loads that the piers will be required to withstand, the proposition now is to complete the structure so as to support all prospective loads with a large factor of safety.

Owing to the varying character of the harbor it is impracticable to

obtain exact information for preparing specifications to be implicitly followed.

Near the Quarantine Wharf, for example, borings with a core drill showed hard coral at 17 feet below low water. A solid core of hard coral 3 feet long was obtained. Ten feet from this boring only sand was encountered to a depth of 37 feet below low water. The bottom of the harbor is not homogeneous; coral varies from hard to debris, with pockets of sand. Exact information can be obtained only by taking a boring at the site of each pile. The most notable example of the difficulty of obtaining definite information in this vicinity was at Pearl Harbor, where a large amount of money and time were spent on borings and investigations.

In the construction of wharves in our harbor, as has been shown by past experience, provision must be made for such changes as are required by conditions found during construction.

In the present case there are no indications that the foundation of portions already constructed are inadequate. Eliminating the foundation from the discussion the investigation of a retaining wall consists in determining its stability (1) against sliding horizontally on its foundation, (2) overturning, and (3) crushing by its own weight.

It is conceded that provision must be made to counteract overturning. Surveys show that part of the wall retaining the present fill has moved outward at the top, but there is no indication that the bottom has moved.

Anchoring the wall was provided for in the original design, and was fully investigated by the Committee of Engineers, who furnished a new design with a large factor of safety, taking into consideration not only the lateral pressure of the fill, but also the surcharge due to the weight of stored freight and heavy moving loads on the floor.

The computations for the reinforced concrete anchors, as re-designed, are complicated, as they would be required to resist not only the anchor tension, but also stress of beams due to superimposed loading. The Committee has fully considered all of these complexities in the computations, and in future wharf designs the Territory will have valuable data already furnished by engineers of integrity and ability.

The writer has conferred with the Chairman of the Board of Harbor Commissioners, who proposes to abandon the original design of anchorage, and to discontinue filling behind the wall, so as not to increase the present horizontal thrust acting to overturn the wall, and also tending to cause a horizontal sliding on the foundation, a tendency not otherwise resisted; and to construct a combined floor and anchorage of reinforced concrete slabs supported on columns or piers.

It is recommended that the plan now proposed by the Chairman of the Board of Harbor Commissioners, as outlined in preceding paragraph, be adopted, as this plan embraces all features necessary for the stability of the entire structure.

It is further recommended that the floor and its supporting columns be designed for a live load of 750 lbs. per square foot, plus such additional concentrated loads as will be occasioned by the superstructure, hoisting machinery, etc.

For Pier 10, the Committee of Engineers advises the construction of a gravity section wall, which will receive the entire horizontal thrust of the fill on the landward side.

The present stage of the work is such that this change of design will not render useless anything already done.

I recommend this change of plan, and the adoption of the Committee's type of wall.

Respectfully submitted,

C. H. KLUEGEL.

Governor's Message No. 7, to the effect that Senate Bill No. 52, entitled: "An Act making appropriations out of the general revenues for the biennial period ending June 30, 1919," had been approved by him except as to the item therein designated "Emergency Fund," was read by the Clerk, as follows:

Honolulu, T. H., May 2, 1917.

To the Legislature:

I have this day approved Senate Bill 52, entitled: "An Act making appropriations out of the general revenues for the biennial period ending June 30th, 1919," but I disapprove and veto the item therein contained designated "Emergency Fund" and described as follows:

"From which expenditures may be made only by the Treasurer of the Territory and only for urgent needs for which no specific appropriation, or an insufficient appropriation, is made herein. A detailed account of all of which expenditures shall be submitted to the next legislature. Provided, however, that no expenditure shall be made out of this fund to increase any salary. And provided further, that the term 'Urgent Needs' shall be held to include only cases where the public health or public safety are imperilled, and there exists no specific appropriation, or an insufficient appropriation, for the purpose of meeting such emergency\$50,000.00."

This is an attempt at a weak substitute for the customary Contingent Fund granted Governors in the preceding four appropriation bills.

It is an attempt to place the administration and departments under the Treasurer, which I believe is inconsistent with the Organic Act.

In the only two emergencies provided for, "public health or public safety," heads of departments must go to the head of the department indicated, the Treasurer, both to determine the necessity and secure relief.

Words fail to describe the distortion of governmental responsibility, functions and authority.

It is an undisguised attempt to subvert the functions of the Chief Executive.

It is not even a comprehensive, consistent or adequate substitute for a Contingent Fund.

In any financial emergency there is no possible relief.

I shall regret to report to the Honorable Secretary of the Interior, as I am in duty bound, the action, in this particular, of the Legislature of 1917.

LUCIUS E. PINKHAM,
Governor of Hawaii.

The item disapproved by the Governor thereupon passed its Final Reading, the veto of the Governor to the contrary notwithstanding, upon the following showing of ayes and noes:

Ayes: Senators Baldwin, Castle, Coney, Correa, Cooke, Desha, Hind, Pacheco, Quinn, Robinson, and Mr. President. Total, 11.

Noes: Senators Kamauoha, Makekau, Mikaele, and Shingle. Total, 4.

(2). The first shall be the usual and ordinary method. Whenever the Senate shall be ready to vote on any question, the President shall rise; and, after stating the question, shall request all those in favor of the affirmative of the question to raise their hands. After the Clerk shall have counted the number voting in the affirmative, which he shall report to the President, the President shall then call upon all voting in the negative of the question to raise their hands. The Clerk shall count them as before, and state the number to the President, who shall then announce the result to the Senate. If there be a tie vote, the President shall decide. If not,—and in all cases,—he shall declare the result of the vote.

(3). If any member shall doubt the result, as announced, the President shall again state the question and call upon the members to vote by rising in their places, and they shall remain standing until counted, and the result shall be again announced.

(4). The method of voting by ballot shall be as customary. The President shall appoint one or more tellers, or direct the Messenger to collect the ballots, which shall be counted by the Clerk, and the result announced as before. All officers of the Senate shall be elected by ballot. The Senate may, on motion, vote upon any other question by ballot.

(5). Whenever one-fifth of the members present shall request, the Clerk shall call the roll of the members of the Senate. Each member, when called shall vote in a clear, loud voice, "Aye" if voting in the affirmative, or "No" if voting in the negative. The Clerk shall record each vote, and such record shall become a part of the Journal of the Senate. The President shall announce the result as above set forth.

(1). No member shall, on any account, refrain from voting unless excused by the Senate.

(2). No one shall be permitted to vote upon any question where he shall have any pecuniary interest in the result, or which will affect his right or title to a seat in the Senate, or wherein his official conduct shall be involved.

(3). Whenever the Ayes and Noes are called, no one, without unanimous consent, shall be permitted to explain his vote.

(4). After the announcement by the President of the result no one shall be allowed to vote or to change his vote.

PETITIONS, MEMORIALS, AND ADDRESSES.

(1). All persons may petition the Senate. Petitions and other memorials shall be in writing, signed by the petitioners.

(2). All petitions, memorials and other papers addressed to the Senate shall be presented by the President, or by a member in his place, and shall be endorsed with the name of the person presenting, and the subject matter of the same.

(3). A brief statement of the contents of such petitions, memorials or other papers shall be made verbally by the introducer, before the same shall be received and read at the table.

(4). Every such petition, memorial or other paper shall be referred, as of course, by the President, without putting a question for that purpose, unless the reference is objected to by a member at the time such petition, memorial or other paper is presented.

(5). No such petition, memorial or other paper shall be debated on the day it is presented, unless by the consent of the Senate.

OF RESOLUTIONS AND MOTIONS.

All resolutions shall be written in ink or typewritten upon lettercap paper, dated and signed by the introducer, otherwise they shall not be considered. Motions and amendments, except as below provided, may be verbal but shall be reduced to writing if requested by the President, and shall be read from the desk if so desired.

No motions shall be received and considered by the Senate until the same shall be seconded.

After a motion is stated or read by the President, it shall be deemed in the possession of the Senate, and shall be disposed of by vote of the Senate. However, it may be withdrawn by the mover at any time before a decision or amendment.

Whenever any question whatsoever shall be under discussion, the only motions relative thereto shall be:

- (1). To lay on the table.
- (2). To postpone to a certain time.
- (3). To postpone indefinitely.
- (4). To commit, and
- (5). To amend,

which motions shall have precedence in the order above named.

(1). The first two motions shall be decided without debate and shall be put as soon as made.

(2). When any of said motions shall be decided in the negative neither shall be revived the same day relative to the main question under discussion. If all are negative as aforesaid the only remaining question shall be as to the adoption of the bill, resolution or other main question.

45

When a question is postponed indefinitely, the same shall not be acted upon again during the session in which it was introduced.

46

When a bill, resolution or other matter has been laid upon the table, it shall not thereafter be taken therefrom and be considered or restored to a place upon the calendar of the Senate, without the consent of a majority.

47

No member shall speak more than twice, unless he be the mover of the matter pending; in which case he shall be permitted to speak in reply, but not until every member choosing to speak shall have spoken.

48

The object of the motion for the Previous Question is to cut off debate. It shall always be in order. It shall require a two-thirds vote to carry it.

Whenever the motion shall be carried, the author of the resolution or introducer of the bill being the main subject under discussion, shall be permitted to close the debate, after which the main question, subject to order named in Rule 44 shall be put; provided, that said author may delegate to another such right to close.

49

RECONSIDERATION.

(1). When a motion has been once made and carried in the affirmative or negative, it shall not be in order for any member who voted in the minority to move for a reconsideration thereof; but any member who voted with the majority may move to reconsider it on the same or the succeeding day of session; and such motion shall take precedence of all other questions, except a motion to adjourn.

(2). When a motion for reconsideration has been decided, that vote shall not be reconsidered.

(3). When a bill, resolution or other matter upon which a vote has been taken shall have gone out of the possession of the Senate, and be

communicated to the House of Representatives, a motion to reconsider shall be accompanied by a motion to request the House to return the same, which last motion shall be acted upon at once without debate and, if returned in the negative, it shall be a final disposition of the motion to reconsider.

(4). If a like motion shall be passed in the House and such request be made of the Senate, the bill or other matter desired shall be immediately returned to the House.

50

A motion to adjourn other than a motion to adjourn generally may be debated, but no one shall speak more than once on such motion.

A motion to adjourn is always in order, and shall be decided without debate; one motion to adjourn shall not follow another without intervening business.

A motion to adjourn without naming any time shall always be held as an adjournment to the regular hour of meeting of the next business day.

51

OF BILLS.

Any bill may be introduced on the report of a Committee, or by any member after giving notice of intention to introduce a bill.

52

All bills shall be introduced under the order of resolutions.

53

Every bill shall receive three several readings previous to its being passed; and the President shall give notice at each whether it be first, second or third reading,—which readings shall be on different days.

54

(1). The first reading of a bill shall be for information; and, if opposition be made to it, the question shall be: "Shall this bill be rejected?" which question may be debated. But no one shall speak more than once upon such debate, except the introducer of the bill, who may close the discussion.

(2). If the question to reject be negative, the bill shall go to its second reading without question, subject to the provisions of Rule 44; provided, however, that a motion to order a bill printed shall be in order upon its first reading.

55

(1). A bill upon its second reading shall be read throughout, unless it be printed and in the hands of members, when, on motion, it may be read by its title only. It shall then be subject to either of two motions, viz.: to commit or be typewritten. If it is not referred to a Select or Standing Committee, but is ordered to be considered in Committee of the Whole, a day for such consideration shall be fixed. When the bill shall be reported from Committee, if not then ordered to be typewritten, it shall take its place in the order of business for future consideration.

(2). If a bill is not committed, the same may be, on motion, ordered to be typewritten; upon this motion the bill may be discussed upon its merits, and amendments may be made.

56

A bill upon its third reading shall be read throughout, and the President shall then ask the Senate: "Shall this bill pass its third reading?" But such bill may be re-committed or amended on its third reading. Upon the final passage of any bill, the Ayes and Noes shall be called and such passage shall require the affirmative vote of a majority of all the members of the Senate, and the Ayes and Noes shall be entered on the Journal.

57

All bills shall be deemed the property of the Senate, and under its control until they shall become law, subject to the right of the House of Representatives to amend or refuse to agree with the same.

58

All amendments proposed to any bill shall be in writing, unless otherwise ordered by the Senate, and shall be sent to the Clerk's desk to be filed with the bill.

59

When a bill is passed it shall be certified by the Clerk, noting the day of its passage at the foot thereof.

60

When a bill shall be referred to Committee of the Whole, the bill shall be first read throughout by the Clerk, and then again read and debated by sections, leaving the preamble to be the last considered. The body of the bill shall not be defaced or interlined; but all amendments, noting the page and line, shall be duly entered by the Clerk on a separate paper, as the same shall be agreed to by the Committee and so reported. When a bill is ordered into Committee of the Whole, such order may dispense with the reading of the whole bill before considering it section by section.

61

Whenever a bill which has finally passed the House of Representatives shall be certified to the Senate for its action, such bill shall be read three times before final passage, in accordance with the provisions of the rules for the passage of bills introduced in the Senate.

62

When a bill originating in the Senate shall have passed its third reading, or when a bill which has been sent in from the House shall have been amended, such bill, or such amended bill, shall immediately be certified by the President and Clerk and sent to the House of Representatives for its consideration.

63

GENERAL FILES.

(1). Bills which pass the first reading shall be arranged in the order of their introduction, and a list shall be made in accordance therewith to be called the Second Reading File, and, when the time arrives for consideration, they may be considered in the order on the file.

(2). Bills which pass the second reading shall be arranged in the order of their passage, irrespective of the date of reference to Committee, or of the Committee report, and shall be in order for consideration on third reading as arranged. A list shall be made in such order, to be called the Third Reading File, provided that whenever the third reading of any bill is set for any particular date, such bill shall be omitted from the general file.

(3). Resolutions or other matters on which consideration is not had and completed at the time of introduction into the Senate, if not ordered for consideration at a stated date, shall be placed upon the general file in the order of consideration with bills.

64

SPECIAL FILES.

All bills and other matters set for consideration upon particular dates, shall be arranged in the order of the several votes making such assignments. A list shall be made of such special orders, and, when the time for consideration arrives, such bills and other matters shall be considered in the order of assignment. If an adjournment shall be had before all of such special orders are disposed of, the remainder shall go over and come under the head of unfinished business on the following day, unless otherwise ordered.

65

DECORUM AND DEBATE.

No person shall sit at the desk of the President or Clerk except by permission of the President.

66

When any member is about to speak, he shall rise from his seat and address himself to "Mr. President" and shall confine himself to the question under debate and avoid personalities.

67

If any member in speaking or otherwise transgresses the Rules of the Senate, the President, or any member, may call him to order, when the member so called to order shall immediately sit down. The President shall then decide the question of order without debate, subject to an appeal to the Senate.

The President may call for the sense of the Senate on any question of order.

68

Whenever any person shall be called to order while speaking he shall be deemed to be in possession of the floor when the question of order is decided and may proceed with the matter under discussion.

69

While the President is putting any question or addressing the Senate, no one shall walk out of the room, or across the floor; nor in any such case, or when a member is speaking, shall entertain a private discourse, nor while a member is speaking, shall pass between him and the Chair.

70

If any member shall conduct himself in a disorderly manner during any session of the Senate, the President shall order such member to keep his seat and preserve the peace; and, if he shall then persist in his disorderly conduct, the President (by a two-thirds vote) order the Sergeant-at-Arms to remove him from the Senate, and he shall not be permitted to take his seat during the remainder of that day's session, except upon satisfactory pledge given by him to the Senate of future good behavior.

71

If any Senator be called to order for words spoken in debate, upon his demand or on that of any other Senator, the words objected to shall

be taken down in writing and noted by the Clerk, and, if required, shall be read for the information of the Senate.

72

No member or other officer shall smoke within the Senate Chamber during any of the sessions of the Senate.

73

ORDER OF BUSINESS.

After prayer and the reading of the Journal, the President shall call for business in the following order:

- (1). Messages from the Governor.
- (2). Reports and Communications from the Territorial officers.
- (3). Bills, Joint Resolutions and other matters from the House of Representatives shall be reported to the Senate to be placed on the Calendar.
- (4). Petitions, Memorials and Communications.
- (5). Reports of Standing Committees.
- (6). Reports of Select Committees.
- (7). Resolutions.
- (8). Unfinished business, upon which the Senate was engaged at the time of its last adjournment.
- (9). The Order of the Day.
- (10). Any miscellaneous business on the Presidents table.

74

The Senate may, by previous motion, direct that any matter named shall be made a special order of business and that such special order shall take precedence of all business after the fourth order, or that it shall take any other position lower down on the calendar.

75

After the first thirty days of the session petitions shall be presented only upon the first day's session in each week.

76

Reports from Conference or Joint Committees, and from the Committee on Enrollment and Revision shall be in order at all times after the second order of business, and, upon motion, messages from the Governor or from the House of Representatives may be received at any time; provided, however, that without unanimous consent such messages or reports shall not be in order for discussion when received, but shall be placed on the calendar as unfinished business.

77

After one hour shall have been devoted to the first seven orders of business (set forth in Rule 73) it shall be in order, pending consideration thereof, to move that the Senate proceed to dispose of the unfinished business or to the order of the day. If such motion be decided in the affirmative, such consideration shall immediately be taken up.

78

The unfinished business in which the Senate was engaged at the time of the last adjournment shall have the preference in the Order of the Day; and no motion, for any other business shall be received without special leave of the Senate until the former is disposed of.

79

All questions relating to priority of business to be acted upon shall be decided without debate.

80

QUESTIONS OF ORDER.

(1). A question of order may be raised at any stage of the proceedings, except during the calling of the roll when the Ayes and Noes are called for. Unless submitted to the Senate such questions shall be decided without debate by the presiding officer, subject to an appeal to the Senate. Laying such appeal on the table shall be held as sustaining the ruling of the presiding officer.

(2). Any question of order may be submitted to the Senate for its decision.

(3). He shall see that matters in the hands of the Clerk requiring translation are properly rendered.

(4). He shall be responsible under the Committee on Enrollment, Revision, and Printing for the correct translation of all engrossed bills and resolutions, and for such purpose may order the re-engrossment of any part or the whole of any engrossed matter.

81

PRESIDENT PRO TEM.

The President shall have the right to name any member to perform the duties of the Chair, but such substitution shall not extend beyond an adjournment.

82

(1). In case the President and Vice-President shall be absent at the hour to which the Senate has adjourned, the eldest member present shall preside until a President pro tempore be chosen.

(2). Such President pro tempore shall be invested with and perform all the powers and duties of President. Whenever and so often in the absence of the President and Vice-President, it shall devolve upon the President pro tempore to sign any bill or other instrument requiring the signature of the President, the Secretary shall attach to such bill or instrument a certificate setting forth that such President pro tempore was duly elected.

83

ATTENDANCE.

No member shall absent himself from the sessions of the Senate unless he has leave, or be sick and unable to attend.

84

SECRET SESSION.

(1). When any member shall desire to make known any matter to the Senate which he deems should be confidential and private and shall communicate the same to the President, he shall decide whether the Senate Chamber should be cleared. If he so decide, the Sergeant-at-Arms shall clear the Chamber of all persons but the Senate and its officers.

(2). The Senate may decide whether the matter communicated shall be kept secret.

85

The members and officers shall keep the secrets of the Senate.

86

EXECUTIVE SESSION.

If the Senate considers it necessary to act upon any communication from the Governor confidentially or upon any nominations or other matters it may go into Executive Session.

87

Whenever for any reason the Governor shall convene the Senate at any other place than the Capitol, it shall attend together with all of its officers at the time and place ordered.

88

CLEARING THE SENATE.

When acting upon confidential business, unless the same shall be considered in open Executive Session, the Senate Chamber shall be cleared

of all persons except the members of the Senate and the officers, and such other persons as the presiding officer with the consent of the Senate shall deem necessary, and all such persons as well as the officers shall be sworn to secrecy.

89

BUSINESS CONFIDENTIAL.

All confidential communications made to the Senate, and remarks, votes and proceedings thereon shall be kept strictly secret by the members and officers of the Senate, as well as by such other persons as have been detained or permitted to attend upon the consideration of such matter, until the Senate, by resolution, take off such seal of secrecy, or unless such matter be considered in open session.

90

VIOLATING CONFIDENCE.

If any matter covered in Rule 89 shall be disclosed by any Senator, he shall be liable to a fine or expulsion from the Senate; if by an officer or other person authorized to hear such matter, such officer (who shall be dismissed) or other person shall be liable to punishment for contempt.

91

NOMINATIONS.

(Executive Session.)

(1). When nominations for office shall be made by the Governor to the Senate, they may be referred to an appropriate Committee, or may be acted upon after the lapse of at least one day after such nominations shall have been made.

(2). The fact of a nomination, or its rejection or confirmation, need not as of course be kept secret, but all remarks and proceedings thereon shall be deemed secret.

92

AMENDMENTS.

No rule of the Senate shall be altered or rescinded, nor any new standing rule be adopted without one day's notice being given of the motion thereof.

93

Stenographers and other reporters wishing to take down the debates may be admitted by the President, who shall assign such places to them to effect their object as shall not interfere with the convenience of the Senate.

94

Any member of the Senate may ask any question of any Territorial Officer relating to his respective department by reducing such questions to writing, over his signature, and reading the same before the Senate, and furnishing the officer with a copy of such written question. Any officer so questioned shall reply to such question upon the following day, unless the Senate shall grant him a definite extension of time for replying.

95

The Rules of Parliamentary Practice as laid down by Cushing, and as interpreted and practiced in the Senate of the United States, where not inconsistent with these Rules, shall govern the Senate.

96

Such typewriters as may from time to time be required shall be appointed by the President. Such compensation shall be paid to the typewriters as the Committee on Accounts and President of the Senate shall from time to time determine.

ADDENDA

(Omitted from proceedings, Forty-second Day.)

STANDING COMMITTEE REPORT NO. 276.

Honolulu, T. H., April 11, 1917.

Hon. Charles F. Chillingworth,
President of the Senate.

Sir:—Your Committee on Ways and Means to which was referred House Bill No. 335, entitled: "An Act providing for an appropriation by way of advancement for beautifying and reclaiming certain low lands in Kapiolani Park," begs leave to report as follows:

Your Committee has had this bill under careful consideration and finds that the intent thereof is to beautify Kapiolani Park by filling in the low and swampy lands to enable the City and County of Honolulu to install additional play-grounds, baseball grounds, football field and possibly a golf course for the use of the public.

The amount to be advanced for this purpose by the Territorial Treasurer is to be reimbursed to the Treasury, in course of time, by payments from the City and County, who receive ten per cent of all gross receipts taken in by the Hawaii Polo and Racing Association at Kapiolani Park.

Believing that the results of this appropriation will greatly benefit the public, your committee would recommend that this bill do pass with the following amendments:

Amend Section 1 as follows:

Strike out on line 1 the words and figures "fifteen thousand dollars (\$15,000.00)" and insert in lieu thereof "twenty thousand dollars (\$20,000.00)."

On lines 5 and 6, strike out the words "for the dredging of beach at the Public Baths."

On line 47 after the words "Kapiolani Park," insert the words "by dredging in front of the beach at the Public Baths and by other means."

Respectfully submitted,

ROBERT W. SHINGLE, Chairman;
H. A. BALDWIN,
E. W. QUINN,
ROBT. HIND,
J. H. CONEY.

STANDING COMMITTEE REPORT NO. 277

Honolulu, T. H., April 12, 1917.

Hon. Charles F. Chillingworth,
President of the Senate.

Sir:—Your Committee on Ways and Means to which was referred Senate Bill No. 47, entitled: "An Act to appropriate ten thousand dollars for the purpose of constructing and repairing a road from Napoopoo to Honaunau, District of South Kona, County and Territory of Hawaii," begs leave to report as follows:

Your Committee has had this bill under careful consideration and, with the consent of the introducer, would recommend the following amendments:

1. Amend the title to read as follows:

"To appropriate Six Thousand Dollars (\$6,000.00) for the purpose of constructing and repairing a road from Keauhou to Kahaluu, District of North Kona, and a road from Napoopoo to Honaunau, District of South Kona, County and Territory of Hawaii."

2. Strike out "Whereas, etc., etc., etc., No. 1, No. 2, No. 3, No. 4, No. 5.

3. Amend Section 1 to read as follows:

"The sum of Six Thousand Dollars (\$6,000.00) or so much thereof as may be necessary, is hereby appropriated for the purpose of constructing and repairing a road, running a distance of one mile more or less, in a straight line from Keauhou to Kahaluu, District of North Kona, and a road, running a distance of three miles, more or less, in a straight line from Napoopoo to Honaunau, District of South Kona, County and Territory of Hawaii, to be paid out of any moneys in the Treasury of the Territory of Hawaii, not otherwise appropriated, which sum shall be disbursed on warrants drawn by the Auditor, based upon vouchers approved by the Superintendent of Public Works, who shall have charge of the construction of said roads; provided, however, that the Superintendent of Public Works shall first obtain from the owners permanent free access for the public to and from the Heiaus and City of Refuge in said localities."

The intent of the bill is to make these heiaus and the city of refuge, as they are in fairly good state of preservation and are of great historical value and interest, easy of access to the public. Though the sum of ten thousand dollars (\$10,000.00) was originally asked for in the bill, your committee feels that the sum of six thousand dollars (\$6,000.00) will accomplish and finish the items in the bill, and would therefore recommend that this bill do pass as amended.

Respectfully submitted,

ROBERT W. SHINGLE, Chairman;
H. A. BALDWIN,
J. H. CONEY,
E. W. QUINN,
ROBT. HIND.
